CUSTOMER INFORMATION

1a. Table of awarded special item number(s) with appropriate cross-reference to item descriptions and awarded price(s).

SINs	Recovery	SIN Title
54151ECOM	54151ECOMRC	Electronic Commerce and Subscription Services
541690	541690RC	Technical Consulting Services
541910	541910RC	Marketing Research and Analysis
561450	561450RC	Business Information Services (BIS)
54151S	54151SRC	Information Technology Professional Services
541611	541611RC	Management and Financial Consulting, Acquisition and Grants Management Support, and Business Program and Project Management Services
OLM	OLMSTLOC OLMRC	Order Level Materials (OLMs)

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. *See Below*

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate "Not applicable" for this item. *See Below*

2. Maximum order:

SINs	Maximum Order
54151ECOM	$1,000,000
541690	$1,000,000
541910	$1,000,000
561450	$1,000,000
54151S	$500,000
541611	$1,000,000
OLM	$250,000

3. Minimum order: $100

4. Geographic coverage (delivery area). Domestic and Overseas Delivery

5. Point(s) of production (city, county, and State or foreign country).

Dun & Bradstreet, Inc.
Corporate Headquarters
5335 Gate Pkwy
Jacksonville, FL 32256-3070

6. Discount from list prices or statement of net price. Government Net Prices (discounts already deducted.)

7. Quantity discounts. Varies based on service(s) ordered.

8. Prompt payment terms. Net 30 Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9. Foreign items (list items by country of origin). See pricelist.

10a. Time of delivery. (Contractor insert number of days.) Varies by the services required.

10b. Expedited Delivery. Items available for expedited delivery are noted in this price list. Expedited delivery will be as agreed to at the Agency Task Order level.

10c. Overnight and 2-day delivery. Refer to Paragraph 10b. above

10d. Urgent Requirements. Refer to Paragraph 10b. above

11. F.O.B. point(s). Destination

12a. Ordering address(es).

Dun & Bradstreet, Inc.
5335 Gate Pkwy
Jacksonville, FL 32256-3070
Attn: Kellee Osborne-Kloppel, Government Contracting Specialist
Email: Osbornek@dnb.com
Phone: 610-882-6072

12b. Ordering procedures: See Federal Acquisition Regulation (FAR) 8.405-3.

13. Payment address(es).

Dun & Bradstreet, Inc.
PO Box 931197
Atlanta, GA 31193-1197

14. Warranty provision. Not Applicable

15. Export packing charges. Not Applicable

16. Terms and conditions of rental, maintenance, and repair. Not Applicable

17. Terms and conditions of installation. Not Applicable

18a. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices. Not Applicable

18b. Terms and conditions for any other services. All orders to include standard D&B Federal Government License Terms, unless otherwise negotiated.

19. List of service and distribution points. Not Applicable

20. List of participating dealers. Not Applicable

21. Preventive maintenance. Not Applicable

22a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants). Not Applicable

22b. If applicable, indicate that Section 508 compliance information is available for the information and communications technology (ICT) products and services and show where full details can be found (e.g. contractor's website or other location.) ICT accessibility standards can be found at: https://www.Section508.gov/.
Not Applicable

23. Unique Entity Identifier (UEI) number. NKBFT21NR4F5

24. Notification regarding registration in System for Award Management (SAM) database. Contractor registered and active in SAM

Service Contract Labor Standards: The Service Contract Labor Standards (SCLS), formerly known as the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Multiple Award Schedule (MAS) and all services provided. While no specific labor categories have been identified as being subject to SCLS/SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS/SCA eligible labor categories. If and / or when the contractor adds SCLS/SCA labor categories to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS/SCA matrix identifying the GSA labor category titles, the occupational code, SCLS/SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.

Labor Category Descriptions

Title: Data Scientist 1
Functional Responsibilities: Supports application of data and mathematical models to obtain a rational basis for decision making and solution development. Identify opportunities to apply industry knowledge and expertise of deep learning technologies to prototype analytic algorithms that address mission-critical customer challenges. De-compose the problem in order to differentiate signals in unstructured data. Create interactive visualizations that support decision making. Data science analyst or associate that applies analytical methods or artificial intelligence (AI) techniques to create analytic datasets, data segmentations, descriptive statistics, and simple machine-learning (ML) models. May also support data entry and planning activities. Experience working with public and private sector businesses. Trained in proper handling of CUI (and/or other classifications) of data. May have advanced degrees (e.g. Master's, PhD) and/or certifications (e.g. PMP).
Minimum Education: Bachelors
Minimum Experience: 1 year
Education/Experience Substitutions: Associate degree 2 years of relevant experience, 4 years of relevant experience, or relevant professional certification; Each year of completed higher education that has not yet resulted in a degree may be counted one-for-one as a year of experience.

