# INFORMATION FOR ORDERING OFFICES
# APPLICABLE TO ALL SPECIAL ITEM NUMBERS

## SPECIAL NOTICE TO AGENCIES: Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Supply Schedules Program. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micropurchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!™ on-line shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA Advantage!™ and the Federal Supply Service Home Page (www.fss.gsa.gov) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micropurchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

1. Geographic Scope of Contract: 48 contiguous states and the District of Columbia, Alaska, Hawaii, and Puerto Rico
2. Contractor's Ordering Address and Payment Information:

   Jeron Electronic Systems, Inc.

   7501 N Natchez Avenue

   Niles, IL 60714

Contractors are required to accept the Government purchase card for payments equal to or less than the micro-purchase threshold for oral or written delivery orders. Government purchase cards will be acceptable for payment above the micro-purchase threshold. In addition, bank account information for wire transfer payments will be shown on the invoice.

The following telephone number(s) can be used by ordering agencies to obtain technical and/or ordering assistance:

(773) 275-1900

3. LIABILITY FOR INJURY OR DAMAGE

The Contractor shall not be liable for any injury to Government personnel or damage to Government property arising from the use of equipment maintained by the Contractor, unless such injury or damage is due to the fault or negligence of the Contractor.

4. Statistical Data for Government Ordering Office Completion of Standard Form 279:

Block 9: G. Order/Modification Under Federal Schedule
Block 16: Data Universal Numbering System (DUNS) Number: _04-702-4617
Block 30: Type of Contractor – B. Other Small Business

A. Small Disadvantaged Business
B. Other Small Business
C. Large Business
G. Other Nonprofit Organization
L. Foreign Contractor

Block 31: Woman-Owned Small Business - __No_____

Block 36: Contractor's Taxpayer Identification Number (TIN): 36-2589084

4a. CAGE Code: None
4b. Contractor has registered with the Central Contractor Registration Database.

5. FOB Destination – Prices listed are FOB destination for the 48 contiguous states and FOB Port of disembarkation for all other destinations, freight prepaid and added to invoice.

6. DELIVERY SCHEDULE

a. TIME OF DELIVERY: The Contractor shall deliver to destination within the number of calendar days after receipt of order (ARO), as set forth below:

| SPECIAL ITEM NUMBER | DELIVERY TIME (Days ARO) |
|---|---|
| ALL ITEMS | 60 to 90 Days (Standard to our industry and what is offered to our comerical customers) |

b. URGENT REQUIREMENTS: When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering agency, agencies are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering agency, any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

7. Discounts: Prices shown are NET Prices; Basic Discounts have been deducted.

a. Prompt Payment: _1__% - 10___ days from receipt of invoice or date of acceptance, whichever is later.
b. Quantity None
c. Dollar Volume None
d. Government Educational Institutions Same discounts as all other Government customers

e. Other

8. Trade Agreements Act of 1979, as amended:

All items are U.S. made end products, designated country end products, Caribbean Basin country end products, Canadian end products, or Mexican end products as defined in the Trade Agreements Act of 1979, as amended.

9. Statement Concerning Availability of Export Packing: Export of speacial (non-domestic standard) paking available at extra cost

10. Small Requirements: The minimum dollar value of orders to be issued is $_25.00____.

11. Maximum Order (All dollar amounts are exclusive of any discount for prompt payment.)

a. The Maximum Order value for Special Item Number 132-8 - Purchase of Equipment is $500,000

Note: Maximum Orders do not apply to Special Item Numbers 132-12 Maintenance and Repair Service (except for Repair Parts/Spare Parts) or 132-34 Maintenance of Software.

