INFORMATION FOR ORDERING OFFICES
APPLICABLE TO ALL SPECIAL ITEM NUMBERS

SPECIAL NOTICE TO AGENCIES: Small Business Participation

SBA strongly supports the participation of small business concerns in the Federal Supply Schedules Program. To enhance Small Business Participation SBA policy allows agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals.

For orders exceeding the micro-purchase threshold, FAR 8.404 requires agencies to consider the catalogs/pricelists of at least three schedule contractors or consider reasonably available information by using the GSA Advantage!™ on-line shopping service (www.fss.gsa.gov). The catalogs/pricelists, GSA Advantage!™ and the Federal Supply Service Home Page (www.fss.gsa.gov) contain information on a broad array of products and services offered by small business concerns.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting pricelists for a best value determination.

For orders exceeding the micro-purchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

1. ***Geographic Scope of Contract:***

   48 contiguous states, and the District of Columbia.

2. ***Contractor's Ordering Address and Payment Information:***

   US Computers, Inc

   2913 Saturn Street Unit G

   Brea, CA 92821

US Computers will accept the Government purchase card for payments equal to or less than the micro-purchase threshold for oral or written delivery orders. Government purchase cards will be acceptable for payment above the micro-purchase threshold. In addition, bank account information for wire transfer payments will be shown on the invoice.

The following telephone numbers can be used by ordering agencies to obtain technical and/or ordering assistance:

Sales: (714) 528 0514

Tech Support: (714) 528-0514

When Authorized Dealers are allowed by the Contractor to bill Government agencies and accept payment, the order and/or payment must be in the name of the Contractor, in care of the Authorized Dealer.

3. ***LIABILITY FOR INJURY OR DAMAGE***

The Contractor shall not be liable for any injury to Government personnel or damage to Government property arising from the use of equipment maintained by the Contractor, unless such injury or damage is due to the fault or negligence of the Contractor.

4. ***Statistical Data for Government Ordering Office Completion of Standard Form 279:***

   Block 9: G. Order/Modification Under Federal Schedule
   Block 16: Data Universal Numbering System (DUNS) Number: 14-711-0444
   Block 30: Type of Contractor - Small Disadvantaged Business

   Block 31: Woman-Owned Small Business - Yes
   Block 36: Contractor's Taxpayer Identification Number (TIN): 33-0844132

4a. CAGE Code: 1WQT7

4b. Contractor has registered with the Central Contractor Registration Database.

5. ***FOB Destination***

48 contiguous States of United States and the District of Columbia.

6. ***DELIVERY SCHEDULE***

a. TIME OF DELIVERY: The Contractor shall deliver to destination within the number of calendar days after receipt of order (ARO), as set forth below:

SPECIAL ITEM NUMBER	DELIVERY TIME (Days ARO)
132-8	15 Days
132-12	to be determined between Government and contractor
132-50	to be determined between Government and contractor
132-33	to be determined between Government and contractor
132-34	to be determined between Government and contractor
132-51	to be determined between Government and contractor

Expedited Delivery, Overnight and 2-Day Delivery to any of the 48 contiguous States of United States, the District of Columbia, HI, AK, or PR is available on request.

The shipping cost depends on the package's weight and dimensions and will be determined at the time of order.

b. URGENT REQUIREMENTS: When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering agency, agencies are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering agency, any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

7. Discounts: Prices shown are NET Prices; Basic Discounts have been deducted.

a. Prompt Payment: 0 % - 30 days from receipt of invoice or date of acceptance, whichever is later.

b. Quantity is available and will appear on the invoice.

c. Dollar Volume is available and will appear on the invoice.

d. Government Educational Institutions are offered the same discounts as all the other Government customers.

8. Trade Agreements Act of 1979, as amended:

All items are U.S. made end products, designated country end products, Caribbean Basin country end products, Canadian end products, or Mexican end products as defined in the Trade Agreements Act of 1979, as amended.

9. Statement Concerning Availability of Export Packing:

Not available.

10. Small Requirements: The minimum dollar value of orders to be issued is $ 100.00 .

11. Maximum Order (All dollar amounts are exclusive of any discount for prompt payment.)

a. The Maximum Order value for the following Special Item Numbers (SINs) is $500,000:

Special Item Number 132-8 - Purchase of Equipment

b. The Maximum Order value for the following Special Item Numbers (SINs) is $25,000:

Special Item Number 132-50 - Training Courses

12. USE OF FEDERAL SUPPLY SERVICE INFORMATION TECHNOLOGY SCHEDULE CONTRACTS. In accordance with FAR 8.404:

Orders placed pursuant to a Multiple Award Schedule (MAS), using the procedures in FAR 8.404, are considered to be issued pursuant to full and open competition. Therefore, when placing orders under Federal Supply Schedules, ordering offices need not seek further competition, synopsize the requirement, make a separate determination of fair and reasonable pricing, or consider small business set-asides in accordance with subpart 19.5. GSA has already determined the prices of items under schedule contracts to be fair and reasonable. By placing an order against a schedule using the procedures outlined below, the ordering office has concluded that the order represents the best value and results in the lowest overall cost alternative (considering price, special features, administrative costs, etc.) to meet the Government's needs.

a. Orders placed at or below the micro-purchase threshold. Ordering offices can place orders at or below the micro-purchase threshold with any Federal Supply Schedule Contractor.

b. Orders exceeding the micro-purchase threshold but not exceeding the maximum order threshold. Orders should be placed with the Schedule Contractor that can provide the supply or service that represents the best value. Before placing an order, ordering offices should consider reasonably available information about the supply or service offered under MAS contracts by using the "GSA Advantage!" on-line shopping service, or by reviewing the catalogs/pricelists of at least three Schedule Contractors and selecting the delivery and other options available under the schedule that meets the agency's needs. In selecting the supply or service representing the best value, the ordering office may consider--

(1) Special features of the supply or service that are required in effective program performance and that are not provided by a comparable supply or service;

(2) Trade-in considerations;

(3) Probable life of the item selected as compared with that of a comparable item;

(4) Warranty considerations;

(5) Maintenance availability;

(6) Past performance; and

(7) Environmental and energy efficiency considerations.

c. Orders exceeding the maximum order threshold. Each schedule contract has an established maximum order threshold. This threshold represents the point where it is advantageous for the ordering office to seek a price reduction. In addition to following the procedures in paragraph b, above, and before placing an order that exceeds the maximum order threshold, ordering offices shall--

Review additional Schedule Contractors'

(1) catalogs/pricelists or use the "GSA Advantage!" on-line shopping service;

(2) Based upon the initial evaluation, generally seek price reductions from the Schedule Contractor(s) appearing to provide the best value (considering price and other factors); and

(3) After price reductions have been sought, place the order with the Schedule Contractor that provides the best value and results in the lowest overall cost alternative. If further price reductions are not offered, an order may still be placed, if the ordering office determines that it is appropriate.

NOTE: For orders exceeding the maximum order threshold, the Contractor may:

(1) Offer a new lower price for this requirement (the Price Reductions clause is not applicable to orders placed over the maximum order in FAR 52.216-19 Order Limitations);

(2) Offer the lowest price available under the contract; or

(3) Decline the order (orders must be returned in accordance with FAR 52.216-19).

d. Blanket purchase agreements (BPAs). The establishment of Federal Supply Schedule BPAs is permitted when following the ordering procedures in FAR 8.404. All schedule contracts contain BPA provisions. Ordering offices may use BPAs to establish accounts with Contractors to fill recurring requirements. BPAs should address the frequency of ordering and invoicing, discounts, and delivery locations and times.

e. Price reductions. In addition to the circumstances outlined in paragraph c, above, there may be instances when ordering offices will find it advantageous to request a price reduction. For example, when the ordering office finds a schedule supply or service elsewhere at a lower price or when a BPA is being established to fill recurring requirements, requesting a price reduction could be advantageous. The potential volume of orders under these agreements, regardless of the size of the individual order, may offer the ordering office the opportunity to secure greater discounts. Schedule Contractors are not required to pass on to all schedule users a price reduction extended only to an individual agency for a specific order.

f. Small business. For orders exceeding the micro-purchase threshold, ordering offices should give preference to the items of small business concerns when two or more items at the same delivered price will satisfy the requirement.

g. Documentation. Orders should be documented, at a minimum, by identifying the Contractor the item was purchased from, the item purchased, and the amount paid. If an agency requirement in excess of the micro-purchase threshold is defined so as to require a particular brand name, product, or feature of a product peculiar to one manufacturer, thereby precluding consideration of a product manufactured by another company, the ordering office shall include an explanation in the file as to why the particular brand name, product, or feature is essential to satisfy the agency's needs.

13. FEDERAL INFORMATION TECHNOLOGY/TELECOMMUNICATION STANDARDS REQUIREMENTS: Federal departments and agencies acquiring products from this Schedule must comply with the provisions of the Federal Standards Program, as appropriate (reference: NIST Federal Standards Index). Inquiries to determine whether or not specific products listed herein comply with Federal Information Processing Standards (FIPS) or Federal Telecommunication Standards (FED-STDS), which are cited by ordering offices, shall be responded to promptly by the Contractor.

13.1 FEDERAL INFORMATION PROCESSING STANDARDS PUBLICATIONS (FIPS PUBS): Information Technology products under this Schedule that do not conform to Federal Information Processing Standards (FIPS) should not be acquired unless a waiver has been granted in accordance with the applicable "FIPS Publication." Federal Information Processing Standards Publications (FIPS PUBS) are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Information concerning their availability and applicability should be obtained from the National Technical Information Service (NTIS), 5285 Port Royal Road, Springfield, Virginia 22161. FIPS PUBS include voluntary standards when these are adopted for Federal use. Individual orders for FIPS PUBS should be referred to the NTIS Sales Office, and orders for subscription service should be referred to the NTIS Subscription Officer, both at the above address, or telephone number (703) 487-4650.

13.2 FEDERAL TELECOMMUNICATION STANDARDS (FED-STDS): Telecommunication products under this Schedule that do not conform to Federal Telecommunication Standards (FED-STDS) should not be acquired unless a waiver has been granted in accordance with the applicable "FED-STD." Federal Telecommunication Standards are issued by the U.S. Department of Commerce, National Institute of Standards and Technology (NIST), pursuant to National Security Act. Ordering information and information concerning the availability of FED-STDS should be obtained from the GSA, Federal Supply Service, Specification Section, 470 East L'Enfant Plaza, Suite 8100, SW, Washington, DC 20407, telephone number (202)619-8925. Please include a self-addressed mailing label when requesting information by mail. Information concerning their applicability can be obtained by writing or calling the U.S. Department of Commerce, National Institute of Standards and Technology, Gaithersburg, MD 20899, telephone number (301) 975-2833.

14. CONTRACTOR TASKS / SPECIAL REQUIREMENTS (C-FSS-370) (NOV 2001)

(a) Security Clearances: The Contractor may be required to obtain/possess varying levels of security clearances in the performance of orders issued under this contract. All costs associated with obtaining/possessing such security clearances should be factored into the price offered under the Multiple Award Schedule.

(b) Travel: The Contractor may be required to travel in performance of orders issued under this contract. Allowable travel and per diem charges are governed by Pub .L. 99-234 and FAR Part 31, and are reimbursable by the ordering agency or can be priced as a fixed price item on orders placed under the Multiple Award Schedule. The Industrial Funding Fee does NOT apply to travel and per diem charges.

(c) Certifications, Licenses and Accreditations: As a commercial practice, the Contractor may be required to obtain/possess any variety of certifications, licenses and accreditations for specific FSC/service code classifications offered. All costs associated with obtaining/ possessing such certifications, licenses and accreditations should be factored into the price offered under the Multiple Award Schedule program.

(d) Insurance: As a commercial practice, the Contractor may be required to obtain/possess insurance coverage for specific FSC/service code classifications offered. All costs associated with obtaining/possessing such insurance should be factored into the price offered under the Multiple Award Schedule program.

(e) Personnel: The Contractor may be required to provide key personnel, resumes or skill category descriptions in the performance of orders issued under this contract. Ordering activities may require agency approval of additions or replacements to key personnel.

(f) Organizational Conflicts of Interest: Where there may be an organizational conflict of interest as determined by the ordering agency, the Contractor's participation in such order may be restricted in accordance with FAR Part 9.5.

(g) Documentation/Standards: The Contractor may be requested to provide products or services in accordance with rules, regulations, OMB orders, standards and documentation as specified by the agency's order.

(h) Data/Deliverable Requirements: Any required data/deliverables at the ordering level will be as specified or negotiated in the agency's order.

(i) Government-Furnished Property: As specified by the agency's order, the Government may provide property, equipment, materials or resources as necessary.

(j) Availability of Funds: Many Government agencies' operating funds are appropriated for a specific fiscal year. Funds may not be presently available for any orders placed under the contract or any option year. The Government's obligation on orders placed under this contract is contingent upon the availability of appropriated funds from which payment for ordering purposes can be made. No legal liability on the part of the Government for any payment may arise until funds are available to the ordering Contracting Officer.

15. CONTRACT ADMINISTRATION FOR ORDERING OFFICES: Any ordering office, with respect to any one or more delivery orders placed by it under this contract, may exercise the same rights of termination as might the GSA Contracting Officer under provisions of FAR 52.212-4, paragraphs (l) Termination for the Government's convenience, and (m) Termination for Cause (See C.1.)

16. GSA Advantage!

GSA Advantage! is an on-line, interactive electronic information and ordering system that provides on-line access to vendors' schedule prices with ordering information. GSA Advantage! will allow the user to perform various searches across all contracts including, but not limited to:

(1) Manufacturer;
(2) Manufacturer's Part Number; and
(3) Product categories.

Agencies can browse GSA Advantage! by accessing the Internet World Wide Web utilizing a browser (ex.: NetScape). The Internet address is http://www.fss.gsa.gov/.