Title: Data Scientist 2
Functional Responsibilities: Applies data and mathematical models to obtain a rational basis for decision making and solution development. Identify opportunities to apply industry knowledge and expertise of deep learning technologies to prototype analytic algorithms that address mission-critical customer challenges. Decompose the problem in order to differentiate signals in unstructured data. Create interactive visualizations that support decision making. Data science analyst or associate that applies analytical methods or artificial intelligence (AI) techniques to create analytic datasets, data segmentations, descriptive statistics, and simple machine-learning (ML) models. May also support data entry and planning activities. Experience working with public and private sector businesses. Trained in proper handling of CUI (and/or other classifications) of data. May have advanced degrees (e.g. Master's, PhD) and/or certifications (e.g. PMP).
Minimum Education: Bachelors
Minimum Experience: 3 years
Education/Experience Substitutions: Associate degree 2 years of relevant experience, 4 years of relevant experience, or relevant professional certification; Each year of completed higher education that has not yet resulted in a degree may be counted one-for-one as a year of experience.

Title: Data Scientist 3
Functional Responsibilities: Applies data and mathematical models to obtain a rational basis for decision making and solution development. Identify opportunities to apply industry knowledge and expertise of deep learning technologies to prototype analytic algorithms that address mission-critical customer challenges. Decompose the problem in order to differentiate signals in unstructured data. Create interactive visualizations that support decision making. Experienced or senior data scientist lead in the identification of opportunities to apply machine-learning (ML) and artificial intelligence (AI) techniques to challenges involving supply chain illumination, econometrics, emergency management, workflow engineering, and fraud, among others. Experience working with public and private sector businesses. Trained in proper handling of CUI (and/or other classifications) of data. May have advanced degrees (e.g. Master's, PhD) and/or certifications (e.g. PMP).
Minimum Education: Bachelors
Minimum Experience: 8 years
Education/Experience Substitutions: Associate degree 2 years of relevant experience, 4 years of relevant experience, or relevant professional certification; Each year of completed higher education that has not yet resulted in a degree may be counted one-for-one as a year of experience.

Title: Data Scientist 4
Functional Responsibilities: Applies data and mathematical models to obtain a rational basis for decision making and solution development. Identify opportunities to apply industry knowledge and expertise of deep learning technologies to prototype analytic algorithms that address mission-critical customer challenges. Decompose the problem in order to differentiate signals in unstructured data. Create interactive visualizations that support decision making. Experienced or senior data scientist lead in the identification of opportunities to apply machine-learning (ML) and artificial intelligence (AI) techniques to challenges involving supply chain illumination, econometrics, emergency management, workflow engineering, and fraud, among others. Experience working with public and private sector businesses. Experience working with public and private sector businesses. Trained in proper handling of CUI (and/or other classifications) of data. May have advanced degrees (e.g. Master's, PhD) and/or certifications (e.g. PMP).
Minimum Education: Masters
Minimum Experience: 10 years
Education/Experience Substitutions: Bachelor's 2 years of experience, Associate 4 years of relevant experience, or relevant professional license; Each year of completed higher education that has not yet resulted in a degree may be counted one-for-one as a year of experience.

Title: Data Scientist 5
Functional Responsibilities: Applies data and mathematical models to obtain a rational basis for decision making and solution development. Identify opportunities to apply industry knowledge and expertise of deep learning technologies to prototype analytic algorithms that address mission-critical customer challenges. Decompose the problem in order to differentiate signals in unstructured data. Create interactive visualizations that support decision making. Experienced or senior data scientist lead in the identification of opportunities to apply machine-learning (ML) and artificial intelligence (AI) techniques to challenges involving supply chain illumination, econometrics, emergency management, workflow engineering, and fraud, among others. Experience working with public and private sector businesses. Experience working with public and private sector businesses. Trained in proper handling of CUI (and/or other classifications) of data. May have advanced degrees (e.g. Master's, PhD) and/or certifications (e.g. PMP).
Minimum Education: Masters
Minimum Experience: 12 years
Education/Experience Substitutions: Bachelor's 2 years of experience, Associate 4 years of relevant experience, or relevant professional license; Each year of completed higher education that has not yet resulted in a degree may be counted one-for-one as a year of experience.