12. USE OF FEDERAL SUPPLY SERVICE INFORMATION TECHNOLOGY SCHEDULE CONTRACTS. In accordance with FAR 8.404:

**[NOTE: Special ordering procedures have been established for Special Item Numbers (SINs) 132-51 IT Professional Services and 132-52 EC Services; refer to the terms and conditions for those SINs.]**

Orders placed pursuant to a Multiple Award Schedule (MAS), using the procedures in FAR 8.404, are considered to be issued pursuant to full and open competition. Therefore, when placing orders under Federal Supply Schedules, ordering offices need not seek further competition, synopsize the requirement, make a separate determination of fair and reasonable pricing, or consider small business set-asides in accordance with subpart 19.5. GSA has already determined the prices of items under schedule contracts to be fair and reasonable. By placing an order against a schedule using the procedures outlined below, the ordering office has concluded that the order represents the best value and results in the lowest overall cost alternative (considering price, special features, administrative costs, etc.) to meet the Government's needs.

a. Orders placed at or below the micro-purchase threshold. Ordering offices can place orders at or below the micro-purchase threshold with any Federal Supply Schedule Contractor.

b. Orders exceeding the micro-purchase threshold but not exceeding the maximum order threshold. Orders should be placed with the Schedule Contractor that can provide the supply or service that represents the best value. Before placing an order, ordering offices should consider reasonably available information about the supply or service offered under MAS contracts by using the "GSA Advantage!" on-line shopping service, or by reviewing the catalogs/pricelists of at least three Schedule Contractors and selecting the delivery and other options available under the schedule that meets the agency's needs. In selecting the supply or service representing the best value, the ordering office may consider--

(1) Special features of the supply or service that are required in effective program performance and that are not provided by a comparable supply or service;

(2) Trade-in considerations;

(3) Probable life of the item selected as compared with that of a comparable item;

(4) Warranty considerations;

(5) Maintenance availability;

(6) Past performance; and

(7) Environmental and energy efficiency considerations.

c. Orders exceeding the maximum order threshold. Each schedule contract has an established maximum order threshold. This threshold represents the point where it is advantageous for the ordering office to seek a price reduction. In addition to following the procedures in paragraph b, above, and before placing an order that exceeds the maximum order threshold, ordering offices shall--

Review additional Schedule Contractors'

(1) catalogs/pricelists or use the “GSA Advantage!” on-line shopping service;

(2) Based upon the initial evaluation, generally seek price reductions from the Schedule Contractor(s) appearing to provide the best value (considering price and other factors); and

(3) After price reductions have been sought, place the order with the Schedule Contractor that provides the best value and results in the lowest overall cost alternative. If further price reductions are not offered, an order may still be placed, if the ordering office determines that it is appropriate.

NOTE: For orders exceeding the maximum order threshold, the Contractor may:

(1) Offer a new lower price for this requirement (the Price Reductions clause is not applicable to orders placed over the maximum order in FAR 52.216-19 Order Limitations);

(2) Offer the lowest price available under the contract; or

(3) Decline the order (orders must be returned in accordance with FAR 52.216-19).

d. Blanket purchase agreements (BPAs). The establishment of Federal Supply Schedule BPAs is permitted when following the ordering procedures in FAR 8.404. All schedule contracts contain BPA provisions. Ordering offices may use BPAs to establish accounts with Contractors to fill recurring requirements. BPAs should address the frequency of ordering and invoicing, discounts, and delivery locations and times.

e. Price reductions. In addition to the circumstances outlined in paragraph c, above, there may be instances when ordering offices will find it advantageous to request a price reduction. For example, when the ordering office finds a schedule supply or service elsewhere at a lower price or when a BPA is being established to fill recurring requirements, requesting a price reduction could be advantageous. The potential volume of orders under these agreements, regardless of the size of the individual order, may offer the ordering office the opportunity to secure greater discounts. Schedule Contractors are not required to pass on to all schedule users a price reduction extended only to an individual agency for a specific order.

f. Small business. For orders exceeding the micro-purchase threshold, ordering offices should give preference to the items of small business concerns when two or more items at the same delivered price will satisfy the requirement.

g. Documentation. Orders should be documented, at a minimum, by identifying the Contractor the item was purchased from, the item purchased, and the amount paid. If an agency requirement in excess of the micro-purchase threshold is defined so as to require a particular brand name, product, or feature of a product peculiar to one manufacturer, thereby precluding consideration of a product manufactured by another company, the ordering office shall include an explanation in the file as to why the particular brand name, product, or feature is essential to satisfy the agency’s needs.