17. PURCHASE OF OPEN MARKET ITEMS

NOTE: Open Market Items are also known as incidental items, noncontract items, non-Schedule items, and items not on a Federal Supply Schedule contract.

For administrative convenience, an ordering office contracting officer may add items not on the Federal Supply Multiple Award Schedule (MAS) -- referred to as open market items -- to a Federal Supply Schedule blanket purchase agreement (BPA) or an individual task or delivery order, **only if**-

(1) All applicable acquisition regulations pertaining to the purchase of the items not on the Federal Supply Schedule have been followed (e.g., publicizing (Part 5), competition requirements (Part 6), acquisition of commercial items (Part 12), contracting methods (Parts 13, 14, and 15), and small business programs (Part 19));

(2) The ordering office contracting officer has determined the price for the items not on the Federal Supply Schedule is fair and reasonable;

(3) The items are clearly labeled on the order as items not on the Federal Supply Schedule; and

(4) All clauses applicable to items not on the Federal Supply Schedule are included in the order.

18. CONTRACTOR COMMITMENTS, WARRANTIES AND REPRESENTATIONS

a. For the purpose of this contract, commitments, warranties and representations include, in addition to those agreed to for the entire schedule contract:

(1) Time of delivery/installation quotations for individual orders;

(2) Technical representations and/or warranties of products concerning performance, total system performance and/or configuration, physical, design and/or functional characteristics and capabilities of a product/equipment/ service/software package submitted in response to requirements which result in orders under this schedule contract.

(3) Any representations and/or warranties concerning the products made in any literature, description, drawings and/or specifications furnished by the Contractor.

b. The above is not intended to encompass items not currently covered by the GSA Schedule contract.

19. OVERSEAS ACTIVITIES

The terms and conditions of this contract shall apply to all orders for installation, maintenance and repair of equipment in areas listed in the pricelist outside the 48 contiguous states and the District of Columbia, except as indicated below:

None

Upon request of the Contractor, the Government may provide the Contractor with logistics support, as available, in accordance with all applicable Government regulations. Such Government support will be provided on a reimbursable basis, and will only be provided to the Contractor's technical personnel whose services are exclusively required for the fulfillment of the terms and conditions of this contract.

20. BLANKET PURCHASE AGREEMENTS (BPAs)

Federal Acquisition Regulation (FAR) 13.303-1(a) defines Blanket Purchase Agreements (BPAs) as "…a simplified method of filling anticipated repetitive needs for supplies or services by establishing 'charge accounts' with qualified sources of supply." The use of Blanket Purchase Agreements under the Federal Supply Schedule Program is authorized in accordance with FAR 13.303-2(c)(3), which reads, in part, as follows:

"BPAs may be established with Federal Supply Schedule Contractors, if not inconsistent with the terms of the applicable schedule contract."

Federal Supply Schedule contracts contain BPA provisions to enable schedule users to maximize their administrative and purchasing savings. This feature permits schedule users to set up "accounts" with Schedule Contractors to fill recurring requirements. These accounts establish a period for the BPA and generally address issues such as the frequency of ordering and invoicing, authorized callers, discounts, delivery locations and times. Agencies may qualify for the best quantity/volume discounts available under the contract, based on the potential volume of business that may be generated through such an agreement, regardless of the size of the individual orders. In addition, agencies may be able to secure a discount higher than that available in the contract based on the aggregate volume of business possible under a BPA. Finally, Contractors may be open to a progressive type of

discounting where the discount would increase once the sales accumulated under the BPA reach certain prescribed levels. Use of a BPA may be particularly useful with the new Maximum Order feature. See the Suggested Format, contained in this Schedule Pricelist, for customers to consider when using this purchasing tool.

21. CONTRACTOR TEAM ARRANGEMENTS

US Computers, Inc. participating in contractor team arrangements must abide by all terms and conditions of their respective contracts. This includes compliance with Clauses 552.238-74, Contractor's Reports of Sales and 552.238-76, Industrial Funding Fee, i.e., each contractor (team member) must report sales and remit the IFF for all products and services provided under its individual contract.

22. INSTALLATION, DEINSTALLATION, REINSTALLATION

The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of $2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall received less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds $2,000, then the requirements of the Davis-Bacon Act applies.

The requisitioning activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8.

23. SECTION 508 COMPLIANCE.

If applicable, Section 508 compliance information on the supplies and services in this contract are available in Electronic and Information Technology (EIT) at the following:

The EIT standard can be found at: www.Section508.gov/.

24. PRIME CONTRACTOR ORDERING FROM FEDERAL SUPPLY SCHEDULES.

Prime Contractors (on cost reimbursement contracts) placing orders under Federal Supply Schedules, on behalf of an ordering activity, shall follow the terms of the applicable schedule and authorization and include with each order.

(a) A copy of the authorization from the ordering activity with whom the contractor has the prime contract (unless a copy was previously furnished to the Federal Supply Schedule contractor); and

(b) The following statement:

This order is placed under written authorization from _____ dated _____. In the event of any inconsistency between the terms and conditions of this order and those of your Federal Supply Schedule contract, the latter will govern.

TERMS AND CONDITIONS APPLICABLE TO PURCHASE OF GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY EQUIPMENT (SPECIAL ITEM NUMBER 132-8)

1. MATERIAL AND WORKMANSHIP

All equipment furnished hereunder must satisfactorily perform the function for which it is intended.

2. ORDER

Written orders, EDI orders (GSA Advantage! and FACNET), credit card orders, and orders placed under blanket purchase agreements (BPA) agreements shall be the basis for purchase in accordance with the provisions of this contract. If time of delivery extends beyond the expiration date of the contract, the Contractor will be obligated to meet the delivery and installation date specified in the original order.

For credit card orders and BPAs, telephone orders are permissible.

3. TRANSPORTATION OF EQUIPMENT

FOB DESTINATION. Prices cover equipment delivery to destination, for any location within the geographic scope of this contract.

4. INSTALLATION AND TECHNICAL SERVICES

a. INSTALLATION. Equipment is self-installable. When the equipment provided under this contract is not normally self-installable, the Contractor's technical personnel shall be available to the Government, at the Government's location, to install the equipment and to train Government personnel in the use and maintenance of the equipment. The charges, if any, for such services are listed in the price schedule.

b. **INSTALLATION, DEINSTALLATION, REINSTALLATION.** The Davis-Bacon Act (40 U.S.C. 276a-276a-7) provides that contracts in excess of $2,000 to which the United States or the District of Columbia is a party for construction, alteration, or repair (including painting and decorating) of public buildings or public works with the United States, shall contain a clause that no laborer or mechanic employed directly upon the site of the work shall received less than the prevailing wage rates as determined by the Secretary of Labor. The requirements of the Davis-Bacon Act do not apply if the construction work is incidental to the furnishing of supplies, equipment, or services. For example, the requirements do not apply to simple installation or alteration of a public building or public work that is incidental to furnishing supplies or equipment under a supply contract. However, if the construction, alteration or repair is segregable and exceeds $2,000, then the requirements of the Davis-Bacon Act applies.

The requisitioning activity issuing the task order against this contract will be responsible for proper administration and enforcement of the Federal labor standards covered by the Davis-Bacon Act. The proper Davis-Bacon wage determination will be issued by the ordering activity at the time a request for quotations is made for applicable construction classified installation, deinstallation, and reinstallation services under SIN 132-8.

c. OPERATING AND MAINTENANCE MANUALS. The Contractor shall furnish the Government with one (1) copy of all operating and maintenance manuals which are normally provided with the equipment being purchased.

5. INSPECTION/ACCEPTANCE

The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The Government reserves the right to inspect or test any equipment that has been tendered for acceptance. The Government may require repair or replacement of nonconforming equipment at no increase in contract price. The Government must exercise its post acceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the item, unless the change is due to the defect in the item.

6. WARRANTY

a. Unless specified otherwise in this contract, the Contractor's standard commercial warranty as stated in the contract's commercial pricelist will apply to this contract.

All equipment sold under SIN 132-8 carry at least one-year warranty for parts and one-year warranty for labor on installed equipment. Most parts come with three year manufacturer's warranty. Such warranty would be indicated the pricelist.

b. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract. Contractor will be responsible for equipment until delivered and accepted by the government.

c. Limitation of Liability. Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the Government for consequential damages resulting from any defect or deficiencies in accepted items.

d. If inspection and repair of defective equipment under this warranty will be performed at the Contractor's plant, the address is as follows: 2913 Saturn Street Unit G. Brea, CA 92821

7. PURCHASE PRICE FOR ORDERED EQUIPMENT

The purchase price that the Government will be charged will be the Government purchase price in effect at the time of order placement, or the Government purchase price in effect on the installation date (or delivery date when installation is not applicable), whichever is less.

8. RESPONSIBILITIES OF THE CONTRACTOR

The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City or otherwise) covering work of this character, and shall include all costs, if any, of such compliance in the prices quoted in this offer.

9. TRADE-IN OF INFORMATION TECHNOLOGY EQUIPMENT

When an agency determines that Information Technology equipment will be replaced, the agency shall follow the contracting policies and procedures in the Federal Acquisition Regulation (FAR), the policies and procedures regarding disposition of information technology excess personal property in the Federal Property Management Regulations (FPMR) (41 CFR 101-43.6), and the policies and procedures on exchange/sale contained in the FPMR (41 CFR part 101-46).

TERMS AND CONDITIONS APPLICABLE TO MAINTENANCE, REPAIR SERVICE AND REPAIR PARTS/SPARE PARTS FOR GOVERNMENT-OWNED GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY EQUIPMENT (AFTER EXPIRATION OF GUARANTEE/WARRANTY PROVISIONS AND/OR WHEN REQUIRED SERVICE IS NOT COVERED BY GUARANTEE/WARRANTY PROVISIONS) AND FOR LEASED EQUIPMENT (SPECIAL ITEM NUMBER 132-12)

1. SERVICE AREAS

a. The maintenance and repair service rates listed herein are applicable to any Government location within a 100 mile radius of the Contractor's service points. If any additional charge is to apply because of the greater distance from the Contractor's service locations, the mileage rate or other distance factor shall be stated in paragraphs 7.d and 8.d of this Special Item Number 132-12.

b. When repair services cannot be performed at the Government installation site, the repair services will be performed at the Contractor's plant(s) listed below:

2913 Saturn Street Unit G.

Brea, CA 92821.

2. MAINTENANCE ORDER

a. Agencies may use written orders, EDI orders, credit card orders, or BPAs, for ordering maintenance under this contract. The Contractor shall confirm orders within fifteen (15) calendar days from the date of receipt, except that confirmation of orders shall be considered automatic for renewals for maintenance (Special Item Number 132-12). Automatic acceptance of order renewals for maintenance service shall apply for machines which may have been discontinued from use for temporary periods of time not longer than 120 calendar days. If the order is not confirmed by the Contractor as prescribed by this paragraph, the order shall be considered to be confirmed by the Contractor.

b. The Contractor shall honor orders for maintenance for the duration of the contract period or a lessor period of time, for the equipment shown in the pricelist. Maintenance service shall commence on a mutually agreed upon date, which will be written into the maintenance order. Maintenance orders shall not be made effective before the expiration of any applicable maintenance and parts guarantee/warranty period associated with the purchase of equipment. Orders for maintenance service shall not extend beyond the end of the contract period.

c. Maintenance may be discontinued by the Government on thirty (30) calendar days written notice, or shorter notice when agreed to by the Contractor; such notice to become effective thirty (30) calendar days from the date on the notification. However, the Government may extend the original discontinuance date upon written notice to the Contractor, provided that such notice is furnished at least ten (10) calendar days prior to the original discontinuance date.

d. Annual Funding. When annually appropriated funds are cited on a maintenance order, the period of maintenance shall automatically expire on September 30th of the contract period, or at the end of the contract period, whichever occurs first. Renewal of a maintenance order citing the new appropriation shall be required, if maintenance is to continue during any remainder of the contract period.

e. Cross-year Funding Within Contract Period. Where an ordering office's specific appropriation authority provides for funds in excess of a 12 month, fiscal year period, the ordering office may place an order under this schedule contract for a period up to the expiration of the contract period, notwithstanding the intervening fiscal years.

f. Ordering offices should notify the Contractor in writing thirty (30) calendar days prior to the expiration of maintenance service, if maintenance is to be terminated at that time. Orders for continued maintenance will be required if maintenance is to be continued during the subsequent period.

3. REPAIR SERVICE AND REPAIR PARTS/SPARE PARTS ORDERS

a. Agencies may use written orders, EDI orders, credit card orders, blanket purchase agreements (BPAs), or small order procedures for ordering repair service and/or repair parts/spare parts under this contract. Orders for repair service shall not extend beyond the end of the contract period.

b. When repair service is ordered, only one chargeable repairman shall be dispatched to perform repair service, unless the ordering office agrees, in advance, that additional repair personnel are required to effect repairs.

4. LOSS OR DAMAGE

When the Contractor removes equipment to his establishment for repairs, the Contractor shall be responsible for any damage or loss, from the time the equipment is removed from the Government installation, until the equipment is returned to such installation.

5. SCOPE

a. The Contractor shall provide maintenance for all equipment listed herein, as requested by the Government agency during the contract term. Repair service and repair parts/spare parts shall apply exclusively to the equipment types/models within the scope of this Information Technology Schedule.

b. Equipment placed under maintenance service shall be in good operating condition.

(1) In order to determine that the equipment is in good operating condition, the equipment shall be subject to inspection by the Contractor, without charge to the Government.

(2) Costs of any repairs performed for the purpose of placing the equipment in good operating condition shall be borne by the Contractor, if the equipment was under the Contractor's guarantee/warranty or maintenance responsibility prior to the effective date of the maintenance order.