Title: Data Scientist 6
Functional Responsibilities: Applies data and mathematical models to obtain a rational basis for decision making and solution development. Identify opportunities to apply industry knowledge and expertise of deep learning technologies to prototype analytic algorithms that address mission-critical customer challenges. De-compose the problem in order differentiate signals in unstructured data.
Create interactive visualizations that support decision making. Senior principal / manager or industry recognized chief / senior executive thought leader that can develop rigorous, defendable, and technical solutions involving machine-learning (ML) and artificial intelligence (AI) techniques. Lead in the development of strategies to address complex business challenges including malfeasance, anomaly detection, computational linguistics, geospatial inference, synthetic edge synthesis, advanced Identity Resolution, and resilience. Use a broad array of non-regressive, neuromorphic, heuristic, and cognitive methods to leverage financial and other data to meet mission objectives. Experience working with public and private sector businesses. Trained in proper handling of CUI (and/or other classifications) of data. May have advanced degrees (e.g. Master's, PhD) and/or certifications (e.g. PMP).
Minimum Education: Masters
Minimum Experience: 15 years
Education/Experience Substitutions: Bachelor's 2 years of experience, Associate 4 years of relevant experience, or relevant professional license; Each year of completed higher education that has not yet resulted in a degree may be counted one-for-one as a year of experience.

Title: Project Manager 1
Functional Responsibilities: Manages engagement projects from concept through final delivery. Works with project stakeholders to define project scope and objectives, develop detailed work plans, define schedules, create resource plans, issue status reports, perform project tracking and analysis. Conducts project meetings and ensures stakeholder communications. Experience working with public and private sector businesses. Trained in proper handling of CUI (and/or other classifications) of data. Project/Program management certification, e.g. PMP. May have advanced degrees (e.g. Master's, PhD).
Minimum Education: Bachelors
Minimum Experience: 1 year
Education/Experience Substitutions: Associate degree 2 years of relevant experience, 4 years of relevant experience, or relevant professional certification; Each year of completed higher education that has not yet resulted in a degree may be counted one-for-one as a year of experience.

Title: Project Manager 2
Functional Responsibilities: Manages engagement projects from concept through final delivery. Works with project stakeholders to define project scope and objectives, develop detailed work plans, define schedules, create resource plans, issue status reports, perform project tracking and analysis. Conducts project meetings and ensures stakeholder communications. Project scope and complexity will generally be greater at higher levels. Experience working with public and private sector businesses. Trained in proper handling of CUI (and/or other classifications) of data. Project/Program management certification, e.g. PMP. May have advanced degrees (e.g. Master's, PhD).
Minimum Education: Bachelors
Minimum Experience: 3 years
Education/Experience Substitutions: Associate degree 2 years of relevant experience, 4 years of relevant experience, or relevant professional certification; Each year of completed higher education that has not yet resulted in a degree may be counted one-for-one as a year of experience.

Title: Project Manager 3
Functional Responsibilities: Leads and manages engagement projects from concept through final delivery. Works with project stakeholders to define project scope and objectives, develop detailed work plans, define schedules, create resource plans, issue status reports, perform project tracking and analysis. Conducts project meetings and ensures stakeholder communications. Highest level of project scope and complexity. Experience working with public and private sector businesses. Trained in proper handling of CUI (and/or other classifications) of data. Project/Program management certification, e.g. PMP. May have advanced degrees (e.g. Master's, PhD).
Minimum Education: Bachelors
Minimum Experience: 6 years
Education/Experience Substitutions: Associate degree 2 years of relevant experience, 4 years of relevant experience, or relevant professional certification; Each year of completed higher education that has not yet resulted in a degree may be counted one-for-one as a year of experience.

Title: Research Analyst 1
Functional Responsibilities: Employ industry experience to capture problem definition, define scope, and analyze activities and relationships related to businesses, persons, and devices to obtain a rational basis for decision making and resource allocation. Applies advanced technical, intelligence, and analytical research techniques to determine solutions based on client requirements. Creates project plans to manage complex engagements and control quality, cost, and schedule. Prepares comprehensive intelligence-based analysis reports to document findings, including networks and associations. The scope and complexity of associated work will generally be greater at higher levels. Experience working with public and private sector businesses. Trained in proper handling of CUI (and/or other classifications) of data. May have advanced degrees (e.g. Master's, PhD) and/or certifications (e.g. CFE).
Minimum Education: Bachelors
Minimum Experience: 3 years
Education/Experience Substitutions: Associate degree 2 years of relevant experience, 4 years of relevant experience, or relevant professional certification; Each year of completed higher education that has not yet resulted in a degree may be counted one-for-one as a year of experience.

Title: Research Analyst 2
Functional Responsibilities: Employ industry experience to capture problem definition, define scope, and analyze activities and relationships related to businesses, persons, and devices to obtain a rational basis for decision making and resource allocation. Applies advanced technical, intelligence, and analytical research techniques to determine solutions based on client requirements. Creates project plans to manage complex engagements and control quality, cost, and schedule. Prepares comprehensive intelligence-based analysis reports to document findings, including networks and associations. The scope and complexity of associated work will generally be greater at higher levels. Experience working with public and private sector businesses. Trained in proper handling of CUI (and/or other classifications) of data. May have advanced degrees (e.g. Master's, PhD) and/or certifications (e.g. CFE).
Minimum Education: Bachelors
Minimum Experience: 6 years
Education/Experience Substitutions: Associate degree 2 years of relevant experience, 4 years of relevant experience, or relevant professional certification; Each year of completed higher education that has not yet resulted in a degree may be counted one-for-one as a year of experience.

