RICOH'S AUTHORIZED LIST OF SALES AND SERVICE LOCATIONS **189**

Ordering and Payment Addresses for Ricoh Brand Products

All orders **MUST** be made out to Ricoh USA, Inc, c/o the local RICOH Sales and Service Location responsible for the initiation of the Requisition. (See List of Sales and Service Locations in this catalog.)

A. PURCHASE, LEASE TO OWNERSHIP (LTOP), FAIR MARKET VALUE LEASE PLAN (FMV), CPC AND FLAT RATE, SUPPLIES:
Orders to be submitted to the Initiating Sales & Service Location.

B. MAINTENANCE SERVICE CONTRACTS AND P.O. RENEWALS:
Orders may be submitted directly to GSAservicecontractsporenewals@ricoh-usa.com

All payments are to be made out to Ricoh USA, Inc., to the "Remit to" address indicated on invoice, noting Cage Code #31310 / DUNS #04 396 4519.

Ricoh USA, Inc. invoices will indicate one of the following "remit to" locations (standard or overnight):

Lockbox Address	Overnight Address
Ricoh USA, Inc. P.O. Box 532530 Atlanta GA 30353-2530	Ricoh USA-532530 c/o PNC Bank Lockbox 1669 Phoenix Business Pkwy, Suite 210 College Park GA 30349
Ricoh USA, Inc. P.O. Box 827577 Philadelphia PA 19182-7577	Ricoh USA-827577 c/o PNC Bank Lockbox Route 38 and East Gate Drive Moorestown NJ 08057
Ricoh USA, Inc. P.O. Box 660342 Dallas TX 75266-0342	Ricoh USA-660342 c/o PNC Bank Lockbox 1200 East Campbell Road, Suite 108 Richardson TX 75081
Ricoh USA, Inc. P.O. Box 31001-0850 Pasadena CA 91110-08503	Ricoh USA-910850 c/o PNC Bank Lockbox Pasadena Tech Center 465 North Halstead, Suite 160 Pasadena CA 91107

C. REMIT TO ADDRESS FOR ELECTRONIC FUND TRANSFER (EFT):
Access Systems or Award Management (SAM) with Agency's assigned "access code" to see Financial Information. Contact Ricoh USA at 1-800-565-0283, prompt 6, for EFT enrollment.
Any order which is not thus completed and submitted shall not be deemed to be subject to the Federal Supply Schedule and, therefore, not eligible to use this contract number. See Paragraph 13 for payment information.

D. PAYMENT ADDRESSES
Invoices will be issued **only** by RICOH and Payment therefore shall be made only to RICOH. Payment must be made to the "Remit To" address indicated above OR the "Remit To" address indicated on the Invoice. Each invoice is payable net 30 days from the date the invoice is received by the office specified in the order.

E. EDI
Ricoh is EDI capable for electronic ordering and related electronic transactions. For more information, contact your local Ricoh Sales agent.

2. MAXIMUM ORDER (MO)

MOs are identified by SIN above. Orders above the MO may be placed with Ricoh in accordance with FAR 8.404. Should an agency require supplies and or services exceeding the MO, reduced pricing may be available from Ricoh.

For further information contact Ricoh USA, Inc, RMAP Bids & Proposals, 5 Dedrick Place, West Caldwell NJ 07006 or fax your request to RMAP Bids & Proposals at (973) 882-2219.

In accordance with GSA guidance and FAR 8.404, Purchase Orders exceeding the Maximum Order (MO) may be placed under this Contract and will be accepted by Ricoh USA, Inc.

3. MINIMUM ORDER

Minimum amount of each order is $50.

4. GEOGRAPHIC COVERAGE (DELIVERY AREA)

The area of delivery and service contemplated in this Price List is limited to the 48 contiguous States, the District of Columbia, Alaska, Hawaii, Puerto Rico and US Territories. Sales and Service Locations may be found at: **Ricoh USA Sales and Service Locations**

5. INSTALLATION CHARGES

The Ricoh USA, Inc. ("RICOH") GSA contract has been developed based on a customary scope of coverage to provide equipment installations and service in customer locations within an area of a 60 miles radius from any Ricoh sales and service location.

Copiers and accessories ordered for installations beyond this radius shall be subject to charges for travel and installation consistent with customary commercial practices, and these costs are to be quoted and billed on an open market basis. All accessories ordered for addition to any copier already installed and requiring dispatch for on-site installation by a Ricoh service technician shall be subject to a minimum installation charge of $75.00.

6. POINTS OF PRODUCTION, TRADE AGREEMENTS ACT

All products offered under GSA Contract GS-03F-0085U are either U.S. made end products, Designated Country end products, Caribbean Basin Country or North American Free Trade Agreement (NAFTA) country end products as defined FAR 52.225-5, Trade Agreements.

7. DISCOUNTS

Prices listed herein are NET; discounts have been deducted. Educational institutions are same as other Government customers. No additional discounts offered for Government purchase cards. Spot discounts may be available as proposed by Ricoh Sales staff.

8. QUANTITY DISCOUNTS

All quantity discounts are stated in this Price List.

9. PROMPT PAYMENT TERMS

Terms for payment are Net 30 days.

10. GOVERNMENT PURCHACE CARD

10a. The Government Purchase Card will be accepted for sales below the Micro-purchase threshold.

10b. The Government Purchase Card will be accepted for sales above the Micro-purchase threshold.

11. FOREIGN ITEMS

None. All line items in this Price List for new installation are: U.S. made end products, designated country end products, Caribbean Basin end products, Canadian end products, or Mexican end products as defined in the Trade Agreements Act of 1979, as amended

12. TIME OF DELIVERY

12a. Delivery of each item offered herein will be made within 30 days after RICOH or RICOH in care of its local Sales and Service location receives the order.

12b. Expedited delivery is not available under this contract.

12c. Overnight and or 2 day delivery is not available under this contract.

12d. Customers should contact Ricoh regarding coordination and open market shipment costs for urgent requirements.

13. F.O.B. DESTINATION

All prices shown in this Price List are based on F.O.B. destination to the 48 contiguous States, the District of Columbia, Alaska, Hawaii and Puerto Rico. **Prices** for Alaska, Hawaii, Puerto Rico, and any US territory in which Ricoh has service availability will require a 15% surcharge.

14. ORDERING ADDRESSES

See Page 1. All orders MUST be made out to Ricoh USA, Inc. c/o the local RICOH Sales and Service Location responsible for the initiation of the Requisition. Orders may then be mailed either to Ricoh USA, Inc. directly, as indicated on Page 1, or to the initiating Sales and Service Location.

15. RICOH DUNS NUMBER

The DUNS numbers are detailed below.

16. RICOH USA, INC.

DUNS Number: 04-396-4519
Contractor's Tax ID Number (TIN) 23-0334400
CAGE Code -- 31310

17. GSA ADVANTAGE HTTP://WWW.FSS.GSA.GOV

On-Line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA Advantage!, a menu-driven database system. The INTERNET address for GSA Advantage! Is: GSAAdvantage.gov.

18. CENTRAL CONTRACTOR REGISTRATION

Ricoh USA, Inc. is registered in the Central Contractor Registration.

19A. SPECIAL ENVIRONMENTATL ATTRIBUTES

For over 20 years, Ricoh has led the office automation industry in creating environmentally friendly products and processes, and in promoting partnerships among government, industry, and environmental groups. We live by a philosophy we call, "Our earth, Our tomorrow". It's a statement of the idea that because we all share the planet, we are all obligated to protect and preserve it. We also believe that good corporate citizenship is good business, therefore as of FY 2001, we have achieved ISO 14001 Certification at all Ricoh U.S.A. For more information regarding the environmental attributes of Ricoh products, please visit our website at :Ricoh USA –Environmental Attributes

19B. SECTION 508 COMPLIANCE AND ACCESSIBILTY

Ricoh takes Section 508 compliance seriously, and designs and manufactures products to provide optimum accessibility. For detailed information on how each Ricoh products meets or exceeds applicable Section 508 accessibility standards, please visit our website at: Ricoh USA – Section 508 Compliance

20. REPAIR PARTS

Repair parts are not available under this contract but are available on an open market basis.

21. LIST OF SERVICE AND DISTRIBUTION POINTS

A separate list will be provided for authorized dealers under this contract.

22. PARTICIPATING DEALERS

A separate list will be provided for authorized participating dealers under this contract.

23. PREVENTATIVE MAINTENANCE SIN 51-57

Preventive maintenance is included with maintenance and rental plans as previously, please refer to those sections for more information.

Purchase Terms and Conditions SIN 51-100/229

1. PAYMENT ADDRESSES

See Page 1. Invoices will be issued only by RICOH and Payment therefore shall be made only to RICOH. Payment must be made to the "Remit To" address indicated on Page 1, or as stipulated in the Ricoh invoice. Each invoice is payable net 30 days from the date the invoice is received by the office specified in the order.

2. WARRANTY PROVISIONS APPLICABLE TO PURCHASE SIN 51-100

(i) For a period of 90 days after the delivery of Equipment, RICOH shall, without additional charges, replace parts that RICOH determines to be defective in manufacture. Routine maintenance is not considered a defect in manufacture and is not covered under the 90 day Warranty. In addition, RICOH shall be under no obligation to provide such warranty services if: (a) Equipment is installed, wired, altered, modified, moved, or serviced by anyone other than RICOH authorized personnel and any such acts that in RICOH's judgment defectively or improperly performed; (b) a defective or improper accessory or supply is used with Equipment; (c) Equipment is relocated to any place where RICOH services are not available; or (d) Equipment purchased was originally installed under a rental contract.

(ii) Fair wear and tear of the following parts are specifically excluded from this additional warranty: Cleaning Blade, Cleaning Brush Roller, Cleaning Pad, Corona Wire, Exposure Lamp, Filter, Hot Roller, Hot Roller Stripper, Lubricant, Lubricant Brush, Oil Supply Pad, Photoreceptor Master, Pick Off Pawl, Pressure Plate Sheet, Pressure Roller, Seal, and Selenium Drum Photoconductor. This warranty is expressly limited to the provision of replacement parts and the refund of freight cost for parts that were returned to RICOH and determined by RICOH to be defective. This warranty does not apply to Equipment that is subject to a Full Maintenance Contract.

3. EXPORT PACKING CHARGES

When export packing is requested, such packing will be quoted as an open market item.

4. TERMS AND CONDITIONS OF GOVERNMENT PURCHASE CARD ACCEPTANCE

Government commercial credit cards will be accepted for payment on most items. Visa, MasterCard, American Express, Discover will be accepted by RICOH for any authorized purchase; no additional discounts applicable to credit card purchases.

Full Maintenance Terms and Conditions – SINs 51-57 / 208

1. INVOICING

(i) Monthly charges and meter charges for the Monthly Payment Plan will be invoiced each month upon receipt of the meter read by RICOH. On the last business day of each month, the Government shall communicate the meter reads to RICOH. If such meter read is not received by RICOH on a timely basis, RICOH shall be permitted to estimate or prorate the meter reading on the basis of a 30-day month and, in case of the Monthly Payment Plan, to invoice the meter charges accordingly. If Equipment is installed for less than a full month, the monthly charge for such Equipment shall be prorated on the basis of a 30-day month.

(ii) RICOH shall be under no obligation to monitor the use of Equipment to insure that invoices do not exceed the amounts shown on purchase orders. Consequently, the spending limitations shown on any purchase order do not bind RICOH.

2. DESCRIPTION OF FULL MAINTENANCE

(i) RICOH shall maintain Equipment in good working order in accordance with its service policies, as revised from time to time.

(ii) RICOH shall provide, during eight (8) RICOH business hours, Monday through Friday except for holidays observed by the Government or RICOH, maintenance and repair services, which may include the replacement of the Selenium Drum Photoconductor and any other parts which RICOH determines to be unserviceable. Replaced parts become the property of RICOH.

(iii) Subject to Paragraphs B (v) and B (vii), if RICOH, in its sole judgment, determines that it cannot maintain Equipment in good working order, RICOH shall, at its own expense and in its sole discretion, perform off-site renovation of such Equipment or replace such Equipment with another unit of the same product designation as that Equipment (a "replacement unit"); **provided, however**, that (a) the replacement unit may be a reconditioned or otherwise used unit rather than a new unit; and (b) if a replacement unit of the same product designation as the unit of Equipment it replaces is not available, the replacement unit may, in RICOH's sole discretion, be a product of substantially similar or greater capabilities. In such instances, the rate for the Full Maintenance the Government shall pay for the replacement unit shall be the rate that would be charged for such replacement unit under the Price List in effect at the time of such replacement.

(iv) The Government shall permit RICOH to install on-site engineering improvements designated by RICOH as "mandatory retrofits".

(v) Notwithstanding anything in this Paragraph B to the contrary, RICOH shall not be obliged to provide: (a) retrofits (whether mandatory or optional); (b) services connected with Equipment relocation; (c) services connected with adding or removing accessories, attachments, or other devices; (d) exterior painting or refinishing of Equipment; (e) performance of normal operator functions as described in RICOH Operation Manual(s); (f) repair services or replacement parts or units necessitated by damage from any cause other than ordinary use, except damage caused by the sole negligence of RICOH; (g) Equipment service necessitated by operator neglect or unusual applications of Equipment; and (h) services for Equipment which is not used in accordance with the terms and conditions of this Price List. Performance by RICOH of services not included in this Description of Full Maintenance in Paragraph (2) (B) of this Price List will be charged at RICOH's hourly rates shown in this Price List.

(vi) The Government shall: (a) maintain Equipment in strict compliance with the instructions specified in this Price List and RICOH Operation Manual(s) including, but not limited to, the specifications for electrical service and space; (b) make or permit no alterations to Equipment without RICOH's written permission; (c) attach no item to Equipment unless neither the Equipment nor such item has been altered and the combination is UL approved; (d) not move Equipment unless such Equipment is designated by RICOH as moveable; (e) not relocate Equipment to another address without RICOH's written permission; (f) not use any attachment or supply item which in the opinion of RICOH could cause damage to or necessitate unreasonable or unusual servicing of, Equipment; (g) not itself install developer in or remove developer from Equipment; and (h) afford RICOH authorized personnel unrestricted access to Equipment.

(vii) RICOH shall be under no obligation to provide maintenance services for Equipment relocated to any place where RICOH services are not available.

3. PERIOD OF A FULL MAINTENANCE CONTRACT ("FMC")

(i) The period of an FMC shall commence on the Commencement Date and shall continue in case of the Monthly Payment Plan, until September 30, of that fiscal year.

(ii) If an FMC pertains to (a) Equipment newly installed, the Commencement Date shall be (1) in the case of purchases, the installation date of the Terms and Conditions Applicable to the Purchase of Equipment; or (2) in the case of leases, the Installation Date as defined in Paragraph B of the Terms and Conditions Applicable to Lease to Ownership;

3. PERIOD OF A FULL MAINTENANCE CONTRACT ("FMC") (CONTINUED)

(b) Equipment which has continuously been subject to RICOH services under an FMC or rental contract from the time of original installation, the Commencement Date shall be the date the Government places the order for FMC; or (c) Equipment not otherwise subject to such RICOH services at any time after the time of original installation, the Commencement Date shall be the date RICOH accepts the order for the FMC; provided, however, that before such acceptance RICOH may inspect such Equipment and, if necessary, perform an off-site renovation of the Equipment at the Government's expense as a condition precedent to RICOH's acceptance of such an order.

(iii) The Government has the option to renew an FMC, by giving RICOH written notice of renewal, for an additional period of 1 year at the prices, terms and conditions specified in the Price List for such renewal period in effect on the date of such notice.

(iv) Notwithstanding any provision in Paragraphs C (i) through (iii) to the contrary, Equipment is eligible for an FMC for a minimum of 5 years from the time of original installation. Upon the expiration of this 5-year period, however, RICOH shall accept orders for the FMC for additional periods of 1 year; provided, however, that before such acceptance RICOH may inspect such equipment and, if necessary, perform off-site renovation at the Government's expense as a condition precedent to RICOH's acceptance of such an order and provided, further, that RICOH may on notice to the Government terminate the FM Contract for any such additional period if RICOH in its sole judgment, determines that it cannot maintain such equipment in good working order. If the Government does not authorize the off-site renovation RICOH shall continue to offer Hourly Rate Service at the rates in effect at that time. Equipment is eligible for an FMC for a maximum of 7 years from the time of original installation.

(v) The Government may terminate such FMC at any time for any reason whatsoever by giving RICOH written notice at least 30 days prior to the date of termination.

Refer to the index for Terms and Conditions Applicable to Rental and Full Maintenance.

Aggregate Fleet Maintenance Program
Terms and Conditions SIN 51-57 Maintenance

For the convenience and economy of the Government, Ricoh provides a federal copier fleet maintenance program with aggregate or "pooled" monthly copy volume under the FSC 36 SIN 51-57 (Maintenance). Copiers placed under this aggregate maintenance plan may be acquired by federal agencies under any of the 3 following acquisition methods:
SIN 51-100 (Purchase), SIN 51-58 (LTOP), or SIN 51-58a (Operating Lease).

Under this aggregate fleet maintenance program federal agencies with a fleet of more than 25 copiers or multi-function devices may "pool" monthly copier volumes together and overages will be billed on an aggregate fleet basis, with overages billed at the rate of the copier with the highest overage rate.

For example, if there are 10 copiers with a monthly copier allowance of 3,000 copies at .015 per copy, 10 copiers with a monthly allowance of 5,000 copies at .014, and 5 copiers with a monthly allowance of 10,000 copies at .013, the monthly copy allowance may be pooled together on an aggregate basis as detailed below:

Copier Description	Number Units in Fleet	Monthly Copy Allowance	Pooled Copy Volume	Monthly Rate	Monthly Cost	Overage Rate
25 CPM Copier	10	3,000	30,000	$45.00	$450.00	0.015
35 CPM Copier	10	5,000	50,000	$70.00	$700.00	0.014
45 CPM Copier	5	10,000	50,000	$130.00	$650.00	0.013
Totals	**25**		**130,000**		**$1,800.00**	**0.015**

In this example the monthly fleet copy allowance would be 130,000 copies, and the overage rate would be .015, with all copies produced above the monthly copy allowance of 130,000 billed at .015 per copy.

Under this aggregate maintenance program the government must provide monthly copier meter reads to Ricoh in a timely manner as instructed by Ricoh. Aggregate maintenance programs will only be billed for a full month, and under this program any copiers added to the aggregate maintenance program for less than a full month will be billed for either the monthly minimum and or overage charges as appropriate, and added to the aggregate plan for the following month. Ricoh requires a properly executed federal purchase order (no credit card or verbal orders) and a minimum of not less than 30 days advance notice for establishment of an aggregate maintenance plan, additions or subtractions to the aggregate maintenance plan, or termination of the aggregate maintenance plan. When establishing an aggregate maintenance plan federal agencies must clearly identify the make, model, serial number, location, and period of performance on all equipment to be covered under the aggregate maintenance plan

Ricoh may occasionally consider providing written spot discounts under this program as may be warranted and this may include concessions on fleet size, monthly allowance, and or overage rate. Ricoh's published GSA maintenance rates and allowances will apply unless an authorized Ricoh representative has provided written spot discounts, and these are submitted with the customer purchase order, and accepted by Ricoh USA, Inc.

While published maintenance plans under SIN 51-57 are always available to all federal customers, final acceptance of all aggregate maintenance billing plans will be mutually agreed upon by both customer and Ricoh. Ricoh will not be obligated to accept aggregate maintenance plans when deemed not to be in the best interest of Ricoh. In the event of any inconsistencies or confusion related to the terms of this plan the order of precedent will be:

1. The Ricoh GSA published terms applicable to aggregate billing detailed herein;
2. The Ricoh published GSA maintenance SIN 51-57 prices, terms, and conditions.
3. Additional documentation provided by Ricoh authorized representative including spot discounts.
4. Customer's written purchase order
5. Customer's written RFQ and or solicitation documentation.

Terms and Conditions Applicable to Lease to Ownership plan SIN 51-58, and Operating Lease Plan SIN 51-58A

LEASING OF GENERAL PURPOSE COMMERCIAL EQUIPMENT

SINs: 51 58 – Lease-to-Ownership Plan (LTOP) - Copiers
51 58a – Operating Lease Plan – Copiers Only
51 58b-- Operating Lease Plan (All Other Products under FSC 36)

1. STATEMENT OF GOVERNMENT INTENT

For the purpose of this solicitation, Lease Term is defined as the duration of the lease in months (not to exceed 60 months) as shown on the Ordering Agency's initial delivery order. It is understood by all parties to this contract that this is a leasing arrangement. In that regard, the Government anticipates fulfilling the leasing agreement subject to the availability of appropriated funds and the continued needs of the Ordering Agency. The Ordering Agency, upon issuance of any delivery order pursuant to Special Item Numbers (SIN's) 51 58, 51 58a or 51 58b, intends to use the equipment for the lease term specified in the initial delivery order so long as the needs of the Ordering Agency for the equipment or functionally similar equipment continues to exist and adequate funds are appropriated. Each lease hereunder shall be initiated by a delivery order which shall, either through a statement of work or other attachment specify the equipment being leased, and the terms of the transaction as required in other sections of SIN's 51 58, 51 58a or 51 58b. The lease commencement is the date of acceptance as defined by FAR Subpart 12.4

The first period or initial term of the leasing agreement will be through September 30th of the fiscal year in which the order is placed, or as extended by act of Congress, unless the ordering office has multi-year funding.

Ordering Agencies are advised to follow the guidance provided in Federal Acquisition Regulation (FAR) Subpart 7.4 Equipment Lease or Purchase, and to review the lease terms and conditions prior to ordering and obligating funding for a lease. Ordering Agencies are responsible for the obligation of the funding consistent with fiscal law when entering into any lease arrangement.

2. ORDERING PROCEDURES

(1) Ordering Agencies are strongly encouraged to conduct a needs assessment prior to the procurement of copiers.

(2) When the Ordering Agency expresses an interest in leasing a product(s), the Ordering Agency will provide the following information to the prospective vendors:

- (i) Which product(s) is (are) required.
- (ii) The required delivery date.
- (iii) The proposed term of the lease.
- (iv) Where the equipment will be located.
- (v) Description of the intended use of the equipment.

(3) The contractor will respond with:

- (i) Whether the contractor can provide the required equipment.
- (ii) The monthly payment based on the rate and the initial and residual values of the equipment.
- (iii) The estimated cost, if any, of applicable State or local taxes.
- (iv) A confirmation of the availability of the equipment on the required delivery date.
- (v) Extent of warranty coverage, if any, of the leased products.
- (vi) Cite the cost of any mandatory maintenance as applicable.
- (vii) The Termination Ceiling Charges, as applicable. (See Section 13, Early Termination Charges).

(4) The ordering agency and contractor shall agree upon a termination ceiling charge that is established in accordance with the appropriate formula in Section 13. Early Termination Charges (See FAR Subpart 17.1)

(5) The Contracting Officer shall insert the agreed upon termination ceiling charge for the first year in the order and modify it for successive years upon availability of funds.

3. ORDERS AND PERIOD OF LEASING ARRANGEMENTS

a. **Lease Options:** At a minimum, Ordering Agencies placing orders for equipment under a leasing arrangement must specify on the delivery order the applicable leasing SIN under which the equipment is being leased.

51 58 Lease to Ownership Plan (LTOP) (Lease/Purchase)(Copier)

51 58A Lease with Option to Own (Operating Lease) (Copier)

51 58B Lease with Option to Own (Operating Lease) (All Other Products under the 36 Schedule)

b. **Annual Year Funding**. When using annually appropriated funds when placing an order for leasing, the following applies:

(1) Any lease executed by the Ordering Agency shall be on the basis that the known requirements exceed the remainder of the fiscal year. Due to funding constraints, however, the Ordering Agency cannot normally commit to a term longer than one fiscal year at the commencement of the lease. To facilitate the exercise of renewal options for future fiscal years, the lease term will be specified in the delivery order. All orders for leasing shall remain in effect through the Government fiscal year (or as extended by Act of Congress), or the planned expiration date of the lease, whichever is earlier, unless the Ordering Agency exercises its rights hereunder to acquire title to the equipment prior to the planned expiration date. Despite the fact that the delivery order will specify the total lease term, orders under the lease shall not be deemed to obligate succeeding fiscal year's funds or to otherwise commit the Ordering Agency to a renewal.

(2) All orders for leasing automatically terminate at the end of the Government fiscal year (or as extended by Act of Congress) or the contract term, whichever is earlier. However, Ordering Agencies should notify the contractor in writing thirty (30) calendar days prior to the expiration of such orders as to the Government's intent to renew. Ordering Agencies are instructed to follow the guidelines set forth in Paragraph 14 of this section with regard to termination of lease terms for non-appropriation or agency decisions not to renew. Should Ordering Agencies decide to terminate the lease prior to the expiration of the lease term under any other condition other than those set forth in Paragraph 14, early termination charges shall apply, (See Section 13, Early Termination).

c. **Multi-Year Funding Within contract Period:** Where an Ordering Agency's specific appropriation authority provides for funds in excess of a 12 month (fiscal year) period, the Ordering Agency may place a schedule contract order for leasing for a period up to the expiration of its period of appropriation availability, or the expiration of the contract period whichever comes first, notwithstanding the intervening Fiscal years.

d. In recognition of the types of products on this Schedule and the potential adverse impact to the Government's mission, the Government's quiet and peaceful possession and unrestricted use of the equipment shall not be disturbed in the event the equipment is sold by the Contractor, or in the event of bankruptcy of the contractor, corporate dissolution of the Contractor, or other event, so long as the Government is not in default. The equipment shall remain in the possession of the Government until the expiration of the lease. Any assignment, sale, bankruptcy, or other transfer of the leased equipment by the contractor will not relieve the Contractor of its obligations to the Government, and will not change the Government's duties or increase the burdens or risks imposed on the Government.

e. **Assignment of Claims:** In accordance with GSAR 552.232-23 Assignment of Claims under this contract, the Ordering Agency Contracting Officer may approve the assignment of claim for an order under these leasing Special Item Numbers (SINs) in accordance with FAR 32.803. Contractors cannot prohibit or otherwise limit the Government's ability to set off lease payments under any lease or assignment of a lease**.**

f. **Government Rights under Lease:** The Government does NOT waive any performance requirements, warranty rights nor other contract or statutory rights, such as the right to set off payments against other Government debt, as a part of the lease. The Government's acceptance of an assignment of a lease, does not waive any of the Government contract provisions.

4. MAINTENANCE AND INSTALLATION

a. Maintenance and installation, when applicable, are not included in the lease payments. The Ordering Agency will obtain installation and/or maintenance from the contractor or a designated authorized service provider.

b. When installation and/or maintenance are to be performed by the Contractor, the payments, terms and conditions will be as stated in this contract. Maintenance payments and terms and conditions during subsequent renewal periods of this lease will be those of the prevailing GSA Schedule contract in effect.

5. MONTHLY PAYMENTS

a. Prior to the placement of an order under this SIN, the Ordering Agency and the contractor must agree on a "base value" for the products to be leased. The base value will be the contract purchase price (less any discounts). For operating leases the residual value is independent of the purchase option price. The residual value will be used in the calculation of the original lease payment.

b. To determine the initial lease term payment, the contractor agrees to apply the negotiated lease factor to the agreed upon base value:

Examples: Lease factor one (1) percent over the rate for the three year (or other term) Treasury Bill (T-bill) at the most current U. S. Treasury auction.

or

The Contractor's most favored finance rate factor as agreed to during contract negotiations.

The lease payment may be calculated by using a programmed business calculator or by using "rate" functions provided in commercial computer spreadsheets (e.g., Lotus 1-2-3, Excel).

c. The purchase option price will be based upon the unamortized principle of the product. The payment will be based upon the unamortized principle, as shown on the payment schedule as of the last payment prior to date of transfer of ownership. In the event the Government desires, at any time, to acquire title to equipment leased hereunder, the Government may make a one-time lump sum payment.

6. EXPERATION OF LEASE TERM

a. Upon the expiration of the Lease Term, the Ordering Agency will:

(i) Upon 30 day written notice, return the Equipment to the Contractor or -

(ii) Purchase the equipment at the fair market value of the equipment or;

(iii) Obtain requirements in accordance with FAR 8.4 (Ordering Procedures) by issuing a new request for quote.

Note: Customers are advised to see paragraph 15-18 for additional lease expiration provisions.

7. ADDITIONS

For the purpose of this solicitation the definition of an addition is defined as follows:

Additions: The addition of accessories features or other enhancements available for lease under this contract to an existing model (base unit) already installed. Additions shall not change the functionality of the installed equipment.

a. The ordering agency may require the contractor to modify existing leased equipment through order modifications, provided the modifications are customarily offered by the contractor for the equipment leased. The price of the modification will be mutually agreed upon by the ordering agency and the contractor. The ordering agency may pay for the modification at full price upon acceptance, or the modification price may be leased coterminous with the initial lease term. The contract lease interest rate in effect at the time of order of the modification will be used to calculate the monthly payment applicable to the modification. For Operating leases a residual value should be negotiated for the modification.