13. FEDERAL INFORMATION TECHNOLOGY/TELECOMMUNICATION STANDARDS REQUIREMENTS: Federal departments and agencies acquiring products from this Schedule must comply with the provisions of the Federal Standards Program, as appropriate (reference: NIST Federal Standards Index). Inquiries to determine whether or not specific products listed herein comply with Federal Information Processing Standards (FIPS) or Federal Telecommunication Standards (FED-STDS), which are cited by ordering offices, shall be responded to promptly by the Contractor.

13.1 FEDERAL INFORMATION PROCESSING STANDARDS PUBLICATIONS (FIPS PUBS): Information Technology products under this Schedule that do not conform to Federal Information Processing Standards (FIPS) should not be acquired unless a waiver has been granted in accordance with the applicable "FIPS Publication." Federal Information Processing Standards Publications (FIPS PUBS) are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Information concerning their availability and applicability should be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161. FIPS PUBS include voluntary standards when these are adopted for Federal use.

Individual orders for FIPS PUBS should be referred to the NTIS Sales Office, and orders for subscription service should be referred to the NTIS Subscription Officer, both at the above address, or telephone number (703) 487-4650.

13.2 FEDERAL TELECOMMUNICATION STANDARDS (FED-STDS): Telecommunication products under this Schedule that do not conform to Federal Telecommunication Standards (FED-STDS) should not be acquired unless a waiver has been granted in accordance with the applicable "FED-STD." Federal Telecommunication Standards are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Ordering information and information concerning the availability of FED-STDS should be obtained from the GSA, Federal Supply Service, Specification Section, 470 East L'Enfant Plaza, Suite 8100, SW, Washington, DC 20407, telephone number (202)619-8925. Please include a self-addressed mailing label when requesting information by mail. Information concerning their applicability can be obtained by writing or calling the U.S. Department of Commerce, National Institute of Standards and Technology, Gaithersburg, MD 20899, telephone number (301)975-2833.

14. SECURITY REQUIREMENTS. In the event security requirements are necessary, the ordering activities may incorporate, in their delivery orders, a security clause in accordance with current laws, regulations, and individual agency policy; however, the burden of administering the security requirements shall be with the ordering agency. If any costs are incurred as a result of the inclusion of security requirements, such costs will not exceed ten percent (10%) or $100,000, of the total dollar value of the order, whichever is less.

15. CONTRACT ADMINISTRATION FOR ORDERING OFFICES: Any ordering office, with respect to any one or more delivery orders placed by it under this contract, may exercise the same rights of termination as might the GSA Contracting Officer under provisions of FAR 52.212-4, paragraphs (l) Termination for the Government's convenience, and (m) Termination for Cause (See C.1.)

16. GSA Advantage!

GSA Advantage! is an on-line, interactive electronic information and ordering system that provides on-line access to vendors' schedule prices with ordering information. GSA Advantage! will allow the user to perform various searches across all contracts including, but not limited to:

(1) Manufacturer;
(2) Manufacturer's Part Number; and
(3) Product categories.

Agencies can browse GSA Advantage! by accessing the Internet World Wide Web utilizing a browser (ex.: NetScape). The Internet address is http://www.fss.gsa.gov/.

17. PURCHASE OF INCIDENTAL, NON-SCHEDULE ITEMS

For administrative convenience, open market (non-contract) items may be added to a Federal Supply Schedule Blanket Purchase Agreement (BPA) or an individual order, provided that the items are clearly labeled as such on the order, all applicable regulations have been followed, and price reasonableness has been determined by the ordering activity for the open market (non-contract) items.

18. CONTRACTOR COMMITMENTS, WARRANTIES AND REPRESENTATIONS

a. For the purpose of this contract, commitments, warranties and representations include, in addition to those agreed to for the entire schedule contract:

(1) Time of delivery/installation quotations for individual orders;

(2) Technical representations and/or warranties of products concerning performance, total system performance and/or configuration, physical, design and/or functional characteristics and capabilities of a product/equipment/ service/software package submitted in response to requirements which result in orders under this schedule contract.