(3) If the equipment was not under the Contractor's responsibility, the costs necessary to place the equipment in proper operating condition are to be borne by the Government, in accordance with the provisions of Special Item Number 132-12 (or outside the scope of this contract).

6. RESPONSIBILITIES OF THE GOVERNMENT

a. Government personnel shall not perform maintenance or attempt repairs to equipment while such equipment is under the purview of a maintenance order, unless agreed to by the Contractor.

b. Subject to security regulations, the Government shall permit access to the equipment which is to be maintained or repaired.

7. RESPONSIBILITIES OF THE CONTRACTOR

For equipment not covered by a maintenance contract or warranty, the Contractor's repair service personnel shall complete repairs as soon as possible after notification by the Government that service is required. Within the service areas, this repair service should normally be done within 4 hours after notification.

8. MAINTENANCE RATE PROVISIONS

a. The Contractor shall bear all costs of maintenance, including labor, parts, and such other expenses as are necessary to keep the equipment in good operating condition, provided that the required repairs are not occasioned by fault or negligence of the Government.

b. REGULAR HOURS

The basic monthly rate for each make and model of equipment shall entitle the Government to maintenance service during a mutually agreed upon nine (9) hour principal period of maintenance, Monday through Friday, exclusive of holidays observed at the Government location.

c. AFTER HOURS

Should the Government require that maintenance be performed outside of Regular Hours, charges for such maintenance, if any, will be specified in the pricelist. Periods of less than one hour will be prorated to the nearest quarter hour.

d. TRAVEL AND TRANSPORTATION

If any charge is to apply, over and above the regular maintenance rates, because of the distance between the Government location and the Contractor's service area, the charge will be:

Regular Government approved charges

e. QUANTITY DISCOUNTS

Quantity discounts from listed maintenance service rates for multiple equipment owned and/or leased by a Government agency are indicated below:

Quantity Range	Discounts
50-100 Units	5 %
101-200 Units	10 %
201+ Units	15 %

9. REPAIR SERVICE RATE PROVISIONS

a. CHARGES. Charges for repair service will include the labor charge, computed at the rates set forth below, for the time during which repairmen are actually engaged in work, and, when applicable, the charge for travel or transportation.

b. MULTIPLE MACHINES. When repairs are ordered by a Government agency on two or more machines located in one or more buildings within walking distance of each other, the charges will be computed from the time the repairman commences work on the first machine, until the work is completed on the last machine. The time required to go from one machine to another, or from one building to another, will be considered actual work performance, and chargeable to the Government, provided the time consumed in going between machines (or buildings) is reasonable.

c. TRAVEL OR TRANSPORTATION

(1) AT THE CONTRACTOR'S SHOP

(a) When equipment is returned to the Contractor's shop for adjustments or repairs which are not covered by the guarantee/warranty provision, the cost of transportation, packing, etc., from the Government location to the Contractor's plant, and return to the Government location, shall be borne by the Government.

(b) The Government should not return defective equipment to the Contractor for adjustments and repairs or replacement without his prior consultation and instruction.

(2) AT THE GOVERNMENT LOCATION (Within Established Service Areas)

When equipment is repaired at the Government location, and repair service rates are established for service areas or zones, the listed rates are applicable to any Government location within such service areas or zones. No extra charge, time, or expense will be allowed for travel or transportation of repairmen or machines to or from the Government office; such overhead is included in the repair service rates listed.

(3) AT THE GOVERNMENT LOCATION (Outside Established Service Areas)

(a) The repair service rates listed for subparagraph (2) above apply, except that a travel charge of _____ per mile for repairmen will apply to the round-trip distance between the geographic limits of the applicable service area and the Government location. Such charge will apply as an additional charge, but it will be limited to one round trip for each request that is made by the ordering activity for repair service, regardless of whether repairs are performed at the Government location or at the Contractor's shop.

(b) When the overall travel charge computed at the above mileage rate is unreasonable (considering the time required for travel, actual and necessary transportation costs, and the allowable Government per diem rate for each night the repairman is required to remain overnight at the Government location), the Government shall have the option of reimbursing the Contractor for actual costs, provided that the actual costs are reasonable and allowable. The Contractor shall furnish the Government with a report of travel performed and related expenses incurred. The report shall include departure and arrival dates, times, and the applicable mode of travel.

d. LABOR RATES

(1) REGULAR HOURS

The Regular Hours repair service rates listed herein shall entitle the Government to repair service during the period 8:00 a.m. to 5:00 p.m., Monday through Friday, exclusive of holidays observed at the Government location. There shall be no additional charge for repair service, which was requested during Regular Hours, but performed outside the Regular Hours defined above, at the convenience of the Contractor.

(2) AFTER HOURS

When the Government requires that repair service be performed outside the Regular Hours defined above, except Sundays and Holidays observed at the Government location, the After Hours repair service rates listed herein shall apply. The Regular Hours rates defined above shall apply when repair service is requested during Regular Hours, but performed After Hours at the convenience of the Contractor.

(3) SUNDAYS AND HOLIDAYS

When the Government requires that repair service be performed on Sundays and Holidays observed at the Government location, the Sundays and Holidays repair service rates listed herein shall apply. When repair service is requested to be performed during Regular Hours and/or After Hours, but is performed at the convenience of the Contractor on Sundays or Holidays observed at the Government location, the Regular Hours and/or After Hours repair service rates, as applicable, shall apply.

REPAIR SERVICE RATES

LOCATION	MINIMUM CHARGE*	REGULAR HOURS PER HOUR**	AFTER HOURS PER HOUR**	SUNDAYS AND HOLIDAYS PER HOUR
CONTRACTOR'S SHOP	$ 89.99	$ 89.99	$169.99	N/A
GOVERNMENT LOCATION (WITHIN ESTABLISHED SERVICE AREAS)	$199.99	$169.99	$199.99	N/A
GOVERNMENT LOCATION (OUTSIDE ESTABLISHED SERVICE AREAS)	N/A	N/A	N/A	N/A

*MINIMUM CHARGES INCLUDE _1_ FULL HOURS ON THE JOB.

**FRACTIONAL HOURS, AT THE END OF THE JOB, WILL BE PRORATED TO THE NEAREST QUARTER HOUR.

10. REPAIR PARTS/SPARE PARTS RATE PROVISIONS

All parts, furnished as spares or as repair parts in connection with the repair of equipment, unless otherwise indicated in this pricelist, shall be new, standard parts manufactured by the equipment manufacturer. All parts shall be furnished at prices indicated in the Contractor's commercial pricelist dated ____February 03_____, at a discount of ___5___% from such listed prices.

11. GUARANTEE/WARRANTY—REPAIR SERVICE AND REPAIR PARTS/SPARE PARTS

a. REPAIR SERVICE

All repair work will be guaranteed/warranted for a period of ___one month_____

b. REPAIR PARTS/SPARE PARTS

All parts, furnished either as spares or repairs parts will be guaranteed/warranted for a period _____one year_____.

12. INVOICES AND PAYMENTS

a. Maintenance Service

(1) Invoices for maintenance service shall be submitted by the Contractor on a quarterly or monthly basis, after the completion of such period. Maintenance charges must be paid in arrears (31 U.S.C. 3324). PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.

(2) Payment for maintenance service of less than one month's duration shall be prorated at 1/30th of the monthly rate for each calendar day.

b. Repair Service and Repair Parts/Spare Parts

Invoices for repair service and parts shall be submitted by the Contractor as soon as possible after completion of work. Payment under blanket purchase agreements will be made quarterly or monthly, except where cash payment procedures are used. Invoices shall be submitted separately to each Government office ordering services under the contract. The cost of repair parts shall be shown as a separate item on the invoice, and shall be priced in accordance with paragraph #10, above. PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.

TERMS AND CONDITIONS APPLICABLE TO PERPETUAL SOFTWARE LICENSES (SPECIAL ITEM NUMBER 132-33) AND MAINTENANCE (SPECIAL ITEM NUMBER 132-34) OF GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY SOFTWARE

1. INSPECTION/ACCEPTANCE

The Contractor shall only tender for acceptance those items that conform to the requirements of this contract. The ordering activity reserves the right to inspect or test any software that has been tendered for acceptance. The ordering activity may require repair or replacement of nonconforming software at no increase in contract price. The ordering activity must exercise its postacceptance rights (1) within a reasonable time after the defect was discovered or should have been discovered; and (2) before any substantial change occurs in the condition of the software, unless the change is due to the defect in the software.

2. GUARANTEE/WARRANTY

a. Unless specified otherwise in this contract, the Contractor's standard commercial guarantee/warranty as stated in the contract's commercial pricelist will apply to this contract.

All Guarantee/warranties and product information are pass through from each respective manufacturer.

b. The Contractor warrants and implies that the items delivered hereunder are merchantable and fit for use for the particular purpose described in this contract.

c. Limitation of Liability. Except as otherwise provided by an express or implied warranty, the Contractor will not be liable to the ordering activity for consequential damages resulting from any defect or deficiencies in accepted items.

3. TECHNICAL SERVICES

The Contractor, without additional charge to the ordering activity, shall provide a hot line technical support number for the purpose of providing user assistance and guidance in the implementation of the software. The technical support number is available by each manufacturer of the software during normal business hours.

4. SOFTWARE MAINTENANCE

a. Software maintenance service shall include the following:

b. Invoices for maintenance service shall be submitted by the Contractor on a quarterly or monthly basis, after the completion of such period. Maintenance charges must be paid in arrears (31 U.S.C. 3324). PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.

5. PERIODS OF MAINTENANCE (132-34)

a. The Contractor shall honor orders for periods for the duration of the contract period or a lessor period of time.

b. Maintenance may be discontinued by the ordering activity on thirty (30) calendar days written notice to the Contractor.

c. Annual Funding. When annually appropriated funds are cited on an order for maintenance, the period of maintenance shall automatically expire on September 30 of the contract period, or at the end of the contract period, whichever occurs first. Renewal of maintenance orders citing the new appropriation shall be required, if the maintenance is to be continued during any remainder of the contract period.

d. Cross-Year Funding Within Contract Period. Where an ordering activity's specific appropriation authority provides for funds in excess of a 12 month (fiscal year) period, the ordering activity may place an order under this schedule contract for a period up to the expiration of the contract period, notwithstanding the intervening fiscal years.

e. Ordering activities should notify the Contractor in writing thirty (30) calendar days prior to the expiration of an order, maintenance is to be terminated at that time. Orders for the continuation of maintenance will be required if the maintenance is to be continued during the subsequent period.

6. UTILIZATION LIMITATIONS - (132-33, AND 132-34)

a. Software acquisition is limited to commercial computer software defined in FAR Part 2.101.

b. When acquired by the ordering activity, commercial computer software and related documentation so legend shall be subject to the following:

(1) Title to and ownership of the software and documentation shall remain with the Contractor, unless otherwise specified.

(2) Software licenses are by site and by ordering activity. An ordering activity is defined as a cabinet level or independent ordering activity. The software may be used by any subdivision of the ordering activity (service, bureau, division, command, etc.) that has access to the site the software is placed at, even if the subdivision did not participate in the acquisition of the software. Further, the software may be used on a sharing basis where multiple agencies have joint projects that can be satisfied by the use of the software placed at one ordering activity's site. This would allow other agencies access to one ordering activity's database. For ordering activity public domain databases, user agencies and third parties may use the computer program to enter, retrieve, analyze and present data. The user ordering activity will take appropriate action by instruction, agreement, or otherwise, to protect the Contractor's proprietary property with any third parties that are permitted access to the computer programs and documentation in connection with the user ordering activity's permitted use of the computer programs and documentation. For purposes of this section, all such permitted third parties shall be deemed agents of the user ordering activity.

(3) Except as is provided in paragraph 8.b(2) above, the ordering activity shall not provide or otherwise make available the software or documentation, or any portion thereof, in any form, to any third party without the prior written approval of the Contractor. Third parties do not include prime Contractors, subcontractors and agents of the ordering activity who have the ordering activity's permission to use the licensed software and documentation at the facility, and who have agreed to use the licensed software and documentation only in accordance with these restrictions. This provision does not limit the right of the ordering activity to use software, documentation, or information therein, which the ordering activity may already have or obtains without restrictions.

(4) The ordering activity shall have the right to use the computer software and documentation with the computer for which it is acquired at any other facility to which that computer may be transferred, or in cases of disaster recovery, the ordering activity has the right to transfer the software to another site if the ordering activity site for which it is acquired is deemed to be unsafe for ordering activity personnel; to use the computer software and documentation with a backup computer when the primary computer is inoperative; to copy computer programs for safekeeping (archives) or backup purposes; to transfer a copy of the software to another site for purposes of benchmarking new hardware and/or software; and to modify

the software and documentation or combine it with other software, provided that the unmodified portions shall remain subject to these restrictions.

(5) "Commercial Computer Software" may be marked with the Contractor's standard commercial restricted rights legend, but the schedule contract and schedule pricelist, including this clause, "Utilization Limitations" are the only governing terms and conditions, and shall take precedence and supersede any different or additional terms and conditions included in the standard commercial legend.

9. SOFTWARE CONVERSIONS - (AND 132-33)

Full monetary credit will be allowed to the ordering activity when conversion from one version of the software to another is made as the result of a change in operating system , or from one computer system to another. Under a perpetual license (132-33), the purchase price of the new software shall be reduced by the amount that was paid to purchase the earlier version.

10. DESCRIPTIONS AND EQUIPMENT COMPATIBILITY

The Contractor shall include, in the schedule pricelist, a complete description of each software product and a list of equipment on which the software can be used. Also, included shall be a brief, introductory explanation of the modules and documentation which are offered.

11. RIGHT-TO-COPY PRICING

The Contractor shall insert the discounted pricing for right-to-copy licenses.