For example:

Lease to ownership

Price of the modification - $1,000
Months remaining on the equipment lease - 19
Current contract lease factor at the time of the modification - .045 for 24 month lease, the term closest to remainder of lease.
Interest equivalent (i) for lease factor is 0.625% per month [rate(N,-pmt,Price)/rate(24,-0.045,1)]
Modification Payment $55.98 [PMT(i,N,P)/PMT(.625%,19,1000)]

b. The Ordering Agency may affix or install any accessory, addition, equipment or device on the equipment ("additions") provided that such additions:

(1) can be removed without causing material damage to the equipment;

(2) do not reduce the value of the equipment; and

(3) are obtained from or approved by the contractor, and are not subject to the interest of any third party other than the contractor.

c. Any other additions may not be installed without the contractor's prior written consent. At the end of the lease term, the Government shall remove any additions which:

(1) were not leased from the contractor, and

(2) are readily removable without causing material damage or impairment of the intended function, use, or value of the equipment, and restore the equipment to its original configuration.

d. Any additions, which are not removable, will become the contractor's property (lien free).

e. Payment may be modified based on the schedule price adjusted to reflect the actual period until the end of the lease term.

Should the Ordering Agency elect to replace equipment under the lease, a new FAR 8.4 competition is required. This does not preclude substitution for failure to perform. Ordering Agencies are advised that when making the decision to conduct a new competition, consideration must be given to the early termination of existing equipment and/or the financial considerations involved with the rollover of existing equipment should the current contractor prevail. Ordering Agencies are strongly advised to perform a cost benefit analysis in accordance with their agency procedures and policies with regard to rollovers.

8. RISK OF LOSS OR DAMAGE

The Government is relieved from all risk of loss or damage to the equipment during periods of transportation, installation, and during the entire time the equipment is in possession of the Government, except when loss or damage is due to the fault or negligence of the Government. The Government shall assume risk of loss or damage to the equipment during relocation unless the Contractor shall undertake such relocation.

9. WARRANTY

In accordance with Clause 552.246-73 under this contract, the contractor’s warranty, as stated in the contractor’s GSA Authorized Price List, is applicable to the lease.

10. EQUIPMENT PERFORMANCE

a. The equipment supplied must be in operational or repairable condition throughout the term of the lease.

(1) Operational condition means the equipment is producing clear and clean copies, all mechanical accessories are operating as intended and in all respects the equipment is performing up to the standards in the manufacturer’s specifications.

(2) Repairable condition means that the equipment can be repaired by a qualified technician within the terms of the maintenance agreement. Additionally, all required replacement parts are available and the equipment down time does not exceed that specified in the maintenance agreement.

b. After a thirty (30) day notice and cure period, if the equipment continues to fail to be operational or repairable as defined above, the Ordering Agency may take those remedies available to it under either the contractor warranty provisions or default clause set forth in FAR 52.212-4(m). Such recourse will not be the basis for increasing the monthly payment or extending the term of the lease.

c. **Maintenance and Support:**

Preventive Maintenance: The contractor shall provide preventive maintenance at least equal to the commercial practice. Intervals between scheduled maintenance services shall be no greater than those provided to commercial customers for the same model of copier.

Response to Service Calls: At minimum, during normal working hours (as specified by the using activity), Monday through Friday (excluding holidays observed by the Government), the contractor shall respond to verbal or written requests for service calls. The contractor shall repair the copier within either nine (9) working hours or sixteen (16) working hours (as specified by the User Activity) after the verbal or written request for the service call. However, for copiers identified as critical, the contractor shall respond to verbal requests for service calls and shall repair the copier within four (4) working hours. Copiers designated critical will be identified by the ordering activity in the order and shall not exceed 5% of the total number of copiers on the order. The contractor's response time on a service call starts, when authorized personnel of an ordering activity place a verbal request to the contractor for a service call or a written request is received by the contractor requesting a service call, whichever is earlier.

Contractors are required to submit a contingency plan to maintain full and proper operation of copiers and to avoid extended delays for repair or replacement of copiers.

Repair and Maintenance Service: Offerors shall submit and include in their pricelist's, a list of Names, addresses, and phone number(s) of authorized representatives, responsible to the contractor, who may be contacted by ordering activities for repair and maintenance of equipment. Only those authorized representatives listed may render maintenance service, unless the list is subsequently modified by mutual agreement between the contractor and the Contracting Officer, to add or terminate authorized representatives.

11. TITLE

During the Lease Term, the equipment shall always remain the property of the contractor. The Government shall have no right or interest in the equipment except as provided in this leasing agreement and shall hold the equipment subject and subordinate to the rights of the contractor.

12. STATE AND LOCAL TAXES (52-229-1)

Notwithstanding the terms of the Federal, State, and Local Taxes Clause, the contract price excludes all State and Local taxes levied on or measured by the contract or sales price of the services or completed supplies furnished under this contract. The contractor shall state separately on its invoices taxes excluded from the contract price, and the Government agrees either to pay the amount of the taxes (based on the current value of the equipment) to the contractor or provide evidence necessary to sustain an exemption.

See FAR clauses 52.229-1 State and Local Taxes; 52.229-3 Federal, State, and Local Taxes, which are incorporated by, reference..

13. EARLY TERMINATION CHARGES

Equipment leased under this agreement may be terminated at any time during a Government fiscal year by the Ordering Agency's Contracting Office responsible for the delivery order in accordance with FAR 52.212-4, paragraph (l) *Termination for the Government's Convenience.*

The Termination Ceiling Charge is a limit on the amount that a contractor may claim from the Ordering Agency on the termination for convenience of a lease or failure to renew a lease prior to the end of the lease term for reasons other than those set forth in section 14, Termination for Non-Appropriation. Termination ceiling charges will apply for each year of the lease term (See FAR 17.1). The Ordering Agency and contractor shall establish a Termination Ceiling amount. The Contracting Officer shall insert the Termination Ceiling Charge for amount of the first year in the order and modify it for successive years upon availability of funds.

No claim will be accepted for future costs: supplies, maintenance, usage charges or interest expense beyond the date of cancellation. In accordance with the bona fide needs rule, all termination charges must reasonably represent the value the Ordering Agency received for the work performed at cancellation based upon the shorter lease term. No termination cost will be associated with the expiration of the lease term.

Formula 1: FOR Lease To Own (LTOP) SIN 51-58

Termination Fee = pmt(i,n,P) *n - sum of PMT - FMV

"P" = Schedule Price of equipment at time of order, inclusive of Ordering Agency negotiated price reductions should be considered.
"PMT" = Actual Monthly Payment paid on order to termination
"i" = Monthly Interest Rate applicable to the order
"n" = number of months from order to termination
"pmt" = Monthly payment corrected to actual lease term"
"FMV" = Fair Market Value of equipment if returned at termination. Unit price adjustments, residual or FMV values used to calculate operating leases, should not be considered

Formula 2: For Operating leases SIN 51 58a and 51 58b

Termination Fee = PV (i, n,-PMT)

"PV"= Present Value
"i" = Interest rate per month, equal to the interest rate applicable to the calculation of the payment on the delivery order
"n"= Number of months remaining from termination date to the end of the lease term
"PMT" = Current monthly payment amount of the original payments through end of the lease

14. TERMINATION FOR NON APPROPRIATION

The Ordering Agency reasonably believes that the bona fide need will exist for the entire lease term and corresponding funds in an amount sufficient to make all payment for the lease term will be available to the Ordering Agency. Therefore, it is unlikely that leases entered into under the SINs 51 58/Lease to Own (Copiers), 51 58a/Operating Lease (Copier), and 51 58b/all other equipment will be terminated prior to the full lease term. Nevertheless, the Ordering Agency's Contracting Officer may terminate or not renew leases at the end of any initial base period or renewal period under this paragraph if (a) it no longer has a bona fide need the equipment or functionally similar equipment; or (b) there is a continuing need, but adequate funds have not been appropriated to the ordering agency in an amount sufficient to continue to make the lease payments. If this occurs, the Ordering Agency will promptly notify the contractor and the equipment lease will be cancelled at the end of the last fiscal year for which funds were appropriated. The determination of the availability of funds is made solely by the Government.

15. LEASE EXTENSIONS

Extension of the present lease term is not permitted. Future copier requirements shall be procured in accordance with FAR 8.4, FSS Ordering Procedures.

16. LEASE EXPIRATIONS – SIN 51 58/ LEASE TO OWN

Title to equipment installed under SIN 51 58 automatically transfers to the Government upon conclusion of the Lease Term Agreement.

17. LEASE EXPIRATIONS – SIN 51 58A/ OPERATING LEASE AND 51 58B/ ALL OTHER EQUIPMENT

Extension of the present lease term is not permitted. Future copier requirements shall be procured in accordance with FAR 8.4 covering Ordering Procedures.

Unless notified by the Ordering Agency that the Government intends to exercise its option to purchase the equipment, the equipment, upon the expiration of the lease term, will be removed by the contractor at the earliest practicable time. The Ordering Agency is responsible for removal charges. Unless specified under the schedule contract, removal charges will be administered outside the scope of the contract.

The equipment shall be in the same condition as when delivered, with the exception of ordinary wear and tear. The contractor shall conduct a timely inspection of the returned products and within thirty (30) days of the return, assert a claim if the condition of the equipment exceeds normal wear and tear.

In the event the Ordering Agency desires, at any time, to acquire title to equipment leased hereunder, the price will be mutually agreed upon by the parties.

18 RETURN OF EQUIPMENT

The Government will provide written instructions for the removal of the equipment. The Ordering Agency is required to provide serial numbers and exact location of equipment for pick up.

Upon receipt of this notice the contractor shall remove the equipment within thirty (30) days or a mutually agreed date and time. The Ordering Agency is responsible for rem oval charges. Unless specified under the schedule contract, removal charges will be administered outside the scope of the contract.

The equipment shall be in the same condition as when delivered, with the exception of ordinary wear and tear. The contractor shall conduct a timely inspection of the returned products and within thirty (30) days of the return, assert a claim if the condition of the equipment exceeds normal wear and tear.

Equipment not removed by the contractor within thirty (30) days of the date of notification by the Order Agency shall be considered as abandoned and subject to such disposal as the Government may deem appropriate.

Terms and Conditions Applicable to Rental SIN 51-55 (Renewals Only)

A. INVOICING

(i) On the last business day of each month, the Government shall complete and mail to RICOH the meter card setting forth the meter reading of rental Equipment during that month unless RICOH and Government have made other arrangements for obtaining the meter reading. Upon receipt of the meter card, RICOH will invoice the meter charge and monthly use charge for such month. If such meter card is not received by RICOH on a timely basis, RICOH shall be permitted to estimate or prorate the meter reading on the basis of a 30-day month and invoice accordingly.
(ii) If Equipment or Accessories are installed for less than a full month, the monthly use charge for such Equipment or Accessory shall be prorated on the basis of a 30-day month.
(iii) RICOH shall be under no obligation to monitor the use of Equipment to insure that invoices do not exceed the amounts shown on purchase orders. Consequently, the spending limitations shown on any purchase order do not bind RICOH.

B. DESCRIPTION OF RICOH RENTAL SERVICES

(i) RICOH shall maintain Equipment or Accessories subject to rental contracts in good working order in accordance with its service policies, as revised from time to time.
(ii) RICOH shall provide, during eight (8) RICOH business hours, Monday through Friday except for holidays observed by the Government or RICOH, maintenance and repair services, which shall include the replacement of parts that RICOH determines to be unserviceable.
(iii) If RICOH, in its sole judgment, determines that it cannot maintain a unit of Equipment or Accessory in good working order, RICOH shall replace such Equipment or Accessory with another unit of the same product designation as the unit of Equipment or Accessory it replaces (a "replacement unit"), and RICOH shall bear all installation, transportation, removal and rigging charges in connection with the installation of such replacement unit; provided, however, that (a) the replacement unit may be a reconditioned or otherwise used unit rather than a new unit; and (b) if a replacement unit of the same product designation as the unit of Equipment or Accessory it replaces is not available, the replacement unit may, in RICOH's sole discretion, be a product of substantially similar or greater capabilities.
(iv) The Government shall permit RICOH to install on-site engineering improvements designated by RICOH as "mandatory retrofits".
(v) The Government shall: (a) maintain Equipment in strict compliance with the instructions specified in this Price List and RICOH Operation Manual(s) including, but not limited to, the specifications for electrical service and space; (b) make or permit no alterations to Equipment or Accessories without RICOH's written permission; (c) attach no item to Equipment unless neither the Equipment nor such item has been altered and the combination is UL approved; (d) not move Equipment unless such Equipment is designated by RICOH as moveable; (e) not relocate Equipment to another address without RICOH's written permission; (f) not use any attachment or supply item which in the opinion of RICOH could cause damage to, or necessitate unreasonable or unusual servicing of Equipment; (g) not itself install developer in or remove developer from Equipment; (h) afford RICOH authorized personnel unrestricted access to Equipment; (i) pay for any damages to Equipment or Accessories from any cause other than ordinary use by the Government; and (j) bear the risk of loss of a unit of Equipment or an Accessory on or after its delivery at the destination specified by the Government.

C. PERIOD OF RENTAL

(i) The Period of Rental for the Contract Period Plan shall commence on the Commencement Date (as hereinafter defined) and shall continue until September 30 of that fiscal year.
(ii) The Period of Rental for the Extended Period Plan shall commence on the Commencement Date and shall continue until September 30 of that fiscal year with subsequent order to continue for the period of October 1 through September 30 of the succeeding fiscal year.
(iii) The Period of Rental for a Three Year Plan shall commence on the Commencement Date and shall continue until September 30 of that fiscal year with subsequent orders to continue by fiscal year until the Period of Rental shall terminate at the end of 36 calendar months.
(iv) If a rental contract pertains to: (a) a new installation, the Commencement Date shall be the date Equipment is installed and determined by RICOH to be operating satisfactorily; or (b) a conversion of Rental Plan, the Commencement Date shall be the date the Government places the order for a new rental contract.
(v) The Government has the option to renew a rental contract for Equipment for an additional 1-, 2- or 3-year period at the prices, terms and conditions specified in the Price List then in effect for such period by giving RICOH a renewal order effective on the first day of each succeeding fiscal year.
(vi) If an Accessory is attached to a unit of Equipment subject to a rental contract, the Period of Rental for such Accessory shall be concurrent with the Period of Rental for such unit of Equipment. In other cases, a rental contract for an Accessory shall commence on the date such Accessory is attached to a unit of Equipment and shall continue from month to month until either party gives the other party written notice of termination at least 30 days prior to such termination.

D. TERMINATION CHARGE

Except as otherwise specifically provided herein, upon termination of a rental contract for Equipment at any time other than at the end of the Period of Rental, the Government shall provide RICOH with 30 days prior written notice and shall pay a termination charge (the "Termination Charge") equal to the monthly use charge specified in this Price List, multiplied by the appropriate factor designated below:

If at Effective Date of Termination, Remaining Period of Rental is	Appropriate Factor for Termination Charge is
12 plus months	10
11 to 8 months	6
7 to 5 month	3
4 plus months	2

The above charges are for Rental (SIN 51-55) renewals only.

Termination charges for **CPC Plan (SIN 51-100C) and FRMF Plan (SIN 51-100F) are based on the standard GSA termination charges for GSA Operating Lease SIN 51-58a.**

E. EXCEPTION TO TERMINATION CHARGE

(i) Termination Prior to Equipment Installation

The Government may terminate a rental contract without incurring the Termination Charge by giving RICOH written notice of termination for any reason whatsoever; provided that RICOH receives such notice before it installs the Equipment pertaining to such contract; and provided, further, that the Government shall remain responsible for applicable charges including, but not limited to, installation charges.

(ii) Replacement of Rental Equipment with Purchased Equipment

(a) The Government may, at any time, purchase the rental Equipment pursuant to Paragraph G and thereby terminate the rental contract for such Equipment without incurring the Termination Charge.

(b) If the Government purchases or leases from Ricoh a unit of equipment which is to be installed in the same location, and is intended to service the copy volume, of the unit of the rental Equipment which the Government intends to replace with the purchased Equipment, the rental contract for such Equipment is terminated effective upon the installation of the purchased or leased Equipment and the Termination Charge for such rental Equipment is waived.

(iii) Replacement of Rental Equipment with Other Rental Equipment

(a) The Government may, at any time, trade a unit of already installed Equipment for another unit of Equipment (the "Replacement Equipment") by executing a rental contract for such Replacement Equipment and thereby terminate the rental contract for such already installed Equipment effective upon the installation of the Replacement Equipment without incurring the Termination Charge; provided that the Period of Rental of the Replacement Equipment is equal to or greater than the remainder of the Period of Rental of the already installed Equipment; and provided, further, that if (x) the monthly use charge for the Replacement Equipment is less than (y) the monthly use charge for the already installed Equipment, the Government shall pay the Trade Down Charge equal to the difference between (x) and (y) above multiplied by the appropriate factor specified in Paragraph D.

(b) The Government may, at any time, trade a unit of already installed Equipment for more than one unit of Replacement Equipment and thereby terminate the rental contract for such already installed Equipment effective upon the installation of the last unit of the Replacement Equipment without incurring the Termination Charge; provided that each of the Periods of Rental of the Replacement Equipment is equal to or greater than the remainder of the Period of Rental of the already installed Equipment; and provided, further, that if (x) the monthly use charge for the Replacement Equipment is less than (y) the monthly use charge for the already installed Equipment, the Government shall pay the Trade Down Charge equal to the difference between (x) and (y) above multiplied by the appropriate factor specified in Paragraph D.

(c) The Government may, at any time, trade more than one unit of already installed Equipment for a unit of Replacement Equipment by executing a rental contract for such Replacement Equipment and thereby terminate the rental contracts for such already installed Equipment effective upon the installation of the Replacement Equipment without incurring the Termination Charge; provided that the Period of Rental of the Replacement Equipment is equal to or greater than the remainder of the Period of Rental of each unit of the already installed Equipment; and provided, further, that if (x) the monthly use charge for the Replacement Equipment is less that (y) monthly use charge for already installed Equipment, the Government shall pay the Trade Down Charge equal to the difference between (x) and (y) above multiplied by the appropriate factor specified in Paragraph D.

(d) If, prior to the expiration of the rental contract for a unit of already installed Equipment, RICOH receives an order to trade such unit of already installed Equipment for another unit of Replacement Equipment having the monthly use charge less than that for the already installed Equipment and if RICOH cannot deliver and install such Replacement Equipment on or prior to such expiration date, the Government may renew the rental contract for the already installed Equipment and may terminate such rental contract upon installation of the Replacement Equipment without incurring the Trade Down Charge.

(e) The terms and conditions set forth in Subparagraphs E (iii) (a) through (d) are applicable only if the Replacement Equipment is installed in the same location, and is intended to service the copy volume, of the already installed Equipment.

(iv) Conversion of Rental Plan

With respect to any unit of Equipment, the Government may, at any time, convert from one Rental Plan to another Rental Plan by executing a new rental contract and thereby terminating the old rental contract without incurring the Termination Charge; provided that the Period of Rental under the new contract is equal to or greater than the remainder of the Period of Rental under the old rental contract being terminated.

(v) Introductory Evaluation Period

If any unit of Equipment rented under the Extended Period or Three-Year Plan pertains to a new installation (rather than, for example, a trade from another unit of Equipment; a conversion of Rental Plan, or a renewal), during the installation of such Equipment (the "Introductory Evaluation Period"), the Government shall be permitted to terminate the rental for such Equipment without incurring the Termination Charge or Trade Down Charge:

(a) By executing a new rental contract for such Equipment having a different Rental Plan;

(b) Effective upon the installation of Replacement Equipment traded for the Equipment described above; or

(c) Effective upon the expiration of the Introductory Evaluation Period by giving RICOH written notice of termination at least 10 days prior to the expiration of such Period.

(vi) Lack of Funds

If the funding authority of the Government agency or ordering activity fails to appropriate funds to enable the continuing payment of rental charges, such Government agency or ordering activity may terminate the rental contracts without incurring the Termination Charge by giving RICOH at least 30 days prior written notice of termination.

(vii) Units Installed 36 Months or Longer

Termination Charge is not applicable to any RICOH unit on or after the expiration of 36 full calendar months following installation of such unit. Any such unit may be terminated by Government for convenience by providing 30 days prior written notice to RICOH.

F. TERMINATION SIN 51-55

(i) RICOH shall be permitted to terminate any rental contract by giving the Government written notice of termination if the Government breaches any of the terms and conditions of such contract, or if RICOH deems itself insecure, because, in good faith, it anticipates a Government breach.

(ii) Upon termination of a rental contract for any reason whatsoever, the Government shall (a) immediately permit RICOH or representative of its sales and service location to enter the premises where the Equipment or Accessory rented under such contract is located and remove or disable such Equipment or Accessory; and (b) pay all unpaid meter charges and monthly use charges, and other applicable charges including, but not limited to, the Termination Charge (if any), then in effect.

G. RENTAL/PURCHASE (SIN 51-55) OR LTOP CONVERSION (SIN 51-58)

(i)(a) RICOH is offering a Rental/Purchase Conversion Credit option on Copiers and Accessories. The Government may deduct from the Single Unit Price in effect at the time of purchase the Credit (the "Rental/Purchase Conversion Credit"). Credit is calculated by (x) multiplying 2.5% of such Single Unit Price by the number of full calendar months (not in excess of 12) following installation if such purchase contract is executed during the first 12 full calendar months following installation; and in addition (y) multiplying 2.2% of such Single Unit Price by the number of full calendar months in excess of 12 (not in excess of 36) following installation if such purchase contract is executed after the first 12 full calendar months following installation. For the purpose of computing the Rental/Purchase Conversion Credit, the month during which the Government executes a purchase contract is counted as a full month, but the month of installation is not counted unless such installation was made on the first day of a calendar month. If the Government leases any such unit of Equipment (and any such accessory) pursuant to a RICOH Rental Investment Lease, the Government shall be entitled to reduced periodic rental payments. To determine the monthly LTOP payment, subtract the Rental/Purchase Conversion Credit from the Purchase Price, then multiply the result by the appropriate current factor. The expired rental term plus the LTOP term must not exceed 48 months.

(i)(b) Title to, and risk of loss of, any unit of rental Equipment and any Accessory attached thereto purchased by the Government shall pass to the Government (and the rental contract for such unit of Equipment and Accessory shall terminate) on the date the Government executes the purchase contract for such unit of Equipment and Accessory.

(i)(c) Except as provided in Paragraph (d) below, **ANY UNIT OF RENTAL EQUIPMENT AND ACCESSORY ATTACHED THERETO PURCHASED BY THE GOVERNMENT FROM RICOH IS SOLD ON AN "AS IS BASIS", WITHOUT WARRANTY**. RICOH warrants Full Maintenance availability on products converted from rental to purchase as indicated in Paragraphs B and C of RICOH's Terms and Conditions Applicable to Full Maintenance provided the Government initiates an FM Contract upon purchase of the in place rental Equipment.

(i)(d) Notwithstanding any provision provided in Subparagraph (c) above and the provisions of Paragraph A (i) of RICOH's Terms and Conditions Applicable to the Purchase of Equipment to the contrary, if a customer purchases a unit of rental equipment and accessory to it during the first six full calendar months of installation, the warranty provided in such Terms and Conditions applicable to the Purchase of Equipment shall be extended to such a unit for a period of 90 days after such purchase.

(ii) Except as otherwise provided in Paragraph G (ii), Rental/Purchase Conversion Credit is not transferable from one unit of Equipment or Accessory to another except for a unit of Equipment or an Accessory which was replaced at the initiation of RICOH solely for mechanical reasons. When so replaced, the replacement unit of Equipment or Accessory will be treated for purposes of this Paragraph G as the original unit of Equipment or Accessory.

(iii) Any unit of Equipment or any Accessory purchased under this Paragraph G is eligible for Quantity Purchase Price treatment as follows: (a) Units of Equipment or Accessories (if applicable) purchased under this Paragraph G count toward the total quantity used to determine the Quantity Purchase Level; and (b) The Price of any unit of Equipment or any Accessory purchased under this Paragraph G shall be the lesser of (x) the price as determined in Paragraph G (i) or G (ii); or (y) the Quantity Purchase Price, if any, set forth in this Price List under applicable Quantity Purchase Level as determined in Paragraph G(iv) (a).

H. COST PER COPY PHOTOCOPYING PLANS SIN 51-100C

The Ricoh award is for the GSA tier 1 CPC plan (1-25 units) however in accordance with GSA provisions, federal agencies may place orders with Ricoh under this SIN for quantities above the tier 1 threshold, and Ricoh will provide a spot discount from published awarded GSA contract prices for orders greater than 25 units. Typically orders for quantities of less than 25 units under this SIN will not qualify for spot discounts without written confirmation from Ricoh.

Under the GSA cost-per-copy photocopying plan, the customer pays a fixed cost for each copy made. The cost for each copy is based on the designated monthly volume range applicable to the copying equipment being used.

Photocopying equipment, accessories, attachments, copy-control devices/systems, all consumable supplies (except photocopier paper and transparency films), and full maintenance services (including repair parts) are provided by the contractor at no additional cost to the customer. Staples are included for use in devices offered to meet automatic stapling requirements.

I. FLAT RATE MONTHLY FEE PHOTOCOPYING PLANS SIN 51-100F

The Ricoh award is for the GSA tier 1 CPC plan (1-25 units) however in accordance with GSA provisions, federal agencies may place orders with Ricoh under this SIN for quantities above the tier 1 threshold, and Ricoh will provide a spot discount from published awarded GSA contract prices for orders greater than 25 units. Typically orders for quantities of less than 25 units under this SIN will not qualify for spot discounts without written confirmation from Ricoh.

Under the GSA flat-rate monthly-fee photocopying plan, the customer is charged a flat-rate monthly fee for copier service. The flat rate monthly fee is based on the designated monthly volume range applicable to the copier being used.

Photocopying equipment, accessories, attachments, copy-control devices/systems, all consumable supplies (except photocopier paper and transparency films), and full maintenance services (including repair parts) are provided by the contractor at no additional cost to the customer. Staples are included for use in devices offered to meet automatic stapling requirements.

J. CPC AND FRMF RESPONSE TO SERVICE CALLS SIN 51-100C AND 51-100F

During normal working hours (as specified by the using activity), Monday through Friday (excluding holidays observed by the Government), RICOH shall respond to verbal requests for service calls and shall repair the copier. RICOH shall repair the copier within either nine (9) working hours (or sixteen (16) working hours as specified by the using activity), after the verbal request for the service call. However, for copiers identified on the P.O. as critical, RICOH shall respond to verbal requests for service calls and shall repair the copier within four (4) working hours. The number of critical machines shall not exceed 5% of the total number of machines.

General Requirements for SIN 51-100C and SIN 51-100F

1. MAINTANANCE COVERAGE

The contractor shall not sell, rent, or lease any equipment to any activity for which the contractor cannot meet the provision of repair and maintenance services.

2. SECURITY

Will be handled at the task order level.

3. EQUIPMENT LOCATION

To facilitate prompt servicing of equipment, ordering activities must specify the type of equipment and whether equipment is for purchase, lease/rent or maintenance service, location of the equipment, and will advise the contractor of any subsequent change of equipment location.

4. PURCHASE ORDER/BILLING

The contractor shall bill the ordering agency as agreed upon.

5. TERMINATION

Ricoh's CPC and FRFF plans are based on SIN 51-58A, for termination, see Provisions Applicable to SIN 51-58A Operating Lease**.**

6. SAFETY PRECAUTIONS

The contractor shall identify to the ordering activity in writing (e.g., via instruction sheet, operators manual, maintenance manual) those safety precautions and hazardous materials as it relates to the purchase product made against this schedule.

7. OPERATOR'S TRAINING

Unless waived in the purchase order, the contractor shall provide operator training and operator manual for key operators as identified by the Government's authorized representative at the time of or prior to installation f the initial equipment. On an "as needed" basis within 3-5 working days of such request by the Government, additional training may be required to maintain qualified key operators when personnel are relocated or retire etc. It is estimated that one key operator per equipment per year will require training (e.g., for equipment that is in place for 4 years, it is estimated that 4 key operators will require training for that equipment).

8. EQUIPMENT DEMONSTATION

Unless waived in the purchase order, the contractor shall demonstrate that the equipment is properly functioning at the time of installation. This demonstration shall be accomplished pursuant to the operating instructions furnished with the equipment and in the presence of the Government's authorized representative.

9. EQUIPMENT ACCEPTANCE

Upon determination that the equipment is acceptable, the Government's authorized representative, having responsibility for accepting the equipment under the purchase order, will sign the equipment acceptance document.

10. COPIER PAPER

Copier equipment shall be fully capable of operating satisfactorily and producing acceptable copies

11. REMANUFACTURED EQUIPMENT

Ricoh does not intend to use remanufactured equipment at this time.

12. SPECIAL REQUIREMENTS

GUARANTEED MINIMUM MONTHLY VOLUMES FOR EACH VOLUME BAND (OCT 1999)

(a) SIN 51 100C – For Cost-Per-Copy, the Guaranteed Monthly Minimum Volume (i.e., guaranteed number of copies per month) for each copying machine volume band are as follows:

VOLUME BAND	GUARANTEED MONTHLY MINIMUM VOLUME
Volume Band 1	750 copies per month
Volume Band 2	5,001 copies per month
Volume Band 3	15,001 copies per month
Volume Band 4	30,001 copies per month
Volume Band 5	50,001 copies per month
Volume Band 6	80,001 copies per month
Volume Band 7	100,001 copies per month

(b) SIN 51 100C – Excluding the copying machines described in (c) and (d) below, if the actual monthly volume (i.e., actual total number of copies) is less than the "Guaranteed Monthly Minimum Volume" the Government agrees for the number of copies identified under the "Guaranteed Monthly Minimum Volume" at the order cost-per-copy price.

