"Where the Government Shops for Security"

Securityhunter has provided commercial and government clients security consulting, integration and maintenance solutions since 1992. Since 2001, the GSA schedule 84-contract vehicle has enabled Securityhunter to successfully support security initiatives for U.S. Government Agencies and the Department of Defense.

Securityhunter offers government clients over 30 years of experience analyzing, designing, and installing security solutions with technologically advanced products and support services. A dedicated team of product engineers continually explores advances within the industry to offer clients the most effective and advanced security solutions that protect the people, places and assets that matter most in support of their mission.

GSA SCHEDULE # 47QSWA20D0095

Security and Protection - Security Services and Systems
Facilities - Facilities Solutions, Services, Maintenance & Repair

DESCTRIPTION OF PRODUCTS & SERVICES	SIN#
SECURITY AND DETECTION SYSTEMS Includes security and detection systems and devices, such as gas detectors, pressure level monitoring, patient/detainee monitoring systems, etc. NOTE: Excludes vehicular alarms. NOTE: Subject to Cooperative Purchasing	**334290**
PHYSICAL ACCESS CONTROL SYSTEMS (PACS) - LEGACY SIN Includes physical access control systems (PACS), such as card-controlled access, biometrics, security barriers, etc. Includes non-FIPS physical access control systems. NOTE: Subject to Cooperative Purchasing	**334290L**
INSTALLATION AND SITE PREPARATION CONTRACTORS Include installation and site preparation services ordered in conjunction with buildings and structures, building materials, storage tanks/systems, services for alternative energy solutions or power distribution equipment, and fuel dispensing and management systems purchased under this schedule contract. For ordering limitations and information, refer to the Special Ordering Procedures/Ordering Guide posted on www.gsa.gov NOTE: When used in conjunction with a Cooperative Purchasing eligible SIN, this SIN is Cooperative Purchasing Eligible.	**238910**
TOTAL SOLUTION SUPPORT PRODUCTS FOR FACILITIES MANAGEMENT SYSTEMS Includes products to support facilities management systems, such as repair parts, surveillance systems, security functions, energy functions, building comfort systems, etc. NOTE: Subject to Cooperative Purchasing	**334512**
ANCILLARY PRODUCTS AND SERVICES May only be ordered in conjunction with or in support of supplies or services purchased under SIN(s) of the same schedule.	**ANCILLARY**

SECURITY SYSTEM INTEGRATION, DESIGN, MANAGEMENT, AND LIFE CYCLE SUPPORT **541330L**

Includes services involving the security integration/management discipline, which supports security products and systems throughout their lifecycle. Services may include, but are not limited to: testing, production, fielding, process improvement, disposal, etc.

NOTE: Subject to Cooperative Purchasing

INTRODUCTION OF NEW SUPPLIES AND SERVICES **NEW**

Includes the introduction of new supplies, technology and services categorically related to items already on GSA contract, which may be in commercial development and/or not yet introduced to the federal government.

NOTE: When used in conjunction with a Cooperative Purchasing eligible SIN, this SIN is Cooperative Purchasing Eligible.

OPTICAL INSTRUMENT AND LENS MANUFACTURING **333314NV**

Includes night vision equipment, such as cameras with night vision, etc.

NOTE: Subject to Cooperative Purchasing

SURVEILLANCE SYSTEMS, WEARABLE BODY CAMERAS, AND VEHICULAR VIDEO **334220**

Includes surveillance systems, wearable body cameras, and vehicle videos, including video storage and services as part of a total solution.

NOTE: Subject to Cooperative Purchasing

ORDER-LEVEL MATERIALS (OLM) **OLM**

OLMs are supplies and/or services acquired in direct support of an individual task or delivery order placed against a Schedule contract or BPA. OLM pricing is not established at the Schedule contract or BPA level, but at the order level. Since OLMs are identified and acquired at the order level, the ordering contracting officer (OCO) is responsible for making a fair and reasonable price determination for all OLMs.

OLMs are procured under a special ordering procedure that simplifies the process for acquiring supplies and services necessary to support individual task or delivery orders placed against a Schedule contract or BPA. Using this new procedure, ancillary supplies and services not known at the time of the Schedule award may be included and priced at the order level.

OLM SIN-Level Requirements/Ordering Instructions:
OLMs are:
- Purchased under the authority of the FSS Program
- Unknown until an order is placed
- Defined and priced at the ordering activity level in accordance with GSAR clause 552.238-115 Special Ordering Procedures for the Acquisition of Order-Level Materials. (Price analysis for OLMs is not conducted when awarding the FSS contract or FSS BPA; therefore, GSAR 538.270 and 538.271 do not apply to OLMs)
- Only authorized for use in direct support of another awarded SIN.
- Only authorized for inclusion at the order level under a Time-and-Materials (T&M) or Labor-Hour (LH) Contract Line Item Number (CLIN)
- Subject to a Not To Exceed (NTE) ceiling price

OLMs are not:
- "Open Market Items."
- Items awarded under ancillary supplies/services or other direct cost (ODC) SINs (these items are defined, priced, and awarded at the FSS contract level)

OLM Pricing:
- Prices for items provided under the Order-Level Materials SIN must be inclusive of the Industrial Funding Fee (IFF).
- The value of OLMs in a task or delivery order, or the cumulative value of OLMs in orders against an FSS BPA awarded under an FSS contract, cannot exceed 33.33%.
NOTE: When used in conjunction with a Cooperative Purchasing eligible SIN, this SIN is Cooperative Purchasing Eligible.