TERMS AND CONDITIONS APPLICABLE TO PURCHASE OF TRAINING COURSES FOR GENERAL PURPOSE COMMERCIAL INFORMATION TECHNOLOGY EQUIPMENT AND SOFTWARE (SPECIAL ITEM NUMBER 132-50)

1. SCOPE

a. The Contractor shall provide training courses normally available to commercial customers, which will permit Government users to make full, efficient use of general purpose commercial IT products. Training is restricted to training courses for those products within the scope of this solicitation.

b. The Contractor shall provide training at the Contractor's facility and/or at the Government's location, as agreed to by the Contractor and the Government.

2. ORDER

Written orders, EDI orders (GSA Advantage! and FACNET), credit card orders, and orders placed under blanket purchase agreements (BPAs) shall be the basis for the purchase of training courses in accordance with the terms of this contract. Orders shall include the student's name, course title, course date and time, and contracted dollar amount of the course.

3. TIME OF DELIVERY

The Contractor shall conduct training on the date (time, day, month, and year) agreed to by the Contractor and the Government.

4. CANCELLATION AND RESCHEDULING

a. The Government will notify the Contractor at least seventy-two (72) hours before the scheduled training date, if a student will be unable to attend. The Contractor will then permit the Government to either cancel the order or reschedule the training at no additional charge. In the event the training class is rescheduled, the Government will modify its original training order to specify the time and date of the rescheduled training class.

b. In the event the Government fails to cancel or reschedule a training course within the time frame specified in paragraph a, above, the Government will be liable for the contracted dollar amount of the training course. The Contractor agrees to permit the Government to reschedule a student who fails to attend a training class within ninety (90) days from the original course date, at no additional charge.

c. The Government reserves the right to substitute one student for another up to the first day of class.

d. In the event the Contractor is unable to conduct training on the date agreed to by the Contractor and the Government, the Contractor must notify the Government at least seventy-two (72) hours before the scheduled training date.

5. FOLLOW-UP SUPPORT

The Contractor agrees to provide each student with unlimited telephone support for a period of one (1) year from the completion of the training course. During this period, the student may contact the Contractor's instructors for refresher assistance and answers to related course curriculum questions.

6. PRICE FOR TRAINING

The price that the Government will be charged will be the Government training price in effect at the time of order placement, or the Government price in effect at the time the training course is conducted, whichever is less.

7. INVOICES AND PAYMENT

Invoices for training shall be submitted by the Contractor after Government completion of the training course. Charges for training must be paid in arrears (31 U.S.C. 3324). PROMPT PAYMENT DISCOUNT, IF APPLICABLE, SHALL BE SHOWN ON THE INVOICE.

8. FORMAT AND CONTENT OF TRAINING

a. The Contractor shall provide written materials (i.e., manuals, handbooks, texts, etc.) normally provided with course offerings. Such documentation will become the property of the student upon completion of the training class.

b. For hands-on training courses, there must be a one-to-one assignment of IT equipment to students.

c. The Contractor shall provide each student with a Certificate of Training at the completion of each training course.

d. The Contractor shall provide the following information for each training course offered:

(1) The course title and a brief description of the course content, to include the course format (e.g., lecture, discussion, hands-on training);

(2) The length of the course;

(3) Mandatory and desirable prerequisites for student enrollment;

(4) The minimum and maximum number of students per class;

(5) The locations where the course is offered;

(6) Class schedules; and

(7) Price (per student, per class (if applicable)).

e. For those courses conducted at the Government's location, instructor travel charges (if applicable), including mileage and daily living expenses, will comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Contractors cannot use GSA city pair contracts.

9. "NO CHARGE" TRAINING

The Contractor shall describe any training provided with equipment and/or software provided under this contract, free of charge, in the space provided below.

None

TERMS AND CONDITIONS APPLICABLE TO INFORMATION TECHNOLOGY (IT) PROFESSIONAL SERVICES (SPECIAL ITEM NUMBER 132-51)

1. SCOPE
a. The prices, terms and conditions stated under Special Item Number 132-51 Information Technology Professional Services apply exclusively to IT Services within the scope of this Information Technology Schedule.
b. The Contractor shall provide services at the Contractor's facility and/or at the ordering activity location, as agreed to by the Contractor and the ordering activity.

2. PERFORMANCE INCENTIVES
a. Performance incentives may be agreed upon between the Contractor and the ordering activity on individual fixed price orders or Blanket Purchase Agreements under this contract in accordance with this clause.
b. The ordering activity must establish a maximum performance incentive price for these services and/or total solutions on individual orders or Blanket Purchase Agreements.
c. Incentives should be designed to relate results achieved by the contractor to specified targets. To the maximum extent practicable, ordering activities shall consider establishing incentives where performance is critical to the ordering activity's mission and incentives are likely to motivate the contractor. Incentives shall be based on objectively measurable tasks.

3. ORDER
a. Agencies may use written orders, EDI orders, blanket purchase agreements, individual purchase orders, or task orders for ordering services under this contract. Blanket Purchase Agreements shall not extend beyond the end of the contract period; all services and delivery shall be made and the contract terms and conditions shall continue in effect until the completion of the order. Orders for tasks which extend beyond the fiscal year for which funds are available shall include FAR 52.232-19 (Deviation – May 2003) Availability of Funds for the Next Fiscal Year. The purchase order shall specify the availability of funds and the period for which funds are available.
b. All task orders are subject to the terms and conditions of the contract. In the event of conflict between a task order and the contract, the contract will take precedence.

4. PERFORMANCE OF SERVICES
a. The Contractor shall commence performance of services on the date agreed to by the Contractor and the ordering activity.
b. The Contractor agrees to render services only during normal working hours, unless otherwise agreed to by the Contractor and the ordering activity.
c. The ordering activity should include the criteria for satisfactory completion for each task in the Statement of Work or Delivery Order. Services shall be completed in a good and workmanlike manner.
d. Any Contractor travel required in the performance of IT Services must comply with the Federal Travel Regulation or Joint Travel Regulations, as applicable, in effect on the date(s) the travel is performed. Established Federal Government per diem rates will apply to all Contractor travel. Contractors cannot use GSA city pair contracts.

5. STOP-WORK ORDER (FAR 52.242-15) (AUG 1989)
(a) The Contracting Officer may, at any time, by written order to the Contractor, require the Contractor to stop all, or any part, of the work called for by this contract for a period of 90 days after the order is delivered to the Contractor, and for any further period to which the parties may agree. The order shall be specifically identified as a stop-work order issued under this clause. Upon receipt of the order, the Contractor shall immediately comply with its terms and take all reasonable steps to minimize the incurrence of costs allocable to the work covered by the order during the period of work stoppage. Within a period of 90 days after a stop-work is delivered to the Contractor, or within any extension of that period to which the parties shall have agreed, the Contracting Officer shall either-
(1) Cancel the stop-work order; or
(2) Terminate the work covered by the order as provided in the Default, or the Termination for Convenience of the Government, clause of this contract.
(b) If a stop-work order issued under this clause is canceled or the period of the order or any extension thereof expires, the Contractor shall resume work. The Contracting Officer shall make an equitable adjustment in the delivery schedule or contract price, or both, and the contract shall be modified, in writing, accordingly, if-

(1) The stop-work order results in an increase in the time required for, or in the Contractor's cost properly allocable to, the performance of any part of this contract; and
(2) The Contractor asserts its right to the adjustment within 30 days after the end of the period of work stoppage; provided, that, if the Contracting Officer decides the facts justify the action, the Contracting Officer may receive and act upon the claim submitted at any time before final payment under this contract.
(c) If a stop-work order is not canceled and the work covered by the order is terminated for the convenience of the Government, the Contracting Officer shall allow reasonable costs resulting from the stop-work order in arriving at the termination settlement.
(d) If a stop-work order is not canceled and the work covered by the order is terminated for default, the Contracting Officer shall allow, by equitable adjustment or otherwise, reasonable costs resulting from the stop-work order.

6. INSPECTION OF SERVICES
The Inspection of Services–Fixed Price (AUG 1996) (Deviation – May 2003) clause at FAR 52.246-4 applies to firm-fixed price orders placed under this contract. The Inspection–Time-and-Materials and Labor-Hour (JAN 1986) (Deviation – May 2003) clause at FAR 52.246-6 applies to time-and-materials and labor--hour orders placed under this contract.

7. RESPONSIBILITIES OF THE CONTRACTOR
The Contractor shall comply with all laws, ordinances, and regulations (Federal, State, City, or otherwise) covering work of this character. If the end product of a task order is software, then FAR 52.227-14 (Deviation – May 2003) Rights in Data – General, may apply.

8. RESPONSIBILITIES OF THE ORDERING ACTIVITY
Subject to security regulations, the ordering activity shall permit Contractor access to all facilities necessary to perform the requisite IT Services.

9. INDEPENDENT CONTRACTOR
All IT Services performed by the Contractor under the terms of this contract shall be as an independent Contractor, and not as an agent or employee of the ordering activity.

10. ORGANIZATIONAL CONFLICTS OF INTEREST
a. Definitions.
“Contractor” means the person, firm, unincorporated association, joint venture, partnership, or corporation that is a party to this contract.
“Contractor and its affiliates” and “Contractor or its affiliates” refers to the Contractor, its chief executives, directors, officers, subsidiaries, affiliates, subcontractors at any tier, and consultants and any joint venture involving the Contractor, any entity into or with which the Contractor subsequently merges or affiliates, or any other successor or assignee of the Contractor.
An “Organizational conflict of interest” exists when the nature of the work to be performed under a proposed ordering activity contract, without some restriction on ordering activities by the Contractor and its affiliates, may either (i) result in an unfair competitive advantage to the Contractor or its affiliates or (ii) impair the Contractor’s or its affiliates’ objectivity in performing contract work.
b. To avoid an organizational or financial conflict of interest and to avoid prejudicing the best interests of the ordering activity, ordering activities may place restrictions on the Contractors, its affiliates, chief executives, directors, subsidiaries and subcontractors at any tier when placing orders against schedule contracts. Such restrictions shall be consistent with FAR 9.505 and shall be designed to avoid, neutralize, or mitigate organizational conflicts of interest that might otherwise exist in situations related to individual orders placed against the schedule contract. Examples of situations, which may require restrictions, are provided at FAR 9.508.

11. INVOICES
The Contractor, upon completion of the work ordered, shall submit invoices for IT Services. Progress payments may be authorized by the ordering activity on individual orders if appropriate. Progress payments shall be based upon completion of defined milestones or interim products. Invoices shall be submitted monthly for recurring services performed during the preceding month.

12. PAYMENTS
For firm-fixed price orders the ordering activity shall pay the Contractor, upon submission of proper invoices or vouchers, the prices stipulated in this contract for service rendered and accepted. Progress payments shall be made only when authorized by the order. For time-and-materials orders, the Payments under Time-and-Materials and Labor-Hour
Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to time-and-materials orders placed under this contract. For labor-hour orders, the Payment under Time-and-Materials and Labor-Hour Contracts at FAR 52.212-4 (MAR 2009) (ALTERNATE I – OCT 2008) (DEVIATION I – FEB 2007) applies to labor-hour orders placed under this contract. 52.216-31(Feb 2007) Time-and-Materials/Labor-Hour Proposal Requirements—Commercial Item Acquisition. As prescribed in 16.601(e)(3), insert the following provision:
(a) The Government contemplates award of a Time-and-Materials or Labor-Hour type of contract resulting from this solicitation.
(b) The offeror must specify fixed hourly rates in its offer that include wages, overhead, general and administrative expenses, and profit. The offeror must specify whether the fixed hourly rate for each labor category applies to labor performed by—
(1) The offeror;
(2) Subcontractors; and/or
(3) Divisions, subsidiaries, or affiliates of the offeror under a common control.

13. RESUMES
Resumes shall be provided to the GSA Contracting Officer or the user ordering activity upon request.

14. INCIDENTAL SUPPORT COSTS
Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering activity in accordance with the guidelines set forth in the FAR.

15. APPROVAL OF SUBCONTRACTS
The ordering activity may require that the Contractor receive, from the ordering activity's Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

16. DESCRIPTION OF IT SERVICES AND PRICING
a. The Contractor shall provide a description of each type of IT Service offered under Special Item Numbers 132-51 IT Professional Services should be presented in the same manner as the Contractor sells to its commercial and other ordering activity customers. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles (labor categories) for those individuals who will perform the service should be provided.
b. Pricing for all IT Professional Services shall be in accordance with the Contractor’s customary commercial practices; e.g., hourly rates, monthly rates, term rates, and/or fixed prices.
The following is an example of the manner in which the description of a commercial job title should be presented:
EXAMPLE: Commercial Job Title: System Engineer Minimum/General Experience: Three (3) years of technical experience which applies to systems analysis and design techniques for complex computer systems. Requires competence in all phases of systems analysis techniques, concepts and methods; also requires knowledge of available hardware, system software, input/output devices, structure and management practices.
Functional Responsibility: Guides users in formulating requirements, advises alternative approaches, conducts feasibility studies.
Minimum Education: Bachelor’s Degree in Computer Science

USA COMMITMENT TO PROMOTE SMALL BUSINESS PARTICIPATION PROCUREMENT PROGRAMS

PREAMBLE

US Computers, Inc. provides commercial products and services to the Federal Government. We are committed to promoting participation of small, small disadvantaged and women-owned small businesses in our contracts. We pledge to provide opportunities to the small business community through reselling opportunities, mentor-protégé programs, joint ventures, teaming arrangements, and subcontracting.

COMMITMENT

To actively seek and partner with small businesses.

To identify, qualify, mentor and develop small, small disadvantaged and women-owned small businesses by purchasing from these businesses whenever practical.

To develop and promote company policy initiatives that demonstrate our support for awarding contracts and subcontracts to small business concerns.

To undertake significant efforts to determine the potential of small, small disadvantaged and women-owned small business to supply products and services to our company.

To insure procurement opportunities are designed to permit the maximum possible participation of small, small disadvantaged, and women-owned small businesses.