Title: Research Analyst 3
Functional Responsibilities: Employ industry experience to capture problem definition, define scope, and analyze activities and relationships related to businesses, persons, and devices to obtain a rational basis for decision making and resource allocation. Applies advanced technical, intelligence, and analytical research techniques to determine solutions based on client requirements. Creates project plans to manage complex engagements and control quality, cost, and schedule. Prepares comprehensive intelligence-based analysis reports to document findings, including networks and associations. The scope and complexity of associated work will generally be greater at higher levels. Research Analyst 3 - 4 may provide guidance and direction to other professionals in a supervisory capacity and coordinate resolution of highly complex solutions. Experience working with public and private sector businesses. Trained in proper handling of CUI (and/or other classifications) of data. May have advanced degrees (e.g. Master's, PhD) and/or certifications (e.g. CFE).
Minimum Education: Bachelors
Minimum Experience: 10 years
Education/Experience Substitutions: Associate degree 2 years of relevant experience, 4 years of relevant experience, or relevant professional certification; Each year of completed higher education that has not yet resulted in a degree may be counted one-for-one as a year of experience.

Title: Research Analyst 4
Functional Responsibilities: Employ industry experience to capture problem definition, define scope, and analyze activities and relationships related to businesses, persons, and devices to obtain a rational basis for decision making and resource allocation. Applies advanced technical, intelligence, and analytical research techniques to determine solutions based on client requirements. Creates project plans to manage complex engagements and control quality, cost, and schedule. Prepares comprehensive intelligence-based analysis reports to document findings, including networks and associations. The scope and complexity of associated work will generally be greater at higher levels. Research Analyst 3 - 4 may provide guidance and direction to other professionals in a supervisory capacity and coordinate resolution of highly complex solutions. Experience working with public and private sector businesses. Trained in proper handling of CUI (and/or other classifications) of data. May have advanced degrees (e.g. Master's, PhD) and/or certifications (e.g. CFE).
Minimum Education: Bachelors
Minimum Experience: 15 years
Education/Experience Substitutions: Associate degree 2 years of relevant experience, 4 years of relevant experience, or relevant professional certification; Each year of completed higher education that has not yet resulted in a degree may be counted one-for-one as a year of experience.

Dun & Bradstreet Public Sector Data Deployed in Analytics [1]

In providing the Professional Services referenced above, Data Scientists and Research Analysts will leverage commercially available and non-commercially available data to achieve the analytic deliverables requested by the customer. Commercially Available Data: D&B Data that is available for license. The cost to license full access to the hundreds of millions of business records in the D&B Data Cloud is ameliorated and instead, D&B resources use this data in their analytical processes. Includes thousands of data elements and spans the globe (and archival periods going back to 1969). Non-Commercially Available Data: Business Activity Signals (BAS) data is only accessible to certified D&B data stewards within D&B firewalls. This data is not sold, licensed, or otherwise available to external parties.

Annual rates may be discounted in consideration of the contract size or annual client data spend with Dun & Bradstreet. The available packages are priced at daily, weekly, monthly, and annual rates and priced proportionally as indicated in the below table. Discounts are also offered based on annual D&B data purchase range from 0% (for a small data purchase) to 50% (for annual data purchases exceeding $5M). For example, a Data Deployed in Analytics contract would receive a smaller discount for a change from annual to monthly. However, a customer also purchasing $5M in D&B data would receive a 50% discount as well.

Data Deployed in Analytics is priced based on a per-researcher basis for two key Labor Categories: Research Analyst and Data Scientist.

Relevant SINs: 541611, 541910

Contract Term	GSA Rate
Annually	$306,740.00
Monthly	$30,674.01
Weekly	$10,224.68
Daily	$2,556.17

[1] Data Deployed in Analytics is only available to Government customers and Federal Systems Integrators (FSIs) at this time.
[2] Pricing assumes Government Fiscal Year (October 1 through September 30) for each column.

Batch Verification

- Investigations for records located outside the United States are charged on a country-by-country basis.
- The following countries do NOT get coverage for Global Mini- Investigations: Cuba, Kampuchea, Khmer Republic, Kwandebele and Laos.