(3) Any representations and/or warranties concerning the products made in any literature, description, drawings and/or specifications furnished by the Contractor.

b. The above is not intended to encompass items not currently covered by the GSA Schedule contract.

19. OVERSEAS ACTIVITIES

The terms and conditions of this contract shall apply to all orders for installation, maintenance and repair of equipment in areas listed in the pricelist outside the 48 contiguous states and the District of Columbia, except as indicated below:

None

Upon request of the Contractor, the Government may provide the Contractor with logistics support, as available, in accordance with all applicable Government regulations. Such Government support will be provided on a reimbursable basis, and will only be provided to the Contractor's technical personnel whose services are exclusively required for the fulfillment of the terms and conditions of this contract.

20. BLANKET PURCHASE AGREEMENTS (BPAs)

Federal Acquisition Regulation (FAR) 13.303-1(a) defines Blanket Purchase Agreements (BPAs) as "…a simplified method of filling anticipated repetitive needs for supplies or services by establishing 'charge accounts' with qualified sources of supply." The use of Blanket Purchase Agreements under the Federal Supply Schedule Program is authorized in accordance with FAR 13.303-2(c)(3), which reads, in part, as follows:

"BPAs may be established with Federal Supply Schedule Contractors, if not inconsistent with the terms of the applicable schedule contract."

Federal Supply Schedule contracts contain BPA provisions to enable schedule users to maximize their administrative and purchasing savings. This feature permits schedule users to set up "accounts" with Schedule Contractors to fill recurring requirements. These accounts establish a period for the BPA and generally address issues such as the frequency of ordering and invoicing, authorized callers, discounts, delivery locations and times. Agencies may qualify for the best quantity/volume discounts available under the contract, based on the potential volume of business that may be generated through such an agreement, regardless of the size of the individual orders. In addition, agencies may be able to secure a discount higher than that available in the contract based on the aggregate volume of business possible under a BPA. Finally, Contractors may be open to a progressive type of discounting where the discount would increase once the sales accumulated under the BPA reach certain prescribed levels. Use of a BPA may be particularly useful with the new Maximum Order feature. See the Suggested Format, contained in this Schedule Pricelist, for customers to consider when using this purchasing tool.

21. CONTRACTOR TEAM ARRANGEMENTS

Contractors participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74, Contractor's Reports of Sales and 552.238-76, Industrial Funding Fee, i.e., each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract.

## 22. INSTALLATION, DEINSTALLATION, REINSTALLATION

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of $2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall received less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds $2,000, then the requirements of the Davis-Bacon Act applies.

The requisitioning activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8.

## 23. SECTION 508 COMPLIANCE.

If applicable, Section 508 compliance information on the supplies and services in this contract are available in Electronic and Information Technology (EIT) at the following:

www.jeron.com

The EIT standard can be found at: www.Section508.gov/.

# TERMS AND CONDITIONS APPLICABLE TO PURCHASE OF GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY EQUIPMENT (SPECIAL ITEM NUMBER 132-8)

1. MATERIAL AND WORKMANSHIP

All equipment furnished hereunder must satisfactorily perform the function for which it is intended.

2. ORDER

Written orders, EDI orders (GSA Advantage! and FACNET), credit card orders, and orders placed under blanket purchase agreements (BPA) agreements shall be the basis for purchase in accordance with the provisions of this contract. If time of delivery extends beyond the expiration date of the contract, the Contractor will be obligated to meet the delivery and installation date specified in the original order.

For credit card orders and BPAs, telephone orders are permissible.

3. TRANSPORTATION OF EQUIPMENT

FOB DESTINATION. Prices cover equipment delivery to destination, for any location within the geographic scope of this contract.