(c) SIN 51 100C – The "Guaranteed Monthly Minimum Volume" is not applicable to copier machines installed less than the total billing month. The actual copies from these machines will be paid at the order cost-per-copy price.

SIN 51 100C – In any month in which the Monthly Effectiveness Level (MEL) is less than 95 percent, the Government will not be responsible for paying any charge for lack of monthly volume.

(d) SIN 51 100F – Neither guaranteed or copy charges are applicable.

13. RICOH PRICING – COST PER COPY (CPC) (SIN 51-100c) & FLAT RATE MONTHLY FEE (FRMF) (SIN 51-100F)

Pricing for each volume band and tier for copiers will include:

- Consumables (except paper and transparencies);
- Full maintenance and repair services (including both preventive and emergency repairs during normal working hours); and
- Training for key operators, at the time of machine installation, as well as later as required by an ordering activity to maintain availability of trained key operators.

Ricoh will provide proposals based on order quantities from 1 to 500 copiers located in a single urban area.

14. CONSUMABLE SUPPLIES (CPC & FRMF)

All consumable supplies (with the exception of paper and transparencies) required for copier operations shall be included in the resulting price. This includes consumables (e.g., staples needed to operate stapling devices) whether optional or standard with the copiers covered under the contract. The Government will not be responsible for providing any consumable supplies (with the exception of paper and transparencies) and for moving, storing, inventorying, or issuing the contractor's consumable supplies. Paper and transparencies for use in the copiers will be purchased by the Government and made available at the using activity's location(s). On or about the same day of each month, the contractor shall ensure that each copier is furnished with sufficient consumable supplies (excluding paper and transparencies) to produce a volume of copies equal to that stated as the lower limit of the Volume Band for that particular copier. In addition, the contractor shall respond to verbal orders for additional consumable supplies under the following conditions: Orders for additional consumable supplies shall be accepted only from persons identified on the user activity's list of personnel authorized to order supplies. Orders will state the quantity and type of consumable supplies required and the location and serial number of the copier for which the additional consumable supplies are being ordered. The contractor shall deliver additional consumable supplies within a period of twenty-four hours after receipt of a verbal order. Consumable supplies from the contractor shall be delivered during normal business hours, Monday through Friday (excluding holidays observed by the Government), as specified by the using activity. The contractor shall identify a point of contact for consumable supplies (e.g., for order, receipt, coordination, delivery, and maintenance of supplies).

15. PARTS AND SUPPLIES AVAILABILITY (CPC & FRMF)

The contractor shall have parts and supplies in quantities sufficient to service the resulting contract. The contractor shall have a delivery system capable of delivery even under extreme emergency conditions.

16. MAINTENANCE AND SUPPORT (CPC & FRMF)

Preventive Maintenance: The contractor shall provide, at a minimum, one yearly service call as a preventive maintenance service to ensure that the each copier furnished under the resulting contract is maintained in fully operational condition. However, intervals between scheduled maintenance services shall be no greater than those provided to commercial customers for the same model of copier.

Response to Service Calls: During normal working hours (as specified by the using activity), Monday through Friday (excluding holidays observed by the Government), the contractor shall respond to verbal or written requests for service calls. The contractor shall repair the copier within either nine (9) working hours or sixteen (16) working hours (as specified by the using activity) after the verbal or written request for the service call. However, for copiers identified as critical, the contractor shall respond to verbal requests for service calls and shall repair the copier within four (4) working hours. Copiers designated critical will be identified by the ordering activity in the order and shall not exceed 5% of the total number of copiers on the order. The contractor's response time on a service call starts, when authorized personnel of an ordering activity place a verbal request to the contractor for a service call or a written request is received by the contractor requesting a service call, whichever is earlier.

Backup and Replacement Copiers: The contractor shall have backup and replacement copiers available to support each Volume Band. Backup copiers are those copiers that are temporarily installed. Replacement copiers are those copiers that are installed in place of a malfunctioning copier and that are intended to remain in place for the remainder of the contract period. When a copier cannot be repaired within sixteen (16) working hours, the ordering activity may require the contractor to provide a backup copier. The contractor shall deliver backup copiers within eight (8) working hours of the ordering activity's notifying the contractor that a backup copier is required. Backup copiers must equal or exceed the capabilities of the copier being replaced. The contractor's charges for use of the backup copier shall be identical to the charges for use of the original copier being replaced. If the original copier is not satisfactory repaired and returned to the ordering activity within a total of forty (40) working hours from the time of request for a service call, the contractor shall provide a replacement copier of the same make and model as the original copier or a replacement copier satisfactory to the ordering activity. If agreed to by the ordering activity, the backup copier may be used as the replacement copier. The contractor shall provide the ordering activity with the serial number, location, and model number of the replacement copier.

Qualification of Personnel (CPC & FRMF): The contractor shall have qualified management, service technicians and delivery personnel in sufficient numbers to service and support the requirements under contract within the specified response times. Failure to maintain sufficient qualified personnel to meet the required response times may result in termination for default. The offeror shall designate and identify a program/project manager who is authorized to make decisions to ensure that the contract implementation and day-to-day operation is efficient and effective. At the time of submission of the offer, the offeror shall submit descriptions of the pertinent experience of those employees that will have principal responsibility for the Cost-per-Copy and Flat rate Monthly Fee Programs (e.g., program/project manager; key customer service representatives, dispatchers, service technicians).

Repair and Maintenance Service: Offerors shall submit and include in their pricelist's, a list of Names, addresses, and phone number(s) of authorized representatives, responsible to the contractor, who may be contacted by ordering activities for repair and maintenance of equipment. Only those authorized representatives listed may render maintenance service, unless the list is subsequently modified by mutual agreement between the contractor and the Contracting Officer, to add or terminate authorized representatives.

17. COPIER OPERATIONAL EFFECTIVENESS (CPC & FRMF)

Initial Installation: If a copier is not fully operational at the time of installation, the Government may, at its option, require the contractor to provide an immediate replacement copier. A fully operational copier can satisfactorily perform all the performance functions applicable to the copier.

Replacement Copier: Replacement copiers are those copiers that are installed in place of a malfunctioning copier and that are intended to remain in place for the remainder of the contract period.

Monthly Effectiveness Level: Each copier furnished under the resulting contract shall perform at a 95 percent or higher Monthly Effectiveness Level (MEL). The Monthly Effectiveness Level percentage shall be calculated as follows: Monthly Effectiveness Level percent = ((total monthly production period in hours) minus (total number of copier downtime hours over the monthly production period) divided by (total monthly production period in hours)) times 100. The total monthly production period in hours shall be calculated by multiplying 8 hours per day times the number of working days in the month (weekend and Federal holidays excluded). The total number of copier downtime hours over the monthly production period shall be calculated as the number of minutes the copier was down (unable to perform one or more of its specified functions) during the monthly production period, divided by 60.

Credit (MEL): Failure of any copier to achieve a Monthly Effectiveness Level of 95 percent or higher shall entitle the Government to unilaterally take credit against the monthly billing for that particular copier. The credit shall be calculated as the difference between 100 percent and the achieved MEL percent times the maximum monthly charge. For copiers under a cost-per-copy plan, the maximum monthly charge will be calculated based on the lower number of copies specified under the Volume Band applicable to the copier. For copiers under a flat-rate monthly-fee plan, the maximum monthly charge will be the flat-rate monthly charge. In any month in which the Monthly Effectiveness Level is less than 95 percent, the Government will not be responsible for paying any charge for lack of monthly volume. If the MEL is 95 percent or higher, the Government will take no credit. e.g., Credit calculation: If the copier was down for 1200 minutes in a month which had a total monthly production period of 21 days and the monthly cost-per-copy charge was .005 cents per copy for a Volume Band III (30,000 copies per month) copier, the Government's unilateral credit against the monthly billing would be calculated as follows:

Total monthly productions hours: 21 days times 8 hours = 168 total monthly production hours
Total number of copier downtime hours over the monthly production period:
1200 minutes divided by 60 = 20 hours
MEL percent: (168 minus 20, divided by 168) times 100 = 88.095 percent
Credit percentage taken: 100 percent minus 88.095 percent = 11.005 percent Monthly maximum cost-per-copy charge:
($ .015 per copy) times (30,000 copies) = $450
Government credit: 11.005 percent of $450 = $ 49.52

If a copier operates at less than a 90 percent Monthly Effectiveness Level for any month, the ordering activity shall have the option to require the contractor to replace the copier with a new replacement copier and the Government's right to unilaterally take credit against the monthly billing.

In lieu of requiring a replacement of the copier, the ordering activity (e.g., Program Manager) may require the contractor's authorized representative to certify (e.g., on the repair record) that sufficient maintenance has been performed to ensure a 95 percent or higher Monthly Effectiveness Level. If the ordering activity exercises this option, the Government shall still retain the right to unilaterally take credit against the monthly billing. If after certification, the copier operates at less than 95 percent Monthly Effectiveness Level for the following month, the contractor shall replace the copier with a brand new copier or the Government may opt to terminate the contract for default.

18. TERMS AND CONDITIONS OF INSTALLATION SINS 51-100C AND 51-100F

RICOH will deliver and install Equipment and Accessories at the address specified by the Government; provided that the Government (i) makes available at that address the electrical service and space specified by RICOH; and (ii) pays any applicable Charges for Delivery and Installation stated in this Price List. RICOH will, at no additional charge, train in the operation of Equipment those key operators designated by the Government with the consent of RICOH, at a place and time acceptable to RICOH.
Repair parts are not included in this Price List but are available as open market items.

Ricoh Cost Per Copy Pricing Plan GSA SIN 51-100C

The Ricoh GSA Cost Per Copy (CPC) pricing Plan was developed on the SIN 5158A operating lease (fair market value lease), and may only be used for federal agency copier requirements of a minimum of 25 copiers or more. The monthly equipment basis pricing (MEBP) for this pricing plan is determined based on the GSA equipment purchase price plus 10%, multiplied by the prevailing fair market value (FMV) rate factor for the appropriate lease term of placement at the time of the order. The monthly minimum CPC rate is determined by dividing the MEBP by the guaranteed monthly Volume Band minimum applicable to the various volume bands as detailed below or as detailed in the customer request for quotation or statement of work.

As an example assuming the FMV lease rate for a 60 month operating lease is .02177 and the GSA Contract sales price of the copier equipment configuration required to meet the federal customer requirement is $5000, the GSA Contract MEBP would be determined as follows: $5000 * .02177 = $108.85.

The guaranteed monthly volume band minimums are as detailed below unless stipulated otherwise in writing in the customer requirements and agreed upon in writing by Ricoh.

Volume Band	Guaranteed Monthly Minimum Copy Volume
1	750
2	5,001
3	15,001
4	30,001
5	50,001
6	80,001
7	100,001
8	120,001

Service and supply pricing is determined by the published GSA SIN 51-57 supply inclusive cost per copy. In the event that the appropriate equipment required to meet the customer requirement had a published supply inclusive CPC of $.0109, this cost would be multiplied by the appropriate guaranteed monthly minimum volume (i.e. 750, 5,001, 15,001, etc.) and added to the equipment MEBP as determined above. Example volume band 2 minimum 5,001 *.0109 = $54.51 per month added to $108.85 or $163.36 monthly minimum charge for equipment, service, and supplies. The overage rate would be .0109 for every copy produced above 5,001 per month.

CPC RATE

Volume Band	Guaranteed Minimum Copy Volume	Equipment Purchase Price	FMV Lease Rate	MEBP	Supply Inclusive CPA	Mininum Supply Cost	Monthly Minimum CPC Rate	Overage Rate
1	750			$0.00		$0.00	$0.00	$0.0000
2	**5,001**	**$5,000.00**	**0.02177**	**$108.85**	**0.0109**	**$54.51**	**$163.36**	**$0.0109**
3	15,001			$0.00		$0.00	$0.00	$0.0000
4	30,001			$0.00		$0.00	$0.00	$0.0000
5	50,001			$0.00		$0.00	$0.00	$0.0000
6	80,001			$0.00		$0.00	$0.00	$0.0000
7	100,001			$0.00		$0.00	$0.00	$0.0000
8	120,001			$0.00		$0.00	$0.00	$0.0000

Ricoh Flat Rate Monthly Fee Pricing Plan GSA SIN 51-100F

The Ricoh GSA Flat Rate Monthly Fee (FRMF) pricing Plan was developed on the SIN 51-58A operating lease (fair market value lease), and may only be used for federal agency copier requirements of a minimum of 25 copiers or more. The monthly equipment basis pricing (MEBP) for this pricing plan is determined based on the GSA equipment purchase price plus 10%, multiplied by the prevailing fair market value (FMV) rate factor for the appropriate lease term of placement at the time of the order.

As an example assuming the FMV lease rate for a 60 month operating lease is .02177 and the GSA Contract sales price of the copier equipment configuration required to meet the federal customer requirement is $5000, the GSA Contract MEBP would be determined as follows:

$5000 + 10% ($500) = $5,500 * .02177 = $119.74.

The customer historical monthly copy volume ranges should not exceed those as detailed below unless stipulated otherwise in writing in the customer requirements and agreed upon in writing by Ricoh.

Volume Band	Monthly Copy Volume Range	Volume Band Maximum Monthly Volume
1	1 – 5,000	5,000
2	5,001 – 15,000	15,000
3	15,001 – 30,000	30,000
4	30,001 – 50,000	50,000
5	50,001 – 80,000	80,000
6	80,001 – 100,000	100,000
7	100,001 – 120,000	120,000
8	120,001 – 150,000	150,000

Service and supply pricing is determined by the published GSA SIN 51-57 supply inclusive cost per copy. In the event that the appropriate equipment required to meet the customer requirement had a published supply inclusive CPC of .0119, this cost will be multiplied by the appropriate maximum monthly volume (i.e. 5,000, 15,000, 30,000 etc.) and added to the equipment MEBP as determined above. Example volume band 2 maximum monthly volume 15,000 *.0109 = $163.50 per month added to $119.74 or $283.24 monthly fixed fee flat rate charge for equipment, service, and supplies.

FLAT RATE

Volume Band	Monthly Copy Voume Range	Volume Band Maximum Monthly Volume	Equipment Purchase Price	CPC Basis Price	FMV Lease Rate	MEBP	Supply Inclusive CPC	Mininum Supply Cost	Monthly Flat Rate Cost
1	1 - 5,000	5,000		$0.00		$0.00		$0.00	$0.00
2	**5,001 - 15,000**	**15,000**	**$5,000.00**	**$5,500.00**	**0.02177**	**$119.74**	**0.0109**	**$163.50**	**$283.24**
3	15,001 - 30,000	30,000		$0.00		$0.00		$0.00	$0.00
4	30,001 - 50,000	50,000		$0.00		$0.00		$0.00	$0.00
5	50,001 - 80,000	80,000		$0.00		$0.00		$0.00	$0.00
6	80,001 - 100,000	100,000		$0.00		$0.00		$0.00	$0.00
7	100,001 - 120,000	120,000		$0.00		$0.00		$0.00	$0.00
8	120,001 - 150,000	150,000		$0.00		$0.00		$0.00	$0.00

Terms and Conditions Applicable to Managed Print Services SIN: 51-500 and Needs Assessment and Analysis Services SIN: 51-501

1. RICOH GSA MANAGED PRINT SERVICES AWARD OVERVIEW

Ricoh USA, Inc. (RUSA) has a substantial base of experience in the Managed Print Services (MPS) market, and collectively are widely acknowledged as one of the leading providers of MPS in the North America market.

RUSA's experience and MPS expertise has been acknowledged by GSA in the award of both of the new GSA MPS Special Item Numbers (SINs). The newly awarded SIN 51-500 applies to MPS, and SIN 51-501 applies to Needs Assessment & Analysis Services (NAAS). Through these GSA SINS RUSA may now provide federal customers the same customized management and optimization of print output devices consistent with the best practices of the commercial MPS markets. The RUSA GSA MPS SINs allow RAC to leverage our vast service organizations to deploy MPS solutions on a broad agency wide basis, or deploy smaller scaled MPS solutions as might be needed by smaller organizations still retaining the capability of expanding with changing organizational needs.

The RUSA GSA SIN 51-500 MPS solutions have been designed to accommodate a vast range of governmental agency requirements. While typical commercial MPS solutions generally leverage extensive technology along with manpower to analyze and monitor customer document work flow, RUSA has the capability to provide GSA MPS customers flexibility to select the technology and dedicated labor solutions that best meet their agency goals, objectives, and security concerns as well.

The RUSA GSA MPS award was made recognizing that RUSA will actually use many other GSA SINs to provide GSA MPS customers with equipment and services. For example GSA SIN 51-100 Equipment Sales will be used for GSA customers looking to own their equipment, while SIN 51-58 will be used for Lease to Ownership requirements. It is anticipated that most GSA customers will be looking for operational leases without any implied ownership, and SIN 51-58a Operating Lease will be used for these lease requirements. For on-site equipment maintenance SIN 51-57 Maintenance with or without supplies will be used for maintenance services under MPS.

Each GSA customer ordering Managed Print Services from RUSA will be required to order at minimum the services of One (1) full time MPS Site Supervisor (with duties consistent with a fleet manager in commercial customer accounts) for a period of performance of not less than 12 months. Often in larger enterprise wide or more complicated environments the customer will be required to order the services of One (1) full time MPS Site Manager (with duties consistent with a Service Delivery Manager in commercial accounts) as well as the appropriate Site Supervisor(s) and MPS Customer Service Operators needed to support the customer environment, with the same minimum period of performance of not less than 12 months.

Following a complete and through examination of the GSA customer agency requirements conducted under SIN 51-501 Needs Assessment & Analysis Services (NAAS), the RUSA MPS proposal will stipulate the exact labor services required to support the customer requirement and detail the number and type of full time employees that will be required to support the GSA customer environment.

The MPS Site Manager (Commercial Service Delivery Manager) will be the primary contact to assist GSA customers with implementing change management within their environment, and will continuously monitor the GSA customer fleet and make recommendations for optimization of printing, faxing, and scanning resources. Typically the MPS Site Manager will coordinate with the GSA customer activity and make recommendations to obtain the appropriate technology solutions based on the level of MPS services desired, and the complexity of the customer environment. In the event that customary commercial technology solutions may not be deployed within GSA customer environments due to network security concerns, the MPS Site Manager may propose alternative or limited technology solutions consistent with customer objectives and security requirements.

Further, the MPS Site Manager may develop and deploy customized solutions for GSA customer MPS requirements leveraging MPS Site Supervisor and MPS Customer Service Operator personnel resources to the maximum extent practicable consistent with GSA customer goals, objectives, and network security requirements.

2. SIN 51-501 NEEDS ASSESSMENT & ANALYSIS SERVICES (NAAS)

RUSA will use the same labor categories and personnel from the SIN 51-500 MPS award to perform Assessments under SIN 51-501. Typically MPS assessments will be performed by a MPS Site Supervisor at the same hourly rate as awarded for SIN 51-500, however more complex assessments may require assessment services of a MPS Site Manager. Any travel costs that may apply are not included in the hourly rates, and would be billed separately as may be appropriate.

SIN: 51-500/51:501 Job Description	GSA Customer Hourly Rate
GSA MPS Site Manager	$46.79
GSA MPS Site Supervisor	$36.51
GSA MPS Customer Service Operator	$27.49

3. THIRD PARTY SUPPORT AGREEMENTS UNDER SIN 51-500

Under SIN 51-500, Ricoh GSA MPS customers having RUSA full time employees on site will be able to order support for their existing third party devices. GSA Contract prices for this support service have not yet been established.

4. COST PER COPY/PAGE BILLING REQUIREMENTS

The customary commercial practice in the MPS industry is to provide customer billing on a cost per page (cost per copy) basis, and it is anticipated that federal customers using the GSA MPS SIN may request their billing be provided in this manner as well. RUSA will attempt to coordinate with GSA to add a CPC program to support this SIN in the future, but prices to support this SIN have not yet.

5. Ricoh GSA CONTRACT SIN 51-500 JOB DESCRIPTIONS

GSA MPS Site Supervisor and GSA MPS Site Manager Primary Functions:

- Internal Communication Campaigns For Customer to drive Optimization and Cost Savings
- Change Management Agent
- Asset Management

- Support initiatives within the client's location as directed by the GSA Site Manager or GSA MPS Site Supervisor.
- Other administrative duties as required as part of the Statement of Work.

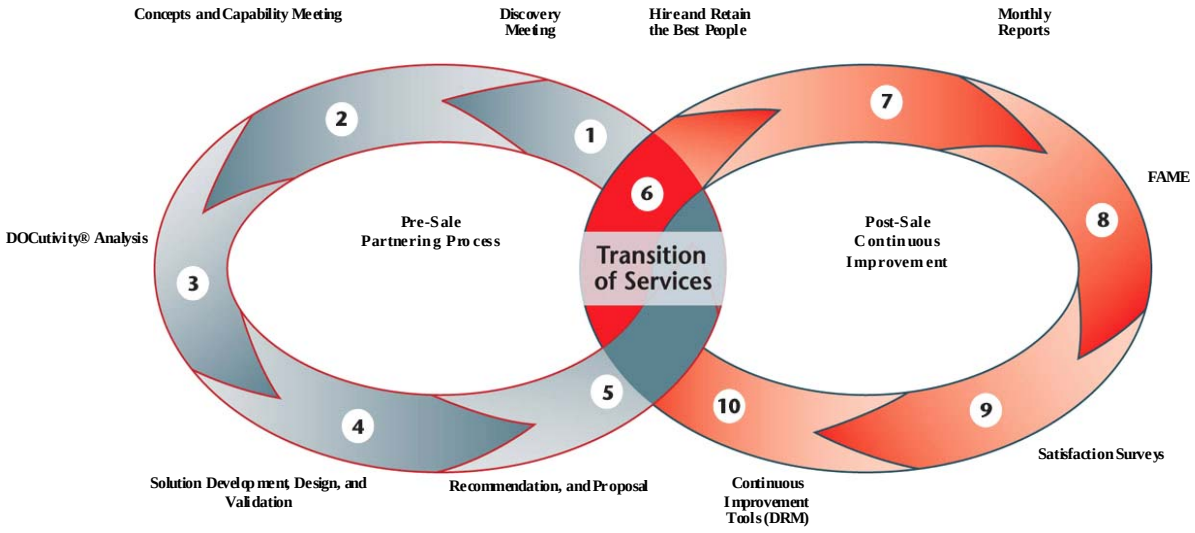
Terms and Conditions Applicable to Document Production Services (Facilities Management) SIN: 51-505

1. RICOH DOCUMENT PRODUCTION SERVICE SIN 51-505

The Ricoh GSA contract award for Document Production Services SIN 51-505 allows Ricoh to provide federal agencies the professional services to manage the entire document lifecycle. These services generally include but are not limited to document input and capture, document layout and design, document output and distribution, and document storage and archival as well. Ricoh professional services staff thoroughly research the image and office technologies needs of our customers and then provide the appropriate products, software, system integration, equipment services and support to ensure total customer satisfaction through out the entire document lifecycle. The vast experience of Ricoh professional services staff will ensure our federal customers of a long-term mutually beneficial quality partnership, and the optimization of document production.

Understanding Customer Requirements

Ricoh Professional Services staff utilizes an ongoing process designed to uncover both service enhancements and cost savings opportunities. The overall sales & process review is summarized in the picture below.



Customer Analysis & Sales Process Continued

Beginning with a Discovery Meeting, Ricoh professional services staff work closely with our customers to determine the overall scope of the customer requirements. The customer requirements are further refined during a Concepts & Capability Meeting and through a thorough onsite customer document production assessment.

The customer document production assessment is designed to uncover the greatest opportunity for service improvement and savings, and during this process, the Ricoh professional services staff will visit the location and perform a variety of tasks including, but not limited to:

- Site Walkthroughs in order to map out the current state of operations
- Customer & Department Interviews designed to uncover overall needs and improvement opportunities,
- Time & Motion Studies, which will be reviewed against industry standards, to determine specific, measureable improvement opportunities.

Once the appropriate level of data has been gathered our team (Sales, Operations & Analysts) meet to review the information and develop/design the overall service solution.

Customer Solution Development Process

With all the necessary customer information gathered, the Ricoh professional services analyst reviews and designs the appropriate customer document production solution. Ricoh professional services staff review all customer data and develop a customer Proforma which includes all necessary information gathered from the Request for Proposal (RFP) or onsite customer assessment. Examples of the data entered into the Proforma include, but are not limited to:

- Cost of Staff Required – This includes the overall positions and hourly/annual wages per position.
- Cost of Equipment Required – This includes both copy/print/scan/fax devices as well as any ancillary equipment necessary for successful service delivery.
- Cost of Equipment Maintenance - This is based on the aggregate remedial and preventive maintenance required and includes the cost of parts, labor, and transportation.
- Cost of Supplies- This includes the cost of consumable supplies and delivery costs to customer location.
- Cost of Software Required – This includes any internal software or 3rd party solutions necessary for successful service delivery.

The Proforma prices all hardware, personnel and services necessary to meet our customer's needs.

GSA Document Production Services Pricing Process

Ricoh's GSA document production services pricing strategy was developed utilizing the same pricing concepts as used in our customary commercial pricing process. The terms of Ricoh's GSA contract requires the various commodities and services proposed be offered and billed according to the appropriate Special Item Number (SIN) as detailed in the GSA contract. Accordingly, the GSA customer equipment costs would generally be attributable to SIN 51-58a, maintenance costs would typically be covered under SIN 51-57, supply costs would normally be attributable to SIN 51-101-2, and document production services labor costs would be attributed to SIN 51-505.

2. GENERAL REQUIREMENTS PERTINENT TO SERVICES

Ricoh shall provide all qualified personnel, materials, equipment, facilities and services as required by individual orders to perform these services. Services specified in an order may be performed at the contractor's facility, the ordering agency's facility or other sites, as designated in the order, as appropriate.

Ricoh shall maintain current and adequate insurance and bond coverage and in sufficient amounts as may be required by applicable Local, State and Federal regulations and/or laws for the duration of contract performance.

Ricoh shall have current certification, accreditation or license to provide the services as described and maintain certification, accreditation or license requirements for the duration of contract performance as required by applicable Local, State and Federal regulations and/or laws.

Ricoh shall provide all safety equipment and processes required in performance of the contract. All work shall be conducted in a safe manner and shall comply with all applicable Occupational Safety and Health Administration (OSHA) requirements and other applicable Local, State and Federal regulations and/or laws. Ricoh personnel shall demonstrate the required safety practices on a continual basis throughout the contract period.

No travel is anticipated under this offer and award.

The provisions of the Davis Bacon wage rates do not apply. Additional costs incurred due to unique Government requirements not priced on this contract will be addressed at the task order level as open market items. These items must be identified as "Open Market Items" in all quotes, orders and invoices.

Products offered under this program will be available through appropriate SINS awarded as applicable.

3. GSA DOL JOB CATEGORIES TO BE USED AS THE BASIS FOR THE GSA SIN 51-505 SERVICE RATES

Occupation Code 01111 - General Clerk I: This position requires familiarity with the terminology of the office unit. The General Clerk selects appropriate methods from a wide variety of procedures or makes simple adaptations and interpretations of a limited number of substantive guides and manuals. The clerical steps often vary in type or sequence, depending on the task. Recognized problems are referred to others. This DOL wage rate determination as detailed in the referenced wage determination below will apply to the proposed RPS labor category Customer Service Operator.

Occupation Code 01112 - General Clerk II: This position requires familiarity with the terminology of the office unit. The General Clerk selects appropriate methods from a wide variety of procedures or makes simple adaptations and interpretations of a limited number of substantive guides and manuals. The clerical steps often vary in type or sequence, depending on the task. Recognized problems are referred to others. This DOL wage rate determination as detailed in the referenced wage determination below will apply to the proposed RPS labor category Site Supervisor.

Occupation 01113 - General Clerk III: This position uses some subject-matter knowledge and judgment to complete assignments consisting of numerous steps varying in nature and sequence. The General Clerk III selects from alternative methods and refers problems not solvable by adapting or interpreting substantive guides, manuals, or procedures. Typical duties include: assisting in a variety of administrative matters; maintaining a wide variety of financial or other records (stored both manually and electronically); verifying statistical reports for accuracy and completeness; compiling information; and handling and adjusting complaints.

The General Clerk III may also direct lower level clerks. Positions above level IV are excluded. Such positions (which may include supervisory responsibility over lower level clerks) require workers to use a thorough knowledge of an office's work and routine to: 1) choose among widely varying methods and procedures to process complex transactions; and 2) select or devise steps necessary to complete assignments. Typical jobs covered by this exclusion include administrative assistants, clerical supervisors, and office managers. This DOL wage rate determination as detailed in the referenced wage determination below will apply to the proposed RPS labor category Site Manager.