D&B Direct Monitoring Adapter for Informatica

The D&B Direct Monitoring Adapter for Informatica MDM is a plug-in to the Informatica Master Data Management (MDM) Hub.
The adapter serves two purposes: it provides real- time connectivity between Informatica and the D&B Direct Application Programming Interface (API) for matching and data append; and it supports the integration of event-base D&B Direct monitoring transactions into Informatica, providing real-time updates on monitored D&B businesses.
To facilitate the integration of customer master data with D&B records, the adapter integrates the D&B Direct API functions most useful for cleanse, match, and enrichment of MDM data: Cleanse Match, Detailed Company Profile, Corporate Linkage, and Cleanse & Standardize. The adapter includes the Create Task function so records returned from D&B can be selected for Data Stewardship approvals.
When deployed with D&B Direct packets that support monitoring, the adapter also integrates the event-driven monitoring updates into the MDM hub, providing an up-to- date refresh of monitored D&B data. Using the Monitor, you are able to register D-U-N-S®Numbers for monitoring by D&B and set the frequency for receiving change notifications. On this schedule, the Monitor extracts any changed D&B data associated with the registered D-U-N-S® Numbers, and updates Informatica with the most recent D&B-enriched data.
Pricing for D&B Direct Monitoring Adapter for Informatica is based on an annual license with D&B. The annual license (bundled) fee is $46,475.00 per supported Informatica instance, including non-production instances. Relevant SINs: 541611, 54151ECOM, 541910

D&B Direct+

D&B Direct+ is Dun & Bradstreet's modern, cloud-based API offering. This service exposes the world's largest source of commercial business to you in a programmable form to suit your organization's unique needs enabling you to integrate Dun & Bradstreet's global insight in real time into key systems and workflows. Our Direct+ API services offer a broad scope of D&B data and capabilities in a REST framework delivering responses in standard JSON formatting. It provides faster, easier and more efficient integration directly into your enterprise applications, whether these include ERP/CRM systems (SAP, Oracle, NetSuite, Salesforce, Microsoft Dynamics, etc.), specialty finance and accounts receivables solutions, or any in-house developed systems that support API integration. Direct+ is not simply a data feed into your systems, however. It combines capabilities with data to ensure you can perform the functional searches, identity resolution, and enrichment that our platform web tools provide and monitor for critical changes to business entities of interest. Direct+ offers expansive capabilities and insights into corporate hierarchies, delivered in a fast, consumable method. Relevant SINs: 541611, 54151ECOM, 541910

D&B Finance Analytics

D&B Finance Analytics is the next generation solution from D&B that will provide customers with the information needed to support financial analysis of businesses in mission-critical contexts. Finance Analytics delivers industry-leading data and analytics in a modern, easy- to-use web interface. Unlike other data providers that only offer aggregated, third-party data, Finance Analytics provides proprietary information that presents a clear picture of risk. Our world-renowned reports feature:

Risk Assessment – Finance Analytics features proprietary data, including D&B's most popular risk scores and ratings – the D&B Failure Score, the D&B Delinquency Score, the D&B PAYDEX rating, the D&B Viability Rating, and the D&B Rating.
Individual score availability varies by country.

Trade Payments – The D&B Data Cloud has the world's largest commercial trade data network, with 16,000 companies from 700 different industries reporting accounts receivable data. Our trade payment data helps to indicate how quickly a company is likely to pay its bills in the future by reviewing its payment patterns with others in the past. Summary data offers key trade elements including average DBT (days beyond terms), highest credit amount currently owed, highest amount received, highest past due, and total placed for collections. Drill down to detailed lists to see trade lines by industry, range of credit extended, and each individual payment experience.

Ownership – Dun & Bradstreet has the largest and most complete collection of corporate family tree information. In Finance Analytics, you can view the corporate family tree of more than 120 million linked companies around the world. By understanding corporate exposure across these hierarchies, you can uncover new revenue opportunities and hidden risks.

Legal Events – Past and present legal activities can impact a company's financial stability and operations. Here you'll discover lawsuits, resulting judgments, liens, and UCC filings. D&B is the only credit data provider that offers US lawsuit data to alert you to potential risk much sooner than providers that only maintain resulting judgments, which can take years. In addition, many cases are settled out of court or dismissed and may never have a resulting judgment issued.

Financial Information – D&B has 100% coverage of public company financial statements, as well as the most complete listing of private company financial statements available anywhere. The Financial Information section also lets you compare key business ratios to industry norms, analyze trends, and set benchmarks for evaluating a company's stability.

US Farm Data

D&B / US Farm Data has the most comprehensive database of farmers and ranchers throughout the United States. Coverage includes small family farms, as well as larger corporate farm and ranch ventures; and content goes beyond typical firmographics to include specific information on crops, livestock and agriculture.
By combining US Farm Data and Dun & Bradstreet data sets, agencies can improve the management of regulated entities.