4. INSTALLATION AND TECHNICAL SERVICES

a. INSTALLATION. When the equipment provided under this contract is not normally self-installable, the Contractor's technical personnel shall be available to the Government, at the Government's location, to install the equipment and to train Government personnel in the use and maintenance of the equipment. The charges, if any, for such services are listed below, or in the price schedule:

Contact Jeron at 773-275-1900 to obtain technical and ordering assistance including the nearest Jeron Dealer. It is not necessary to obtain installation from Jeron Dealer, however the warranty will be void if the equipment is not installed properly. Jeron Certified Technical training is available at Jeron's facilities in Chicago, Illinois.

b. INSTALLATION, DEINSTALLATION, REINSTALLATION. The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of $2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clausae that no laborer or mechanic employed directly upon the site of the work shall received less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds $2,000, then the requirements of the Davis-Bacon Act applies.

The requisitioning activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8.

c. OPERATING AND MAINTENANCE MANUALS. The Contractor shall furnish the Government with one (1) copy of all operating and maintenance manuals which are normally provided with the equipment being purchased.

5. INSPECTION/ACCEPTANCE

The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any equipment that has been tendered for acceptance. The Government may require repair or replacement of nonconforming equipment at no increase in contract price. The Government must exercise its postacceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

6. WARRANTY

## Jeron Electronic Systems, Inc. Limited Customer Warranty And Non-Exclusive Software License Agreement

Subject to the Terms and Conditions below, Jeron Electronic Systems, Inc. warrants to its Customers that the PROVIDER 790, PROVIDER 700 and PROVIDER 680+ products (including any embedded or installed software associated with any product) will be free from defects in material and workmanship under normal use and service for five (5) years from the date of shipment to Customer, PRO-ALERT 570 and PRO-ALERT 480 products (including any embedded or installed software associated with any product) will be free from defects in material and workmanship under normal use and service for two (2) years from the date of shipment to Customer (the "Warranty Period").

Terms and Conditions of Limited Customer Warranty

(a) Jeron extends the Limited Customer Warranty to its customers who have paid Jeron the full purchase price for the product warranted. Customers may not transfer Jeron's Limited Customer Warranty. No Jeron representative other than a corporate officer has the authority to expand the scope of or extend the duration of this Limited Customer Warranty except under terms of written" Extended Warranty" Agreement executed by an authorized Jeron corporate officer.

(b) This Limited Customer Warranty is limited to Jeron's repair or replacement, in Jeron's sole discretion, of any defective component part (including any embedded or installed software associated with any product) of a Jeron product. The obligation of Jeron is limited to the above and does not include either the cost or the furnishing of any labor in connection with the repair of any such defect and /or replacement of any such defective part unless accomplished at Jeron Electronic Systems, nor does it include responsibility for any transportation expense incurred in connection with the removal or installation of the product.

(c) Customer must return defective products, freight prepaid, to Jeron's factory in Niles, Illinois, within the Warranty period. Jeron shall pay ground freight charges for shipment of repaired or replacement products to customer.

(d) Jeron extends this Limited Customer Warranty only on products installed by or under supervision of a factory trained authorized Jeron Distributor.

(e) Jeron's Limited Customer Warranty does not extend to any products that have been misused, neglected, or otherwise damaged by the negligence of customer or third party; repaired, altered, modified or changed by anyone other than Jeron or someone specifically authorized by Jeron to make repairs on Jeron's behalf; or defaced by removal of date code.

(f) Customer must include detailed specific information as to the nature of the defect, date of shipment, model number, original invoice number with the return of the defective product; if a defective sub-assembly, the model number of the unit from which it was removed must be included.

(g) Jeron shall not be liable for any delays or defaults hereunder by reason of fire, floods, acts of God, labor trouble, accidents to machinery, delays of carriers or suppliers, inability of suppliers to supply, the imposition of priorities, restrictions, or other acts of government, terrorism, product shortages or other causes beyond its reasonable control.