Department of Labor Wage Determination

Wage determination WD 05-2259 for the counties of Barnstable, Bristol, Dukes, Nantucket, and Plymouth in Massachusetts dated June 2, 2009 was reviewed and is incorporated by reference in this offer and the resulting award. The occupation codes detailed above for the appropriate prevailing Wage Determination for the area in which work will be conducted under this award will be observed, and compliance with the prevailing locality wages and benefits prescribed for these areas will be throughout the duration of the contract award. The wages and benefits paid by Ricoh for areas in which work is to be performed under this contract will be as prescribed in the wage determinations from www.wdol.gov/sca.aspx.

4. SIN 51-505 RICOH JOB TITLES & DESCRIPTIONS

Communicate consistently with customer to ensure that all services are performed with high degree of satisfaction. Coordinate account production activities to meet all required Service Level Agreements. Assist with the development of and manage to SOP's. Manage staffing plans (including back-up during absences; temp usage). Identify opportunities within existing accounts for revenue and profit growth. Differences in position descriptions are based on level of experience, but are also impacted by site size, complexity, number of personnel, number of sites, etc.

SIN 51-506 Document Conversion Services

Executive Summary

Ricoh Legal Services is a leading provider of innovative document management systems and services, enabling customers to improve document workflow, increase efficiency, and outsource non-core services. Leveraging the manufacturing and engineering expertise of Ricoh Company, Ltd.—a $23.4 billion global technology innovator—with the experience and reach of our locally based sales and services teams, we provide end-to-end solutions and one of the industry's broadest portfolios of document management services, including on-site and off-site managed services, technical service and support, and customized workflow design and implementation.

Ricoh Legal Services was established through acquisition in 1992. After the acquisition of NightRider and Legal Copies International, Ricoh became the largest provider of legal document services in North America.

Ricoh integrates and applies industry-leading expertise and innovative technology to help companies meet today's complex document workflow demands and prepare them for tomorrow's challenges. Ricoh provides customized document conversion and litigation support services from over 40 US based document processing centers.
Through our expert resources, advanced technology and best-practice-based processes, we enable companies to:

- Reduce document-related costs.
- Automate time-consuming manual tasks.
- Contact a single provider for consistent national services.

Ricoh provides on-site facilities management services to approximately 150 law firms across more than 200 locations.

We have over 40 document processing centers across the country with more than 950 employees dedicated to providing document and litigation support services. These centers are secure, not open to the public, and configured to process confidential documents (including HIPAA, HITECH, PCI, CI, etc.)

- Ricoh manages 8,500 individual projects each month.
- Ricoh produces more than 20,000,000 images a month.
- Ricoh have over 200 dedicated coding assets.
- Ricoh processes 4 terabytes of data each month across 300 projects.
- Ricoh currently have 8 terabytes of active data in our online review tool, including 123 active review sites.

From capture and coding to duplication and distribution to comprehensive eDiscovery offerings, Ricoh Legal leverages the latest technology to create efficient document management solutions for clients. Some of Ricoh Legal's key capabilities are:

- Document Collection and Preparation
- Document Reprographic Services – Off-site or On-site
- Image Scanning Services – Off-site or On-site
- Color, Oversized, and Engineering Scanning and Printing
- Document / Bates Numbering
- Optical Character Recognition (OCR)
- eDiscovery Services – Electronic Data Acquisition and Production, Forensic Collections
- Document Production, including Distribution Planning and Logistics
- Document Conversion Services
- Database Creation
- Project Management and Technical Support

Ricoh Legal Security

Employee Training & Confidentiality
Ricoh knows that security starts with our employees. Our team is trained and experienced in managing sensitive and confidential documents. We provide focused training on proper security protocols, and all employees sign confidentiality agreements and receive pre-employment background checks. Ricoh's employee training and confidentiality includes:

- Annual confidential information training for all Document Services employees
- Employee confidentiality agreements
- Company code of ethics
- Pre-employment background checks
- Tenured management

Document Security

Ricoh understands the risks associated with the movement of client documents. That's why we track all documents from initial pickup, through the production process, and to delivery through a documented chain of custody. Ricoh offers company-owned vehicles to provide secure local document pickup and delivery services, and we offer encrypted media delivery upon request. Ricoh's document security includes:

- Local pickup and delivery by trained Ricoh employees
- Documents secured at every point
- Delivery media encrypted upon request
- Documented chain of custody
- All documents treated as confidential

Data Security

Ricoh recognizes the importance of protecting your data. For that reason, Ricoh treats all data, regardless of classification, as confidential. Ricoh's Legal Document Services team works hand-in-hand with Ricoh's operational and physical security teams, as well as legal and audit departments, to ensure that robust, relevant data policies, procedures and processes are always in place. Ricoh's data security includes:

- Secure coding process
- Dedicated, secure document network
- Password-protected screensavers
- Production area access restricted and monitored

Facility Security

Ricoh's document processing centers are secured with controlled, restricted and monitored access, and are not open to the public. Data, whether electronically stored information (ESI) or paper, are physically protected within our centers and is subject to our data security policies and processes. We also conduct regular and unannounced security audits to review and reinforce compliance. Ricoh's facility security includes:

- Dedicated corporate security team
- Site-specific business continuity plan
- Security leads in each location
- All facilities locked and secured 24x7
- Office access controlled and monitored
- All guests escorted
- Regular and unannounced security audits
- Clean desk policy
- No personal items allowed in production areas (including cell phones)
- Production areas controlled and monitored

GSA Pricing Process

Ricoh Legal Services (RLS) GSA Pricing Strategy was developed utilizing the same pricing concepts as used in our customary commercial pricing process. While commercial customers have little or no concern about the various cost attributable to the various commodities or services that comprise their total cost, the GSA contract requires the various

commodities and services be awarded according to the appropriate Special Item Number (SIN). As detailed in the GSA contract. Accordingly, the GSA customer equipment costs would generally be attributable to SIN 51-58a, the maintenance costs would typically be covered under SIN 51-57, supply costs would be normally attributable to SIN 51-101-1 and labor costs would be attributed to SIN 51-506.

Delivery and installation within a 60 mile radius are included in the hardware pricing. Delivery, installation and maintenance in any area beyond the 60-mile radius will be quoted as an open market item. Regardless of the distance from any authorized sales and service location, if rigging is required, the charges quoted will be on an open-market basis.
For relocation of currently installed equipment, see Relocation pricing by Volume Band and Mode of Transport.

Program Notes

(1) FM requested in an area beyond a 60-mile radius of a Ricoh authorized Service Location will be quoted as an open market item
(2) Pricing is for hardware; if networking/connecting/rigging involved, open market rates will apply.

Configuration Footnotes

(1) Mainframe includes 9" Color Operation Panel, Standard 100-Sheet ARDF, B/W PCL Printing, B/W & Color Scanning, 2 x 550 Sheet Paper Trays, 100-Sheet Bypass Tray, Duplex, 320GB HDD, 2GB RAM, Java VM, HDD Encryption, & included DOSS is now ISO 15408 Certified. Note: VM card is not pre-installed in the mainframe, however, the Java VM data itself is stored in the mainframe.
(2) One of following must be installed on the mainframe: PB3150, PB3220, PB3230, or Cabinet Type F. Only one of these options can be installed on the device.
(3) Paper Feed Unit PB3150 requires Caster Table Type M3. This paper feed unit lowers the total machine height, making it easy for all users to access the device (Section 508). The caster tray provides a platform with wheels to easily move the device.
(4) Caster Table Type M3cannot be installed with any of these Finisher or Paper Bank options: SR3140, SR3150, PB3220, or PB3230.
(5) LCIT RT3030 cannot be installed with with PB3150, Caster Table Type M3 or Cabinet Type F. LCIT RT3030 requires either PB3220, or PB3230.
(6) Only one of these options can be installed on the device.
(7) Must Order Bridge Unit BU3070 (416551) with any external Finisher.
(8) One of the following Paper Feed Units, or Cabinet, must be installed with any external Finisher: PB3220, PB3230 or Cabinet Type F.
(9) Provides additional output tray above the standard Internal Tray or Optional Bridge Unit/Internal Shift Tray/Internal Finisher (Holds 125 Sheets).
(10) Hole Punch Option for for Internal Finisher SR3130.
(11) Hole Punch Option for SR3140 Finisher and SR3150 Finisher.
(12) 10.1" WSGVA resolution control panel provides intuitive touchscreen control similar to smart phones and tablets. It offers advanced Web browser functionality, drag-and-drop icons and swipe scrolling. Note: Standard control panel must be removed by Service Technician. SDK Applications are not supported at this time.
(13) Only one of these additional connectivity options can be installed on the device.
(14) Required for Macintosh and PostScript environments. Recommended for printing complex PDF files.
(15) Used by customers who print using Netware. This option is required for the following functions: Use of iPrint ports, SNMP via IPX and Scan to NCP (IPX, TCP/IP).
(16) Web based applications, such as ICE and HotSpot require Browser capability which is standard on devices configured with the Smart Operation Panel. This option is required when ICE and/or HotSpot are configured with the Standard Operation Panel.
(17) Required to convert format and drag to desktop document stored via Copy or Print mode.
(18) Allows the creation of searchable PDFs when scanning. User can search the finished documents for specific words by using electronic search functions.
(19) 20-Pin Interface used to attach External Key Counter or Key Card Device.
(20) Used to mount external key counter to MFP.
(21) Table shaped option to position counter device on. USB Connector.
(22) Requires Browser Unit Type M12 to enable HotSpot printing. One year HotSpot subscription service included.
(23) Intentionally left blank.
(24) This option enables printing of XPS format documents.
(25) This option can hold an additional IP address, which then enables our MFPs to connect to two different network environments.
(26) Installation required to enable fax services: 33.6Kbps, approximately 2 Second Transmission Speed, Standard JBIG. Standard 320 Pages Memory. Includes standard Internet Fax (T.37), LAN Fax, IP-Fax (T.38), Fax Forwarding to Email & Paperless Fax function.
(27) Requires Fax Option Type M12.
(28) Enables users to send and receive faxes on a sub MFP via a main MFP. This option is required on both the Main MFP that has the Fax Option Type M12 installed and on the Sub MFP(s) needing remote fax.
(29) Up to two additional lines can be installed. For a maximum total of 3 lines.
(30) Increases fax memory to 2,240 pages and fax resolution to 400 x 400 dpi.
(31) Ricoh Advanced Technical Support (ATS) recommends the use of Power Protection products to minimize potential electrical interference with products.
(32) Prevents unauthorized copying of confidential documents that were created on other printers that have this option installed.
(33) For use with 3rd Party card readers like the RFIdeas PCProx readers on our price list. The card reader and it's cable would not be visible when this option is used. If using another type card reader be sure reader dimensions do not exceed 63.5mm x 106mm x 22mm in size.
(34) The Smart Card Reader Built-in Unit Type M12 and External Keyboard Bracket Type M3 cannot be installed on the same device.
(35) Certified DataOverwrite Security System Type I is an ISO 15408 Certified version of DOSS that overwrites Copy, Print, Scanner, and Fax latent data.

Mainframe is now ISO 15408 Common Criteria certified, so this option is no longer required to provide an ISO 15408 Certified version of DOSS.
(36) This bracket is required for the installation of External USB Keyboard.
(37) External Keyboard for inputting data with either SDK applications OR embedded applications.
(38) RHD kit uses MFP's Internal Hard Drive and makes it External
(39) Fax Option is NOT COMPATIBLE with RHD or ARHD
(40) ARHD includes an extra hard drive

Delivery and installation within a 60 mile radius are included in the hardware pricing. Delivery, installation and maintenance in any area beyond the 60-mile radius will be quoted as an open market item. Regardless of the distance from any authorized sales and service location, if rigging is required, the charges quoted will be on an open-market basis.
For relocation of currently installed equipment, see Relocation pricing by Volume Band and Mode of Transport.

Program Notes
(1) FM requested in an area beyond a 60-mile radius of a Ricoh authorized Service Location will be quoted as an open market item
(2) Pricing is for hardware; if networking/connecting/rigging involved, open market rates will apply.
Configuration Footnotes

(1) Mainframe includes 9" Color Operation Panel, Standard 220-Sheet SPDF, B/W PCL Printing, B/W & Color Scanning, 2 x 550 Sheet Paper Trays, 100-Sheet Bypass Tray, Duplex, 320GB HDD, 2GB RAM, Java VM, HDD Encryption, & included DOSS is ISO 15408 Certified. Note: VM card is not pre-installed in the mainframe, however, the Java VM data itself is stored in the mainframe.
(2) One of following must be installed on the mainframe: PB3150, PB3220, PB3230, or Cabinet Type F.
Only one of these options can be installed on the device.
(3) Paper Feed Unit PB3150 requires Caster Table Type M3. This paper feed unit lowers the total machine height, making it easy for all users to access the device (Section 508). The caster tray provides a platform with wheels to easily move the device.
(4) Caster Table Type M3 cannot be installed with any of these Finisher or Paper Bank options: SR3140, SR3150, SR3160, SR3170, PB3220, or PB3230.
(5) LCIT RT3030 (416548) cannot be installed with with PB3150, Caster Table Type M3 or Cabinet Type F. LCIT RT3030 requires either PB3220, or PB3230.
(6) Only one of these options can be installed on the device.
(7) Must Order Bridge Unit BU3070 with any external Finisher.
(8) One of the following Paper Feed Units, or Cabinet, must be installed with any external Finisher: PB3220, PB3230, or Cabinet Type F.
(9) Provides additional output tray above the standard Internal Tray or Optional Bridge Unit/Internal Shift Tray/Internal Finisher (Holds 125 Sheets).
(10) Hole Punch Option for for Internal Finisher SR3130.
(11) Hole Punch Option for SR3140 Finisherand SR3150 Finisher.
(12) Hole Punch Option for SR3160 Finisher and SR3170 Finisher .
(13) Internal Finisher SR3130is not compatible with MP6054.
(14) 10.1" WSGVA resolution control panel provides intuitive touchscreen control similar to smart phones and tablets. It offers advanced Web browser functionality, drag-and-drop icons and swipe scrolling. Note: Standard control panel must be removed by Service Technician.
(15) Only one of these additional connectivity options can be installed on the device.
(16) Required for Macintosh and PostScript environments.
(17) Used by customers who print using Netware. This option is required for the following functions: Use of iPrint ports, SNMP via IPX and Scan to NCP (IPX, TCP/IP).
(18) Web based applications, such as ICE and HotSpot require Browser capability which is standard on devices configured with the Smart Operation Panel (416910). This option is required when ICE and/or HotSpot are configured with the Standard Operation Panel.
(19) Required to convert format and drag to desktop document stored via Copy or Print mode.
(20) Allows the creation of searchable PDFs when scanning. User can search the finished documents for specific words by using electronic search functions.
(21) 20-Pin Interface used to attach External Key Counter or Key Card Device.
(22) Used to mount external key counter to MFP.
(23) Table shaped option to position counter device on. USB Connector.
(24) Requires Browser Unit Type M12 (417080) to enable HotSpot printing. One year HotSpot subscription service included.
(25) Intentionally left blank pending introduction of additional option (tentatively scheduled for release May 2015).
(26) This option enables printing of XPS format documents.
(27) This option can hold an additional IP address, which then enables our MFPs to connect to two different network environments.
(28) Installation required to enable fax services: 33.6Kbps, approximately 2 Second Transmission Speed, Standard JBIG. Standard 320 Pages Memory. Includes standard Internet Fax (T.37), LAN Fax, IP-Fax (T.38), Fax Forwarding to Email & Paperless Fax function.
(29) Requires Fax Option Type M12.
(30) Enables users to send and receive faxes on a sub MFP via a main MFP. This option is required on both the Main MFP that has the Fax Option Type M12 installed and on (the Sub MFP(s) needing remote fax.

(31) Up to two additional lines can be installed. For a maximum total of 3 lines.
(32) Increases fax memory to 2,240 pages and fax resolution to 400 x 400 dpi.
(33) Ricoh Advanced Technical Support (ATS) recommends the use of Power Protection products to minimize potential electrical interference with products.
(34) Prevents unauthorized copying of confidential documents that were created on other printers that have this option installed.
(35) For use with 3rd Party card readers like the RFIdeas PCProx readers on our price list. The card reader and it's cable would not be visible when this option is used. If using another type card reader be sure reader dimensions do not exceed 63.5mm x 106mm x 22mm in size.
(36) The Smart Card Reader Built-in Unit Type M12 and External Keyboard Bracket Type M3 cannot be installed on the same device.
(37) This bracket is required for the installation of External USB Keyboard.
(38) External Keyboard for inputting data with either SDK applications OR embedded applications.
(39) Card Reader only - no cards are provided. Used with Common Access Card (CAC)/Personal Identity Verification (PIV) Authentication Solution.
(40) RHD kit uses MFP's Internal Hard Drive and makes it External
(41) Fax Option is NOT COMPATIBLE with RHD or ARHD
(42) ARHD includes an extra hard drive

Energy Star Copier

Ricoh USA, Inc. has determined that the MP 4054SP, MP 5054SPG. MP6054SPG Digital Imaging Systems meet the Energy Star® guidelines for energy efficiency.

MP 6503SP / MP 7503SP / MP 9003SP Digital Imaging Systems

Delivery and installation within a 60 mile radius is included in the hardware pricing. Delivery, installation, relocation and maintenance in any area beyond the 60-mile radius will be quoted as an open-market item. Regardless of the distance from any authorized sales and service location, if rigging is required, the charges quoted will be on an open-market basis.

Supply Footnotes
(1) Yields are based on 8½" x 11" copies using a 5% image density original.
(2) No starter kit is included.

Program Notes
(1) FM requested in an area beyond a 60-mile radius of a Ricoh authorized Service Location will be quoted as an open market item
(2) Pricing is for hardware; if networking/connecting/rigging involved, open market rates will apply.

MP 6503SPSP, MP 7503SPSP, MP 9003SPSP Notes:
(1) System configuration requires a finisher option or the copy tray.
(2) 65/75/90 ppm A3 BW MFP -Includes Standard 10.1" Smart Operation Panel, 220 Sheet SPDF, Print/Scan capabilities (NIC included), 1 x 1,550 Sheet Tandem Tray, 2 x 550 Sheet Paper Trays, 100 Sheet Bypass Tray, Auto Duplex, embedded Java, 2.0 GB RAM, 320 GB HDD, DOSS, HDD Encryption, Scan to and Print from USB/SD card. (3) 500 Sheet Copy Exit Tray.
(4) 4,000 Sheet capacity LCIT (8 1/2" x 11").
(5) Converts RT4040 (417634) to 8 1/2" x 14" or 8 1/2" x 11" SEF (2,500 Sheets).
(6) 3,000-sheet finisher with 65-sheet staple capacity.
(7) 2,000-sheet booket finisher with 65-sheet staple capacity and 20-sheet saddle-stitch capacity.
(8) 3,000-sheet finisher with 100-sheet staple capacity.
(9) Compatible only with SR4120 (417628) or SR4130 (417629) Finishers.
(10) Compatible only with SR4080 (415900) Finisher.
(11) System cannot be configured with both the Cover Interposer option and the Mailbox CS4010 (416633)
(12) Compatible only with SR4120 (417628) or SR4130 (417629) Finishers.
(13) Compatible only with SR4080 (415900) Finisher.
(14) Neatly arranges output on Finisher Stack Tray.
(15) 9 Bin 100 Sheet Mailbox
(16) Mult-folding Unit is compatible with either the SR4120 (417628), SR4130 (417629) or SR4080 (415900) Finishers.
(17) Required for tab copy/printing.
(18) Replaces the standard tandem tray (Tray 1) to hold 11" x 17", 8 1/2" x 14" or 8 1/2" x 11" paper with 1,000-sheet capacity.
(19) Table shaped option used to place either card reader or counter device.
(20) Key counter interface used to attach external key counter or key card device.
(21) Required for Macintosh and PostScript printing environments. Recommended for printing PDf and complex files.
(22) Allows device connection with legacy computer equipment. Can not be installed with IEEE802.11 a/g/n Wireless Interface Type M19 (417493), File Format Converter Type M19 (417508) or Extended USB Board Type M19 (417566)
(23) Allows MFP device to connect to the network over WiFi. Can not be installed with IEEE1284 Interface Board Type M19 (417596), File Format Converter Type M19 (417508) or Extended USB Board Type M19 (417566)
(24) This options enables direct printing of XPS format documents.
(25) Intelligent Printer Data Stream (IPDS).
(26) This option can supports an additional IP address, which then enables the device to connect to two different network environments. Can not be installed with IEEE802.11 a/g/n Wireless Interface Type M19 (417493), IEEE1284 Interface Board Type M19 (417596) or File Format Converter Type M19 (417508) or Extended USB Board Type M19 (417566)
(27) Required for printing from USB Type B port.
(28) Required for downloading documents stored to Document Server via copier or printer mode to your PC using Web Image Monitor. Can not be installed with USB Device Server Option Type M19 (417567), IEEE802.11 a/g/n Wireless Interface Type M19 (417493), or IEEE1284 Interface Board Type M19 (417596)
(29) Allows the creation of searchable PDFs when scanning. User can search the finished documents for specific words by using electronic search functions.
(30) Installation required to enable fax services: 33.6Kbps, approximately 2 Second Transmission Speed, Standard JBIG. Standard 320 Pages Memory. Includes standard Internet Fax (T.37), LAN Fax, IP-Fax (T.38), Fax Forwarding to Email & Paperless Fax function.
(31) Adds one additional fax line. Up to two lines may be added for a maximum of three lines. Requires Fax Option Type M25 (417636)
(32) Expansion memory. Provides additional 64MB memory for facsimile functions. Requires Fax Option Type M25 (417636)
(33) Enables users to send and receive faxes from the sub machines (upto 6) via the Primary MFP. Communicates over the network with the unit that has the fax option. Requires the Fax Option Type M25 (417636).
(34) This is an ISO 15408 Certified version of DOSS that overwrites Copy, Print, Scanner, and Fax latent data. Mainframe is targeted to be ISO 15408 Certified in Nov 2016
(35) Connects two systems (MP6503/MP 7503 or MP 9003) together, so a job can be divided and copied on both systems simultaneously.
(36) This bracket is required for the installation of an External USB Keyboard. Can not be installed with Smart Card Reader Built-in Unit Type M19 (417495) or NFC Card Reader Type M19 (417573).
(37) Used to authenticate users for logging into the device only. Does not suppport Java SDK applications. Can not be installed with External Keyboard Bracket Type M25 (417696)
(38) Can not be installed with External Keyboard Bracket Type M25 (417696)
(39) Ricoh Advanced Technical Support (ATS) recommends the use of Power Protection products to minimize potential electrical interference with products. For use on the MP 6503 (417609) and MP 7503 (417610) only.
(40) Ricoh Advanced Technical Support (ATS) recommends the use of Power Protection products to minimize potential electrical interference with products. For use on the MP 9003 (417611) only.
(41) One year HotSpot subscription service included.

Energy Star Copier
Ricoh USA has determined that the MP 6503SP, MP 7503SP, MP 9003SP Digital Imaging Systems meet the Energy Star guidelines for energy efficiency.

415009	Staple Type T; 5000 per Ctg (1 Ctg per Ctn)	5,000	29
415010	Staple Refill Type T; 5,000 per Crtg. (2 Crtg/Carton)	10,000	32
334049	Stamp (Markers) Type 30	12,000	21

Delivery and installation within a 60 mile radius are included in the hardware pricing. Delivery, installation and maintenance in any area beyond the 60-mile radius will be quoted as an open market item. Regardless of the distance from any authorized sales and service location, if rigging is required, the charges quoted will be on an open-market basis.
For relocation of currently installed equipment, see Relocation pricing by Volume Band and Mode of Transport.

Program Notes

(1) FM requested in an area beyond a 60-mile radius of a Ricoh authorized Service Location will be quoted as an open market item
(2) Pricing is for hardware; if networking/connecting/rigging involved, open market rates will apply.

Configuration Footnotes

(1) Mainframe includes standard 100 Sheet ARDF, 100-Sheet Bypass Tray, 275GB HDD, 1.5 GB RAM, Java incl. on HDD, 2 x 550 Sheet Paper Trays, PCL5c/PCL6 Printing & Scan to Email/Folder. HDD Encryption & included DOSS is now ISO 15408 Certified.
(2) Mainframe requires installation of either the Cabinet Type F, the Paper Feed Unit PB3220 or the Paper Feed Unit PB3150 with the Caster Table Type M3. Only one of these options can be installed on the device.
(3) Paper Feed Unit PB3150: Additional 1 x 550 sheet paper tray
(4) The Caster Table Type M3 is a mandatory requirement for the Paper Feed unit Type PB3150.
(5) Paper Feed Unit PB3220: Additional 2 x 550 sheet paper tray
(6) 1 Bin Tray BN3110: Paper Feed Unit PB3210 - 100 Sheet capacity. Provides additional output tray to separate fax/print output from copy.
(7) Internal Shift Tray SH3070: 250 Sheet Capacity. Shift sorts documents up to 11" x 17". Cannot be installed with Internal Finisher SR3130.
(8) Internal Finisher SR3130: 500 Sheet Finisher with 50-Sheet Stapling (LTR). Cannot be installed with the Internal Shift Tray SH3070.
(9) Internal Finisher SR3180: 250 Sheet Stapleless Finisher with staple-less finishing up to 5-Sheets (20lb Bond)- cannot be installed with either the Internal Finisher SR3130 or the Internal Shift Tray SH3070.
(10) Punch Unit PU3040 NA: 2 or 3 Hole Punch Option. Must install the Internal Finisher SR3130 with this option
(11) Cabinet Type F: Cabinet option for the MP C2003/MP C2503. Cannot be installed with the Paper Feed Unit PB3210 or the Paper Feed Unit Type PB3150 .
(12) Memory Unit Type M3 2GB: Additional Memory for the MP C2003/MP C2503 - recommended in order to support 3rd party SDK applications. Required to enable web browser functionality.
(13) Smart Operation Panel Type M3: 10.1" WSGVA resolution control panel provides intuitive touchscreen control similar to smart phones and tablets. It offers advanced Web browser functionality, drag-and-drop icons and swipe scrolling. Note: Standard control panel must be removed by Service Technician.
(14) Imageable Area Extension Unit Type M3 allows customers to print crop marks for proofing SRA3/12.6" documents.
(15) Card Reader Bracket Type 3352: Table shaped option used to place either card reader or counter device. USB Connector.
(16) Key Counter Bracket Type M3: 4 pin interface used to mount external key counter to MFP.
(17) Postscript3 Unit Type M3: Required for printing from Mac OS. Recommended for printing more complex color and PDF files.
(18) Camera Direct Print Card Type M3: Allows users to connect a PictBridge-compatible digital camera directly to the MFP, enabling the printing of photos without a computer.
(19) OCR Unit Type M2: This function embeds invisible text on scanned images of PDF and enables users to search PDF files by arbitrary keywords. Searchable PDF files can be sent to email, folders and external media (SD/USB).
(20) Browser Unit Type M9: Used for Browser Features like ICE. Also required with HotSpot MFP Option Type S to enable HotSpot printing. Not compatible with all Web Sites. Memory Unit Type M3 2GB must also be installed.
(21) Only one of these additional connectivity options can be installed on the device: IEEE1284 Interface Board Type A, IEEE 802.11a/g/n Interface Unit Type M2.
(22) Optional Counter Interface Unit Type A: 20-Pin Interface used to attach external key counter or key card device.
(23) File Format Converter Type E: Required to convert file format and drag to desktop document stored via Document Server.
(24) SD card for NetWare printing Type M3: Used by customers who print using Netware. This option is required for the following functions: Use of iPrint ports, SNMP via IPX and Scan to NCP (IPX, TCP/IP).
(25) External Keyboard Bracket Type M3: This bracket is required for the installation of External USB Keyboard.
(26) Fax Option Type M3: Installation required to enable fax services: 33.6Kbps, approximately 2 Second Transmission Speed, Standard JBIG. Standard 320 Pages Memory. Includes standard Internet Fax (T.37), LAN Fax, IP-Fax (T.38), Fax Forwarding to Email & Paperless Fax function.
(27) 32MB Memory Unit Type B: Increases fax memory to 2,240 pages and fax resolution to 400 x 400 dpi. Requires Fax Option Type M3.
(28) Fax Connection Unit Type M3: Enables users to send and receive faxes on a sub MFP via a main MFP. This option is required on both the Main MFP that has the Fax Option Type M3 installed and on the Sub MFP(s) needing remote fax.
(29) G3 Interface Unit Type M3: Up to two additional lines can be installed. For a maximum total of 3 lines. Requires Fax Option Type M3.
(30) IPDS Unit Type M3: Intelligent Printer Data Stream (IPDS).
(31) ESP XG-PCS-15D: Ricoh Advanced Technical Support (ATS) recommends the use of Power Protection products to minimize potential electrical interference with products.
(32) Copy Data Security Unit Type G: For use with Ricoh & 3rd party software solutions. The smart card reader and its cable will be covered inside the mainframe when this option is attached. Not all card readers may be supported. The Smart Card Reader Built-in Unit Type M2 and External Keyboard Bracket Type M3 cannot be installed on the same device.
(33) Smart Card Reader Built-in Unit Type M2: For use with Ricoh & 3rd party software solutions. The smart card reader and its cable will be covered inside the mainframe when this option is attached. Not all card readers may be supported. The Smart Card Reader Built-in Unit Type M2 and External Keyboard Bracket Type M3 cannot be installed on the same device.
(34) Certified DataOverwrite Security System Type I: This is an ISO 15408 Certified version of DOSS that overwrites Copy, Print, Scanner, and Fax latent data. Mainframe now ISO 15408 Common Criteria certified, so this option is no longer required to provide an ISO 15408.
(35) Embedded HotSpot Type S: Requires Browser Unit Type M9 and Memory Unit Type M3 2GB (007208MIU) to enable HotSpot printing. One year HotSpot subscription service included.
(36) External USB Keyboard (No Bracket): External Keyboard for inputting data with either SDK applications OR embedded applications.