To attend business opportunity workshops, minority business enterprise seminars, trade fairs, procurement conferences, etc., to identify and increase small businesses with whom to partner.

To publicize in our marketing publications our interest in meeting small businesses that may be interested in subcontracting opportunities.

We signify our commitment to work in partnership with small, small disadvantaged and women-owned small businesses to promote and increase their participation in Federal Government contracts. To accelerate potential opportunities please contact **Saleem Sheikh at (714) 528-0514 or info@uscomputersinc.com.**

DRAFT FOR BLANKET PURCHASE AGREEMENT

BEST VALUE
BLANKET PURCHASE AGREEMENT
FEDERAL SUPPLY SCHEDULE

(Insert Customer Name)

In the spirit of the Federal Acquisition Streamlining Act (Agency) and (Contractor) enter into a cooperative agreement to further reduce the administrative costs of acquiring commercial items from the General Services Administration (GSA) Federal Supply Schedule Contract(s) _____.

Federal Supply Schedule contract BPAs eliminate contracting and open market costs such as: search for sources; the development of technical documents, solicitations and the evaluation of offers. Teaming Arrangements are permitted with Federal Supply Schedule Contractors in accordance with Federal Acquisition Regulation (FAR) 9.6.

This BPA will futher decrease costs, reduce paperwork, and save time by eliminating the need for repetitive, individual purchases from the schedule contract. The end result is to create a purchasing mechanism for the Government that works better and costs less.

BPA NUMBER_____

(CUSTOMER NAME)
BLANKET PURCHASE AGREEMENT

Pursuant to GSA Federal Supply Schedule Contract Number(s)_____, Blanket Purchase Agreements, the Contractor agrees to the following terms of a Blanket Purchase Agreement (BPA) EXCLUSIVELY WITH (Ordering Agency):

(1) The following contract items can be ordered under this BPA. All orders placed against this BPA are subject to the terms and conditions of the contract, except as noted below:

MODEL NUMBER/PART NUMBER	*SPECIAL BPA DISCOUNT/PRICE
_____	_____
_____	_____

(2) Delivery:

DESTINATION	DELIVERY SCHEDULES / DATES
_____	_____
_____	_____
_____	_____

(3) The Government estimates, but does not guarantee, that the volume of purchases through this agreement will be _____.

(4) This BPA does not obligate any funds.

(5) This BPA expires on _____ or at the end of the contract period, whichever is earlier.

(6) The following office(s) is hereby authorized to place orders under this BPA:

OFFICE	POINT OF CONTACT
_____	_____
_____	_____
_____	_____

(7) Orders will be placed against this BPA via Electronic Data Interchange (EDI), FAX, or paper.

(8) Unless otherwise agreed to, all deliveries under this BPA must be accompanied by delivery tickets or sales slips that must contain the following information as a minimum:

(a) Name of Contractor;

(b) Contract Number;

(c) BPA Number;

(d) Model Number or National Stock Number (NSN);

(e) Purchase Order Number;

(f) Date of Purchase;

(g) Quantity, Unit Price, and Extension of Each Item (unit prices and extensions need not be shown when incompatible with the use of automated systems; provided, that the invoice is itemized to show the information); and

(h) Date of Shipment.

(9) The requirements of a proper invoice are specified in the Federal Supply Schedule contract. Invoices will be submitted to the address specified within the purchase order transmission issued against this BPA.

(10) The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provisions of this BPA and the Contractor's invoice, the provisions of this BPA will take precedence.

BASIC GUIDELINES FOR USING "CONTRACTOR TEAM ARRANGEMENTS"

Federal Supply Schedule Contractors may use "Contractor Team Arrangements" (see FAR 9.6) to provide solutions when responding to a customer agency requirements.

These Team Arrangements can be included under a Blanket Purchase Agreement (BPA). BPAs are permitted under all Federal Supply Schedule contracts.

Orders under a Team Arrangement are subject to terms and conditions or the Federal Supply Schedule Contract.

Participation in a Team Arrangement is limited to Federal Supply Schedule Contractors.

Customers should refer to FAR 9.6 for specific details on Team Arrangements.

Here is a general outline on how it works:

- The customer identifies their requirements.
- Federal Supply Schedule Contractors may individually meet the customers needs, or -
- Federal Supply Schedule Contractors may individually submit a Schedules "Team Solution" to meet the customer's requirement.
- Customers make a best value selection.

LABOR CATEGORY DESCRIPTION
APPLICABLE TO SIN 132-51

Title	Responsibility	Experience	Education
Senior Consultant	The Senior Consultant takes a leading role in consulting assignments for clients of company's product and services. Basic understanding and experience with the following; a.Organizational development and change management practices b.Business process improvement practices c.Enterprise application design and implementation. The Senior Consultant reports to a Project Manager, Service Line Director, and/or Consulting Services Director.	up to 17 years	Min Bachelor's degree or equivalent experience
Consultant	Creates and executes project work plans and revises as appropriate to meet changing needs and requirements. Identifies resources needed and assigns individual responsibilities. Manages day-to-day operational aspects of a project and scope. Reviews deliverables prepared by team before passing to client. Prepares for engagement reviews and quality assurance procedures. Ensures project documents are complete, current, and stored appropriately	up to 12 years	Min Bachelor's degree or equivalent experience
Associate Consultant	Participating in teams to structure analyses, assess findings and develop recommendations. Collecting, organizing and analyzing demographic, organizational, market and financial data using sophisticated computer software and analytic techniques, client facilitation and intervention Taking part in business process decomposition and re-engineering in technology implementation project teams.• Performing client interviews, assisting in interview guide development and summarizing interview notes. Enhancing the client's ability to function effectively and independently by training and developing client teams. Developing, training and recruiting new Associates	up to 8 years	Min Bachelor's degree or equivalent experience
Project Management Level I	Creates and executes project work plans. Identifies resource needs and assigns individual responsibilities. Manages day-to-day operational aspects of project	up to 5 years	Min Bachelor's degree or equivalent experience
Project Management Level II	Senior level resource. Experienced with executive level communication. Creates and executes project work plans. Identifies resource needs and assigns individual responsibilities. Manages day-to-day operational aspects of project.	up to 7 years	Min Bachelor's degree or equivalent experience

Project Management Level III	Performs complex (level 3) Participating in teams to structure analyses, assess findings and develop recommendations. Creates and executes project work plans. Identifies resource needs and assigns individual responsibilities. Experienced with executive level communication. Creates and executes project work plans. Identifies resource needs and assigns individual responsibilities. Manages day-to-day operational aspects of project ensuring operational, contractual, and technical efficiencies as primary goals. Supplies advice and counsel to other professionals. Operates with wide latitude for unreviewed action but may require to report to a supervisor Project Manager II or Project Manager III or Project Director. Developing, training and recruiting new Associates	8-10 years	Min Bachelor's degree or equivalent experience
Project/Program Manager IV	Plans, conducts, and supervises projects of major significance which necessitates advance knowledge and the ability to originate and apply new and unique methods and procedures. Supplies technical advice and counsel to other professionals. Operates with wide latitude for unreviewed action.	up to 12 years	Min Bachelor's degree or equivalent experience
Systems Administrator	Manages, maintains and operates computer server systems. Responsible for the health of the environment and responding to service outages and other problems.	up to 5 years	Min Bachelor's degree or equivalent experience
Database Administrator	Maintains, administers and deploys software databases. May also be a junior-level designer and developer of software databases and related master files	up to 5 years	Min Bachelor's degree or equivalent experience
Communication Engineer	Expert in internet, telecommunications and network technologies	up to 5 years	Min Bachelor's degree or equivalent experience
Network Engineer /Systems Analyst	Responsible for managing the LAN/WAN infrastructure. This includes deployment, configuration, maintenance and monitoring of network equipment	up to 5 years	Min Bachelor's degree or equivalent experience

Network Designer/Enterprise/ IT Architect	Assists with administering and maintaining corporate infrastructure and maintaining corporate WAN. Interacts with internal clients to resolve basic and complex help desk issues in a timely manner. Performs basic and more complex troubleshooting, backup, archiving, and disaster recovery. Installs and upgrades computer software and network equipment. Assist the group leader with correspondence, consultant/site meetings etc. Site survey. Checking the design detailing and work produced by the designers and assistant designers. Prepare and present status reports. Maintain complete project files. Perform final documentation and submittal review	up tp 12 years	Min Bachelor's degree or equivalent experience
LAN/WAN Specialist Sr	Performs highly complex assignments in administration to the local and wide area network; develops procedures for network support of all email functions, including maintenance, troubleshooting, and monitoring of systems supporting email functions; monitors the performance of the network to ensure continued operation to all users; corrects simple to very complex software and telecommunications malfunctions; maintains file servers and troubleshoots servers to resolve problems; assists in setting up for and conducting daily, monthly, quarterly, and special backups of all file servers. Provides technical guidance and assistance to less experienced Analyst and Technicians	up tp 8 years	Min Bachelor's degree or equivalent experience
LAN/WAN Specialist II	Performs moderately to highly complex assignments in administration to the local and wide area network; develops procedures for network support of all email functions, including maintenance, troubleshooting, and monitoring of systems supporting email functions; monitors the performance of the network to ensure continued operation to all users; corrects simple to very complex software and telecommunications malfunctions; maintains file servers and troubleshoots servers to resolve problems; assists in setting up for and conducting daily, monthly, quarterly, and special backups of all file servers. Provides technical guidance and assistance to less experienced Analyst and Technicians	up to 5 years	Min Bachelor's degree or equivalent experience
LAN/WAN Specialist Jr	Performs moderately to highly complex assignments in administration to the local and wide area network; develops procedures for network support of all email functions, including maintenance, troubleshooting, and monitoring of systems supporting email functions; monitors the performance of the network to ensure continued operation to all users; corrects simple to very complex software and telecommunications malfunctions; maintains file servers and troubleshoots servers to resolve problems; assists in setting up for and conducting daily, monthly, quarterly, and special backups of all file servers. Provides technical guidance and assistance to less experienced Analyst and Technicians	up to 3 years	Min Bachelor's degree or equivalent experience

Help Desk Support Specialist Sr	Performs complex and expert help desk assignments including working directly with users either on the phone or in person on all their Desktop and IT needs. Working on trouble tickets, help desks, training, ticket escalations. May assist with any and all help desk functions, end user desktop functions, software and maintenance troubleshooting, etc.	up to 12 years	Min Bachelor's degree or equivalent experience
Help Desk Support Specialist III	Performs complex help desk assignments including working directly with users either on the phone or in person on all their Desktop and IT needs. Working on trouble tickets, help desks, training, ticket escalations. May assist with any and all help desk functions, end user desktop functions, software and maintenance troubleshooting, etc.	up to 8 years	Min Bachelor's degree or equivalent experience
Help Desk Support Specialist II	Performs help desk assignments including working directly with users either on the phone or in person on all their Desktop and IT needs. Working on trouble tickets, help desks, training, ticket escalations. May assist with any and all help desk functions, end user desktop functions, software and maintenance troubleshooting, etc.	up to 5 years	Min Bachelor's degree or equivalent experience
Help Desk Support Specialist Jr	Performs simple (level 1) help desk assignments including working directly with users either on the phone or in person on all their Desktop and IT needs. Working on trouble tickets, help desks, training, ticket escalations. May assist with any and all help desk functions, end user desktop functions, software and maintenance troubleshooting, etc.	up to 2 years	Min Bachelor's degree or equivalent experience
Low Voltage Cable Specialist	Expert in installing and testing Low Voltage cable such as: CCTV, Fire Alarm, Sound, AV, and Network cables. Responsible for installing pathway systems and terminate blocks	up to 6 years	Min Bachelor's degree or equivalent experience
Cable Management Specialist	Organize computer data cabling, structured cabling, LAN cabling in various Data Centers and LAN closets	up to 5 years	Min Bachelor's degree or equivalent experience
IT Design Specialist	Senior level software architect for standalone, client/server and web-based software applications.	3-7 years	Min Bachelor's degree or equivalent experience
Quality Assurance Specialist	Responsible for creating test plans, inspecting software, uncovering and documenting software defects.	3-8 years	Min Bachelor's degree or equivalent experience

Programmer/Database Programmer	Prepares specifications, system designs, software code, tests, debugs, and documents software programs	3-10 years	Min Bachelor's degree or equivalent experience
Systems Programmer I	Participates in level I design and implementation of key components of the IT infrastructure including the data/wireless network, the corporate enterprise directory or the distributed systems/servers. Resolves problems impacting the availability of the corporate enterprise directory, remote access, or the distributed systems/servers. Interfaces directly with vendor technical support under the direction of a manager. Participates in the implementation of technology upgrades under the direction of a manager. Provides consulting services relating to vendor software and interfaces, makes suggestions for improvement and participates in the implementation of recommended changes. Provides technical consulting to project teams on issues relating to directory services, software distribution, remote access and distributed systems/servers platforms. Maintains documentation and operational procedures for the corporate enterprise directory, and distributed systems/servers. Monitors and supports key components of the IT infrastructure to ensure effective delivery of critical business applications.	up to 5 years	Min Bachelor's degree or equivalent experience
Systems Programmer II	Participates in level II design and implementation of key components of the IT infrastructure including the data/wireless network, the corporate enterprise directory or the distributed systems/servers. Resolves problems impacting the availability of the corporate enterprise directory, remote access, or the distributed systems/servers. Interfaces directly with vendor technical support under the direction of a manager. Participates in the implementation of technology upgrades under the direction of a manager. Provides consulting services relating to vendor software and interfaces, makes suggestions for improvement and participates in the implementation of recommended changes. Provides technical consulting to project teams on issues relating to directory services, software distribution, remote access and distributed systems/servers platforms. Maintains documentation and operational procedures for the corporate enterprise directory, and distributed systems/servers. Monitors and supports key components of the IT infrastructure to ensure effective delivery of critical business applications.	up to 10 years	Min Bachelor's degree or equivalent experience