Relevant SINs: 541611, 541910

Global Ticker and Exchange File

D&B has created a file that links D-U-N-S® Numbers to Tickers and Exchanges. The D&B Global Ticker Symbol File has the following benefits:

- Indicates that businesses are active and operating
- Indicates that a business is publicly held
- Indicates that the business issues securities which are "publicly traded".
- Can be used to match customer files to the D&B D-U-N-S® Number
- Can be used as a reference table to pull in additional information on a business (e.g., corporate actions from data providers such as Telekurs)
- The file consists of:
  - Approximately 60,000 unique D-U-N-S® with tickers assigned
  - 326,716 Unique Tickers on these 60,000 D-U-N-S® Numbers reflecting the fact there can be multiple Tickers to a single D-U-N-S® Number
  - 35,000 Primary Stock Exchange Tickers
- It differs from the current WorldBase side file because:
  - The WorldBase side file includes US data only.
  - The WorldBase side file includes only active headquarter D-U-N-S®, only 5 exchanges are represented in the file and it links just 1 ticker to 1 exchange.
  - The Global Ticker File is global and includes multiple

The file will be delivered via a flat file FTP. It is priced based on unique D-U-N-S® counts and number of updates. Customers have the option of getting the full file OR the primary ticker only.

Integration Manager

Integration Manager is an on-site or hosted solution providing matching software, a common customer directory, marketing and other data (optional) and remote resolution services. It is designed to facilitate enterprise-wide data warehousing and customer relationship management systems. Customer Integration Manager is based on the D-U-N-S® Match engine utilizing an externally validated client-centric Common Customer Directory that can be augmented with Customer data records. The Common Customer Directory is the hub for building, identifying, linking and maintaining complete (and sometimes multiple) customer relationship views (i.e.: Account Level Roll-ups, Customer Hierarchy Identifiers, etc.). Leveraging the capabilities of Data Integration Batch and Data Integration Toolkit, the Remote Resolution can be used in the identification of records that cannot be satisfactorily matched on- site.

The Customer Integration Manager is a set of JAVA-based Application Program Interfaces (API's) and utilities that provide:

- Access to an on-site Global Match Engine (and the patented Match Grade module) that performs interactive lookups, transactional matching and batch matching against a client- centric common customer directory of matched customer records, unmatched customer records, matched D&B records and a prospect universe of D&B records
- Access to local tables that store D&B Marketing and (optional) Credit information to be used in sales, marketing, risk and decision support processes and applications
- Access to D&B Data Integration Batch and Data Integration Toolkit remote resolution services
- Access to Maintenance Utilities that update the D&B information stored in the local reference file and helps to ensure that the most recent and accurate D&B D-U-N-S Number is assigned to the client's customer records.

Data Integration Batch is a standard part of the Customer Integration Manager. Data Integration Toolkit is an optional component.

The investment costs for this product are based on a Value Solution Price. The price is based on the following variables:

- Domestic or Global Solution
- # of Customer Records
- # of Disparate Systems
- # of Users

The price points listed below include:

- Software (Access & Matching Capabilities)
- Data housed in a Common Customer Directory
- Base Level Consulting

Definitions:

# of Customers:

Total of Customer Supplied records regardless of Customers source. Number is calculated as:

a) # of inserted records

or b) 70% of total customer base

# of Systems:

Number of disparate systems that will be integrated into this solution.

*Note: If customer is aggregating multiple systems prior to integration, then use 2 as minimum # of systems.

Additional Consulting (per day)	$ 1,690.01
Additional Data Append	GSA Book Price based on volume
Travel Expenses	As incurred

Daily updates can be added at a cost of 3% of the list price of the IM software plus all associated data for this service.

Integration Manager Reference File Options

Reference File	Description	GSA Price
US Active Records	All active U.S. records (Class 0, 1 & 2). *Approximately 23 million records**	Standard Price Per Domestic IM Matrix
U.S. All Records	All U.S. records including all active and inactive records. *Approximately 72 million records**	Incremental **$52,390.01**
Canadian Active Records	All active Canadian records. *Approximately 1.7 million records**	Incremental **$21,125.00**
Canadian All Records	All Canadian records including all active and inactive records. *Approximately 3.5 million records**	Incremental **$29,575.00**
Global Active Records	All active Global records. *Approximately 124 million records**	Standard Price Per Global IM Matrix
Global All Records	All Global records including all active and inactive records. *Approximately 250 million records**	Incremental **$73,515.00**
D-U-N-S® Decision Makers	Add executive names, which can augment the IM reference file to increase match performance. *Approximately 23 million unique names*	Incremental **$39,715.00**
Executive Home Address	Add executive names and addresses, which can augment the IM reference file to increase match performance. *Approximately 8.5 million unique names*	Incremental **$56,615.00**

Integration Manager License Only (no data or consulting)	$82,810.01
Monthly update script	$10,140.00
Separate IM Service Plan (Annual Fee)**	$20,280.00
Additional Consulting (per day)	$ 1,690.01

Data Integration Batch

Data Integration Batch is designed to provide daily, weekly, monthly or quarterly batch D-U-N-S® numbering of customer records for use in other operational systems. In addition, the user has the option of retrieving additional D&B marketing, credit and purchasing data through the Batch process. This solution is recommended for customers preferring an automated solution.