Energy Star Copier

Ricoh USA, Inc. has determined that the MP C2003G, MP C2503G Color Digital Imaging Systems meet the Energy Star® guidelines for energy efficiency.

MP C3003G / MP C3503G Color Digital Imaging Systems

Ricoh USA, Inc has determined that these products meet the ENERGY STAR ® guidelines for energy efficiency.

GENERAL SPECS/PAPER HANDLING

First Copy Time:	7.1 sec color/4.6 sec black
Multicopy (Ltr/Lgl/Ldgr):	30 cpm color/30 cpm black
Warm-up Time:	19 sec
Std Paper Source(s):	Dual drawer
Std Paper Capacity:	550/550 sheets
Paper Weights:	14-lb bond to 140-lb index
Bypass/Paper Weights:	100-sheet/14-lb bond to 110-lb cover
Max Paper Sources/Cap:	5/4,700 sheets

Delivery and installation within a 60 mile radius is included in the hardware pricing. Delivery, installation, relocation and maintenance in any area beyond the 60-mile radius will be quoted as an open- market item. Regardless of the distance from any authorized sales and service location, if rigging is required, the charges quoted will be on an open-market basis.

Program Notes

(1) FM requested in an area beyond a 60-mile radius of a Ricoh authorized Service Location will be quoted as an open market item
(2) Pricing is for hardware; if networking/connecting/rigging involved, open market rates will apply.

Configuration Footnotes

(1) MP C3003G and MP C3503G are designed for a max monthly volume of 20K pages. (Letter paper, 20lb. Bond).
(2) Mainframe includes 9" Color Touch Control Panel, 100-Sheet ARDF, Duplex, 2 x 550-Sheet Paper Trays, 100-Sheet Bypass Tray, Drums, Developer, Scan/Print Kit, USB Host Interface, Gigabit Ethernet, DOSS, PDF Direct Print, HDD Encryption, Java VM Card, Scan to/Print From USB/SD Card, 1.5GB RAM, & 250GB HDD. Envelope feeding via standard 2nd paper drawer & bypass tray. (The standard DOSS included with the mainframe is ISO 15408 certified).
(3) One of following: PB3150, PB3160, PB3230 or Cabinet Type F must be installed on the mainframe.
(4) Paper Feed Unit PB3150 requires Caster Table Type M3. This paper feed unit lowers the total machine height, making it easy for all users to access the device (Section 508). The caster tray provides a platform with wheels to easily move the device.
(5) LCIT RT3030 cannot be installed with PB3150, Caster Table Type M3 or Cabinet Type F.
(6) Only one of these options can be installed on the device: Internal Shift Tray SH3070, Finisher SR3140, Booklet Finisher SR3150, Internal Finisher SR3130.
(7) Must Order BU3070 Bridge Unit with any external Finisher.
(8) Punch Unit PU3040NA is a Hole Punch Option for SR3130 Finisher.
(9) 1 Bin Tray BN3110 provides additional output tray above the standard Internal Tray or Optional Bridge Unit/Internal Shift Tray/Internal Finisher (Holds 125 Sheets).
(10) The Certified DataOverWrite Security System that ships standard with the mainframe does not overwrite the HDD for the Color Controller E-22C.
(11) Punch Unit PU3050NA is a Hole Punch Option for SR3150 & SR3140 Finishers.
(12) Key Counter Bracket Type M3 is a 4 Pin interface used to mount external key counter to MFP.
(13) Optional Counter Interface Unit Type A is a 20-Pin Interface used to attach external key counter or key card device.
(14) SD Card for NetWare Printing Type M3: Used by customers who print using Netware. This option is required for the following functions: Use of iPrint ports, SNMP via IPX and Scan to NCP (IPX, TCP/IP).
(15) Card Reader Bracket Type 3352: Table shaped option used to place either card reader or counter device. USB Connector.
(16) Imageable Area Extension Unit Type M3 allows customers to print crop marks for proofing SRA3/12.6" documents.
(17) Fax Option Type M3 - Installation required to enable fax services: 33.6Kbps, approximately 2 Second Transmission Speed, Standard JBIG. Standard 320 Pages Memory. Includes standard Internet Fax (T.37), LAN Fax, IP-Fax (T.38), Fax Forwarding to Email & Paperless Fax function.
(18) G3 Interface Unit Type M3: Up to two additional lines can be installed. For a maximum total of 3 lines.
(19) G3 Interface Unit Type M3 and 32MB Memory Unit Type B require Fax Option Type M3.
(20) 32MB Memory Unit Type B increases fax memory to 2,240 pages and fax resolution to 400 x 400 dpi.
(21) Only one of these additional connectivity options can be installed on the device: IEEE1284 Interface Board Type A, IEEE802.11a/g/n Interface Unit Type M2.
(22) Camera Direct Print Card Type M3 allows users to connect a PictBridge-compatible digital camera directly to the MFP, enabling the printing of photos without a computer.
(23) PostScript 3 Unit Type M3 is required for printing from Mac OS. Recommended for printing more complex color and PDF files.
(24) OCR Unit Type M2: This function embeds invisible texts on scanned images of PDF and enables users to search PDF files by arbitrary keywords. Searchable PDF files can be sent to email., folders and external media (SD/USB).
(25) File Format Converter Type E: Required to convert format and drag to desktop document stored via Copy or Print mode.
(26) ESP XG-PCS-15D: Ricoh Advanced Technical Support (ATS) recommends the use of Power Protection products to minimize potential electrical interference with products.
(27) Copy Data Security Unit Type G prevents unauthorized copying of confidential documents that were created on other printers that have this option installed.
(28) Fax Connection Unit Type M3 enables users to send and receive faxes on a sub MFP via a main MFP. This option is required on both the Main MFP that has the Fax Option Type M3 installed and on the Sub MFP(s) needing remote fax.
(29) Smart Card Reader Built-in Unit Type M2: For use with Ricoh & 3rd party software solutions. The smart card reader and its cable will be covered inside the mainframe when this option is attached. Not all card readers may be supported.
(30) External USB Keyboard (No Bracket) is an External Keyboard for inputting data with either SDK applications OR embedded applications.
(31) The Smart Card Reader Built-in Unit Type M2 and External Keyboard Bracket Type M3 cannot be installed on the same device.
(32) External Keyboard Bracket Type M3 is required for the installation of External USB Keyboard (100266FNG)
(33) Browser Unit Type M3: Used for Browser Features like ICE. Also required with HotSpot MFP Option Type S to enable HotSpot printing. Not compatible with all Web Sites.

(34) Cannot install floor standing Finisher SR3150 or SR3140 with the PB3150 and Caster Table Type M3.
(35) IPDS Unit Type M3: Intelligent Printer Data Stream (IPDS).
(36) 10.1" WSGVA resolution control panel provides intuitive touchscreen control similar to smart phones and tablets. It offers advanced Web browser functionality, drag-and-drop icons and swipe scrolling. Note: Standard control panel must be removed by Service Technician.
(37) Memory Unit Type M3 is required when configuring the device with the Browser Unit Type M3 or SDK application.
(38) HotSpot MFP Option Type S requires Browser Unit Type M3 to enable HotSpot printing. One year HotSpot subscription service included.
(39) Printing with unauthorized copy control pattern or text with the Copy Data Security Unit Type G is not available when Color Controller E-22C are installed.
(40) Color Controller E22-C: Optional Fiery Color Controller that can be configured with the std Print/Scan controller for embedded scan features and Fiery print.
(41) Fiery Impose Type FS-100: Fiery option that helps to automate and streamline labor-intensive prepress tasks. Requires Color Controller E22-C (416731) & Color Controller Connection Board Type M3.
(42) Fiery Compose FS-100: Fiery option that provides intuitive tools that make advanced document preparation simple and quick. Requires Color Controller E22-C & Color Controller Connection Board Type M3.
(43) Hot Folders Type FS-100: Fiery option that enables the creation of special folders that can assign a group of print options. Requires Color Controller E22-C & Color Controller Connection Board Type M3.
(44) Spot-On FS-100: Fiery option that enables you to reproduce custom or spot colors. Requires Color Controller E22-C & Color Controller Connection Board Type M3.
(45) Auto Trap Type FS-100: Fiery option that provides a fast and simple way to ensure that your image output is optimized. Requires Color Controller E22-C & Color Controller Connection Board Type M3.
(46) Fiery Color Profiler Suite V4.0: Contains Color Profiler v4 software and ES-2000 spectrophotometer: Includes 1 year of phone support. Requires Color Controller E22-C & Color Controller Connection Board Type M3.
(47) Fiery CPSv4 Software only: For customers that have an ES-2000 Spectrophotometer and want Color Profiler v4 software: Includes 1 year of phone support
(48) Fiery ES-2000 Spectrophotometer: Color measurement device for calibration and profiling. Enables fast, precise and flexible color management that produces the highest color quality. Requires Color Controller E-22C and Color Controller Connection Board Type M3.
(49) EFI Productivity Pack: Fiery option aids in workflow productivity - helps meet tight turnaround times/produce top notch color documents while achieving process automation. Requires Color Controller E22-C & Color Controller Connection Board Type M3.
(50) Color Controller Connection Board Type M3: Connection Kit is required to use the Color Controller E22-C with the MP C3003G/MP C3503G Mainframes.
(51) The IEEE1284, IEEE802.11a/g/n Interface Unit Type M2, Camera Direct Print Card Type M3, PostScript 3 Unit Type M3 and IPDS Unit Type M3 cannot be configured with the Color Controller E22-C & Color Controller Connection Board Type M3.
(52) The HTML Direct Print feature is not available with Browser Unit Type M3 when Color Controller E-22C & Color Controller Connection Board Type M3 are installed.

Energy Star Copier

Ricoh USA, Inc. has determined that the MPC3003G, MPC3503G Color Digital Imaging Systems meets the Energy Star® guidelines for energy efficiency.

MP C4503G / MP C5503G / MP C6003G Color Digital Imaging Systems

Ricoh USA, Inc has determined that these products meet the ENERGY STAR ® guidelines for energy efficiency.

Delivery and installation within a 60 mile radius are included in the hardware pricing. Delivery, installation and maintenance in any area beyond the 60-mile radius will be quoted as an open market item. Regardless of the distance from any authorized sales and service location, if rigging is required, the charges quoted will be on an open-market basis.
For relocation of currently installed equipment, see Relocation pricing by Volume Band and Mode of Transport.

Program Notes

(1) FM and Rental requested in an area beyond a 60-mile radius of a Ricoh authorized Service Location will be quoted as an open market item
(2) Rental Rates include maintenance and repair services.
(3) Pricing is for hardware; if networking/connecting/rigging involved, open market rates will apply.

Configuration Footnotes

(1) MP C4503, MP C5503, and MP C6003 are designed for a max monthly volume of 50K pages (Letter paper, 20lb. Bond).
(2) Mainframe includes 9" Color Touch Control Panel, 220-Sheet SPDF, Duplex, 2 x 550-Sheet Paper Trays, 100-Sheet Bypass Tray, Drums, Developer, Scan/Print Kit, USB Host Interface Gigabit Ethernet, DOSS, PDF Direct Print, HDD Encryption, Java VM Card, Scan to/Print From USB/SD Card, 2GB RAM, & 250GB HDD. Envelope feeding via standard 2nd paper drawer & bypass tray. (The standard DOSS included with the mainframe is ISO 15408 certified).
(3) One of following must be installed on the mainframe: PB3150, PB3160, PB3170 or Cabinet Type F.
(4) Paper Feed Unit PB3150 requires Caster Table Type M3. This paper feed unit lowers the total machine height, making it easy for all users to access the device (Section 508). The caster table provides a platform with wheels to easily move the device.
(5) LCIT RT3030 cannot be installed with PB3150, Caster Table Type M3 or Cabinet Type F.
(6) Only one of these options can be installed on the device: Internal Shift Tray SH3070, Finisher SR3140,Booklet Finisher SR3150 , Booklet Finisher SR3170, Finisher SR3160, Internal Finisher SR3130.
(7) Must Order BU3070 Bridge Unitwith any external Finisher.
(8) Punch Unit PU3040NA is a Hole Punch Option for SR3130 Finisher.
(9) 1 Bin Tray BN3110 provides additional output tray above the standard Internal Tray or Optional Bridge Unit/Internal Shift Tray/Internal Finisher (Holds 125 Sheets).
(10) Must use "Scan to NCP" feature with standard Services-Led Scanner when the Fiery Controller & Color Controller Connection Board Type M4 are installed.
(11) Punch Unit PU3050NA is a Hole Punch Option for SR3150 & SR3140 Finishers.
(12) Key Counter Bracket Type M3 is a 4 Pin interface used to mount external key counter to MFP.
(13) Optional Counter Interface Unit Type A is a 20-Pin Interface used to attach external key counter or key card device.
(14) Punch Unit PU3060NA is a Hole Punch Option for SR3160 & SR3170 Finishers.
(15) Card Reader Bracket Type 3352 is a Table shaped option used to place either card reader or counter device. USB Connector.
(16) Imageable Area Extension Unit Type M3 allows customers to print crop marks for proofing SRA3/12.6" documents.
(17) Fax Option Type M4 - Installation required to enable fax services: 33.6Kbps, approximately 2 Second Transmission Speed, Standard JBIG. Standard 320 Pages Memory. Includes standard Internet Fax (T.37), LAN Fax, IP-Fax (T.38), Fax Forwarding to Email & Paperless Fax function.
(18) G3 Interface Unit Type M4: Up to two additional lines can be installed. For a maximum total of 3 lines.
(19) G3 Interface Unit Type M4 and 32MB Memory Unit Type B require Fax Option Type M4.
(20) 32MB Memory Unit Type B increases fax memory to 2,240 pages and fax resolution to 400 x 400 dpi.
(21) Only one of these additional connectivity options can be installed on the device: IEEE1284 Interface Board Type A, IEEE802.11a/g/n Interface Unit Type M2.
(22) Camera Direct Print Card Type M4 allows users to connect a PictBridge-compatible digital camera directly to the MFP, enabling the printing of photos without a computer.
(23) PostScript 3 Unit Type M4 required for printing from Mac OS. Recommended for printing more complex color and PDF files.
(24) OCR Unit Type M2: This function embeds invisible texts on scanned images of PDF and enables users tosearch PDF files by arbitrary keywords. Searchable PDF files can be sent to email, folders and external media (SD/USB).
(25) File Format Converter Type E is required to convert format and drag to desktop document stored via Copy or Print mode.
(26) ESP XG-PCS-15D: Ricoh Advanced Technical Support (ATS) recommends the use of Power Protection products to minimize potential electrical interference with products.
(27) Copy Data Security Unit Type G prevents unauthorized copying of confidential documents that were created on other printers that have this option installed.
(28) Fax Connection Unit Type M4 enables users to send and receive faxes on a sub MFP via a main MFP. This option is required on both the Main MFP that

has the Fax Option Type M4 installed and on the Sub MFP(s) needing remote fax.
(29) Smart Card Reader Built-in Unit Type M2 is for use with Ricoh & 3rd party software solutions. The smart card reader and its cable will be covered inside the mainframe when this option is attached. Not all card readers may be supported.
(30) External USB Keyboard (No Bracket) is an External Keyboard for inputting data with either SDK applications OR embedded applications.
inside the mainframe when this option is attached. Not all card readers may be supported.
(31) The Smart Card Reader Built-in Unit Type M2 and External Keyboard Bracket Type M3 cannot be installed on the same device.
(32) External Keyboard Bracket Type M3: This bracket is required for the installation of External USB Keyboard.
(33) Browser Unit Type M4: Used for Browser Features like ICE. Also required with HotSpot MFP Option Type S to enable HotSpot printing. Not compatible with all Web Sites.
(34) Cannot install floor standing Finisher SR3150, SR3170, SR3160 or SR3140 with the PB3150 and Caster Table Type M3.
(35) IPDS Unit Type M4: Intelligent Printer Data Stream (IPDS).
(36) Smart Operation Panel Type M3: 10.1" Wide Super VGA resolution control panel provides intuitive touchscreen control similar to smart phones and tablets. It offers advanced Web browser functionality, drag-and-drop icons and swipe scrolling. Note: Standard control panel must be removed by Service Technician. The Smart Operation does not support SDK applications at this time. Target timing for support is June 2014, however, the date is subject to change.
(37) Internal Finisher SR3130 and Punch Unit PU3040NA are not compatible with MP C6003.
(38) HotSpot MFP Option Type S requires Browser Unit Type M4 to enable HotSpot printing. One year HotSpot subscription service included.
(39) SD Card for NetWare Printing Type M4 is used by customers who print using Netware. This option is required for the following functions: Use of iPrint ports, SNMP via IPX and Scan to NCP (IPX, TCP/IP).
(40) Color Controller E22-C: Optional Fiery Color Controller that can be configured with the std Print/Scan controller for embedded scan features and Fiery print.
(41) Fiery Impose Type FS-100: Fiery option that helps to automate and streamline labor-intensive prepress tasks. Requires Color Controller E22-C & Color Controller Connection Board Type M4.
(42) Fiery Compose FS-100: Fiery option that provides intuitive tools that make advanced document preparation simple and quick. Requires Color Controller E22-C & Color Controller Connection Board Type M4.
(43) Hot Folders Type FS-100: Fiery option that enables the creation of special folders that can assign a group of print options. Requires Color Controller E22-C & Color Controller Connection Board Type M4.
(44) Spot-On FS-100: Fiery option that enables you to reproduce custom or spot colors. Requires Color Controller E22-C & Color Controller Connection Board Type M4.
(45) Auto Trap Type FS-100: Fiery option that provides a fast and simple way to ensure that your image output is optimized. Requires Color Controller E22-C & Color Controller Connection Board Type M4.
(46) Fiery Color Profiler Suite V4.0: Contains Color Profiler v4 software and ES-2000 spectrophotometer: Includes 1 year of phone support. Requires Color Controller E22-C & Color Controller Connection Board Type M4 .
(47) Fiery CPSv4 Software only: For customers that have an ES-2000 Spectrophotometer and want Color Profiler v4 software: Includes 1 year of phone support
(48) Fiery ES-2000 Spectrophotometer: Color measurement device for calibration and profiling. Enables fast, precise and flexible color management that produces the highest color quality. Requires Color Controller E-22C and Color Controller Connection Board Type M4.
(49) EFI Productivity Pack: Fiery option aids in workflow productivity - helps meet tight turnaround times/produce top notch color documents while achieving process automation. Requires Color Controller E22-C & Color Controller Connection Board Type M4.
(50) Color Controller Connection Board Type M4: Connection Kit is required to use the Color Controller E22-C with the MP C4503/MP C5503/MP C6003 Mainframes.
(51) The IEEE1284, IEEE802.11a/g/n Interface Unit Type M2, Camera Direct Print Card Type M4, PostScript 3 Unit Type M4 and IPDS Unit Type M4 cannot be configured with the Color Controller E-22C and Color Controller Connection Board Type M4.
(52) The HTML Direct Print feature is not available with Browser Unit Type M3 when Color Controller E-22C & Color Controller Connection Board Type M3 are installed.
(53) Printing with unauthorized copy control pattern or text with the Copy Data Security Unit Type G is not available when Color Controller E-22C is installed.
(54) The Certified DataOverWrite Security System that ships standard with the mainframe; does not overwrite the HDD for the Color Controller E-22C.
(55) RHD & AHRD Kit - The RHD Kit uses the MFP's Internal Hard Drive and makes it External.
(56) RHD & AHRD Kit - The Fax Option Type M3 is not compatible with the RHD or ARHD.
(57) AHRD Kit - The ARHD includes an extra hard drive.

Energy Star Copier
Ricoh USA has determined that the MPC4503G, MP C5503G, MP C6003G Color Digital Imaging Systems meet the Energy Star® guidelines for energy efficiency.

MP C6502SP / MP C8002SP Color Digital Imaging Systems

Ricoh USA, Inc has determined that these products meet the ENERGY STAR ® guidelines for energy efficiency.

GENERAL SPECS/PAPER HANDLING

First Copy Time:	7.2 sec color/5.3 sec black
Multicopy (Ltr/Lgl/Ldgr):	65 cpm color/65 cpm black
Warm-up Time:	50 sec
Std Paper Source(s):	Triple drawer
Std Paper Capacity:	2,500/550/550 sheets
Paper Weights:	14-lb bond to 141-lb index
Bypass/Paper Weights:	100-sheet/14-lb bond to 110-lb cover
Max Paper Sources/Cap:	5/8,100 sheets
Max Original Size:	11 x 17
Min/Max Output Size:	5-1/2 x 8-1/2/13 x 19.2
Copy Resolution:	600 x 600 dpi
Std/Max System Memory:	2.5-GB RAM, 640-GB HD/2.5-GB RAM, 640-GB HD
Duplex:	Auto (1:2,2:2,2:1)
Capacity/Paper Sizes:	Unlimited/5-1/2 x 8-1/2 to 11 x 17
Document Feeder:	Std DSPF
Speed/Capacity:	Info not avail/220 orig
Paper Weights:	10.7-lb bond to 47.3-lb cover
Sorter (Bins/Capacity):	None
Stapler Sorter:	None
Bins/Stapling Cap:	Not applicable
Stapling Positions:	Not applicable
Finisher:	Opt finishers
Tray/Stapling/Pos(s):	2,250, 3,250, 3,500/65, 65, 100/4

Other:

Options include 4,400-sheet LCT (8-1/2 x 11/A4), 2,000-sheet LCT (SRA3), two finishers (100-or 65-sheet stapling) and 2,250-sheet booklet finisher; opt cover interposer and hole punch for finishers; jogger unit & 9-bin mailbox options for 50-sheet stapling finisher and booklet finisher; multi-folding unit handles Z-fold, Half-fold/Print inside, Half-fold/Print outside, Letter fold-in/Print inside, Letter fold-in/Print outside, Letter fold-out, Double parallel/Print inside, Double parallel/Print outside, Gate-fold/Print inside, Gate-Fold/Print outside; electronic sorting; 500-sheet output tray; rotate sort

Delivery and installation within a 60 mile radius are included in the hardware pricing. Delivery, installation and maintenance in any area beyond the 60-mile radius will be quoted as an open market item. Regardless of the distance from any authorized sales and service location, if rigging is required, the charges quoted will be on an open-market basis.
For relocation of currently installed equipment, see Relocation pricing by Volume Band and Mode of Transport.

Program Notes

(1) FM requested in an area beyond a 60-mile radius of a Ricoh authorized Service Location will be quoted as an open market item
(3) Pricing is for hardware; if networking/connecting/rigging involved, open market rates will apply.

Configuration Footnotes

(1) Mainframe includes 9" Color Touch Control Panel, 220-Sheet ARDF, Duplex, Tandem Tray 1 is 2 x (1), (2)50-sheets, Tray 2 is 1 x 550-sheets, Tray 3 is 1 x 550-sheets, 100-sheet Bypass Tray, Drums, Developer, Scan/Print Kit, USB Host Interface, DOSS, PDF Direct Print, HDD Encryption, Java VM Card, Scan to/Print-from USB/SD Card, 2.5GB RAM, & 640GB HDD.
(2) One of following finishing accessories need to be added to the mainframe: the Finisher SR4090; the Finisher SR4110; the Booklet Finisher SR4100 or the Copy Tray Type M2 .
(3) 3000-sheet output / 65-sheet stapler finisher option-cannot be installed with the Booklet Finisher SR4100, the Finisher SR4110 or the Copy Tray Type M2.
(4) Saddle stitch booklet finisher option - cannot be installed with the Finisher SR4090, the Finisher SR4110 or the Copy Tray Type M2.
(5) Option that straightens output delivered to the either the Finisher SR4090 or the Booklet Finisher SR4100.
(6) Optional 2/3 hole punch unit - can be configured with either the Finisher SR4090 or the Booklet Finisher SR4100.
(7) 3,000-sheet output, 100-sheet staple - cannot be installed with the Finisher SR4090, the Finisher SR4110 or the Copy Tray Type M2.
(8) Optional 9-Bin Mailbox Unit - must be installed with either Finisher SR4110 Booklet Finisher SR4100 or Finisher SR4090.
(9) Output tray only - only used when configuring the mainframe without a finisher - cannot be installed with either the Finisher SR4090; the Booklet Finisher SR410 or the Finisher SR4110.
(10) Large Capacity Tray opt. (2,200-sheets) that supports running paper in sizes from 5.5" x 8.5" to 13" x 19.2" (DLT LCT) - cannot be installed with A4/RT4020 LCT.
(11) Large Capacity A4 Tray opt. (4,400-sheets) that supports running 8.5" to 11"paper (LTR LCT) - cannot be installed with A3/RT4030 LCT.
(12) Adds ability to run 8.5" x 14" from the RT4020 LCT - can only be configured with LCIT RT4020.
(13) Single interposer tray - must be installed with either the Finisher SR4100 or the Finisher SR4090.
(14) Dual interposer tray - must be installed with the Finisher SR4110.
(15) Converts Tray 1 (Tandem Tray) to a single 11" x 17" tray
(16) Required for Tab Copy/Print - can be used in either Tray 2 or Tray 3 (but not both).
(17) Optional 2/3 hole punch unit - can only be configured with the Finisher SR4110.
(18) Multi-fold option-must be configured with one of the (3) new finishing options; the Finisher SR4090; the Booklet Finisher SR4100 and the Finisher SR4110.
(19) For use with Ricoh & 3rd party software solutions. The smart card reader and its cable will be covered inside the mainframe when this option is attached. Not all card readers may be supported.
(20) True Adobe PostScript - required for printing from Mac OS - recommended for printing more complex color and PDF files.
(21) Intelligent Printer Data Stream (IPDS) option.
(22) This function embeds invisible texts on scanned images of PDF and enables users to search PDF files by arbitrary keywords. Searchable PDF files can be sent to email, folders and external media (SD/USB).

(23) Only one of these additional connectivity options can be installed on the device.
(24) Used by customers who print using Netware. This option is required for the following functions: Use of iPrint ports, SNMP via IPX and Scan to NCP (IPX, TCP/IP).
(25) Used for Browser features like Integrated Cloud Environment (ICE). Also required with HotSpot MFP Option Type S to enable HotSpot printing. Not compatible with all websites.
(26) Optional 20-Pin Interface used to attach external key counter or key card device.
(27) Requires Browser Unit Type M2 (416666) to enable HotSpot printing. One year HotSpot subscription service included.
(28) Required to convert format and drag to desktop document stored via Copy or Print mode.
(29) Unicode Font Package for SAP - 1/10/100 seat license
(30) Optional Fiery Color Controller, can also be combined with the std Print/Scan controller for std scan features and Fiery print
(31) Fiery option that helps to automate and streamline labor-intensive prepress tasks - requires Fiery E-22B Color Controller.
(32) Fiery option that provides intuitive tools that make advanced document preparation simple and quick - requires Fiery E-22B Color Controller.
(33) Fiery option that enables the creation of special folders that can assign a group of print options- requires Fiery E-22B Color Controller.
(34) Fiery option that enables you to reproduce custom or spot colors - requires Fiery E-22B Color Controller.
(35) Fiery option that provides a fast and simple way to ensure that your image output is always the best that it can be- requires the Fiery E-22B Color Controller.
(36) Contains Color Profiler v4 software and ES-2000 spectrophotometer: Includes 1 year of phone support- requires the Fiery E-22B Color Controller.
(37) For customers that have an ES2000 Spectrophotometer and want Color Profiler v4 software: Includes 1 year of phone support
(38) For customers that only want calibration capability, just the Spectrophotometer
(39) Fiery option aids in workflow productivity - helps meet tight turnaround times/produce top notch color documents while achieving process automation- requires the Fiery E-22B Color Controller.
(40) Installation required to enable fax services: 33.6Kbps, approximately 2 Second Transmission Speed, Standard JBIG. Standard 320 Pages Memory. Includes standard Internet Fax (T.37), LAN Fax, IP-Fax (T.38), Fax Forwarding to Email & Paperless Fax function.
(41) Requires Fax Option Type M2, enables users to send and receive faxes on a sub MFP via a main MFP. This option is required on both the Main MFP that has the Fax Option Type M2 installed and on the Sub MFP(s) needing remote fax.
(42) Up to two additional lines can be installed. For a maximum total of 3 lines. Requires Fax Option Type M2.
(43) Increases fax memory to 2,240 pages and fax resolution to 400 x 400 dpi. Requires Fax Option Type M2.
(44) Prevents unauthorized copying of confidential documents that were created on other printers that have this option installed.
(45) Certified DataOverwrite Security System Type H: This is an ISO 15408 Certified version of DOSS that overwrites Copy, Print, Scanner, and Fax latent data - mainframe is now ISO 15408 Common Criteria certified. This option is no longer required to provide an ISO 15408 Certified version of DOSS.
(46) ESP XG-PCS-20D: Optional Power Filter for the MP C6502SP - Ricoh Advanced Technical Support (ATS) recommends the use of Power Protection products to minimize potential electrical interference with products.
(47) 20 amp power filter: Optional Power Filter for the MP C8002SP - Ricoh Advanced Technical Support (ATS) recommends the use of Power Protection products to minimize potential electrical interference with products.
(48) GBC StreamPunch Pro: Customer replaceable punch option (note: option color may not match m/f MFP) - requires Finisher SR4110 - also requires at least (1) die set option.
(49) Standard use die set options for the GBC StreamPunch Pro - only (1) can be installed inside the GBC StreamPunch Pro at a time: GBC Die Set 21 Hole (Twin Loop Wire 2:1); GBC Die Set 32 Hole (Twin Loop Wire 3:1); or GBC Die Set 44 Hole (Color Coil).
(50) Production use die set option for the GBC StreamPunch Pro - only (1) can be installed inside the GBC StreamPunch Pro at a time: GBC Pro 44 Hole HD Die Set or GBC 32 Hole Pro Click Die Set.
(51) Booklet Maker BK5010e: Online/offline production bookletmaker option - requires Finisher SR4110.
(52) Additional accessory options for the BK5010e Production Bookletmaker - all options require the BK5010e Production Bookletmaker: Trimmer TR5010e, Book Folder BF5010e, CF5010 Cover Feeder.
(53) BK5010 Rail Unit: Rail unit that helps dock/undock the BK5010e Production Bookletmaker from the SR4110 Finisher - requires the BK5010e Production Bookletmaker.
(54) Cooling Fan Type M2 (available late 2013): Option for the Finisher SR4090 and the Finisher SR4100 - requires Output Jogger Unit Type M2 - for customers that print coated/thick paper with high color coverages

Energy Star Copier

Ricoh USA, Inc. has determined that the MP C6502SP / MP C8002SP Digital Color Imaging Systems meet the Energy Star® guidelines for energy efficiency.