Systems Programmer III	Participates in level III design and implementation of key components of the IT infrastructure including the data/wireless network, the corporate enterprise directory or the distributed systems/servers. Resolves problems impacting the availability of the corporate enterprise directory, remote access, or the distributed systems/servers. Interfaces directly with vendor technical support under the direction of a manager. Participates in the implementation of technology upgrades under the direction of a manager. Provides consulting services relating to vendor software and interfaces, makes suggestions for improvement and participates in the implementation of recommended changes. Provides technical consulting to project teams on issues relating to directory services, software distribution, remote access and distributed systems/servers platforms. Maintains documentation and operational procedures for the corporate enterprise directory, and distributed systems/servers. Monitors and supports key components of the IT infrastructure to ensure effective delivery of critical business applications	up to 15 years	Min Bachelor's degree or equivalent experience
Web Application Developer	Designs, creates software, debugs, deploys and implements internal and external web pages and applications.	3-5 years	Min Bachelor's degree or equivalent experience
Graphics Designer	Produces visual designs for use in standalone, client/server and web-based software applications. Tasks could range from design a mouse click button to an entire application.	2-5 years	Min Bachelor's degree or equivalent experience
Audio/Visual Technician	Operates audio/visual equipment	3-7 years	Min Bachelor's degree or equivalent experience
Telecommunications Specialists Sr	Performs complex Telecommunications Technician is responsible for providing telephone, computer hardware, and data communications equipment support to in-house users and participating in the installation and repair of radio communications systems and equipment. Also, responsible for the day-to-day installation, maintenance, modification, relocation, and updating of radio, voice, and data communications systems and networks, and for installing and repairing computer hardware systems and equipment.	up to 10 years	Min Bachelor's degree or equivalent experience

Telecommunications Specialists II	Performs mid level 2 Telecommunications Technician is responsible for providing telephone, computer hardware, and data communications equipment support to in-house users and participating in the installation and repair of radio communications systems and equipment. Also, responsible for the day-to-day installation, maintenance, modification, relocation, and updating of radio, voice, and data communications systems and networks, and for installing and repairing computer hardware systems and equipment.	up to 5 years	Min Bachelor's degree or equivalent experience
Telecommunications Specialists Jr	Performs simple Telecommunications Technician is responsible for providing telephone, computer hardware, and data communications equipment support to in-house users and participating in the installation and repair of radio communications systems and equipment. Also, responsible for the day-to-day installation, maintenance, modification, relocation, and updating of radio, voice, and data communications systems and networks, and for installing and repairing computer hardware systems and equipment.	up to 2 years	Min Bachelor's degree or equivalent experience
Subject Matter Expert I	Provides expert consultative support to a functional technical area of the project. Develops solutions to complex problems. Works closely with the information technologists to identify the best technological solution to technical issues. Provides consulting to director and senior managers on information technology strategies. Develops, leads, and conducts quality workshops, benchmarking, and surveys. Facilitates process improvement efforts. Manages a project team	up to 5 years	Min Bachelor's degree or equivalent experience
System Integrator	Build and configure Computer Systems and packages to be good at matching customers' needs with existing products. Understands how to operate a system or a graphic user interface. Will is normally a generalist, knowing a little bit about a large number of products. Systems integration includes a substantial amount of diagnostic and troubleshooting work. The ability to research existing products and software components is also helpful. Creation of these information systems may include designing or building a customized architecture or application, integrating it with new or existing hardware, packaged and custom software, and communications infrastructure. Knowledge may include some basic knowledge on some of the desktop, laptop and even some larger, Enterprise System integrators – gateway, Toshiba, Fujitsu, HP, Cisco, Unisys, IBM, Oracle, etc.	3-7 years	Min Bachelor's degree or equivalent experience

Hardware/Software Specialist I	Plans and supports level I the hardware and software goals and objectives of any private or Government agency. Plans and designs hardware and software configurations. Supplies technical advice and counsel to other professionals or other Government agency management, as required. Work is performed under supervision of a senior or project leader. Carries out assignments associated with projects and translates guidance receive from leader into usable data applicable to the particular assignment. Work assignments are varied and require some originality and ingenuity	2-4 years	Min Bachelor's degree or equivalent experience
Hardware/Software Specialist II	Plans and supports level II the hardware and software goals and objectives of any private or Government agency. Plans and designs hardware and software configurations. Supplies technical advice and counsel to other professionals or other Government agency management, as required. Acts independently or under general direction. Plans and conducts projects in the intermediate to difficult range which requires substantial relate knowledge.	3-5 years	Min Bachelor's degree or equivalent experience
Hardware/Software Specialist III	Plans and supports level III the hardware and software goals and objectives of any Government agency. Plans and designs hardware and software configurations. Supplies technical advice and counsel to other professionals or other Government agency management, as required. Operates with a wide latitude of unreviewed action. Plans, conducts and supervises projects of major significance which need advanced related knowledge.	up to 7 years	Min Bachelor's degree or equivalent experience
Telecommunications Specialist I	Performs simple (level 1) Telecommunications Technician is responsible for providing telephone, computer hardware, and data communications equipment support to in-house users and participating in the installation and repair of radio communications systems and equipment. Also, responsible for the day-to-day installation, maintenance, modification, relocation, and updating of radio, voice, and data communications systems and networks, and for installing and repairing computer hardware systems and equipment	2-7 years	Min Bachelor's degree or equivalent experience
Telecommunications Specialist II	Performs mid (level 2) level Telecommunications Technician is responsible for providing telephone, computer hardware, and data communications equipment support to in-house users and participating in the installation and repair of radio communications systems and equipment. Also, responsible for the day-to-day installation, maintenance, modification, relocation, and updating of radio, voice, and data communications systems and networks, and for installing and repairing computer hardware systems and equipment	3-8 years	Min Bachelor's degree or equivalent experience

Telecommunications Specialist III	Performs complex (level 3) Telecommunications Technician is responsible for providing telephone, computer hardware, and data communications equipment support to in-house users and participating in the installation and repair of radio communications systems and equipment. Also, responsible for the day-to-day installation, maintenance, modification, relocation, and updating of radio, voice, and data communications systems and networks, and for installing and repairing computer hardware systems and equipment	3-7 years	Min Bachelor's degree or equivalent experience
Telecommunications Specialist IV	Performs complex (expert) Telecommunications Technician is responsible for providing telephone, computer hardware, and data communications equipment support to in-house users and participating in the installation and repair of radio communications systems and equipment. Also, responsible for the day-to-day installation, maintenance, modification, relocation, and updating of radio, voice, and data communications systems and networks, and for installing and repairing computer hardware systems and equipment	4-12 years	Min Bachelor's degree or equivalent experience
Administrative Support Specialist	Supports client IT administrative areas and has the ability to analyze IT functional areas and put findings in report or presentation formats	2 years	Min Bachelor's degree or equivalent experience
Training Specialist I	Working under general direction, prepares and conducts complex training and education programs for assistive technology users. May design and develop in-house programs. Maintains records of training activities, employee progress, and program effectiveness. Determines training objectives. Writes training programs, including outline, text, handouts, and tests, and designs laboratory exercises. Lectures class on safety, installation, programming, maintenance, and repair of machinery and equipment, following outline, handouts and texts. Relies on limited experience and judgment to plan and accomplish goals. Performs a variety of tasks. Works under general supervision; typically reports to a manager.	1-3 years	Min Bachelor's degree or equivalent experience
Training Specialist II	Directs, supervises and conducts complex training and education programs for information systems or user personnel. Designs and develops in-house programs. Maintains records of training activities, employee progress, and program effectiveness. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. May lead and direct the work of others. May report directly to an executive or head of a unit/department.	up to 4 years	Min Bachelor's degree or equivalent experience

PC Maintenance Technician I	Performs entry level preventive maintenance, troubleshooting, and repair of computer systems and peripheral equipment. Responsible for maintaining an adequate spare parts inventory. May maintain network hardware. May configure Commercial Off-the-Shelf (COTS) software to operate on specific hardware. Supports and maintains user account information including rights, security and systems groups. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. May lead and direct the work of others. Typically reports to a project leader or manager. A certain and/or wide degree of creativity and latitude is expected	0-2 years	Min Bachelor's degree or equivalent experience
PC Maintenance Technician II	Performs mid level preventive maintenance, troubleshooting, and repair of computer systems and peripheral equipment. Responsible for maintaining an adequate spare parts inventory. May maintain network hardware. May configure Commercial Off-the-Shelf (COTS) software to operate on specific hardware. Supports and maintains user account information including rights, security and systems groups. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. May lead and direct the work of others. Typically reports to a project leader or manager. A certain and/or wide degree of creativity and latitude is expected	2-4 years	Min Bachelor's degree or equivalent experience
PC Maintenance Technician III	Performs advanced level preventive maintenance, troubleshooting, and repair of computer systems and peripheral equipment. Responsible for maintaining an adequate spare parts inventory. May maintain network hardware. May configure Commercial Off-the-Shelf (COTS) software to operate on specific hardware. Supports and maintains user account information including rights, security and systems groups. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. May lead and direct the work of others. Typically reports to a project leader or manager. A certain and/or wide degree of creativity and latitude is expected	up to 4 years	Min Bachelor's degree or equivalent experience
Certified IT Specialist I	Manage entry level technical support for all of computing resources and communications systems. This includes performing repair and preventative maintenance on personal computers, laptops, wireless devices, software and other related peripheral devices. The technical specialist coordinates equipment installations and the maintenance of hardware/software inventories on company computers and systems, and troubleshoots software and hardware failures and identifies network problems and provides technical assistance to resolve issues.	3-7 years	Min Bachelor's degree or equivalent experience

Certified IT Specialist II	Manage level II technical support for all of computing resources and communications systems. This includes performing repair and preventative maintenance on personal computers, laptops, wireless devices, software and other related peripheral devices. The technical specialist coordinates equipment installations and the maintenance of hardware/software inventories on company computers and systems, and troubleshoots software and hardware failures and identifies network problems and provides technical assistance to resolve issues.	5 -10 years	Min Bachelor's degree or equivalent experience
Certified IT Specialist III	Manage complex technical support for all of computing resources and communications systems. This includes performing repair and preventative maintenance on personal computers, laptops, wireless devices, software and other related peripheral devices. The technical specialist coordinates equipment installations and the maintenance of hardware/software inventories on company computers and systems, and troubleshoots software and hardware failures and identifies network problems and provides technical assistance to resolve issues.	5-12 years	Min Bachelor's degree or equivalent experience
IT Technician	Experienced in installing, configuration, optimizing, and upgrading workstation operating systems and components. Maintain and troubleshoot computer components and peripherals	2 - 5 years	Min Bachelor's degree or equivalent experience
Programmer Analyst I	Reviews, analyzes, and modifies programming systems including encoding, testing, debugging and documenting programs. Supports client computer application design and performance objectives.	2-4 years	Min Bachelor's degree or equivalent experience
Programmer Analyst II	Reviews, analyzes, and modifies level II programming systems including encoding, testing, debugging and documenting programs. Supports client computer application design and performance objectives.	up to 5 years	Min Bachelor's degree or equivalent experience

Engagement manager	The Engagement Manager is responsible for exceeding client expectations through superior implementation, delivery and management of technology products and solutions. Maintain contact and communication with all project team members and other participants to ensure conformance with requirements of each project(s) and client user expectations. Implement strong program management practices (change requests, issue management, risk management and decision tracking) and contribute to standard client implementation methodologies and management best practices. Assist sales team during opportunity assessment and proposal phases of the service delivery process, particularly as it relates to deployment approach, timeline and deliverables.	4-8 years	Min Bachelor's degree or equivalent experience
Technical Account Manager	Will be able to work on both strategic long term and short term plans and projects. You will need to build strong relationships with clients on various levels as well as acquire thorough knowledge about their business. Will be able to present technical solutions to non-technical people as well as developers.	3-7 years	Min Bachelor's degree or equivalent experience
Problem Resolution Support	Our support engineers will aim to resolve your issue to the best of their knowledge and abilities in the shortest time possible. In case your problem cannot be dealt with immediately, the incident will be escalated to the Development department. With the help of our R&D Professionals, we will try to provide you with in-depth knowledge and first-hand information to resolve your problem. f the issue you have identified is acknowledged as a defect in one of our products, the support engineer will try to provide you either with a work-around, or with a correction. Should no solution exist, we will try to provide you with a hotfix whenever feasible and economically reasonable.	3-10 years	Min Bachelor's degree or equivalent experience
Human Resources Systems Specialist	Develops and applies various techniques to human resources including old fashion paperwork techniques as well as developing various computer programs or processes personnel information, match job seekers with job openings, and handle other personnel matters. Also could involve developing Intranets, cooperating on the recruiting aspects of the company's website, developing organization weblogs (or blogs), developing online data bases of employee information, developing online searchable data bases of applicant resumes, training staff, training record maintenance, and any other aspect of human resources requiring information storage or computer software, hardware, and desktop support	3-7 years	Min Bachelor's degree or equivalent experience