PHYSICAL ACCESS CONTROL SYSTEMS (PACS) - FIPS 201 **334290PACS**

Includes physical access control systems (PACS), such as card-controlled access, biometrics, security barriers, etc.

NOTE: The GSA FIPS 201 Evaluation Program defines product categories for the FIPS 201 APL as required to implement the mandates in OMB Memoranda M-05-24 and M-06-18. For the avoidance of doubt, ONLY THOSE PRODUCTS FOUND ON THE GSA APL ARE FIPS 201 COMPLIANT.
All approved products can be found on the APL (Approved Products List) at idmanagement.gov.
NOTE: Subject to Cooperative Purchasing

SECURITY SYSTEM INTEGRATION, DESIGN, MANAGEMENT, AND LIFE CYCLE SUPPORT **541330SEC**

Includes services related to PACS design, integration, and implementation, and installation/testing. Offerors under this SIN have at least one employee who is CSEIP (Certified System Engineer ICAM PACS) certified and such certification can be verified at IDmanagment.gov.

NOTE: Subject to Cooperative Purchasing

SECURE MODULE UNITS (SMU)

The SMU solution provides secure controlled temporary modular offices, project workspaces, and facilities.

All SMU products include site preparation, prefabrication, delivery, set-up, commissioning, turnover, and customer support and maintenance. Sample configuration types and general requirements of the modular units are reflected below. SMUs currently included on Securityhunter's schedule are Hawaii Region specific. Other CONUS/OCONUS SMU solutions can be configured and priced separately. Standard Security and SCIF Security options available. Email: Sales@Securityhunter.com

Secure Module Units (SMU) Sample Pictures

Secure Towable Office Module (exterior)
(trailer not included)

Secure Ruggedized Conference Module (interior)

Secure Portable Office Module (2-story) (exterior)

25. Data Universal Number System (DUNS) number: 610626798.
26. Securityhunter is registered in the System for Award Management (SAM).

Unless otherwise noted installations will assume use of existing copper wiring infrastructure.

Under normal circumstances, we request a minimum of 2 to 4-week lead-time for labor scheduling and material procurement. Longer lead times may apply for special order items.

Anything outside of the Delivery Order Scope of Work will only be performed through an authorized Change Order Modification.

Labor rates are based on our normal technical working hours, between 8AM and 5:00PM., Monday through Friday. Afterhours work can be contracted and are billed per the schedule rates. If after the onset it is determined that afterhours work is required Securityhunter will request an equitable adjustment to account for the adjusted cost.

Quotations are based on utilizing conduits, wire troughs & cable tray provided by others assuming they are in good usable condition, free of any obstruction (to include standing water) and are of adequate size unless otherwise noted.

Unless otherwise specified in our proposal/quote, the Customer shall provide adequate and secure on-site storage for all materials. Due to OSHA regulations, we assume that the area where the installation will take place is free and clear of all hazardous material, including, but not limited to, asbestos. Any costs incurred by this contractor for the containment, control or disposal of hazardous material shall be at the expense of the Customer.

Customer shall provide free and clear access to the building or buildings where installation shall take place. This shall include but not be limited to areas such as loading docks, freight elevators, reasonable parking facilities for work vehicles, access to service corridors, etc. (It is understood that the use of such items may require coordination with other trades or departments.)

All materials and installation thereof shall conform to associated National Fire Protection Agency (NFPA) /National Electrical Codes (NEC).

Contractor shall not have compensation deducted from any contract amount due to substitutions or labor efficiencies that meet or exceed original specifications, resulting in a reduced cost to contractor in performance of work.

Contractor shall, at his option, suspend or terminate work if Customer fails to pay contractor any sum within reasonable time of the due date. If work is terminated or suspended, the completion dates shall be extended by a time equal to suspension or termination period.

Any delays caused by Customer due to interference of work schedule, material delivery, change of work, concealed conditions, etc., resulting in an increase of cost to contractor to perform work shall be at the expense of the Customer.

In the event of Customer supplied materials, all such materials shall be delivered to the job site not less than 48 hours prior to installation of the required materials. Contractor shall bear no responsibility for Customer-generated quantities, specifications, or suitability of purpose.

Contractor shall work in harmony with the other building trades on site and or specific departments, in the attempt to minimize disruption to schedules and coordinate efforts, which coincide with other construction or activities.

Payment Terms: 100% upon completion unless defined in the offer as milestone or progress.

At no charge to contractor, Customer shall provide ample electric sources, with proper voltage and ground, for the purpose of operating electric tools and test equipment.

Unless noted, contractor assumes use of all existing conduits, pull-boxes, hand-holes installed by others.

Quotes are good for thirty (30) days.

CUSTOMER OBLIGATIONS

This section includes assumptions of items provided, to be supplied or completed by the customer and not those of Contractor.

1. All required 110VAC power shall be provided by Customer.

2. Full access to work areas will be provided by the client during proposed working hours. If there is work that can only be performed during hours other than specified (See T&Cs Item 3 above), Customer must inform Contractor prior to execution of work. Work performed outside normal working hours will require a pricing modification to adjust for after-hours labor.

3. The client will provide ready access to a single point of contact, capable and authorized to discuss issues, make decisions, and approve change orders to interface with the Securityhunter, Inc. Project Manager to allow for an orderly install.

4. Define any and all security requirements for the contractor. (i.e. DD-254, Suitability)

5. Other: As defined in the specific statement of work, performance work statement, and or Contractor proposal or quote.

-END-