(23) Only one of these additional connectivity options can be installed on the device.

Delivery and installation within a 60 mile radius are included in the hardware pricing. Delivery, installation and maintenance in any area beyond the 60-mile radius will be quoted as an open market item. Regardless of the distance from any authorized sales and service location, if rigging is required, the charges quoted will be on an open-market basis.
For relocation of currently installed equipment, see Relocation pricing by Volume Band and Mode of Transport.

Supply Footnotes
(1) Yields are based on 8½" x 11" copies using a 5% image density original.
(2) No starter kit is included.

Program Notes
(1) FM requested in an area beyond a 60-mile radius of a Ricoh authorized Service Location will be quoted as an open market item
(3) Pricing is for hardware; if networking/connecting/rigging involved, open market rates will apply.2

Ricoh Pro8100EXe/Pro8100Se/Pro8110Se/Pro8120Se Notes
(1) Printer/Scanner Unit Type S1 required for printing and scan features.
(2) Requires the addition of an SR5050 or SR5060 Finisher.
(3) Large Capacity Tray holds 5000 20lb. Bond paper Maximum Letter size. Only 1 LCIT can be added to mainframe
(4) Large Capacity Tray holds 5000 20lb. Bond paper Maximum Ledger size. Only 1 LCIT can be added to mainframe.
(5) Internal option to be installed in mainframe.
(6) Provides 2 or 3 hole Punch Option for SR5060 and SR5050
(7) Can only be installed in the SR5060.
(8) For stacking up to 5k sheets of paper. Up to 2 can be configured per engine. Config can end in a stacker
(9) Extra 5k sheet cart for SK5030 stacker
(10) To convert drawer 1 to an 11x17 drawer. Reduces capacity by half
(11) Needed to configure the BY5010 with the RT5100 vacuum feed LCIT
(12) Bridge unit used to connect up to 2 Vacuum feed LCIT RT5100. One unit goes between each RT5100
(13) 4,400 sheet vacuum feed LCIT, can configure up to 2 units, but must include a Bridge Unit (BU5010) between each LCIT
(14) Compatible with LCIT RT5080 when used with Bridge Unit (BU5010).
(15) Can only be installed with the Perfect Binder GB5010
(16) RB5020 and GB5010 can not be installed on the same mainframe.
(17) Option for the Pro 8100EXe only provides Print and Scan capability.
(18) Postscript option for all Pro 8100se, Pro 8110s, Pro 8120se. Provides Postscript option for Pro 8100EXe with Printer/Scanner Unit Type S1 installed.
(19) Can be installed on Pro 8100se, Pro 8110es, and Pro 8120se with no additional option. For installation on the Pro 8100EXe, the Printer Scanner unit Type S1 is required.
(20) requires at least 1 GBC StreamPunch Ultra die set

(21) only compatible with GBC StreamPunch Ultra die sets
(22) only compatible with GBC StreamPunch Ultra
(23) EFI Fiery Print Controller EB-32 for the Pro 8100 series Production Print MFP. No additional options require when connecting to the Pro 8100se, Pro 8110s and Pro 8120se. Print/Scan option EDP: 404555 is require only when configured with a Pro 8100EXe (404524).
(24) Option for viewing print jobs before printing. Also provides controls to BW tone curve and copy tone curves to apply to other EB-32 Fierys.
(25) This option is for customers that want calibration capability, Only Spectrophotometer is included. This is the same option sold for use with color Fierys.
(26) FACI Enable license key. Enable Keyboard, Mouse and Monitor to be connected to EB-32. Keyboard, Mouse and Monitor are not included.
(27) 35 page production booklet maker. Simple book fold only. Must be configured with the SR5050 finisher
(28) 50 page production booklet maker. Simple book fold only. Must be configured with the SR5050 finisher
(29) for a field upgrade from a PBM350 to a PBM500
(30) not compatible with SR5060 booklet maker or TR5040 trimmer
(31) must include rail unit for configuration
(32) must be included in Plockmatic PBM350 and PBM500 configurations
(33) cover inserter is used to feed up to 300gsm covers
(34) Plockmatic PBM Trim Module for face trim of booklets only
(35) Plockmatic PBM Book Fold Module for square edge book folding
(36)Plockmatic PBM Rotate Crease Trim Module for full bleed booklets. Need Plockmatic PBM Trim Module face trim to complete full bleed trim
(37) Plockmatic BTS4000-1 Belt Stacker Module is an optional accessory to increase output capacity for uninterrupted runs
(38) The Plockmatic PBM Rotate Crease Trim Module does not support Off-line work

Delivery and installation within a 60 mile radius are included in the hardware pricing. Delivery, installation and maintenance in any area beyond the 60-mile radius will be quoted as an open market item. Regardless of the distance from any authorized sales and service location, if rigging is required, the charges quoted will be on an open-market basis.
For relocation of currently installed equipment, see Relocation pricing by Volume Band and Mode of Transport.

Supply Footnotes
(1) Yields are based on 8½" x 11" copies using a 5% image density original.
(2) No starter kit is included.

Program Notes
(1) FM requested in an area beyond a 60-mile radius of a Ricoh authorized Service Location will be quoted as an open market item
(2) Pricing is for hardware; if networking/connecting/rigging involved, open market rates will apply.

Pro 8110e / 8210e Notes
(1) Requires the addition of an SR5050 (404548) or SR5060 (404550) Finisher or a Stacker unit SK5030 (404656).
(2) Large Capacity Tray holds 5000 20lb. Bond paper Maximum Letter size. Only 1 LCIT can be added to mainframe
(3) Large Capacity Tray holds 5000 20lb. Bond paper Maximum Ledger size. Only 1 LCIT can be added to mainframe.
(4) Internal option to be installed in mainframe. Reccomended when configuring system with Stacker SK5030
(5) Provides 2 or 3 hole Punch Option for SR5060 and SR5050
(6) Can only be installed in the SR5060.
(7) For stacking up to 5k sheets of paper. Up to 2 can be configured per engine. Config can end in a stacker
(8) Extra 5k sheet cart for SK5030 stacker
(9) To convert drawer 1 to an 11x17 drawer. Reduces capacity by half
(10) Needed to configure the BY5010 with the RT5100 vacuum feed LCIT
(11) Bridge unit used to connect up to 3 Vacuum feed LCIT RT5100. One unit goes between each RT5100
(12) 4,400 sheet vacuum feed LCIT, can configure up to 2 units, but must include a Bridge Unit (BU5010) between each LCIT
(13) Compatible with LCIT RT5080 when used with Bridge Unit (BU5010).
(14) RPIP interface to enable in-line configuration of approved 3rd party finishing
(15) Can only be installed with the Perfect Binder GB5010 (404542)
(16) RB5020 and GB5010 can not be installed on the same mainframe.
(17) Postscript option for all Pro 8100s, Pro 8110s, Pro 8120s. Provides Postscript option for Pro 8100EX with Printer/Scanner Unit Type S1 (404555) installed.
(18) Genuine IPDS for the Pro 8110 and Pro 8120 printer only.
(19) Requires at least 1 GBC streampunch ultra die set
(20) Only compatible with GBC streampunch ultra die sets
(21) Only compatible with GBC StreamPunch Ultra
(22) For use in the GBC StreamPunch Pro EX only (404463)
(23) 35 page production booklet maker. Simple book fold only. Must be configured with the SR5050 finisher or an SK5030 stacker
(24) 50 page production booklet maker. Simple book fold only. Must be configured with the SR5050 finisher or an SK5030 stacker
(25) For a field upgrade from a PBM350 to a PBM500
(26) Not compatible with SR5060 booklet maker or TR5040 trimmer
(27) Must include rail unit for configuration
(28) Must be included in Plockmatic PBM350 and PBM500 configurations
(29) Plockmatic PBM Trim Module for face trim of booklets only
(30) Plockmatic PBM Book Fold Module for square edge book folding
(31) Cover inserter is used to feed up to 300gsm covers
(32) Plockmatic PBM Rotate Crease Trim Module for full bleed booklets. Need Plockmatic PBM Trim Module face trim to complete full bleed trim
(33) The Plockmatic PBM Rotate Crease Trim Module does not support Off-line work
(34) Plockmatic BTS4000-1 Belt Stacker Module is an optional accessory to increase output capacity for uninterrupted runs
(35) EFI Fiery Print Controller EB-32 for the Pro 8100s MFP series and the PRo 8110/8120 Printer series.

(36) Option for viewing print jobs before printing. Also provides controls to BW tone curve and copy tone curves to apply to other EB-32 Fierys.
(37) This option is for customers that want calibration capability, Only Spectrophotometer is included. This is the same option sold for use with color Fierys.
(38) FACI Enable license key. Enable Keyboard, Mouse and Monitor to be connected to EB-32. Keyboard, Mouse and Monitor are not included.

Delivery and installation within a 60 mile radius are included in the hardware pricing. Delivery, installation and maintenance in any area beyond the 60-mile radius will be quoted as an open market item. Regardless of the distance from any authorized sales and service location, if rigging is required, the charges quoted will be on an open-market basis.
For relocation of currently installed equipment, see Relocation pricing by Volume Band and Mode of Transport.

Supply Footnotes
(1) Yields are based on 8½" x 11" copies using a 5% image density original.
(2) No starter kit is included.

Program Notes
(1) FM requested in an area beyond a 60-mile radius of a Ricoh authorized Service Location will be quoted as an open market item
(2) Pricing is for hardware; if networking/connecting/rigging involved, open market rates will apply.

Pro Pro C5100s/C5110s Notes
(1) Mainframes require either an SR4110, SR4100, SR4090 or copy tray M2
(2) Mainframes require either a Fiery E22b or E42b
(3) Base configuration contains 3,800 sheets of paper capacity
(4) LCIT RT4020: 4,400 sheet A4 LCT; only 1 LCT can be configured
(5) LCIT RT4030: 2,200 sheet A3+ LCT; only 1 LCT can be configured
(6) Cover Interposer Tray CI4010: 1-source interposer available for SR4090 or SR4100 only
(7) Cover Interposer Tray CI4020: 2-source interposer available for SR4110 only
(8) A3/11"x17" Tray Unit Type M2 converts Tray 1 from tandem letter tray to support 11 x 17. Reduces tray capacity in half.
(9) Tab Sheet Holder Type M2 is recommended to configure Tab option in Tray 2 or 3
(10) Decurl Unit DU5020 is recommended with medias prone to curl or in high humidity environments
(11) Buffer Pass Unit Type 5020 recommended for printing on coated stocks, or with high toner coverage
(12) Available for SR4090 and SR4100 only
(13) Punch Unit PU5000 is available for SR4110 only
(14) File Format Converter Type E needed to retrieve files scanned to the document server
(15) Output Jogger Unit Type M2 is available for SR4090 and SR4100
(16) TCRU B contains entire fusing section
(17) Copy Tray Type M2 cannot be configured with any other finisher
(18) Multi-Folding Unit FD4000 must be configured with either SR4100, SR4110 or SR4090
(19) GBC StreamPunch Pro punches only LEF letter-sized paper
(20) GBC StreamPunch Pro requires the purchase of at least one GBC die set
(21) GBC StreamPunch Pro can only be installed with the SR4110 finisher
(22) Standard Die Sets will work with both the StreamPunch III and the StreamPunch Pro
(23) Intentionally left blank.
(24) Total Flow Standard Type E-42B: EFI Option for the E42B only. Includes ES-2000 Specrtphotometer and Fiery Impose
(25) Total Flow Advanced E-42B: EFI option for the Fiery E42B only. Includes CPS 4.0 w/ 1 year support, Graphic Arts Premium Edition Upgrade, Fiery Impose and
(26) Book Folder BF5010e requires BK501e and TR5010 Trimmer
(27) Fiery E-22B does not support GA Package, only Productivity Pack, all other features are optional, no FACI
(28) Fiery E-42b includes Graphic Arts Package Basic, spot-on, hot folders, auto trap and is FACI enabled
(29) Fiery Color Profiler Suite v4 contains Color Profiler v4 software and ES-2000 spectrophotometer: Includes 1 year of phone support
(30) Fiery CPSv4 Software only is for customers that have an ES2000 Spectrophotometer and want Color Profiler v4 software: Includes 1 year of phone support
(31) CPS v.4 includes 1 year phone support, this item is for additional 1 year phone support increments
(32) Fiery ES-2000 Spectrophotometer is for customers that only want calibration capability, just the Spectrophotometer

(33) Fiery Compose is available on both the E-22b and E-42b
(34) Fiery Graphic Arts Package Premium Upgrade is only available on the E-42b
(35) Cooling Fan: Cooling option to prevent paper bricking for the SR4100 and SR4090; also compatible with SR4110 Finisher.
(36) Spot On Type FS100, Hot Folders Type FS-100, Auto Trap Type FS-100: EFI Option for the Fiery E22B Only

Energy Star Copier
Ricoh USA, Inc. has determined that the Pro C5100s/C5110s Systems meet the Energy Star® guidelines for energy efficiency.

Delivery and installation within a 60 mile radius are included in the hardware pricing. Delivery, installation and maintenance in any area beyond the 60-mile radius will be quoted as an open market item. Regardless of the distance from any authorized sales and service location, if rigging is required, the charges quoted will be on an open-market basis. *For relocation of currently installed equipment, see Relocation pricing by Volume Band and Mode of Transport.*

Program Notes

(1) FM requested in an area beyond a 60-mile radius of a Ricoh authorized Service Location will be quoted as an open market item
(2) Pricing is for hardware; if networking/connecting/rigging involved, open market rates will apply.

Configuration Footnotes

(1) Mainframe, Multi-Folding Unit FD5020, Streampunch Ultra and Ring Binder RB5020: require either an SR5050, SR5060, or a Stacker unit SK5030
(2) Mainframe requires either a Fiery E-43A or E-83A
(3) Mainframe requires EFI 5th Station Hardware Upgrade Kit.
(4) Mainframe requires white and/or clear developer type S3 for service installation; for both colors, 5th Station Replacement Kit Type S3 must also be added.
(5) Mainframe requires TCRU Type A, B and C.
(6) LCIT RT5090: 4,400 sheet A4 LCT, only 1 LCT can be configured per mainframe.
(7) LCIT RT5090: not compatible with Vacuum Feed LCIT RT5100, Bridge Unit (BU5010), Multi Bypass Attachment Kit for RT5100, or Vacuum Feed banner Sheet Tray.
(8) Vacuum Feed LCIT RT5100: 4,400 sheet vacuum feed LCIT, can configure up to 3 units, but must include a Bridge Unit (BU5010) between each LCIT.
(9) Vacuum Feed LCIT RT5100: not compatible with LCIT RT5090

(10) Bridge Unit BU5010: bridge unit used to connect up to 3 Vacuum feed LCIT RT5100. One unit goes between each RT5100
(11) Vacuum Feed Oversize Sheet Tray Type S3: Vacuum feed oversize sheet tray for use with the RT5100. Can run up to 27" 300gsm coated stock
(12) Vacuum Feed Oversize Sheet Tray Type S3: only 1 unit per configuration
(13) Vacuum Feed Oversize Sheet Tray Type S3: not compatible with multi bypass BY5010 or multi bypass oversize sheet tray type S3
(14) Buffer Pass Unit Type S3: Recommended for printing on coated stocks, or with high toner coverage to avoid bricking of paper
(15) High Capacity Stacker SK5030: for stacking up to 5k sheets of paper. Up to 2 can be configured per engine. Config can end in a stacker
(16) Decurl Unit DU5040: Recommended with medias prone to curl or in high humidity environments
(17) TCRU A contains customer replaceable parts for IQ and reliability. Mandatory for all mainframes
(18) TCRU B contains an entire fusing unit Mandatory for all mainframes
(19) TCRU C contains components to maintain the 5th color. Mandatory on a 5 color units
(20) Multi Bypass Tray BY5010: bypass tray for up to 13x49" media. 220gsm max, non coated for RT5090 LCIT. To extend plastic tray for oversize media, you must add Multi Bypass Banner Sheet Tray Type S3
(21) Multi Bypass Tray BY5010: to configure BY5010 with RT5100 vacuum lct, Multi Bypass Attachment Kit for Vacuum Feed LCIT Type S3 must be added. To extend plastic tray for oversize media, you must add Multi Bypass Banner Sheet Tray Type S3
(22) Multi Bypass Tray BY5010: not compatible with Vacuum Feed Oversize Sheet Tray Type S3 in a single configuration. Only one oversize option per configuration
(23) Multi Bypass Attachment Kit for Vacuum Feed LCIT Type S3: needed to configure the BY5010 with the RT5100 vacuum feed LCIT
(24) Multi Bypass Banner Sheet Tray Type S3: plastic extender for BY5010 to accommodate oversize prints
(25) 5th Station Replacement Kit Type S3 must be ordered to enable the switch between clear and white toner for customers who order both
(26) Intentionally left blank
(27) A3/11"x17" Tray Unit TK5010: To convert drawer 1 to an 11x17 drawer. Reduces capacity by half
(28) Roll-Away Cart Type 5010: Extra 5k sheet cart for SK5030 stacker
(29) Punch Unit PU5020 NA: 3 hole punch unit for SR5050 and SR5060 finishers
(30) Tab Sheet Holder Type 3260: to assist in the running of tabs from the paper drawers
(31) Cover Interposer Tray CI5030: Single source cover interposer
(32) Multi-Folding Unit FD5020: six position multi fold unit
(33) Perfect Binder GB5010 cannot be configured with Stacker SK5030 or RingBinder RB5020
(34) Perfect Binder GB5010 must be configured with Transit Pass Unit for Perfect Binder Type S1 and Cover Interposer Tray for Perfect Binder Type S1
(35) Perfect Binder GB5010 must have Glue Supply Type A for setup and operation
(36) Must be configured with perfect binder GB5010: Transit Pass Unit for Perfect Binder Type S1; Cover Interposer Tray for Perfect Binder Type S1; Glue Supply Type A.
(37) Ring Binder RB5020 cannot be configured with Perfect binder GB5010
(38) Finisher SR5050: 100 sheet staple finisher
(39) Booklet Finisher SR5060: Ricoh 20 sheet saddle stich booklet maker
(40)Booklet Finisher SR5060 cCannot be configured with Plockmatic PBM350 or PBM500 configuration
(41) Trimmer Unit TR5040: booklet Face trim unit for SR5060 only
(42) GBC StreamPunch Ultra requires at least 1 GBC streampunch ultra die set, and either an SR5050, SR5060, or a Stacker unit SK5030.
(43) GBC StreamPunch Ultra is only compatible with GBC streampunch ultra die sets
(44) Noted GBC Dies are only compatible with GBC StreamPunch Ultra.
(45) Plockmatic PBM350 : 35 page production booklet maker. Simple book fold only. Must be configured with the SR5050 finisher
(46) Plockmatic PBM500: 50 page production booklet maker. Simple book fold only. Must be configured with the SR5050 finisher
(47) Plockmatic PBM500 upgrade kit: for a field upgrade from a PBM350 to a PBM500
(48) Not compatible with SR5060 booklet maker or TR5040 trimmer: Plockmatic PBM350; Plockmatic PBM500.
(49) Must include rail unit for configuration: Plockmatic PBM350; Plockmatic PBM500.
(50) Plockmatic Rail Unit must be included in Plockmatic PBM350 and PBM500 configurations
(51) Plockmatic PBM Cover Feeder: cover inserter is used to feed up to 300gsm covers
(52) Plockmatic PBM Trim Module for face trim of booklets only
(53) Plockmatic PBM Book Fold Module for square edge book folding
(54)Plockmatic PBM Rotate Crease Trim Module for full bleed booklets. Need Plockmatic PBM Trim Module face trim to complete full bleed trim
(55) Plockmatic BTS4000-1 Belt Stacker Module is an optional accessory to increase output capacity for uninterrupted runs
(56) ThePlockmatic PBM Rotate Crease Trim Module does not support Off-line work
(57) Fiery E-43A FS150 Pro 80 controller for Pro C7100 series
(58) Fiery E83-A FS150 QX controller for Pro C7100 Series
(59) EFI 5th Station Hardware Upgrade Kit: Must install to enable 5th station printing on the E43-A or E-83A
(60) software upgrade for E43A only
(61) Software for Fiery E43A and E-83A
(62) Contains Color filer v4 software and ES-2000 spectrophotometer: Includes 1 year of phone support
(63) Contains Color filer v4 software only: Includes 1 year of phone support
(64) For customers that only want calibration capability, just the Spectrophotometer
(65) Stand, keyboard, monitor and mouse for Fiery E-43A
(66) Stand, keyboard, monitor and mouse for Fiery E-83A
(67) removable HD for Fiery E-43A
(68) removable HD for Fiery E-43A
(69) ram upgrade for Fiery E43-A
(70) additional 1 year support for Color filer V4 software
(71) Include TotalFlow MakeReady and PrintManager, and one year unlimited phone support at no charge by adding (404475),
(72) TotalFlow MakeReady Bundle (404475), and PrintManager Bundle (404476) is applicable to new system orders only when ordering (404360), (404367).
(73) Must include 12 month phone support (006987MIU) at no charge when ordering (404475), (404476), or (404473), (404474)
(74) Extended support options for TotalFlow MakeReady and PrintManager (package or bundle)
(75) For current Ricoh Print duction customers that want to add TotalFlow MakeReady and TotalFlow PrintManager.
(76) Requires Windows XP, Vista, 7, (for MakeReady) or Server 2003/2008 (for PrintManager) based computer with at least 2GB RAM and 500MB HDD and internet access.
(77) option for FS150 EFI controllers, contains EFI Impose type FS150 and the ES-2000 Spectrophotometer
(78) option for FS150 EFI controllers Contains Impose and Compose Type FS150, CPS 4.X, and the GAPPE for FS150
(79) NOT compatible with: 5th Station Replacement Kit Type S3 (404699) Developer clear (828362) Developer white (828363) EFI 5th Station Hardware Upgrade Kit (404748) or TCRU C (404698)
(80) requires TCRU Type A, B

Energy Star Copier
Ricoh USA, Inc. has determined that the Pro C7100 and Pro C7110 Digital Imaging System Series meets the Energy Star® guidelines for energy efficiency.

Pro C9100 / C9110 Digital Imaging Systems

Ricoh USA, Inc has determined that these products meet the ENERGY STAR ® guidelines for energy efficiency.

GENERAL SPECIFICATIONS

Color Type:	4-color
Controller:	Fiery E-43A
CPU/Bits/MHz:	Intel i5-4570S/INA/2.9 to 3.6 GHz
Memory (std/max):	2 GB x 2/2 GB x 2
HDD:	Standard 1-TB

NOTE: White and Clear Developers must be ordered for initial installation of 5th color. Either white and/or clear is needed. If both colors are needed, you must include 5th Station Replacement Kit Type S3.

Delivery and installation within a 60 mile radius is included in the hardware pricing. Delivery, installation, relocation and maintenance in any area beyond the 60-mile radius will be quoted as an open- market item. Regardless of the distance from any authorized sales and service location, if rigging is required, the charges quoted will be on an open-market basis.

Program Notes

(1) FM requested in an area beyond a 60-mile radius of a Ricoh authorized Service Location will be quoted as an open market item
(2) Pricing is for hardware; if networking/connecting/rigging involved, open market rates will apply.

Configuration Footnotes

(1) requires either an SR5050, SR5060, or a Stacker unit SK5030
(2) requires either a Fiery E-43 or E-83
(3) If ordering C9110 Entrance Unit 404726 you must order C9110 Exit Unit 404727
(4) If ordering C9100 Entrance Unit 404614 you must order C9100 Exit Unit 404615

(5) 30 Amp power filter for C9100 Series. 2 Must be ordered, 1 for entrance unit, 1 for exit unit
(6) requires TCRU Type A, B, C.
(7) 4,400 sheet vacuum feed LCIT, can configure up to 3 units, but must include a Bridge Unit (BU5010) between each LCIT
(8) bridge unit used to connect up to 3 Vacuum feed LCIT RT5100. One unit goes between each RT5100
(9) Vacuum feed oversize sheet tray for use with the RT5100. Can run up to 27" 300gsm coated stock
(10) only 1 unit per configuration
(11) not compatible with multi bypass BY5010 or multi bypass oversize sheet tray type S3
(12) Recommended for printing on coated stocks, or with high toner coverage to avoid bricking of paper
(13) for stacking up to 5k sheets of paper. Up to 2 can be configured per engine. Config can end in a stacker
(14) TCRU A contains customer replaceable parts for IQ and reliability. Mandatory for all mainframes
(15) TCRU B contains an entire fusing unit Mandatory for all mainframes
(16) bypass tray for up to 13x49" media. 220gsm max,To extend plastic tray for oversize media, you must add Multi Bypass Banner Sheet Tray Type S3
(17) to configure BY5010 with RT5100 vacuum lct, Multi Bypass Attachment Kit for Vacuum Feed LCIT Type S3 must be added. To extend plastic tray for oversize media, you must add Multi Bypass Banner Sheet Tray Type S4
(18) not compatible with Vacuum Feed Oversize Sheet Tray Type S3 in a single configuration. Only one oversize option per configuration
(19) needed to configure the BY5010 with the RT5100 vacuum feed LCIT
(20) plastic extender for BY5010 to accommodate oversize prints
(21) Extra 5k sheet cart for SK5030 stacker
(22) 3 hole punch nit for SR5050 and SR5060 finishers
(23) to assist in the running of tabs from the paper drawers
(24) Single source cover interposer
(25) six position multi fold unit
(26) cannot be configured with Stacker SK5030 or RingBinder RB5020
(27) must be configured with Transit Pass Unit for Perfect Binder Type S1 and Cover Interposer Tray for Perfect Binder Type S1
(28) must have Glue Supply Type A for setup and operation
(29) must be configured with perfect binder GB5010
(30) Cannot be configured with Perfect binder GB5010
(31) 100 sheet staple finisher
(32) Ricoh 20 sheet saddle stich booklet maker
(33) Cannot be configured with Plockmatic PBM350 or PBM500 configuration
(34) booklet Face trim unit for SR5060 only
(35) requires at least 1 GBC streampunch ultra die set
(36) only compatible with GBC streampunch ultra die sets
(37) only compatible with GBC StreamPunch Ultra
(38) 35 page production booklet maker. Simple book fold only. Must be configured with the SR5050 finisher or an SK5030 stacker
(39) 50 page production booklet maker. Simple book fold only. Must be configured with the SR5050 finisher or an SK5030 stacker
(40) for a field upgrade from a PBM350 to a PBM500
(41) not compatible with SR5060 booklet maker or TR5040 trimmer
(42) must include rail unit for configuration
(43) must be included in Plockmatic PBM350 and PBM500 configurations
(44) cover inserter is used to feed up to 300gsm covers
(45) Plockmatic PBM Trim Module for face trim of booklets only
(46) Plockmatic PBM Book Fold Module for square edge book folding
(47)Plockmatic PBM Rotate Crease Trim Module for full bleed booklets. Need Plockmatic PBM Trim Module face trim to complete full bleed trim
(48) Plockmatic BTS4000-1 Belt Stacker Module is an optional accessory to increase output capacity for uninterrupted runs
(49) ThePlockmatic PBM Rotate Crease Trim Module does not support Off-line work
(50) Fiery E-43A FS150 Pro 80 controller for Pro C7100 series
(51) Fiery E83-A FS150 QX controller for Pro C7100 Series
(52) software upgrade for E43A only
(53) Software for Fiery E43A and E-83A
(54) Contains Color Profiler v4 software and ES-2000 spectrophotometer: Includes 1 year of phone support
(55) Contains Color Profiler v4 software only: Includes 1 year of phone support
(56) For customers that only want calibration capability, just the Spectrophotometer

Program Notes

Delivery and installation within a 60 mile radius are included in the hardware pricing. Delivery, installation and maintenance in any area beyond the 60-mile radius will be quoted as an open market item. Regardless of the distance from any authorized sales and service location, if rigging is required, the charges quoted will be on an open-market basis.
For relocation of currently installed equipment, see Relocation pricing by Volume Band and Mode of Transport.

