CUSTOMER INFORMATION

1a Table of awarded special item number(s) with appropriate cross-reference to item descriptions and awarded price(s).

SIN	SIN Title
54151S	**IT Professional Services**
541715	**Engineering Research and Development and Strategic Planning**

SIN	Title	Description
541715	Operation Support Services, Hourly Rate	Provides on-demand operational and technical support services billed on an hourly basis to sustain deployed Saronic systems, vessels, or customer missions. Services may include mission planning and execution support, remote or on-site system monitoring, operational troubleshooting, technical advisory services, and mission performance optimization. This line item provides flexible task-order-based support and does not include Other Direct Costs (ODCs) or OCONUS requirements. Multi-day operational evolutions may require additional personnel consistent with Saronic crew-rest and operational safety policies.
541715	Non Recurring Engineering (NRE) Effort, Small	Provides a defined, fixed-price engineering sprint executed by a dedicated cross-functional Solution Team to complete a discrete, non-recurring technical effort. Scope may include limited prototype development, hardware or software integration, interface configuration, system modification, and focused test execution. Deliverables are defined in a mutually agreed Statement of Work and may include configured systems, integration packages, validation results, or technical documentation. The customer receives defined technical outputs aligned to established acceptance criteria.
541715	Non Recurring Engineering (NRE) Effort, Medium	Provides a structured, fixed-price engineering sprint addressing moderate-complexity system development, integration, or validation activities. Efforts may include multi-component integration, subsystem capability development, performance upgrades, and expanded testing. The engagement includes engineering review, implementation, integration, validation testing, and documentation. Deliverables are defined in the SOW and result in a validated technical capability increment ready for operational use or further integration.
541715	Non Recurring Engineering (NRE) Effort, Large	Provides a comprehensive fixed-price engineering sprint focused on complex system integration or multi-system capability development. Suitable for major platform modifications, multi-subsystem integration, end-to-end capability validation, and deployment preparation. Deliverables include fully integrated and validated capability increments supported by appropriate technical documentation and test results as defined in the SOW.
541715	Core Engineering Services, Hourly Rate	Provides access to highly skilled engineering and programmatic expertise billed on an hourly basis. Disciplines may include software engineering, mechanical engineering, electrical engineering, naval architecture, systems engineering, test and evaluation, and program management. Services are performed in accordance with task order requirements and billed based on actual hours performed.
541715	Corsair, Fleet Exercise Demo Support Package, Small	Provides execution support for a defined continuous exercise event lasting up to five (5) days supporting up to two (2) Corsair Autonomous Surface Vessels (ASVs). Includes exercise planning, on-site operational personnel support, continuous system monitoring, technical troubleshooting, logistics coordination, and vessel transport to and from the exercise location. Assumes CONUS exercise location. Deliverables include operational execution support and post-exercise reporting as defined in the task order.
541715	Corsair, Fleet Exercise Demo Support	Provides execution support for a defined continuous exercise event lasting up to five (5) days supporting up to four (4) Corsair Autonomous Surface Vessels (ASVs). Includes exercise planning, dedicated operational personnel support, real-time system

	Package, Large	monitoring, mission troubleshooting, logistics coordination, and vessel transport to and from the exercise location. Assumes CONUS exercise location. Deliverables include full operational support and post-event reporting as defined in the task order.
54151S	Software Engineering Sprint (Small)	Provides a fixed-price software engineering sprint delivered by a dedicated Software Engineering Team to complete a defined software capability increment. May include configuration and deployment of Saronic OS, feature development or enhancement, API/interface development, integration with customer systems, and functional validation testing. Deliverables include configured software builds, deployment packages, and associated documentation as defined in the SOW.
54151S	Software Non Recurring Engineering Support, Weekly	Provides a dedicated Software Engineering Team assigned for a defined five (5) day engagement to execute specific software development, integration, troubleshooting, or sustainment tasks. Suitable for focused integration support, configuration efforts, short-duration development, or exercise support. Deliverables may include updated software builds, configuration packages, integration support, or technical documentation consistent with the agreed SOW.

2. Maximum order: $1,000,000.00

3. Minimum order: $1,000.00

4. Geographic coverage (delivery area): Domestic, 50 states, Washington,

DC, Puerto Rico, US Territories and to a mutually agreed CONUS port.

5. Point(s) of production: United States.

6. Discount from list prices or statement of net price: GSA Net Prices are shown on the attached GSA Pricelist. The negotiated discount has been applied and the IFF has been added.

7. Quantity discounts: None

8. Prompt payment terms: Net 30

9. Foreign items: None

10a. Time of delivery: Determined at the Task Order level.

10b. Expedited delivery: Contact Contractor if available, may be supported at the Task Order level.

10c. Overnight and 2 day delivery: Contact Contractor if available.

10d. Urgent Requirements: Agencies can contact the Contractor's representative to affect a faster delivery. Customers are encouraged to contact the Contractor for the purpose of requesting accelerated delivery.

11. F.O.B point(s): Negotiated at the Task Order level.

12a. Ordering address(es): Same as Contractor address. Saronic Technologies, Inc. 400 Industrial Blvd, Austin, TX 78745.

12b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3.

13. Payment address(es): Same as Contractor address. Saronic Technologies, Inc. 400 Industrial Blvd, Austin, TX 78745

14. Warranty provision: Standard Commercial

15. Export packing charges: Negotiated per standard commercial policies.

16. Terms and conditions of rental, maintenance, and repair: Standard commercial.

17. Terms and conditions of installation: Standard commercial

18a. Terms and conditions of repair parts: Standard commercial

18b. Terms and conditions for any other services: Standard commercial.

19. List of service and distribution points: Not applicable.

20. List of participating dealers: Not applicable.

21. Preventive maintenance: Standard commercial.

22a. Special attributes: Not Applicable.

22b. Section 508 compliance: Section 508 compliance information in this contract are available at the following website address (URL): www.saronic.com.

The EIT standards can be found at: www.Section508.gov/. or Not Applicable

23. Data Universal Number System (DUNS) number: 118877145, Cage Code: 9EEJ0

24. Notification regarding registration in System for Award Management (SAM) database: Contractor has an Active Registration in the SAM database.