Data Integration Batch takes advantage of one of the oldest and simplest utilities to transfer files back and forth between the customer and D&B over the Internet and TCP/IP enabled networks. The File Transfer Protocol (FTP) provides a cost- effective method of accessing and transferring data files from one computer system to another.
Relevant SINs: 541611, 54151ECOM, 541910

The investment costs for setting up a Data Integration Batch installation consist of a set-up profile/maintenance fee, matching fees, data costs and communications options.

		Standard Input Layout
Year 1		
First Profile Setup / Maintenance		$6,506.50
Each Additional		$3,042.01
Year 2 and thereafter		
Each Profile Maintenance Fee		$1,732.25
		Custom Input Layout
Year 1		
First Profile Setup / Maintenance		$9,971.00
Each Additional		$6,506.50
Year 2 and thereafter		
Each Profile Maintenance Fee		$5,196.75
Updates	**Update Premium** (Daily, Weekly, Monthly, Quarterly and Semi-annually)	Standard GSA Update Premiums apply. Daily and Weekly Match Premium is **2X.**

Data Integration Batch (DIB) Consulting

Position	Daily Rate
Senior Consultant	$1,690.01
Program Manager	$1,690.01
Information Consultant	$1,690.01
Senior System Architect	$1,690.01
Business Application Engineer	$1,690.01
Matching Specialist	$1,690.01
Network Consultant	$1,690.01
Fulfillment Specialist	$1,690.01

Optimizer

Optimizer transforms customer and prospect data into up-to-date, accurate, and actionable commercial insight and enables a single customer view across multiple systems. With a single customer view, you can confidently deliver the right solution to the right customer, maximizing revenue growth while achieving operational efficiencies.

Some key features to Optimizer include:

- Improved Global Matching – Through an integrated Cleanse and Match flow for global data
- Optimizer Dashboard – An easy-to-use visual interface providing customers snapshot insights into their customer data
- Consolidated Match reports – Making the detailed match reports more actionable

Optimizer now includes Data Cleansing on all US **and Global records**. The pricing reflects cleansing, better matching and improved service (increased capacity).

Relevant SINs: 541611, 541910

Optimizer Premium Services Custom output layout - 2 days/file	$ 3,380.00
Optimizer Premium Services Two output files--split based on 1 condition - 2 days/file	$ 3,380.00

Per User Charges

Relevant SINs: 541611, 541910, 54151ECOM

An additional "per user" or "per seat" charge is required when the record is licensed for one or more of the following applications:

- Sales Force Automation Systems (e.g., Siebel)
- Customer Service Systems
- Call Center Systems

Per User Pricing

Two options are available for the pricing of per seat charges

- Fixed price per seat times the number of seats used.
  - This option can be more advantageous for the customer that purchases a large amount of data
- Percentage of Data License Cost – A fixed percentage times the data license cost (excluding update premium) for the service purchased.
  - This option can be more advantageous for the customer with a large number of seats.

PRODUCT DESCRIPTION	GSA PRICE + IFF
2-9 seats or 5% of annual data license fee	$ 126.75
10-199 seats or 10% of annual data license fee	$ 126.75
200-399 seats or 15% of annual data license fee	$ 126.75
400-499 seats or 20% of annual data license fee	$ 126.75
500-599 seats or 20% of annual data license fee	$ 101.40
600-799 seats or 25% of annual data license fee	$ 101.40
800-999 seats or 30% of annual data license fee	$ 101.40
1,000-1,499 seats or 35% of annual data license fee	$ 84.50
>=1,500 seats or 40% of annual data license fee	$ 84.50

D&B Risk Analytics

D&B Risk Analytics is a web-based solution for monitoring supplier relationships and helping to avoid costly disruptions. This third-party risk solution is powered by the D&B predictive, AI-driven global insights and data to include the proprietary predictive risk scores D&B Supplier Evaluation Risk (SER), D&B Supplier Stability Indicator (SII) and the D&B Cyber Risk Score.
D&B Risk Analytics consists of the following components:

- Packages based on the #Of Supplier Records
- Add-On's
- US/Canada Data
- Rest Of World Data

PACKAGES

There are 5 package options available for D&B Risk Analytics as outlined below. Each package consists of a base set of data allowing for additions or add-ons.