Wiring & Cable Technician	Plans, monitors, and tests the installation of cable. Tests all newly installed cable to ensure proper functioning. Maintains current, accurate diagrams of the network cable plant. Troubleshoots cable problems. Makes custom patch cables to replace unusable cable and for special requirements. Maintains compliance with all applicable building and fire code regulations.	up to 2 years	Min Bachelor's degree or equivalent experience
IT Facilities Cleaning Services	Computer room cleaning and maintenance	1-4 years	Min Bachelor's degree or equivalent experience
Supply Chain System Specialist	This individual will be responsible for service parts planning, service parts purchasing, distribution and warehousing, reverse logistics, repair and recovery operations, follow up activities, and entry level workflow preparation. Forecast material requirements and integrate company needs with supplier's lead times to develop purchasing schedule, assists Supply Chain team with weekly and monthly inventory of all direct materials, report results and any discrepancies to Finance and alert management on inventory status of high volume items, supports strategic and tactical sourcing activities including soliciting proposals and supplier selections.	3-7 years	Min Bachelor's degree or equivalent experience
Finance Systems Specialist	Will communicate with customers to coordinate completion and receipt of financial documents and provide information on application status; strive to resolve finance holds within established timeframes. Will be involved in Maintaining consumer finance related data in various computer financial programs, use excellent follow up and communication skills to finalize finance activities.	3-8 years	Min Bachelor's degree or equivalent experience
Disaster Recovery Planning Specialist	Will serve as a senior leader on planning the Disaster Recovery. Will support this team supports. The DR Planning Specialist is a broad technologist who has the understanding of many different technology platforms and can plan the basic technical concepts to multiple scenarios. Understand core concepts and methodologies of Disaster Recovery, including replication types, and be able to speak intelligently to technical designs as well as spot potential issues. Responsible for planning, organizing, scheduling, follow up, problem resolution and status reporting on global Disaster Recovery Testing and Infrastructure projects, to ensure that each is completed on time and within budget, and that the deliverables meet business and technical requirements and other similar tasks.	5-10 years	Min Bachelor's degree or equivalent experience

Disaster Recovery Specialist	The Disaster Recovery Specialist will serve as a senior leader on the Disaster Recovery team. This team supports both the DR and High Availability (HA) Programs. The DR Specialist should be a broad technologist who has the understanding of many different technology platforms and can apply basic technical concepts to multiple scenarios. They should understand core concepts and methodologies of Disaster Recovery, including replication types, and be able to speak intelligently to technical designs as well as spot potential issues. The Specialist will be responsible for planning, organizing, scheduling, follow up, problem resolution and status reporting on global Disaster Recovery Testing and Infrastructure projects, to ensure that each is completed on time and within budget, and that the deliverables meet business and technical requirements and various other similar aspects.	5-10 years	Min Bachelor's degree or equivalent experience
Database Administrator I	Maintains, administers and deploys software databases. May also be a junior-level designer and developer of software databases and related master files.	5-10 yeas	Min Bachelor's degree or equivalent experience
Database Administrator II (Mid level)	Advanced Level task in database, responsible for the performance, integrity and security of a database. They will also be involved in the planning and development of the database as well as troubleshooting any issues on behalf of the users.	3-9 years	Min Bachelor's degree or equivalent experience
Mid-Advanced level SQL/ DBA	Mid to advanced level database administrator who implement, maintains, administers and deploys software databases. May also be a mid -level designer and developer of software databases and related master files. Could be involved with SQL database programming.	4-9 years	Min Bachelor's degree or equivalent experience
Document Management Systems Specialist	Write, review, or execute plans for testing new or established document management systems. Analyze, interpret, or disseminate system performance data. Search electronic sources, such as databases or repositories, or manual sources for information. Operate data capture technology to import digitized documents into document management system. Propose recommendations for improving content management system capabilities. Document technical functions and specifications for new or proposed content management systems.	3-5 years	Min Bachelor's degree or equivalent experience

PL/SQL Developer, (Application & DB)	SQL programmers must stay up to date on the latest trends in SQL servers and code. Expertise in developing websites and software and have well-rounded knowledge of programming languages. Database architecture, data modeling, design and development in Oracle technologies. Work on application development projects as well as enhancements and maintenance of existing applications. Technical design and development using a combination of Oracle, PL/SQL Developer, and SQL Server	4-8 years	Min Bachelor's degree or equivalent experience
Java Developers	Defines site objectives by analyzing user requirements; envisioning system features and functionality. Designs and develops user interfaces to internet/intranet applications by setting expectations and features priorities throughout development life cycle; determining design methodologies and tool sets; completing programming using languages and software products; designing and conducting tests. Establishing connectivity with network systems, search engines, and information servers. Creates multimedia applications by using authoring tools. Supports users by developing documentation and assistance tools. Updates job knowledge by researching new internet/intranet technologies and software products; participating in educational opportunities; reading professional publications; maintaining personal networks; participating in professional organizations.	3-7 years	Min Bachelor's degree or equivalent experience
Requirements Analyst	Gathers information from then client and stakeholder as well as development team And draw conclusions based on what then client wants. Develop appropriate specification for the project and present specification to client	2-5 years	Min Bachelor's degree or equivalent experience
Unix System Admin	Provides hardware and software maintenance, including required change management and system documentation practices. Installs, tests and upgrades systems. Develops technical disaster recovery plans and participates in testing. Designs, tests and implements system security. Complete understanding and wide application of technical standards, principles, theories, concepts and techniques in UNIX. General knowledge of other related disciplines.	3-7 years	Min Bachelor's degree or equivalent experience
Auditor	Individuals with expertise in various auditing skills including finance and accounting knowledge; may also need technical and engineering skills for various technical audits expertise in accuracy.	3-7 years	Min Bachelor's degree or equivalent experience

Labor Rates for SIN 132-51

Working on trouble tickets, help desks, training, ticket escalations. May assist with any and all help desk functions, end user desktop functions, software and maintenance troubleshooting, etc.	$59.99	132-51	0	STND	US
Help Desk Support Specialist II	Help Desk Support Specialist II	Performs help desk assignments including working directly with users either on the phone or in person on all their Desktop and IT needs. Working on trouble tickets, help desks, training, ticket escalations. May assist with any and all help desk functions, end user desktop functions, software and maintenance troubleshooting, etc.	$52.16	132-51	0	STND	US
Help Desk Support Specialist Jr	Help Desk Support Specialist Jr	Performs simple (level 1) help desk assignments including working directly with users either on the phone or in person on all their Desktop and IT needs. Working on trouble tickets, help desks, training, ticket escalations. May assist with any and all help desk functions, end user desktop functions, software and maintenance troubleshooting, etc.	$45.36	132-51	0	STND	US
Low Voltage Cable Specialist	Low Voltage Cable Specialist	Expert in installing and testing Low Voltage cable such as: CCTV, Fire Alarm, Sound, AV, and Network cables. Responsible for installing pathway systems and terminate blocks	$55.41	132-51	0	STND	US
Cable Management Specialist	Cable Management Specialist	Organize computer data cabling, structured cabling, LAN cabling in various Data Centers and LAN closets	$39.29	132-51	0	STND	US
IT Design Specialist	IT Design Specialist	Senior level software architect for standalone, client/server and web-based software applications.	$79.59	132-51	0	STND	US
Quality Assurance Specialist	Quality Assurance Specialist	Responsible for creating test plans, inspecting software, uncovering and documenting software defects.	$59.44	132-51	0	STND	US
Programmer/Database Programmer	Programmer/Database Programmer	Prepares specifications, system designs, software code, tests, debugs, and documents software programs	$64.48	132-51	0	STND	US
Systems Programmer I	Systems Programmer I	Participates in level I design and implementation of key components of the IT infrastructure including the data/wireless network, the corporate enterprise directory or the distributed systems/servers. Resolves problems impacting the availability of the corporate enterprise directory, remote access, or the distributed systems/servers. Interfaces directly with vendor technical support under the direction of a manager. Participates in the implementation of technology upgrades under the direction of a manager. Provides consulting services relating to vendor software and interfaces, makes suggestions for improvement and participates in the implementation of recommended changes. Provides technical consulting to project teams on issues relating to directory services, software distribution, remote access and distributed systems/servers platforms. Maintains documentation and operational procedures for the corporate enterprise directory, and distributed systems/servers. Monitors and supports key components of the IT infrastructure to ensure effective delivery of critical business applications.	$78.59	132-51	0	STND	US

Systems Programmer II	Systems Programmer II	Participates in level II design and implementation of key components of the IT infrastructure including the data/wireless network, the corporate enterprise directory or the distributed systems/servers. Resolves problems impacting the availability of the corporate enterprise directory, remote access, or the distributed systems/servers. Interfaces directly with vendor technical support under the direction of a manager. Participates in the implementation of technology upgrades under the direction of a manager. Provides consulting services relating to vendor software and interfaces, makes suggestions for improvement and participates in the implementation of recommended changes. Provides technical consulting to project teams on issues relating to directory services, software distribution, remote access and distributed systems/servers platforms. Maintains documentation and operational procedures for the corporate enterprise directory, and distributed systems/servers. Monitors and supports key components of the IT infrastructure to ensure effective delivery of critical business applications.	$120.65	132-51	0	STND	US
Systems Programmer III	Systems Programmer III	Participates in level III design and implementation of key components of the IT infrastructure including the data/wireless network, the corporate enterprise directory or the distributed systems/servers. Resolves problems impacting the availability of the corporate enterprise directory, remote access, or the distributed systems/servers. Interfaces directly with vendor technical support under the direction of a manager. Participates in the implementation of technology upgrades under the direction of a manager. Provides consulting services relating to vendor software and interfaces, makes suggestions for improvement and participates in the implementation of recommended changes. Provides technical consulting to project teams on issues relating to directory services, software distribution, remote access and distributed systems/servers platforms. Maintains documentation and operational procedures for the corporate enterprise directory, and distributed systems/servers. Monitors and supports key components of the IT infrastructure to ensure effective delivery of critical business applications	$160.19	132-51	0	STND	US
Web Application Developer	Web Application Developer	Designs, creates software, debugs, deploys and implements internal and external web pages and applications.	$59.44	132-51	0	STND	US
Graphics Designer	Graphics Designer	Produces visual designs for use in standalone, client/server and web-based software applications. Tasks could range from design a mouse click button to an entire application.	$45.34	132-51	0	STND	US
Telecommunications Specialists Sr	Telecommunications Specialists Sr	Performs complex Telecommunications Technician is responsible for providing telephone, computer hardware, and data communications equipment support to in-house users and participating in the installation and repair of radio communications systems and equipment. Also, responsible for the day-to-day installation, maintenance, modification, relocation, and updating of radio, voice, and data communications systems and networks, and for installing and repairing computer hardware systems and equipment.	$104.92	132-51	0	STND	US

Telecommunications Specialists II	Telecommunications Specialists II	Performs mid level 2 Telecommunications Technician is responsible for providing telephone, computer hardware, and data communications equipment support to in-house users and participating in the installation and repair of radio communications systems and equipment. Also, responsible for the day-to-day installation, maintenance, modification, relocation, and updating of radio, voice, and data communications systems and networks, and for installing and repairing computer hardware systems and equipment.	$91.23	132-51	0	STND	US
Telecommunications Specialists Jr	Telecommunications Specialists Jr	Performs simple Telecommunications Technician is responsible for providing telephone, computer hardware, and data communications equipment support to in-house users and participating in the installation and repair of radio communications systems and equipment. Also, responsible for the day-to-day installation, maintenance, modification, relocation, and updating of radio, voice, and data communications systems and networks, and for installing and repairing computer hardware systems and equipment.	$79.33	132-51	0	STND	US
Subject Matter Expert I	Subject Matter Expert I	Provides expert consultative support to a functional technical area of the project. Develops solutions to complex problems. Works closely with the information technologists to identify the best technological solution to technical issues. Provides consulting to director and senior managers on information technology strategies. Develops, leads, and conducts quality workshops, benchmarking, and surveys. Facilitates process improvement efforts. Manages a project team	$105.79	132-51	0	STND	US
System Integrator	System Integrator	Build and configure Computer Systems and packages to be good at matching customers' needs with existing products. Understands how to operate a system or a graphic user interface. Will is normally a generalist, knowing a little bit about a large number of products. Systems integration includes a substantial amount of diagnostic and troubleshooting work. The ability to research existing products and software components is also helpful. Creation of these information systems may include designing or building a customized architecture or application, integrating it with new or existing hardware, packaged and custom software, and communications infrastructure. Knowledge may include some basic knowledge on some of the desktop, laptop and even some larger, Enterprise System integrators – gateway, Toshiba, Fujitsu, HP, Cisco, Unisys, IBM, Oracle, etc.	$65.49	132-51	0	STND	US
Hardware/Software Specialist I	Hardware/Software Specialist I	Plans and supports the hardware and software goals and objectives of any private or Government agency. Plans and designs hardware and software configurations. Supplies technical advice and counsel to other professionals or other Government agency management, as required. Work is performed under supervision of a senior or project leader. Carries out assignments associated with projects and translates guidance receive from leader into usable data applicable to the particular assignment. Work assignments are varied and require some originality and ingenuity	$60.45	132-51	0	STND	US