**(h) Jeron's sole and exclusive warranty with respect to its products and parts is this Limited Customer Warranty. This Limited Customer Warranty is in lieu of all other express and/or implied warranties, including implied warranties of merchantability and fitness for a particular purpose. In no event and under no legal theory, tort, contract, or otherwise, will Jeron, its subsidiaries, any of the directors, officers, employees or affiliates of any of the foregoing be liable to customer for, or any other person for, any indirect, special, incidental, or consequential damages of any character (including but not limited to, loss of business profits, business interruptions, loss of business information and the like, loss of goodwill, work stoppage, computer failure or malfunction, or any and all other commercial damages or losses), whether foreseeable or unforeseeable, arising out of the installation and use of or inability to use the product, regardless of the basis of the claim. Jeron's liability to customer for direct damages for any cause whatsoever, and regardless of the form of action, will be limited to the amounts paid to Jeron for the defective product. This limitation will not apply in the case of death or personal injury only where and to the extent that applicable law prohibits such limitation.**

(i) Customer submits to the exclusive jurisdiction of any state or federal court sitting in Chicago, Illinois in any action or proceeding arising out of or relating to this Limited Customer Warranty. Customer agrees that all claims in respect of the action or proceeding may be heard and determined in any such court, and agrees not to bring action or proceeding arising out of or relating to this Limited Customer Warranty in any other court. Customer waives any defense of inconvenience of forum to the maintenance of any action or proceeding so brought.

(j) PROVIDER 790 pillow speakers provided in this Limited Customer Warranty are covered by a twenty four (24) month Jeron Limited Customer warranty from the date of shipment thereof by Jeron Electronic Systems, Inc. All pillow speakers and call cords, except PROVIDER 790 pillow speakers, provided in this Limited Customer Warranty (including any embedded or installed software associated with any product) are covered by an eighteen (18) month Jeron Limited Customer Warranty. This warranty period is 18 months from the date of shipment thereof by Jeron Electronic Systems.

(k) All SPECTRUM 430 products, computers, batteries, wireless pendants, service parts or any other product not specifically provided in this Limited Customer Warranty (including any embedded or installed software associated with any product) are covered by the Jeron one (1) year Limited Customer Warranty. This warranty period is one year from the date of shipment thereof by Jeron Electronic Systems.

(l) Software Warranty: All software provided with any product, including any embedded or installed software associated with any product, is subject to the warranty provisions included herein for the associated product. This Limited Customer Warranty for any software provided with any product shall be the sole remedy for any alleged defect and shall include bug fixes that become available, but will not include feature enhancements.

(m) Software License. Jeron hereby grants to Customer a nonexclusive and non-transferrable license to use, possess, have access to, operate and maintain, for Customer's business purposes, any and all software provided with any product covered under this Agreement, including any embedded or installed software associated with any Jeron product. Such software is subject to the warranty provisions included herein and shall include bug fixes that become available, but will not include feature enhancements. This License and Warranty is offered separately from any License and Warranty offered by Microsoft for any features provided through Microsoft. Except as this Agreement expressly permits Customer shall not,

modify, correct, adapt, translate, enhance, or otherwise prepare derivative works or improvements of any Software;

rent, lease, lend, sell, sublicense, assign, distribute, publish, or otherwise make available the Software to any third party;

reverse engineer, disassemble, decompile, decode, or adapt the Software, or otherwise attempt to derive or gain access to the source code of the Software, in whole or in part; or

bypass or breach any security device or protection used for or contained in the Software or any documentation;

Jeron reserves all rights in the Software not expressly granted to Customer in this Agreement. Except for the limited rights and licenses expressly granted under this License, nothing herein grants, by implication, waiver, estoppel or otherwise, to Customer or any third party any intellectual property rights or other right, title, or interest in the Software.

THIS PAGE HAS INTENTIONALLY BEEN LEFT BLANK.

b. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

c. Limitation of Liability. Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the Government for consequential damages resulting from any defect or deficiencies in accepted items.

d. If inspection and repair of defective equipment under this warranty will be performed at the Contractor's plant, the address is as follows: 7501 N Natchez Avenue Niles, IL 60714

7. PURCHASE PRICE FOR ORDERED EQUIPMENT

The purchase price that the Government will be charged will be the Government purchase price in effect at the time of order placement, or the Government purchase price in effect on the installation date (or delivery date when installation is not applicable), whichever is less.

8. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City or otherwise) covering work of this character, and shall include all costs, if any, of such compliance in the prices quoted in this offer.

9. TRADE-IN OF INFORMATION TECHNOLOGY EQUIPMENT

When an agency determines that Information Technology equipment will be replaced, the agency shall follow the contracting policies and procedures in the Federal Acquisition Regulation (FAR), the policies and procedures regarding disposition of information technology excess personal property in the Federal Property Management Regulations (FPMR) (41 CFR 101-43.6), and the policies and procedures on exchange/sale contained in the FPMR (41 CFR part 101-46).

# USA COMMITMENT TO PROMOTE SMALL BUSINESS PARTICIPATION PROCUREMENT PROGRAMS

PREAMBLE

Jeron Electronic Systems, Inc. provides commercial products and services to the Federal Government. We are committed to promoting participation of small, small disadvantaged and women-owned small businesses in our contracts. We pledge to provide opportunities to the small business community through reselling opportunities, mentor-protégé programs, joint ventures, teaming arrangements, and subcontracting.

COMMITMENT

To actively seek and partner with small businesses.

To identify, qualify, mentor and develop small, small disadvantaged and women-owned small businesses by purchasing from these businesses whenever practical.

To develop and promote company policy initiatives that demonstrate our support for awarding contracts and subcontracts to small business concerns.

To undertake significant efforts to determine the potential of small, small disadvantaged and women-owned small business to supply products and services to our company.

To insure procurement opportunities are designed to permit the maximum possible participation of small, small disadvantaged, and women-owned small businesses.

To attend business opportunity workshops, minority business enterprise seminars, trade fairs, procurement conferences, etc., to identify and increase small businesses with whom to partner.

To publicize in our marketing publications our interest in meeting small businesses that may be interested in subcontracting opportunities.

We signify our commitment to work in partnership with small, small disadvantaged and women-owned small businesses to promote and increase their participation in Federal Government contracts. To accelerate potential opportunities please contact Ericka Chesnul, phone: (773)275-1900, ebaran@jeron.com, fax: (773)275-0283.

**Equipment Descriptive Information**

Our sales, product development, product marketing, and operational functions are organized into two divisions: Healthcare and Security & Life Safety Divisions.

**Healthcare Division**

Provider® Nurse Call Systems are at the forefront of Jeron's Healthcare Division by offering a full range of alerting options and integrations. The Provider lines contain Audio-Visual, Tone Visual, and VoIP technology to provide clear, two-way audio communications and workflow enhancements. The systems are designed so Acute and Skilled Healthcare environments can benefit from advanced technology integrations such as real-time staff locating, SIP wireless phones, automated rounding, and report generation. These systems give caregivers clear patient-to-staff and staff-to-staff communication quickly and keeps them mobile and informed. The Tone-Visual product, including the Pro-Alert™ Nurse Call line, also provides instant Nurse Call alerting between patients, residents and staff by using modular room stations and multiplexed wiring for cost-effective installations.

## Security Division

Jeron's Security & Life Safety Division produces high quality security communications systems that are used in facilities including healthcare, parking structures, prisons, and industrial buildings. By using Digital Duplex intercoms, end-users are able to relay information clearly and hands-free. Pro-Alert 480™ Area of Rescue System is a multiplexed intercom system that transmits a distress signal to conduct two-way communication with the on-site manned master station or to an off-site call center. Designed specifically to meet Area of Rescue Assistance emergency communication requirements, building occupants can use the ADA-compliant, Pro-Alert™ to call for assistance from a designated Area of Refuge.

## Service and distribution points

As a manufacturer in our industry we offer maintenance/repair at our factory located at: 7501N Natchez Avenue, Niles, Illinois, 60714. We do not offer any maintenance/repair in the field. Repairs are available at no charge during the warranty period. After warranty, refer to a flat rate charge list included in the price list.