Supply Footnotes:

The Master quantity is either 200 Masters/Roll if the "L" Drum is used or 315 Masters/Roll if the "S" Drum is used.
The Maximum number of copies from this master is 4,000.

Configuration Footnotes: DD 6650P Digital Duplicator

(1) Mainframe includes: Black Drum, 1,000 Sheet Paper Feed Tray, 1,000 Sheet Delivery Tray, RPCS Network Controller.
(2) Either the Platen Cover Type 3352 or ADF DF7000 must be configured with the mainframe.
(3) The cabinet is recommended to be ordered with the mainframe.
(4) The PostScript option is required for MAC Environments.

Energy Star Copier

Configuration Footnotes

1) Aficio SP 5200SG : Print, copy, and scan. 47 PPM monochrome MFP with color scanning standard. Mainframe includes 550-sheet Paper Tray, 100-sheet Bypass Tray, standard duplex printing, Adobe PostScript, 1 GB RAM, HDD with DOSS and Encryption, Java and 50-sheet ARDF. Ships with Starter All-in-One Cartridge that yields 6,000 prints.
2) Aficio SP 5210SFG: Print, copy, scan and fax. 52 PPM monochrome MFP with color scanning standard. Mainframe includes 550-sheet Paper Tray, 100-sheet Bypass Tray, standard duplex printing, Adobe PostScript, 1 GB RAM, HDD with DOSS and Encryption, Java and 50-sheet ARDF. An inner 1-bin Tray increases output capacity to 600 sheets. Ships with Starter All-in-One Cartridge that yields 6,000 prints.
3) Aficio SP 5210SRG: Print, copy, and scan. 52 PPM monochrome MFP with color scanning standard. Mainframe includes 550-sheet Paper Tray, 100-sheet Bypass Tray, standard duplex printing, Adobe PostScript, 1 GB RAM, HDD with DOSS and Encryption, Java and 50-sheet ARDF. An internal 50-sheet Staple Finisher is provided standard. Ships with Starter All-in-One Cartridge that yields 6,000 prints.
4) Paper Feed Unit TK1090 and Paper Feed Unit TK1100 with Casters: 550-Sheet Capacity
5) For desk placement, 1 PFU TK1090 may be added. For floor placement, up to 2 PFU TK1090 may be stacked.

6) Only 1 PFU TK1100 with Casters may be installed on a mainframe. PFU TK1100 is designed specifically for placement on the floor. When properly configured, PFU TK1100 must be the lowest PFU installed.
7) Installation of 3 PFUs requires the assistance of a technician.
8) Tall Cabinet is recommended for use with mainframe when no optional Paper Feed Units are installed.
9) Medium Cabinet is recommended for use when Mainframe is configured with 1 optional Paper Feed Unit.
10) Fax option may be installed on the SP 5200SG and SP 5210SRG only.
11) IEEE802.11a/g Wireless Type J; Gigabit Ethernet Board Type C; File Format Converter Type E: One open interface board slot is available. Gigabit Ethernet, Wireless LAN or File Format Converter may be installed.
12) IEEE802.11a/g Wireless Type J: Wireless LAN option supports IEEE 802.11a/g standard and is WPA compliant.
13) Gigabit Ethernet Board Type C: The printer's standard Ethernet and USB 2.0 ports are not available when the Gigabit Ethernet Board is installed. Instead, you can use the Ethernet and USB 2.0 ports mounted on the Gigabit Ethernet Board.
14) Intentionally left blank.
15) Expansion memory. Provides additional memory for facsimile functions.
16) Data Overwrite Security Unit Type I: Overwrites latent data stored on HDD so the data can not be re-created. Data overwrite is available as a standard feature. This Data overwrite option is offered for installations requiring Common Criteria certifcation. Certification is pending.
17) Intentionally left blank.
18) Browser Unit Type E: Used to display data from the server in HTML format on the machine's control panel. You can also use this function to send scanned files from the control panel.
19) File Format Converter Type E: Required for downloading documents stored to Document Server in copier or printer mode to your PC using Web Image Monitor.
20) IPDS Option Type 5210: For use in AS/400 environments.
21) Optional Counter Interface Unit Type A: Required for 3rd party solutions requiring 20-pin connection.

Energy Star Copier

Ricoh USA, Inc. has determined that the Aficio SP 5200SG, SP 5210SFG, SP 5210SRG series Digital Imaging Systems meet the Energy Star® guidelines for energy efficiency.

SPC830DN / SPC831DN Digital Imaging Systems

Ricoh USA, Inc has determined that these products meet the ENERGY STAR ® guidelines for energy efficiency.

GENERAL SPECIFICATIONS	
Mfr/Model/Country:	/SP C830DN/Japan
Monthly Duty Cycle:	200,000 impressions
Rated Engine Life:	INA
Recommended Monthly Volume:	5,000 impressions
RESOLUTION	
Standard:	1,200 x 1,200 dpi
Enhanced:	9,600 x 600 dpi
INTERFACE/CONNECTIVITY	
Client OS Support:	Windows XP/Server 2003/Vista/Server 2008/7, Mac OS X 10.4 - 10.7, Citrix Presentation Server 4.5, Citrix XenApp 5.0+, Linux, UNIX, SAP R/3
Network Spt:	Windows, Mac, Linux, NetWare, UNIX
Std Interface:	10/100BaseTX Ethernet, USB 2.0, USB host
Opt Interface:	Parallel, 802.11a/b/g, Gigabit Ethernet
Printer Mgmt:	SmartDeviceMonitor for Admin and Client, Web SmartDeviceMonitor, Web Image Monitor, Remote Communication Gate Type S, @Remote
Embedded Software Platform:	Embedded Software Architecture

COMMENTS

Print speed 45 ppm bw and color; warm up time 29 sec or less; first print speed 3.7 sec black, 5.7 sec color; security features include: Data Overwrite Security, HDD Encryption, administrater and user authentication; 4.3 inch color touch-screen

Delivery and installation within a 60 mile radius are included in the hardware pricing. Delivery, installation and maintenance in any area beyond the 60-mile radius will be quoted as an open market item. Regardless of the distance from any authorized sales and service location, if rigging is required, the charges quoted will be on an open-market basis.
For relocation of currently installed equipment, see Relocation pricing by Volume Band and Mode of Transport.

Program Notes

(1) FM requested in an area beyond a 60-mile radius of a Ricoh authorized Service Location will be quoted as an open market item
(2) Pricing is for hardware; if networking/connecting/rigging involved, open market rates will apply.

Configuration Footnotes

(1) SP C830DN: 45-ppm for color and monochrome prints. Mainframe includes 2 x 550-sheet Paper Tray, 100-sheet Bypass Tray, 512MB RAM, USB Host Interface and integrated Duplex. Ships with Starter Toner that yields 10K prints for monochrome and 8K for color.
(2) SP C831DN: 55-ppm for color and monochrome prints. Mainframe includes 2 x 550-sheet Paper Tray, 100-sheet Bypass Tray, 512MB RAM, integrated Duplex, USB Host Interface and 250GB Hard Disk Drive. Ships with Starter Toner that yields 10K prints for monochrome and 8K for color.
(3) Paper Feed Unit PB3120 is a 1 x 550-sheet capacity Paper Feed Unit. May be added to the SP C830DN and SP C831DN.
(4) Paper Feed Unit PB3130 is a 2 x 550-sheet capacity Paper Bank.
(5) LCIT PB3140 is a 2,000-sheet Large Capacity Tray. Supports Letter/A4 paper size.
(6) LCIT RT3020 is a 1,200-sheet Large Capacity Tray. Supports Letter paper size. May be added to the SP C830DN and SP C831DN with PB3130 or PB3140 only.

(7) SR3110 is a 2,000-Sheet Booklet Finisher. This option requires the addition of the BU3060 Bridge Unit and PB3130 Two Tray Paper Bank or PB3140 LCT, or FACS52 Cabinet to attach properly.
(8) SR3120 is a 3,000-Sheet Finisher. This options requires the addition of the BU3060 Bridge Unit and PB3130 Two Tray Paper Bank or PB3140 LCT, or FACS52 Cabinet to attach properly.
(9) Bridge Unit BU3060 required to install Finisher options.
(10) Punch Kit PU3030 NA is a 2/3-hole Punch compatible with both Finishers.
(11) Output Jogger Unit Type 9002 attaches to Finisher SR3120. Taps sets into alignmentfor easy transfer to off-line finishing equipment
(12) Mail box Type CS3000 is a 4-bin mailbox; provides individual bins for separate users or jobs. Can be configured with base unit or with either Finisher.
(13) Memory Unit Type J 512MB = One (1) slot is accessible. Additional memory is recommended for duplex printing Legal and A3 documents at high resolutions as well printing banners at high resolutions. Additional memory is required for Job Spooling and Sub Paper Size support. A maximum of 1.5GB may be installed.
(14) Memory Unit Type O 1GB = One (1) slot is accessible. Additional memory is recommended for duplex printing Legal and A3 documents at high resolutions as well printing banners at high resolutions. Additional memory is required for Job Spooling and Sub Paper Size support. A maximum of 1.5GMB may be installed.
(15) Hard Disk Drive Type 830 is a 250GB Hard Disk Drive. HDD is required for Sample Print, Locked/Secure Print, HDD Hold & Storage Print, Stored Print, Stored Print (Shared) and Cover Sheet features. Optional HDD may only be installed on the SP C830DN Series. The HDD is standard on the SP C831DN
(16) IEEE802.11a/g Wireless Interface Unit Type L is a Wireless LAN option. Supports IEEE 802.11a/g standard. Wireless LAN is WPA compliant. Only one optional interface may be installed.
(17) IEEE1284 Interface Board Type A = maximum of one (1) optional interface board can be installed.
(18) Gigabit Ethernet Board Type D = The printer's Ethernet and USB 2.0 ports are not available when the Gigabit Ethernet is installed. Instead, you can use the Ethernet and USB 2.0 ports mounted on the Gigabit Ethernet Board.
(19) VM Card Type U permits for the design and implementation of customized and specialized workflow applications.
(20) Camera Direct Print Card Type J = Connect your PictBridge enabled digital still camera directly to the SP C830DN / SP C831DN without the need for a PC.
(21) Caster Table Type D is recommended when the printer main unit is configured with PB3120 (one tray paper feed unit)
(22) FAC52 Stand raises the height of the SP C830DN and SP C831DN for configuration with a Finisher.
(23) IPDS Unit Type c830 Required in IBM environments to print IPDS data;compatible with model SP C830DN and SP C831DN printer.

Energy Star Copier

Ricoh USA, Inc. has determined that the SP C830DN, SP C831DN Color Digital Imaging Systems meet the Energy Star® guidelines for energy efficiency.

DP 5510 / DP 5560 Interactive Whiteboards

GENERAL SPECIFICATIONS

Display panel size:	Diagonal: 55" wide (1,387 mm)
Display type:	Liquid crystal display
Backlight:	LED system
Effective Display Area (W x H):	47.6" x 26.8" (1,209 x 680.4 mm)
Resolution:	Maximum: 1,920 x 1,080 dpi
Color:	Maximum: Over 16,770,000 colors
Brightness:	Maximum: 300 cd/m²
Aspect Ratio:	16 : 9
Contrast ratio:	2,670 : 1
Pixel pitch:	0.63 x 0.63 mm
Response speed:	6.5 ms (Grey to Grey, Ave.)
Viewing angle (H/V):	160°/160° (Contrast ratio >= 10)
Touch panel:	Detection system electronic pen: Light interception method Protection Glass Thickness: Approx. 2 mm (including AR coating)
Video Input:	Display unit: Mini D-SUB15pin x 2, DisplayPort, HDMI (HDCP x 1), HDMI (PC) x 1
Video output:	DVI x 1
Data Ports:	USB port: USB2.0 TYPE-A x 2, USB3.0 TYPE-A x 2 Wired LAN: 10BASE-T/100BASE-T/ 1000BASE-T DVI x 1 Wireless LAN: Available with Wi-Fi converter (not supplied by Ricoh)
Audio output	Pin plugs (R+L) and terminals for 10W + 10W speakers
Dimensions (W x D x H):	53.5" x 4.92" x 32.7"
Weight:	Less than 99 lbs. (45 kg)
Power Source:	100 - 240 V, 50/60 Hz
User functions:	20 color pen, Select, Delete (Erase), Undo/Redo, Save to USB/Network Folder/Interactive Whiteboard, Open PDF and PPT files from USB and Network Folder, Screen Page Select, Capture Page, Add New Page, Captured Page List, Delete Page, Copy Page, Marker Function, Auto Firmware Download
Enhanced features:	Picture in Picture, Zooming, Recovery function, Email, Page Print, Data saving form: PDF v1.4, Max. page creation: 100, Max. strokes/page: 3,000
Remote sharing function:	Up to 8 Interactive Whiteboards and Projector Systems, Up to 20 browser viewers per Interactive Whiteboard

D5510 Configuration Footnotes
D5510 Interactive Whiteboard (Includes 1 Year Onsite Warranty):
1) 55" interactive whiteboard ships with display, integrated computer and pen.
2) Intentionally left blank.
3) Optional portable stand for D5510. Standard flat screen wall mount can also be used.
4) Licensing for collaboration between up to 4 D5510's.
5) Additional pen for D5510

D6500 Configuration Footnotes
D6500 Interactive Whiteboard (Includes 1 Year On-Site Warranty):
1) 65" Touch Screen Display only.
2) 65" IWB with embedded business controller
3) Stand for all D6500 configurations
4) Kit replaces finger operation with electronic pen. After activating option, finger operation is no longer available unless disabled in system configuration
5) Can only be used with Ricoh Interactive Whiteboard D6500 Business
5) Due to pairing between dongle and pen, no replacement or additional pens can be connected.
6) One time Collaborative license that enables connection between up to 20 Ricoh IWBs
7) Can only be used with Ricoh Interactive Whiteboard D6500 Business

UCS Configuration Footnotes
UCS PB3500 (Includes 1 Year Onsite Warranty):
1) Self contained HD video, voice and data in one package. All that is required is internet connectivity and display for viewing.
2) Monthly unlimited video conferenve servive is required for all P3500 units.
3) Optional PC, Macintosh, iPad and iPhone applications available. Require monthly subscription service.

AutoStore v7 / Output Manager v4 Notes:

(1) This product has high-volume pricing options. For more information on how to offer these discounts to customers and getting quotes, please contact your sales representative.
(2) AS High-availability licenses are a bundle of 10 licenses to be applied to a single MFP where the additional licenses are used for high-availability fail-over or load-balancing purposes only in an active-active or active-passive configuration.
(3) When upgrading from standard to high-availability, all licenses per instance must be upgraded.
(4) Customers specify device type upon fulfillment of device licenses on the web license portal. A full list of supported devices, can be found at http://www.notablesolutions.com/products/autostore/capture/multifunction-devices/
(5) Unsupported devices require a File Import License to connect to the AutoStore solution.
(6) SnapIt add-on provides ability to auto populate fields using selected content and is purchased per workstation.
(7) 2D barcode add-on provides ability to recognize 2D barcodes through QuickCapture and is purchased per workstation.
(8) File Import licenses capture from any or all of the following sources: Email (SMTP, POP3, and IMAP), Folder, FTP/SFTP sites, Multi-Poll, Rightfax servers, and XML.
(9) Battery Licenses are a one-time use consumption license that has no time limit on use.
(10) Purcahses of under 10 packs of 20 of AutoCapture are available as part of the client bundle (under the bundle section).
(11) To purchase WebCapture or NSi Mobile please see the WebCapture NSi Mobile section.
(12) Production printers require Output Manager Production Printer Licenses.
(13) Production printers are: Black and White or Color >100 ppm.
(14) Devices utilizing Network Printer licenses are not eligible to run the Embedded MFD client.
(15) Output Manager Desktop Licenses include local print monitoring and the OM Web Interface access (Web Console, Document Library, and Web Upload) for the licensed numbers of concurrent users.
(16) Output Manager Desktop Licenses are also included in the Client Bundle - see details in the Bundle section.
(17) Tiers apply to a single transaction. For example; a customer purchasing 30 device licenses will purchase at the (25 to 49) tier. That same customer purchasing 10 more licenses at a later time purchases those licenses at the (10 to 24) tier.
(18) The non-production add-ons cannot be purchased in combination with production printer licenses.
(19) Production Print versions of the add-ons are required in combination with production printer licenses.
(20) Customers must purchase the Production Print version of the Basic Transform Module as a prerequisite for the input and output filters.
(21) A single pack of 20 of WebCapture/Mobile is available as part of the client bundle (under the bundle section).

(22) Some functions of NSi Mobile will require the purchase of Output Manager.
(23) To purchase AutoCapture please see the AutoCapture Additional Products section.
(24) Client Bundles include AutoCapture, WebCapture/Mobile, and OM Desktop offerings.
(25) To purchase WebCapture / NSi Mobile or AutoCapture please see the WebCapture NSi Mobile and AutoStore sections respectively.
(26) OM High-availability license enables multiple OM DBM servers to work together behind a load balancer in a single-instance, high-availability configuration for fail-over and load-balancing purposes.
(27) Enterprise Gateway Connector Input License includes the following input connectors: NJE, SAP, WebSphere MQ.
(28) AutoCapture requires Windows OS, see system requirements for detail.
(29) QuickCapture requires Windows OS, see system requirements for detail.
(30) AutoCapture can be used in conjunction with QuickCapture to add the capability to send files and metadata to AutoStore. When this configuration is used, QuickCapture will consume user licenses. Three AutoCapture user licenses will be provided with each QuickCapture Workstation license to allow for this configuration. Additional user licenses beyond the first three must be purchased using the AutoCapture part number.
(31) Production Page Modification add-on requires the purchase of a Production Basic Transform.
(32) Intentionally left blank.
(33) Intentionally left blank.
(34) Intentionally left blank.
(35) Input and Output filters are third party products subject to third party product terms.

DOCUWARE V6 Footnotes:

1 Software can only be purchased in conjunction with mandatory Maintenance and mandatory Support.
2 Entry-level Server for small businesses with one Server, one site and with no need for Add-On Modules or file cabinets of more than 4GB size. Includes Web Client Server. Supports Add-On Modules for MFPs only. One Server License for usage on one server.
3 Flexible Server for Mid-sized organizations. One End-user org. per system. Unlimited file cabinet size. Syncing of file cabinets at remote sites. Includes Web Client Server. Expandable via Add-On modules. One server lic. for usage on one server.
4 Scalable Server for large orgs. Supports unlimited # of orgs per system, each sharing the server license. Supports clustering, load balancing, encryption of doc. files, & attaching 3rd party storage. Two server licenses for up to two servers. Each org requires separate Client Licenses & Add-On Modules.
5 For usage on PC-Workstation of DocuWare Windows and Web Client software, of Server software in single-user mode and of Add-On Modules which all are licensed for the End-User Organization.
6 Each license may be used as one Concurrent License or converted to two Named Licenses. The user has the option to use a DocuWare Concurrent or a DocuWare Named license either as a Windows Client or a Web client. Price is for each Concurrent License.
7 Unlimited number of Concurrent Client Licenses for use with PC-Workstations physically located within one site. A site is defined as a building or a group of buildings not divided by any public roads.
8 License may not be used outside a site or converted to Named Licenses at any time
9 If individual Client Licenses are purchased in addition to a Site license, the price of such Client Licenses is calculated as if 50 Client Licenses had been purchased (Site License counts as 50 Client Licenses).
10 Unlimited number of Client Licenses for Read-Only access to DocuWare file cabinets via one Web Client instance on one server.
11 Add-On Modules only available for Professional and Enterprise Servers except where noted
12 Fully automated retrieval and indexing of documents from third-party applications. One Add-On module license. Also available for DW Business Server
13 Structured storage of email integrated in Microsoft Outlook. Access to stored mail inside Outlook's user interface. One Add-On Module License.
14 Document retrieval and display, task list and approval stamps for iPhone, iPad, Android phones & tablets, Blackberry, Windows 8 as well as Windows Phone 7 & 8. Apps can be downloaded for free from the respective stores. One Add-On Module License.
15 Controlling of document workflow processes through Task Lists in Web Client. Email Notification for new documents or changed index values. One Add-On Module License.
16 Automatic assignment of external database information to pre-indexed documents in DocuWare file cabinets. One Add-On Module License.
17 Structured workflows with out-of-office and escalation management. Definition in graphical workflow designer. One Add-On Module License.
18 Detection of barcodes and text on documents for automating further processes such as page separation and indexing. One Add-On Module License.
19 Automated Import of files to DocuWare baskets and file cabinets. Simple index enhancements. One Add-On Module License.
20 Automated storing of emails with index enhancement from email headers. Supported Email Systems: Microsoft Exchange, Google Mail. One Add-On Module License.
21 Enables SAP R/3 to file documents & data via SAP interface Archive Link. Requires besides a DocuWare Server License a Site License or, optionally, as many Named Client user licenses as Named SAP users need access to the DocuWare file cabinets.
22 Installation through DocuWare Professional Services only.
23 Integrates Microsoft Office SharePoint Server. Archiving of SharePoint files in DocuWare. Offers DocuWare Web Client in SharePoint Portal and access to DocuWare documents via SharePoint search, incl. Single Sign On.
24 Connects Ricoh's Product Family MFPs with DocuWare through panel level integration. One CONNECT to Ricoh module license per organization. Requires a DocuWare Client License when MFP Operator logs into DocuWare. Please refer to list of supported devices
25 Connects Toshiba MFPs with DocuWare through either panel integration or by utilizing Toshiba's Enhanced Scan Templates. One CONNECT to Toshiba module license per organization. Requires a DocuWare Client License when MFP Operator logs into DocuWare.
26 Connects Sharp MFPs with DocuWare through panel level integration. One CONNECT to Sharp module license per organization. Requires a DocuWare Client License when MFP Operator logs into DocuWare.
27 Connects Xerox MFPs with DocuWare through panel level integration. One CONNECT to Xerox module license per organization. Requires a DocuWare Client License when MFP Operator logs into DocuWare.
28 Connects OKI MFPs with DocuWare through either panel integration or by utilizing OKI's Enhanced Scan Templates. Run as Windows-Service. One Add-On Module License. Requires one additional client license per PC where Service is installed.
29 Connection to DocuWare using a plug-in for Upload Service
30 Under the mandatory Maintenance, the customer will automatically receive all fixes, service packs, updates and upgrades to the DocuWare software products initially purchased or subsequently added.

PURCHASE DOCUMENT SOLUTION SYSTEMS: SIN 51-100

31 Under the mandatory Support, the customer receives technical support provided by DocuWare via telephone and email.
32 Maintenance and Support must be ordered together
33 Cannot be ordered for new or existing accounts, but are actively supported by DocuWare.
34 Only customers with current Maintenance or Maintenance and Support Subscriptions may purchase Side-grades.
35 For Side-grades, the difference in the subscription price of the two products, prorated for the amount of time remaining on the subscription(s), must be paid in addition to the Software Price.
36 Only possible if the customer has already licensed AUTOINDEX and Connect to Outlook or AUTOINDEX and Connect to Mail.
37 Only possible for customers using RECOGNITION without ACTIVE IMPORT
38 Reinstatement of cancelled Maintenance and Support Subscriptions is subject to a Reinstatement Fee, unless reinstatement is declared not later than 60 days after the date of cancellation.
39 A new Maintenance and Support Subscription or only a Maintenance Subscription, if qualified, must be purchased in addition to paying the Reinstatement Fee.
40 If an Update or Upgrade has been issued since the expiration date of M&S subscription, reinstatement fees do not apply. An Update or Upgrade Fee must be paid to bring the subscription to the current version.
41 Customers without valid Maintenance and Support Subscriptions may get current by purchasing Updates or Upgrades.
42 Updates and/or Upgrades for expired Subscriptions must be purchased to the latest available DocuWare version. The Update/Upgrade Fee does not include the cost of the required new Maintenance or Maintenance and Support Subscriptions.

Replacement Printer Cutter Blade			C12C815331	137
*Cartridge yields vary considerably for reasons including images printed, print settings, temperature and humidity. Yields may be lower when printing infrequently or predominantly with one ink color. A variable amount of ink remains in the cartridge after the "replace cartridge" signal. Part of the ink from the first cartridges is used for priming the printer. Ink is used for both printing and print head maintenance. All inks are used for both black and color printing. Contact Ricoh Authorized Sales Agent for additional information.

Notes:

(1) Originals are large rubber-banded sections or loose documents of autofeed. If only set of copies is to be made, it must be in excellent condition – one-sided, with same-size paper with no staples, clips, or folder tabs. The expected productivity is 3000 images per hour at 300 DPI and takes place in a Ricoh office.

(2) Originals with primarily stapled and clipped sections of letter and legal size, including copying of file folders and folder tabs and also include small stapled and clipped sections of five or fewer pages and mixed sizes or originals, such as receipts, envelopes, half pages, etc. Originals marked "Image Tagged Only," otherwise known as "Pick and Choose," that contain tagged folders, tagged stapled or clipped sections, tagged individual pages, or "image from this to next," would be an Image Standard Resolution is 300 DPI Capture D – Heavy job, unless the designated sections qualify as Image Capture E – Glasswork. The expected productivity is 500 images per hour and takes place in a Ricoh office.

(3) Originals that require 50% or more glasswork, such as receipts, half pages, envelopes, onion skin or fax paper, odd-sized originals, and extremely poor quality originals that require extensive handling and analysis on a page-by-page basis. The expected productivity is 300 images per hour at 300 DPI and takes place in a Ricoh office.

(4) Same definition as Image Capture D – Heavy (product 713) but takes place at a customer's location.
(5) Same definition as Image Capture D – Heavy (product 713).
(6) Same definition as Image Capture E – Glasswork (product 714).
(7) Price is per square foot.

Notes:

(1) Originals as described in the C - Medium Litigation category (see Note #4), but also includes small stapled and clipped sections of five or fewer pages and mixed sizes or originals, such as receipts, envelopes, half pages, etc. Originals marked "Image Tagged Only," otherwise known as "Pick and Choose," that contain tagged folders, tagged stapled or clipped sections, tagged individual pages, or "image from this to next," would be an Image Capture D – Heavy job, unless the designated sections qualify as Image Capture E – Glasswork. The expected productivity is 500 images per hour and takes place in a Ricoh office.

(2) Originals that require 50% or more glasswork, such as receipts, half pages, envelopes, onion skin or fax paper, odd-sized originals, and extremely poor quality originals that require extensive handling and analysis on a page-by-page basis. The expected productivity is 300 images per hour and takes place in a Ricoh office.

(3) Same definition as Image Capture D – Heavy (product 713) but takes place at a customer's location

(4) Originals with primarily stapled and clipped sections of letter and legal size, including copying of file folders and folder tabs. These jobs require more handling as well as more organization. There may be an occasional receipt or small original in this type of work, but not to the extent of slowing down the copying. The expected productivity is 1,000 copies per hour and takes place in a Ricoh office.

(5) Originals as described in the C - Medium Litigation category, but also includes small stapled and clipped sections of five or fewer pages and mixed sizes or originals, such as receipts, envelopes, half pages, etc. These additional variables cause this type of work to require more handling and organizing, which in turn lowers the achievable copies per hour. The expected productivity is 500 copies per hour and takes place in a Ricoh office.

(6) Consultation in relation to data mapping

(7) Forensic acquisition of ESI

(8) Validated and forensically sound collection of websites

(9) Project Management

(10) Additional specialized technical work as required

(11) Expert witness for deposition and testimony (inc. prep time)

(12) Consult (forensics) in relation to project overview, objectives and execution

Delivery and installation within a 60 mile radius are included in the hardware pricing. Delivery, installation and maintenance in any area beyond the 60-mile radius will be quoted as an open market item. Regardless of the distance from any authorized sales and service location, if rigging is required, the charges quoted will be on an open-market basis. For relocation of currently installed equipment, see Relocation pricing by Volume Band and Mode of Transport.

Program Notes

(1) FM requested in an area beyond a 60-mile radius of a Ricoh authorized Service Location will be quoted as an open market item
(2) Pricing is for hardware; if networking/connecting/rigging involved, open market rates will apply.