Hardware/Software Specialist II	Hardware/Software Specialist II	Plans and supports the hardware and software goals and objectives of any private or Government agency. Plans and designs hardware and software configurations. Supplies technical advice and counsel to other professionals or other Government agency management, as required. Acts independently or under general direction. Plans and conducts projects in the intermediate to difficult range which requires substantial relate knowledge.	$72.54	132-51	0	STND	US
Hardware/Software Specialist III	Hardware/Software Specialist III	Plans and supports level III the hardware and software goals and objectives of any Government agency. Plans and designs hardware and software configurations. Supplies technical advice and counsel to other professionals or other Government agency management, as required. Operates with a wide latitude of unreviewed action. Plans, conducts and supervises projects of major significance which need advanced related knowledge.	$84.63	132-51	0	STND	US
Telecommunications Specialist I	Telecommunications Specialist I	Performs simple (level 1) Telecommunications Technician is responsible for providing telephone, computer hardware, and data communications equipment support to in-house users and participating in the installation and repair of radio communications systems and equipment. Also, responsible for the day-to-day installation, maintenance, modification, relocation, and updating of radio, voice, and data communications systems and networks, and for installing and repairing computer hardware systems and equipment	$78.59	132-51	0	STND	US
Telecommunications Specialist II	Telecommunications Specialist II	Performs mid (level 2) level Telecommunications Technician is responsible for providing telephone, computer hardware, and data communications equipment support to in-house users and participating in the installation and repair of radio communications systems and equipment. Also, responsible for the day-to-day installation, maintenance, modification, relocation, and updating of radio, voice, and data communications systems and networks, and for installing and repairing computer hardware systems and equipment	$90.68	132-51	0	STND	US
Telecommunications Specialist III	Telecommunications Specialist III	Performs complex (level 3) Telecommunications Technician is responsible for providing telephone, computer hardware, and data communications equipment support to in-house users and participating in the installation and repair of radio communications systems and equipment. Also, responsible for the day-to-day installation, maintenance, modification, relocation, and updating of radio, voice, and data communications systems and networks, and for installing and repairing computer hardware systems and equipment	$104.78	132-51	0	STND	US
Telecommunications Specialist IV	Telecommunications Specialist IV	Performs complex (expert) Telecommunications Technician is responsible for providing telephone, computer hardware, and data communications equipment support to in-house users and participating in the installation and repair of radio communications systems and equipment. Also, responsible for the day-to-day installation, maintenance, modification, relocation, and updating of radio, voice, and data communications systems and networks, and for installing and repairing computer hardware systems and equipment	$119.89	132-51	0	STND	US
Administrative Support Specialist	Administrative Support Specialist	Supports client IT administrative areas and has the ability to analyze IT functional areas and put findings in report or presentation formats	$54.41	132-51	0	STND	US

Training Specialist I	Training Specialist I	Working under general direction, prepares and conducts complex training and education programs for assistive technology users. May design and develop in-house programs. Maintains records of training activities, employee progress, and program effectiveness. Determines training objectives. Writes training programs, including outline, text, handouts, and tests, and designs laboratory exercises. Lectures class on safety, installation, programming, maintenance, and repair of machinery and equipment, following outline, handouts and texts. Relies on limited experience and judgment to plan and accomplish goals. Performs a variety of tasks. Works under general supervision; typically reports to a manager.	$125.94	132-51	0	STND	US
Training Specialist II	Training Specialist II	Directs, supervises and conducts complex training and education programs for information systems or user personnel. Designs and develops in-house programs. Maintains records of training activities, employee progress, and program effectiveness. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. May lead and direct the work of others. May report directly to an executive or head of a unit/department.	$140.04	132-51	0	STND	US
PC Maintenance Technician I	PC Maintenance Technician I	Performs entry level preventive maintenance, troubleshooting, and repair of computer systems and peripheral equipment. Responsible for maintaining an adequate spare parts inventory. May maintain network hardware. May configure Commercial Off-the-Shelf (COTS) software to operate on specific hardware. Supports and maintains user account information including rights, security and systems groups. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. May lead and direct the work of others. Typically reports to a project leader or manager. A certain and/or wide degree of creativity and latitude is expected	$55.41	132-51	0	STND	US
PC Maintenance Technician II	PC Maintenance Technician II	Performs mid level preventive maintenance, troubleshooting, and repair of computer systems and peripheral equipment. Responsible for maintaining an adequate spare parts inventory. May maintain network hardware. May configure Commercial Off-the-Shelf (COTS) software to operate on specific hardware. Supports and maintains user account information including rights, security and systems groups. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. May lead and direct the work of others. Typically reports to a project leader or manager. A certain and/or wide degree of creativity and latitude is expected	$65.49	132-51	0	STND	US
PC Maintenance Technician III	PC Maintenance Technician III	Performs advanced level preventive maintenance, troubleshooting, and repair of computer systems and peripheral equipment. Responsible for maintaining an adequate spare parts inventory. May maintain network hardware. May configure Commercial Off-the-Shelf (COTS) software to operate on specific hardware. Supports and maintains user account information including rights, security and systems groups. Relies on experience and judgment to plan and accomplish goals. Performs a variety of complicated tasks. May lead and direct the work of others. Typically reports to a project leader or manager. A certain and/or wide degree of creativity and latitude is expected	$75.56	132-51	0	STND	US

Certified IT Specialist I	Certified IT Specialist I	Manage entry level technical support for all of computing resources and communications systems. This includes performing repair and preventative maintenance on personal computers, laptops, wireless devices, software and other related peripheral devices. The technical specialist coordinates equipment installations and the maintenance of hardware/software inventories on company computers and systems, and troubleshoots software and hardware failures and identifies network problems and provides technical assistance to resolve issues.	$119.89	132-51	0	STND	US
Certified IT Specialist II	Certified IT Specialist II	Manage level II technical support for all of computing resources and communications systems. This includes performing repair and preventative maintenance on personal computers, laptops, wireless devices, software and other related peripheral devices. The technical specialist coordinates equipment installations and the maintenance of hardware/software inventories on company computers and systems, and troubleshoots software and hardware failures and identifies network problems and provides technical assistance to resolve issues.	$138.03	132-51	0	STND	US
Certified IT Specialist III	Certified IT Specialist III	Manage complex technical support for all of computing resources and communications systems. This includes performing repair and preventative maintenance on personal computers, laptops, wireless devices, software and other related peripheral devices. The technical specialist coordinates equipment installations and the maintenance of hardware/software inventories on company computers and systems, and troubleshoots software and hardware failures and identifies network problems and provides technical assistance to resolve issues.	$159.19	132-51	0	STND	US
IT Technician	IT Technician	Experienced in installing, configuration, optimizing, and upgrading workstation operating systems and components. Maintain and troubleshoot computer components and peripherals	$59.44	132-51	0	STND	US
Programmer Analyst I	Programmer Analyst I	Reviews, analyzes, and modifies programming systems including encoding, testing, debugging and documenting programs. Supports client computer application design and performance objectives.	$94.71	132-51	0	STND	US
Programmer Analyst II	Programmer Analyst II	Reviews, analyzes, and modifies programming systems including encoding, testing, debugging and documenting programs. Supports client computer application design and performance objectives.	$144.07	132-51	0	STND	US
Engagement manager	Engagement manager	The Engagement Manager is responsible for exceeding client expectations through superior implementation, delivery and management of technology products and solutions. Maintain contact and communication with all project team members and other participants to ensure conformance with requirements of each project(s) and client user expectations. Implement strong program management practices (change requests, issue management, risk management and decision tracking) and contribute to standard client implementation methodologies and management best practices. Assist sales team during opportunity assessment and proposal phases of the service delivery process, particularly as it relates to deployment approach, timeline and deliverables.	$69.52	132-51	0	STND	US
Technical Account Manager	Technical Account Manager	Will be able to work on both strategic long term and short term plans and projects. You will need to build strong relationships with clients on various levels as well as acquire thorough knowledge about their business. Will be able to present technical solutions to non-technical people as well as developers.	$79.59	132-51	0	STND	US

Problem Resolution Support	Problem Resolution Support	Our support engineers will aim to resolve your issue to the best of their knowledge and abilites in the shortes time possible. In case your problem cannot be dealt with immediately, the incident will be escalated to the Development department. With the help of our R&D Professionals, we will try to provide you with in-depth knowledge and first-hand information to resolve your problem. f the issue you have identified is acknowledged as a defect in one of our products, the support engineer will try to provide you either with a work-around, or with a correction. Should no solution exist, we will try to provide you with a hotfix whenever feasible and economically reasonable.	$150.12	132-51	0	STND	US
Human Resources Systems Specialist	Human Resources Systems Specialist	Develops and applies various techniques to human resources including old fashion paperwork techniques as well as developing various computer programs or processes personnel information, match job seekers with job openings, and handle other personnel matters. Also could involve developing Intranets, cooperating on the recruiting aspects of the company's website, developing organization weblogs (or blogs), developing online data bases of employee information, developing online searchable data bases of applicant resumes, training staff, training record maintenance, and any other aspect of human resources requiring information storage or computer software, hardware, and desktop support	$65.49	132-51	0	STND	US
Audio/Visual Technician	Audio/Visual Technician	Operates audio/visual equipment	$59.44	132-51	0	STND	US
Wiring & Cable Technician	Wiring & Cable Technician	Plans, monitors, and tests the installation of cable. Tests all newly installed cable to ensure proper functioning. Maintains current, accurate diagrams of the network cable plant. Troubleshoots cable problems. Makes custom patch cables to replace unusable cable and for special requirements. Maintains compliance with all applicable building and fire code regulations.	$54.41	132-51	0	STND	US
IT Facilities Cleaning Services	IT Facilities Cleaning Services	Computer room cleaning and maintenance	$44.33	132-51	0	STND	US
Supply Chain System Specialist	Supply Chain System Specialist	This individual will be responsible for service parts planning, service parts purchasing, distribution and warehousing, reverse logistics, repair and recovery operations, follow up activities, and entry level workflow preparation. Forecast material requirements and integrate company needs with supplier's lead times to develop purchasing schedule, assists Supply Chain team with weekly and monthly inventory of all direct materials, report results and any discrepancies to Finance and alert management on inventory status of high volume items, supports strategic and tactical sourcing activities including soliciting proposals and supplier selections.	$75.56	132-51	0	STND	US
Finance Systems Specialist	Finance Systems Specialist	Will communicate with customers to coordinate completion and receipt of financial documents and provide information on application status; strive to resolve finance holds within established timeframes. Will be involved in Maintaining consumer finance related data in various computer financial programs, use excellent follow up and communication skills to finalize finance activities.	$68.51	132-51	0	STND	US

Disaster Recovery Planning Specialist	Disaster Recovery Planning Specialist	Will serve as a senior leader on planning the Disaster Recovery. Will support this team supports. The DR Planning Specialist is a broad technologist who has the understanding of many different technology platforms and can plan the basic technical concepts to multiple scenarios. Understand core concepts and methodologies of Disaster Recovery, including replication types, and be able to speak intelligently to technical designs as well as spot potential issues. Responsible for planning, organizing, scheduling, follow up, problem resolution and status reporting on global Disaster Recovery Testing and Infrastructure projects, to ensure that each is completed on time and within budget, and that the deliverables meet business and technical requirements and other similar tasks.	$159.19	132-51	0	STND	US
Disaster Recovery Specialist	Disaster Recovery Specialist	The Disaster Recovery Specialist will serve as a senior leader on the Disaster Recovery team. This team supports both the DR and High Availability (HA) Programs. The DR Specialist should be a broad technologist who has the understanding of many different technology platforms and can apply basic technical concepts to multiple scenarios. They should understand core concepts and methodologies of Disaster Recovery, including replication types, and be able to speak intelligently to technical designs as well as spot potential issues. The Specialist will be responsible for planning, organizing, scheduling, follow up, problem resolution and status reporting on global Disaster Recovery Testing and Infrastructure projects, to ensure that each is completed on time and within budget, and that the deliverables meet business and technical requirements and various other similar aspects.	$200.49	132-51	0	STND	US
Database Administrator I	Database Administrator I	Maintains, administers and deploys software databases. May also be a junior-level designer and developer of software databases and related master files.	$69.52	132-51	0	STND	US
Database Administrator II (Mid level)	Database Administrator II (Mid level)	Advanced Level task in database, responsible for the performance, integrity and security of a database. They will also be involved in the planning and development of the database as well as troubleshooting any issues on behalf of the users.	$79.59	132-51	0	STND	US
Mid-Advanced level SQL/ DBA	Mid-Advanced level SQL/ DBA	Mid to advanced level database administrator who implement, maintains, administers and deploys software databases. May also be a mid -level designer and developer of software databases and related master files. Could be involved with SQL database programming.	$89.67	132-51	0	STND	US
Document Management Systems Specialist	Document Management Systems Specialist	Write, review, or execute plans for testing new or established document management systems. Analyze, interpret, or disseminate system performance data. Search electronic sources, such as databases or repositories, or manual sources for information. Operate data capture technology to import digitized documents into document management system. Propose recommendations for improving content management system capabilities. Document technical functions and specifications for new or proposed content management systems.	$59.44	132-51	0	STND	US

PL/SQL Developer, (Application & DB)	PL/SQL Developer, (Application & DB)	SQL programmers must stay up to date on the latest trends in SQL servers and code. Expertise in developing websites and software and have well-rounded knowledge of programming languages. Database architecture, data modeling, design and development in Oracle technologies. Work on application development projects as well as enhancements and maintenance of existing applications. Technical design and development using a combination of Oracle, PL/SQL Developer, and SQL Server	$78.59	132-51	0	STND	US
Java Developers	Java Developers	Defines site objectives by analyzing user requirements; envisioning system features and functionality. Designs and develops user interfaces to internet/intranet applications by setting expectations and features priorities throughout development life cycle; determining design methodologies and tool sets; completing programming using languages and software products; designing and conducting tests. Establishing connectivity with network systems, search engines, and information servers.Creates multimedia applications by using authoring tools.Supports users by developing documentation and assistance tools. Updates job knowledge by researching new internet/intranet technologies and software products; participating in educational opportunities; reading professional publications; maintaining personal networks; participating in professional organizations.	$69.52	132-51	0	STND	US
Requirements Analyst	Requirements Analyst	Gathers information from then client and stakeholder as well as development team	$59.44	132-51	0	STND	US
Unix System Admin	Unix System Admin	Provides hardware and software maintenance, including required change management and system documentation practices. Installs, tests and upgrades systems. Develops technical disaster recovery plans and participates in testing. Designs, tests and implements system security. Complete understanding and wide application of technical standards, principles, theories, concepts and techniques in UNIX. General knowledge of other related disciplines.	$69.52	132-51	0	STND	US
Auditor	Auditor	Individuals with expertise in various auditing skills including finance and accounting, knowledge, may also need technical and engineering skills for various technical audits expertise in in accuracy.	$64.48	132-51	0	STND	US
11177	CABLE 2 GO	3M SMF CBL LC-LC TAA DUPLX 9/125	$35.66	132-8	0	STND	US