Customers are charged at the total RUM count of the package; individual customer RUM is not calculated in this offering and the RUM split between DOM and ROW is set. Customers can purchase additional bundles of 50 RUM Records with a limit of 4 packages, if a 5th is needed the Customer is required to upgrade to the next level package.

Relevant SINs: 541611, 54151ECOM, 541910

Government Risk Analytics Pricing

								Request for additional RUM in 50 count increments		
Core and Core+ RUM					Addons			US/CN (45) & ROW (5)	50	50
	US/CN	ROW	Total RUM	Price	ESG Module	Enhanced Restricted Party Screening	Cyber Risk Rating	Supplier Core and Core+	Supplier Intelligence Screening	Supplier Intelligence-Cyber Risk
Package 1	180	20	200	$ 14,265.44	$ 280.91	$ 1,457.63	$ 1,054.26	$ 2,495.72	$ 363.73	$ 262.97
Package 2	450	50	500	$ 23,862.52	$ 703.12	$ 3,575.57	$ 2,388.56	$ 1,957.68	$ 357.68	$ 238.79
Package 3	1,350	150	1,500	$ 49,499.55	$ 2,109.37	$ 9,184.28	$ 6,428.31	$ 1,429.72	$ 306.30	$ 214.61
Package 4	2,700	300	3,000	$ 85,633.75	$ 4,218.74	$16,665.99	$12,126.95	$ 1,236.27	$ 278.09	$ 202.52
Package 5	4,500	500	5,000	$130,732.14	$ 7,031.23	$26,016.42	$19,201.01	$ 1,132.49	$ 259.95	$ 192.44
Note: 5,001+ requires Custom price										

NOTES:

- All packages have equal amounts of Core & Core + RUM split across US/CN & ROW
- Screening, if chosen, is D&B RPS
- Beyond 5k RUM would require custom pricing
- Request for additional RUM in 50 count increments is based on overage pricing. For the 50 RUM, assume 10% is ROW (5) and remainder NA (45)
    - Limit to be applied for a max of 4 additional 50 RUM bundles will include in the contract language.

Small Business Risk Portfolio Solution

- SmallBusiness Risk PortfolioScore scaledto Fair Isaac's SBSS 6.0
- D-U-N-S® Numbering Process
- Segmentation and Reason Codes
- Consumer Data from Trans Union

Relevant SINs: 541611, 54151ECOM

Relevant SINs: 541611, 541910

Frequency	Price
Six Month	1.20 X Total Order Price
Quarterly	1.30 X Total Order Price
Bi-Monthly	1.40 X Total Order Price
Monthly	1.75 X Total Order Price

Limited Access Database

A Limited Access Database is defined as data that is used by agency customers for analytical purposes. This data is priced at a discount to the price for the equivalent full access records.

INCREMENTAL to this price would be any records for full use. These "full access" records are priced at D&B's standard GSA price and should be thought of as a subset of the Limited Access Database records.

LAD Price Model

Solution	%of Full Access Record Price
LAD with a tool (MI/PDP/IM)	20%
LAD-no tool&>/=10% full access records	30%
LAD-no tool &<10% full access records	40%

If you are using a LAD as part of a deal, you must include language in the order form to indicate it. An example of appropriate wording would be:

XX,XXX,XXX Limited Access Records in a [record type] format for analysis only with [update frequency] updates, of which you can market to X,XXX,XXX records with [update frequency] updates.

Example: 14,000,000 Limited Access Records in a Strategic Database Marketing Record format for analysis only with quarterly updates, of which you can market up to 5,600,000 records with quarterly updates.

Solution	% Discount or Premium
STATE FILES: Apply state record count to appropriate Strategic Marketing Record range. Then calculate the price and deduct	10%
ADD/CHANGE/DELETE FILE: Also known as Delta file processing	1.10 x Total Base Record charge
OLD vs NEW PROCESSING-FULL file or State files	1.20 x Total Base Record charge
RETAINING OLD DATA In cases where an agency wants to retain the already licensed D&B data instead of licensing new data for an additional 12 months, they will receive a charge of **80%** of the prior year's spend to renew the license for an additional 12 months.	80% of prior year's spending

Licenses that are less than 12 months *

For those rare cases where it makes sense to have a license that is less than 12 months long, we charge a premium over the pro-rated amount. This charge is based on a percentage of the 12-month equivalent price.

Period	Percentage of 12 Month Equiv.
1 Month	11.67%
2 Months	23.33%
3 Months	35.00%
4 Months	46.67%
5 Months	58.33%
6 Months	70.00%
7 Months	75.00%
8 Months	80.00%
9 Months	85.00%
10 Months	90.00%
11 Months	95.00%

*** Licenses that are more than 12 months will be at the regular pro-rated amount.**