Configuration Footnotes

(1) Mainframe includes 9" Color Operation Panel, Standard 220-Sheet SPDF, B/W PCL Printing, B/W & Color Scanning, 2 x 550 Sheet Paper Trays, 100-Sheet Bypass Tray, Duplex, 320GB HDD, 2GB RAM, Java VM, HDD Encryption, & included DOSS is ISO 15408 Certified. Note: VM card is not pre-installed in the mainframe, however, the Java VM data itself is stored in the mainframe.
(2) One of following must be installed on the mainframe: PB3150,PB3220, PB3230,or Cabinet Type F. Only one of these options can be installed on the device.
(3) Paper Feed Unit PB3150 requires Caster Table Type M3. This paper feed unit lowers the total machine height, making it easy for all users to access the device (Section 508). The caster tray provides a platform with wheels to easily move the device.
(4) Caster Table Type M3 cannot be installed with any of these Finisher or Paper Bank options: SR3140,SR3150,SR3160,SR3170,PB3220,or PB3230.
(5) LCIT RT3030 cannot be installed with with PB3150,Caster Table Type M3 or Cabinet Type F. LCIT RT3030 requires either PB3220, or PB3230.
(6) Only one of these options can be installed on the device.
(7) Must Order Bridge Unit BU3070 with any external Finisher.
(8) One of the following Paper Feed Units, or Cabinet, must be installed with any external Finisher: PB3220,PB3230,or Cabinet Type F.
(9) Provides additional output tray above the standard Internal Tray or Optional Bridge Unit/Internal Shift Tray/Internal Finisher (Holds 125 Sheets).
(10) Hole Punch Option for for Internal Finisher SR3130.
(11) Hole Punch Option for SR3140 Finisher and SR3150 Finisher.
(12) Hole Punch Option for SR3160 Finisher and SR3170 Finisher.
(13) Internal Finisher SR3130 is not compatible with MP6054.
(14) 10.1" WSGVA resolution control panel provides intuitive touchscreen control similar to smart phones and tablets. It offers advanced Web browser functionality, drag-and-drop icons and swipe scrolling. Note: Standard control panel must be removed by Service Technician.
(15) Only one of these additional connectivity options can be installed on the device.
(16) Required for Macintosh and PostScript environments.
(17) Used by customers who print using Netware.This option is required for the following functions: Use of iPrint ports, SNMP via IPX and Scan to NCP (IPX, TCP/IP).
(18) Web based applications, such as ICE and HotSpot require Browser capability which is standard on devices configured with the Smart Operation Panel. This option is required when ICE and/or HotSpot are configured with the Standard Operation Panel.
(19) Required to convert format and drag to desktop document stored via Copy or Print mode.
(20) Allows the creation of searchable PDFs when scanning. User can search the finished documents for specific words by using electronic search functions.
(21) 20-Pin Interface used to attach External Key Counter or Key Card Device.
(22) Used to mount external key counter to MFP.
(23) Table shaped option to position counter device on. USB Connector.
(24) Requires Browser Unit Type M12 to enable HotSpot printing.One year HotSpot subscription service included.
(25) Intelligent Printer Data Stream (IPDS). NOTE:
(26) This option enables printing of XPS format documents.
(27) This option can hold an additional IP address, which then enables our MFPs to connect to two different network environments.
(28) Installation required to enable fax services: 33.6Kbps, approximately 2 Second Transmission Speed, Standard JBIG.Standard 320 Pages Memory. Includes standard Internet Fax (T.37), LAN Fax, IP-Fax (T.38), Fax Forwarding to Email & Paperless Fax function.
(29) Requires Fax Option Type M12.
(30) Enables users to send and receive faxes on a sub MFP via a main MFP.This option is required on both the Main MFP that has the Fax Option Type M12 installed and on the Sub MFP(s) needing remote fax.
(31) Up to two additional lines can be installed. For a maximum total of 3 lines.
(32) Increases fax memory to 2,240 pages and fax resolution to 400 x 400 dpi.
(33) Ricoh Advanced Technical Support (ATS) recommends the use of Power Protection products to minimize potential electrical interference with products.
(34) Prevents unauthorized copying of confidential documents that were created on other printers that have this option installed.
(35) For use with 3rd Party card readers like the RFIdeas PCProx readers on our price list.The card reader and it's cable would not be visible when this option is used. If using another type card reader be sure reader dimensions do not exceed 63.5mm x 106mm x 22mm in size.
(36) The Smart Card Reader Built-in Unit Type M12 and External Keyboard Bracket Type M3 cannot be installed on the same device.
(37) This is an ISO 15408 Certified version of DOSS that overwrites Copy, Print, Scanner, and Fax latent data. Mainframe is now ISO 15408 Common Criteria certified, so this option is no longer required to provide an ISO 15408 Certified version of DOSS.
(38) This bracket is required for the installation of External USB Keyboard.
(39) External Keyboard for inputting data with either SDK applications OR embedded applications.

(40) Card Reader only - no cards are provided. Used with Common Access Card (CAC)/Personal Identity Verification (PIV) Authentication Solution.
(41) RHD kit uses MFP's Internal Hard Drive and makes it External
(42) Fax Option is NOT COMPATIBLE with RHD or ARHD
(43) ARHD includes an extra hard drive

Energy Star Copier
Ricoh USA, Inc.has determined that the MP 4054SPG, MP 5054SPG, MP 6054SPG Digital Imaging Systems meet the Energy Star® guidelines for energy efficiency.

Delivery and installation within a 60 mile radius is included in the hardware pricing. Delivery, installation, relocation and maintenance in any area beyond the 60-mile radius will be quoted as an open- market item. Regardless of the distance from any authorized sales and service location, if rigging is required, the charges quoted will be on an open-market basis.

Program Notes

(1) FM requested in an area beyond a 60-mile radius of a Ricoh authorized Service Location will be quoted as an open market item
(2) Pricing is for hardware; if networking/connecting/rigging involved, open market rates will apply.

Configuration Footnotes

(1) Designed for a max monthly volume of 20K pages. (Letter paper, 20lb. Bond).
(2) Mainframe includes 9" Color Touch Control Panel, 100-Sheet ARDF, Duplex, 2 x 550-Sheet Paper Trays, 100-Sheet Bypass Tray, Drums, Developer, Scan/Print Kit, USB Host Interface, Gigabit Ethernet, DOSS, PDF Direct Print, HDD Encryption, Java VM Card, Scan to/Print From USB/SD Card, 1.5GB RAM, & 250GB HDD. Envelope feeding via standard 2nd paper drawer & bypass tray. (The standard DOSS included with the mainframe is ISO 15408 certified).
(3) One of following: PB3150, PB3160, PB3230 or Cabinet Type F must be installed on the mainframe.
(4) Requires Caster Table Type M3. This paper feed unit lowers the total machine height, making it easy for all users to access the device (Section 508). The caster tray provides a platform with wheels to easily move the device.
(5) Cannot be installed with PB3150 , Caster Table Type M3 or Cabinet Type F.
(6) Only one of these options can be installed on the device.
(7) Must Order BU3070 Bridge Unit with any external Finisher.
(8) Hole Punch Option for SR3130 Finisher.
(9) Provides additional output tray above the standard Internal Tray or Optional Bridge Unit/Internal Shift Tray/Internal Finisher (Holds 125 Sheets).
(10) The Certified DataOverWrite Security System that ships standard with the mainframe does not overwrite the HDD for the Color Controller E-22C.
(11) Hole Punch Option for SR3150 & SR3140 Finishers.
(12) 4 Pin interface used to mount external key counter to MFP.
(13) 20-Pin Interface used to attach external key counter or key card device.
(14) Used by customers who print using Netware. This option is required for the following functions: Use of iPrint ports, SNMP via IPX and Scan to NCP (IPX, TCP/IP).
(15) Table shaped option used to place either card reader or counter device. USB Connector.
(16) Allows customers to print crop marks for proofing SRA3/12.6" documents.
(17) Installation required to enable fax services: 33.6Kbps, approximately 2 Second Transmission Speed, Standard JBIG. Standard 320 Pages Memory. Includes standard Internet Fax (T.37), LAN Fax, IP-Fax (T.38), Fax Forwarding to Email & Paperless Fax function.
(18) Up to two additional lines can be installed. For a maximum total of 3 lines.
(19) Requires Fax Option Type M3 .
(20) Increases fax memory to 2,240 pages and fax resolution to 400 x 400 dpi.
(21) Only one of these additional connectivity options can be installed on the device.
(22) Allows users to connect a PictBridge-compatible digital camera directly to the MFP, enabling the printing of photos without a computer.
(23) Required for printing from Mac OS. Recommended for printing more complex color and PDF files.
(24) This function embeds invisible texts on scanned images of PDF and enables users to search PDF files by arbitrary keywords. Searchable PDF files can be sent to email, folders and external media (SD/USB).
(25) Required to convert format and drag to desktop document stored via Copy or Print mode.
(26) Ricoh Advanced Technical Support (ATS) recommends the use of Power Protection products to minimize potential electrical interference with products.
(27) Prevents unauthorized copying of confidential documents that were created on other printers that have this option installed.
(28) Enables users to send and receive faxes on a sub MFP via a main MFP. This option is required on both the Main MFP that has the Fax Option Type M3 installed and on the Sub MFP(s) needing remote fax.
(29) For use with Ricoh & 3rd party software solutions. The smart card reader and its cable will be covered inside the mainframe when this option is attached. Not all card readers may be supported.
(30) External Keyboard for inputting data with either SDK applications OR embedded applications.
(31) The Smart Card Reader Built-in Unit Type M2 and External Keyboard Bracket Type M3 cannot be installed on the same device.
(32) This bracket is required for the installation of External USB Keyboard .
(33) Used for Browser Features like ICE. Also required with HotSpot MFP Option Type S to enable HotSpot printing. Not compatible with all Web Sites.
(34) Cannot install floor standing Finisher SR3150 or SR3140 with the PB3150 and Caster Table Type M3 ( ).
(35) Intelligent Printer Data Stream (IPDS).

Ricoh MPC3003G, MPC3503G Color Digital Imaging Systems

Available for: Purc, LTOP, ROLP, Maintenance, Supplies

Page 3 of 3

(36) 10.1" Wide Super VGA resolution control panel provides intuitive touchscreen control similar to smart phones and tablets. It offers advanced Web browser functionality, drag-and-drop icons and swipe scrolling. Note: Standard control panel must be removed by Service Technician.
(37) Required when configuring the device with the Browser Unit Type M3 or SDK application.
(38) Requires Browser Unit Type M3 to enable HotSpot printing. One year HotSpot subscription service included.
(39) Printing with unauthorized copy control pattern or text with the Copy Data Security Unit Type G is not available when Color Controller E-22C are installed.
(40) Optional Fiery Color Controller that can be configured with the std Print/Scan controller for embedded scan features and Fiery print.
(41) Fiery option that helps to automate and streamline labor-intensive prepress tasks. Requires Color Controller E22-C & Color Controller Connection Board Type M3.
(42) Fiery option that provides intuitive tools that make advanced document preparation simple and quick. Requires Color Controller E22-C & Color Controller Connection Board Type M3.
(43) Fiery option that enables the creation of special folders that can assign a group of print options. Requires Color Controller E22-C & Color Controller Connection Board Type M3.
(44) Fiery option that enables you to reproduce custom or spot colors. Requires Color Controller E22-C & Color Controller Connection Board Type M3 .
(45) Fiery option that provides a fast and simple way to ensure that your image output is optimized. Requires Color Controller E22-C & Color Controller Connection Board Type M3.
(46) Contains Color Profiler v4 software and ES-2000 spectrophotometer: Includes 1 year of phone support. Requires Color Controller E22-C & Color Controller Connection Board Type M3.
(47) For customers that have an ES-2000 Spectrophotometer and want Color Profiler v4 software: Includes 1 year of phone support
(48) Color measurement device for calibration and profiling. Enables fast, precise and flexible color management that produces the highest color quality. Requires Color Controller E-22C and Color Controller Connection Board Type M3 .
(49) Fiery option aids in workflow productivity - helps meet tight turnaround times/produce top notch color documents while achieving process automation. Requires Color Controller E22-C & Color Controller Connection Board Type M3 .
(50) Connection Kit is required to use the Color Controller E22-C with the MP C3003/MP C3503 Mainframes.
(51) The IEEE1284 , IEEE802.11a/g/n Interface Unit Type M2 , Camera Direct Print Card Type M3 , PostScript 3 Unit Type M3 and IPDS Unit Type M3 cannot be configured with the Color Controller E22-C & Color Controller Connection Board Type M3 .
(52) The HTML Direct Print feature is not available with Browser Unit Type M3 when Color Controller E-22C & Color Controller Connection Board Type M3 are installed.
(53) The RHD Kit uses the MFP's Internal Hard Drive and makes it External.
(54) The Fax Option Type M3 is not compatible with the RHD or ARHD.
(55) The ARHD includes an extra hard drive.
(56) The product is (OOD) Order On Demand, please allow 8 weeks for delivery from the date the order is placed.

Energy Star Copier

Ricoh USA, Inc. has determined that the MPC3003G, MPC3503G Color Digital Imaging Systems meets the Energy Star® guidelines for energy efficiency.

Delivery and installation within a 60 mile radius is included in the hardware pricing. Delivery, installation, and maintenance in any area beyond the 60-mile radius will be quoted as an open-market item. Regardless of the distance from any authorized sales and service location, if rigging is required, the charges quoted will be on an open-market basis.

Program Notes

(1) FM requested in an area beyond a 60-mile radius of a Ricoh authorized Service Location will be quoted as an open market item
(2) Pricing is for hardware; if networking/connecting/rigging involved, open market rates will apply.

Configuration Footnotes

(1) Designed for a max monthly volume of 50K pages (Letter paper, 20lb. Bond).
(2) Mainframe includes 9" Color Touch Control Panel, 220-Sheet SPDF, Duplex, 2 x 550-Sheet Paper Trays, 100-Sheet Bypass Tray, Drums, Developer, Scan/Print Kit, USB Host Interface, Gigabit Ethernet, DOSS, PDF Direct Print, HDD Encryption, Java VM Card, Scan to/Print From USB/SD Card, 2GB RAM, & 250GB HDD. Envelope feeding via standard 2nd paper drawer & bypass tray. (The standard DOSS included with the mainframe is ISO 15408 certified).
(3) One of following: PB3150 , PB3160 , PB3230 or Cabinet Type F must be installed on the mainframe.
(4) Requires Caster Table Type M3 . This paper feed unit lowers the total machine height, making it easy for all users to access the device (Section 508). The caster table provides a platform with wheels to easily move the device.
(5) Cannot be installed with PB3150 , Caster Table Type M3 or Cabinet Type F (100478FNG)
(6) Only one of these options can be installed on the device.
(7) Must Order BU3070 Bridge Unit (416551) with any external Finisher.
(8) Hole Punch Option for SR3130 Finisher (416543).
(9) Provides additional output tray above the standard Internal Tray or Optional Bridge Unit/Internal Shift Tray/Internal Finisher (Holds 125 Sheets).
(10) Must use "Scan to NCP" feature with standard Services-Led Scanner when the Fiery Controller & Color Controller Connection Board Type M4 are installed.
(11) Hole Punch Option for SR3150 & SR3140 Finishers.
(12) 4 Pin interface used to mount external key counter to MFP.
(13) 20-Pin Interface used to attach external key counter or key card device.
(14) Hole Punch Option for SR3160 & SR3170 Finishers.
(15) Table shaped option used to place either card reader or counter device. USB Connector.
(16) Allows customers to print crop marks for proofing SRA3/12.6" documents.
(17) Installation required to enable fax services: 33.6Kbps, approximately 2 Second Transmission Speed, Standard JBIG. Standard 320 Pages Memory. Includes standard Internet Fax (T.37), LAN Fax, IP-Fax (T.38), Fax Forwarding to Email & Paperless Fax function.
(18) Up to two additional lines can be installed. For a maximum total of 3 lines.
(19) Requires Fax Option Type M4 .
(20) Increases fax memory to 2,240 pages and fax resolution to 400 x 400 dpi.
(21) Only one of these additional connectivity options can be installed on the device.
(22) Allows users to connect a PictBridge-compatible digital camera directly to the MFP, enabling the printing of photos without a computer.
(23) Required for printing from Mac OS. Recommended for printing more complex color and PDF files.
(24) This function embeds invisible texts on scanned images of PDF and enables users to search PDF files by arbitrary keywords. Searchable PDF files can be sent to email, folders and external media (SD/USB).
(25) Required to convert format and drag to desktop document stored via Copy or Print mode.
(26) Ricoh Advanced Technical Support (ATS) recommends the use of Power Protection products to minimize potential electrical interference with products.
(27) Prevents unauthorized copying of confidential documents that were created on other printers that have this option installed.
(28) Enables users to send and receive faxes on a sub MFP via a main MFP. This option is required on both the Main MFP that has the Fax Option Type M4 installed and on the Sub MFP(s) needing remote fax.
(29) For use with Ricoh & 3rd party software solutions. The smart card reader and its cable will be covered inside the mainframe when this option is attached. Not all card readers may be supported.
(30) External Keyboard for inputting data with either SDK applications OR embedded applications.
(31) The Smart Card Reader Built-in Unit Type M2 and External Keyboard Bracket Type M3 cannot be installed on the same device.
(32) This bracket is required for the installation of External USB Keyboard
(33) Used for Browser Features like ICE. Also required with HotSpot MFP Option Type S to enable HotSpot printing. Not compatible with all Web Sites.

Ricoh MPC4503G, MP C5503G, MP C6003G Color Digital Imaging Systems

Available for: Purc, LTOP, ROLP, Maintenance, Supplies

(34) Cannot install floor standing Finisher SR3150 , SR3170 , SR3160 or SR3140 with the PB3150 and Caster Table Type M3 .
(35) Intelligent Printer Data Stream (IPDS).
(36) 10.1" Wide Super VGA resolution control panel provides intuitive touchscreen control similar to smart phones and tablets. It offers advanced Web browser functionality, drag-and-drop icons and swipe scrolling. Note: Standard control panel must be removed by Service Technician.
(37) Not compatible with MP C6003.
(38) Requires Browser Unit Type M4 to enable HotSpot printing. One year HotSpot subscription service included.
(39) Used by customers who print using Netware. This option is required for the following functions: Use of iPrint ports, SNMP via IPX and Scan to NCP (IPX, TCP/IP).
(40) Optional Fiery Color Controller that can be configured with the std Print/Scan controller for embedded scan features and Fiery print.
(41) Fiery option that helps to automate and streamline labor-intensive prepress tasks. Requires Color Controller E22-C & Color Controller Connection Board Type M4 .
(42) Fiery option that provides intuitive tools that make advanced document preparation simple and quick. Requires Color Controller E22-C & Color Controller Connection Board Type M4 .
(43) Fiery option that enables the creation of special folders that can assign a group of print options. Requires Color Controller E22-C & Color Controller Connection Board Type M4 .
(44) Fiery option that enables you to reproduce custom or spot colors. Requires Color Controller E22-C & Color Controller Connection Board Type M4 .
(45) Fiery option that provides a fast and simple way to ensure that your image output is optimized. Requires Color Controller E22-C & Color Controller Connection Board Type M4 .
(46) Contains Color Profiler v4 software and ES-2000 spectrophotometer: Includes 1 year of phone support. Requires Color Controller E22-C & Color Controller Connection Board Type M4 .
(47) For customers that have an ES-2000 Spectrophotometer and want Color Profiler v4 software: Includes 1 year of phone support
(48) Color measurement device for calibration and profiling. Enables fast, precise and flexible color management that produces the highest color quality. Requires Color Controller E-22C and Color Controller Connection Board Type M4 .
(49) Fiery option aids in workflow productivity - helps meet tight turnaround times/produce top notch color documents while achieving process automation. Requires Color Controller E22-C & Color Controller Connection Board Type M4 .
(50) Connection Kit is required to use the Color Controller E22-C with the MP C4503/MP C5503/MP C6003 Mainframes.
(51) The IEEE1284 , IEEE802.11a/g/n Interface Unit Type M2 , Camera Direct Print Card Type M4 , PostScript 3 Unit Type M4 and IPDS Unit Type M4 cannot be configured with the Color Controller E-22C and Color Controller Connection Board Type M4 .
(52) The HTML Direct Print feature is not available with Browser Unit Type M4 when Color Controller E-22C & Color Controller Connection Board Type M4 are installed.
(53) Printing with unauthorized copy control pattern or text with the Copy Data Security Unit Type G (416391) is not available when Color Controller E-22C is installed.
(54) The Certified DataOverWrite Security System that ships standard with the mainframe does not overwrite the HDD for the Color Controller E-22C
(55) The RHD Kit uses the MFP's Internal Hard Drive and makes it External.
(56) The Fax Option Type M4 is not compatible with the RHD or ARHD.
(57) The ARHD includes an extra hard drive.

Delivery and installation within a 60 mile radius are included in the hardware pricing. Delivery, installation and maintenance in any area beyond the 60-mile radius will be quoted as an open market item. Regardless of the distance from any authorized sales and service location, if rigging is required, the charges quoted will be on an open-market basis.
For relocation of currently installed equipment, see Relocation pricing by Volume Band and Mode of Transport.

Program Notes

(1) FM requested in an area beyond a 60-mile radius of a Ricoh authorized Service Location will be quoted as an open market item
(2) Pricing is for hardware; if networking/connecting/rigging involved, open market rates will apply.

Configuration Footnotes

(1) Mainframe, Multi-Folding Unit FD5020, Streampunch Ultra and Ring Binder RB5020: require either an SR5050, SR5060, or a Stacker unit SK5030
(2) Mainframe requires either a Fiery E-43A or E-83A
(3) Mainframe requires EFI 5th Station Hardware Upgrade Kit.
(4) Mainframe requires white and/or clear developer type S3 for service installation; for both colors, 5th Station Replacement Kit Type S3 must also be added.
(5) Requires TCRU Type A, B and C

(6) 4,400 sheet A4 LCT, only 1 LCT can be configured per mainframe
(7) Not compatible with Vacuum Feed LCIT RT5100, Bridge Unit (BU5010), Multi Bypass Attachment Kit for RT5100, or Vacuum Feed banner Sheet Tray
(8) 4,400 sheet vacuum feed LCIT, can configure up to 3 units, but must include a Bridge Unit (BU5010) between each LCIT
(9) Not compatible with LCIT RT5090
(10) Bridge unit used to connect up to 3 Vacuum feed LCIT RT5100. One unit goes between each RT5100
(11) Vacuum feed oversize sheet tray for use with the RT5100. Can run up to 27" 300gsm coated stock
(12) Only 1 unit per configuration
(13) Not compatible with multi bypass BY5010 or multi bypass oversize sheet tray type S3
(14) Recommended for printing on coated stocks, or with high toner coverage to avoid bricking of paper
(15) For stacking up to 5k sheets of paper. Up to 2 can be configured per engine. Config can end in a stacker
(16) Recommended with medias ne to curl or in high humidity environments
(17) TCRU A contains customer replaceable parts for IQ and reliability. Mandatory for all mainframes
(18) TCRU B contains an entire fusing unit Mandatory for all mainframes
(19) TCRU C contains components to maintain the 5th color. Mandatory on a 5 color units
(20) bypass tray for up to 13x49" media. 220gsm max, non coated for RT5090 LCIT. To extend plastic tray for oversize media, you must add Multi Bypass Banner Sheet Tray Type S3
(21) To configure BY5010 with RT5100 vacuum lct, Multi Bypass Attachment Kit for Vacuum Feed LCIT Type S3 must be added. To extend plastic tray for oversize media, you must add Multi Bypass Banner Sheet Tray Type S3
(22) Not compatible with Vacuum Feed Oversize Sheet Tray Type S3 in a single configuration. Only one oversize option per configuration
(23) Needed to configure the BY5010 with the RT5100 vacuum feed LCIT
(24) Plastic extender for BY5010 to accommodate oversize prints
(25) Must be ordered to enable the switch between clear and white toner for customers who order both
(26) Must be ordered for initial installation of 5th color. Either white and/or clear is needed. If both colors are needed, you must include 5th Station Replacement Kit Type S3
(27) To convert drawer 1 to an 11x17 drawer. Reduces capacity by half
(28) Extra 5k sheet cart for SK5030 stacker
(29) 3 hole punch nit for SR5050 and SR5060 finishers
(30) To assist in the running of tabs from the paper drawers
(31) Single source cover interposer
(32) Six position multi fold unit
(33) Cannot be configured with Stacker SK5030 or RingBinder RB5020
(34) Must be configured with Transit Pass Unit for Perfect Binder Type S1 and Cover Interposer Tray for Perfect Binder Type S1
(35) Must have Glue Supply Type A for setup and operation
(36) Must be configured with perfect binder GB5010
(37) Cannot be configured with Perfect binder GB5010
(38) 100 sheet staple finisher
(39) Ricoh 20 sheet saddle stich booklet maker
(40) Cannot be configured with Plockmatic PBM350 or PBM500 configuration
(41) booklet Face trim unit for SR5060 only
(42) Requires at least 1 GBC streampunch ultra die set
(43) Only compatible with GBC streampunch ultra die sets
(44) Only compatible with GBC StreamPunch Ultra
(45) 35 page duction booklet maker. Simple book fold only. Must be configured with the SR5050 finisher or an SK5030 stacker
(46) 50 page duction booklet maker. Simple book fold only. Must be configured with the SR5050 finisher or an SK5030 stacker
(47) For a field upgrade from a PBM350 to a PBM500
(48) Not compatible with SR5060 booklet maker or TR5040 trimmer
(49) Must include rail unit for configuration
(50) Must be included in Plockmatic PBM350 and PBM500 configurations
(51) Cover inserter is used to feed up to 300gsm covers
(52) Plockmatic PBM Trim Module for face trim of booklets only
(53) Plockmatic PBM Book Fold Module for square edge book folding
(54) Plockmatic PBM Rotate Crease Trim Module for full bleed booklets. Need Plockmatic PBM Trim Module face trim to complete full bleed trim
(55) Plockmatic BTS4000-1 Belt Stacker Module is an optional accessory to increase output capacity for uninterrupted runs
(56) ThePlockmatic PBM Rotate Crease Trim Module does not support Off-line work
(57) Fiery E-43A FS150 80 controller for C7100 series
(58) Fiery E83-A FS150 QX controller for C7100 Series
(59) Must install to enable 5th station printing on the E43-A or E-83A
(60) Software upgrade for E43A only
(61) Software for Fiery E43A and E-83A
(62) Contains Color filer v4 software and ES-2000 spectrophotometer: Includes 1 year of phone support
(63) Contains Color filer v4 software only: Includes 1 year of phone support
(64) For customers that only want calibration capability, just the Spectrophotometer
(65) Stand, keyboard, monitor and mouse for Fiery E-43A
(66) Stand, keyboard, monitor and mouse for Fiery E-83A
(67) Removable HD for Fiery E-43A
(68) Removable HD for Fiery E-43A
(69) RAM upgrade for Fiery E43-A
(70) Additional 1 year support for Color filer V4 software
(71) Include TotalFlow MakeReady and PrintManager, and one year unlimited phone support at no charge by adding (404475),
(72) TotalFlow MakeReady Bundle (404475), and PrintManager Bundle (404476) is applicable to new system orders only when ordering (404360), (404367).

(73) Must include 12 month phone support (006987MIU) at no charge when ordering (404475), (404476), or (404473), (404474)
(74) Extended support options for TotalFlow MakeReady and PrintManager (package or bundle)
(75) For current Ricoh Print duction customers that want to add TotalFlow MakeReady and TotalFlow PrintManager.
(76) Requires Windows XP, Vista, 7, (for MakeReady) or Server 2003/2008 (for PrintManager) based computer with at least 2GB RAM and 500MB HDD and internet access.
(77) Option for FS150 EFI controllers, contains EFI Impose type FS150 and the ES-2000 Spectrophotometer
(78) Option for FS150 EFI controllers Contains Impose and Compose Type FS150, CPS 4.X, and the GAPPE for FS150
(79) NOT compatible with: 5th Station Replacement Kit Type S3 Developer clear Developer white EFI 5th Station Hardware Upgrade Kit or TCRU C
(80) Requires TCRU Type A, B
(81) 20 amp power filter for the C71 Series - 2 must be added to each mainframe.

Energy Star Copier
Ricoh Pro C7100, Pro C7100X, Pro C7100SX, Pro C7110SX Digital Imaging Systems meet the Energy Star® guidelines for energy efficiency.

AutoStore v7 / AutoStore Express / Output Manager v4 Notes:

(1) This product has high-volume pricing options. For more information on how to offer these discounts to customers and getting quotes, please contact your sales representative.

(2) AS High-availability licenses are a bundle of 10 licenses to be applied to a single MFP where the additional licenses are used for high-availability fail-over or load-balancing purposes only in an active-active or active-passive configuration.

(3) When upgrading from standard to high-availability, all licenses per instance must be upgraded.

AutoStore v7 / AutoStore Express / Output Manager v4 Notes:

(1) This product has high-volume pricing options. For more information on how to offer these discounts to customers and getting quotes, please contact your sales representative.

(2) AS High-availability licenses are a bundle of 10 licenses to be applied to a single MFP where the additional licenses are used for high-availability fail-over or load-balancing purposes only in an active-active or active-passive configuration.

(3) When upgrading from standard to high-availability, all licenses per instance must be upgraded.
