ABOUT MVM, Inc.

MVM was founded in 1979 by three former Agents of the United States Secret Service. Dario O. Marquez, Jr., one of the original members, continues as the company's owner, President and CEO. He has surrounded himself with an impressive array of senior managers, who have brought life-long Federal law enforcement and security experience to the company from such distinguished communities as DEA, U.S. Marshals Service, the Federal Bureau of Investigations, the Bureau of Prisons, United States Military and the intelligence community. Today, MVM is a Government contractor employing over 3,200 security professionals whose sole mission is to support the Federal Government's intelligence, military, and law enforcement services. Whether the mission is supporting the Department of Homeland Security or the Department of Justice, for over 28 years MVM has proven to be a capable and reliable partner.

MVM has grown and succeeded as a Government contractor by thoroughly identifying with and understanding our customer, the Federal Government, and as a result of the diversity and accomplishments of its management team. MVM provides language, staffing, security and related services to the Departments of Justice, Homeland Security, Defense, and Commerce as well as to such institutions as the National Institutes of Health and the Smithsonian. In addition, MVM has a Top Secret facility clearance and has been working with various aspects of the Intelligence Community for over a decade. Our teams have earned positions of trust within the various agencies and have been lauded by our commitment to the people we employ, the quality service we provide, and the relationships we have built – in some cases with contracts that extend for 12 to 15 years. Our team has been working to support the U.S. Government from Maine to Puerto Rico, from California to the Mid-Atlantic, and from Washington to the Middle East.

There are many companies offering guard services to the Federal Government, but none possess the managerial acumen, technical skills, years of experience, depth of resources and technological support that MVM brings to its clients. As a successful contractor, MVM has the experience and resources necessary to implement managerial controls, compliance and quality control processes, personnel procedures and quantifiable productivity and efficiency measures. These resources include:

Human Resources:

MVM's Human Resources Department consists of specialists who understand the specific requirements of each contract. Whether the requirement is for a Guard II or a Court Security Officer, they have the expertise to locate and vet qualified candidates, taking them through the steps necessary to reach the goal of employment with MVM and to provide salaries, working conditions, and comprehensive benefit packages to retain those individuals across the life of the contract. The Company's recruiting process includes testing the applicant's language capability and pre-screening to ascertain the applicant's ability to complete the government's clearance process. MVM's Training Division also fulfills a vital role in this process by ensuring that every employee is fully trained according to each contract's requirements. By placing tremendous emphasis on being an Employer of Choice MVM has developed the managerial and administrative systems needed to ensure that employee issues are quickly and fairly resolved.

Operations:

Having a sufficient number of security professionals is one matter; properly managing, motivating and supporting them is another. In this regard, MVM is proud of the managerial depth of our corporate team as well as the on-site program managers. Our Operations Division is headed by executives and managers with experience operating guard and security programs for the Federal Government and our on-site management teams have a unique blend of managerial acumen, security expertise and technological skill. MVM utilizes the Vision System to schedule the employees, track and manage licenses and other specific requirements on each employee, and provide the data necessary to generate payroll and produce invoices.

Compliance Program:

MVM's Quality Control and Compliance Program details the policies and procedures necessary to assure the quality of the services provided at all levels. Internal audits are required on each contract to ensure that all contract requirements and deliverables are met consistently. Project Managers as well as Corporate Department Managers are held to the highest standard of full compliance on each contract.

Financial Management and Contract Administration:

MVM's Contracts Department and Financial Management Team work closely with Operations and provide the support that will ensure compliance with contract requirements and allow the production of a proper invoice for the services performed. MVM's financial system is Deltek which is widely used by Government Contractors.

In addition to the above departments, within the ranks of MVM's corporate staff our customers will find support services that include an Administrative Division that houses Information Technology, Logistics, Facilities, Licensing and Administrative Support Services.

Why MVM is the Right Choice

In selecting MVM our customers have engaged a company that not only provides quality personnel, but also provides a quality managerial program that focuses on attracting and retaining the right staff and communicates with its staff through regular performance appraisals and compliance reviews.

Finally, MVM is a firm with a corporate culture that is founded on the principle of caring, for our employees and our customers.

MVM possesses the mixture of skills and experience to ensure success:

- Our managers understand that they are responsible for two primary tasks, deliver the services, and manage our employees and vendors.
- Over 28 years experience building security programs from the ground up.
- A proven and successful procedure-oriented workload and workflow monitoring process.

PRICING

Billing Rate Notes

Note 1

Prices are for the areas shown only. Wage determined prices are subject to adjustment prior to order award based upon the wage determination revision included with the order. Prices are available upon request for ***all areas nationwide*** based on the current wage determinations for the areas.

Note 2

Prices include productive labor only. Client-required training, non-productive labor (e.g. relief), uniforms and equipment, non-billable supervision cost, and other non-labor costs are priced separately.

Note 3

Special client qualifications requirements beyond those qualifications listed in MVM's position descriptions (e.g. security clearances, additional work experience) may command a price premium in certain markets. If applicable, MVM shall price such premiums on an open-market basis.

Note 4

Prices are for the time period shown only. Prices are subject to annual escalation on the GSA Schedule anniversary date based upon applicable consumer price indices.

Note 5

Prices Under Collective Bargaining Agreements. Prices incorporated into the GSA Schedule are for classifications covered by the most current CBA. Additional classifications not covered by the CBA are initially offered at the area wage determination price until such time as the new classifications are added to the CBA.
