

Facilities Maintenance and Hardware

Multiple Award

Variable Contract Periods
5 Years from Date of Award

Federal Supply Schedule

51V

Cumulative Edition
October, 2004

GSA *Center for Facility Maintenance and Hardware*

The General Services Administration (GSA) Center for Facility Maintenance and Hardware supports worldwide US Government requirements for industrial quality hand tools; office and household appliances; paints and paint brushes; sealants; adhesives; lawn and garden equipment; woodworking and metalworking equipment and machinery; parts; accessories, and services.

Ordering products through GSA just got easier. Multiple Award Schedule contracts are your best approach to hassle-free purchases. A Multiple Award Schedule is a listing of contractors that have been awarded a contract by GSA that can be used by all Federal agencies in purchasing supplies and services. A Multiple Award Schedule provides you with a large selection of items and the flexibility necessary to select the best value item that meets your needs.

GSA's Center for Facility Maintenance and Hardware has combined all of our product line Schedules into one Schedule, number 51 V. Here is the hard copy of the Schedule, but for the

latest information, visit the Schedules E-Library Website at www.gsa.gov/elibrary. GSA awards competitive contracts to those companies who give us the same or better discounts than their best customers, and we pass those discounts on to you. GSA has entered into Government-wide contracts with commercial firms to provide state-of-the-art, high quality commercial products and services.

The benefits of using the Multiple Award Schedule program are numerous.

- **BEST PRICING AND SIMPLIFIED ORDERING**
- **BLANKET PURCHASE AGREEMENTS (BPAs)**
- **TEAMING ARRANGEMENTS**

BEST PRICING AND SIMPLIFIED ORDERING

GSA has already determined the prices to be fair and reasonable. You can use your own discretion in selecting the supplies you need. Simplified ordering procedures, such as ordering directly from the manufacturer, allow you to reduce paperwork and cut through red tape.

BLANKET PURCHASE AGREEMENTS (BPAs)

The use of BPAs under Multiple Award Schedules is permitted. Let's look at the benefits of this arrangement:

Multiple Award Schedule contractors join together to provide a solution to meet your needs. Contractors form these arrangements, at their discretion, when the result of their efforts produces the best solution for an agency's requirement. You would then make a best value selection.

Additional benefits to you from using Multiple Award Schedules include:

- *Competition:* All competition requirements have been met
- *Hassle-Free Volume Purchase Prices:* We've negotiated the discounts for you

ordering *information*

- BPAs are a way to fill recurring needs while taking advantage of quantity discounts, saving administrative time and reducing paperwork.
- For large BPAs, you are empowered and encouraged to seek further price reductions.
- With a BPA, you can order as much as you want, as little as you want and as often as you want. Your flexibility and advantages are endless!
- Teaming Arrangements may be incorporated into your BPA!

TEAMING ARRANGEMENTS

Contractor Team Arrangements are another excellent source of quality service. Team Arrangements are created when two or more

- *Expedited Delivery:* Many items can be delivered overnight or within two days (CONUS)
- *Easy Payment Options:* Contractors accept the GSA SmartPay purchase card
- *No Commerce Business Daily (CBD) Synopsis Requirements:* GSA has already issued the synopsis
- *Price Reductions:* You can request price reductions from our discounted prices
- *No Order Limitations:* You can place an order for any dollar amount
- Access to state-of-the-art technology and quality services and products
- Compliance with environmental requirements for applicable services and products

PRODUCTS

Orders under \$2500

Place order directly with contractor for the item that best meets your needs.

Orders over \$2500

To ensure a "Best Value" determination is made, as required by FAR 8.404: Review GSA's electronic ordering system, *GSA Advantage!*[™] at www.gsaAdvantage.gov or review three Schedule price lists.

Orders over the Maximum Order Threshold:

Each Schedule contract has a maximum order threshold. In addition to following the ordering procedures for orders above \$2500, customers shall:

- Review price information on *GSA Advantage!*[™] or review additional Schedule contractors' price lists.
- Request price reductions from Schedule contractor(s) appearing to provide a best value.
- Place the order with the Schedule contractor providing the best value.

You can now access Federal Supply Schedule contract award information on line at www.gsa.gov/elibrary

Our Customer Service Team is always ready to assist you with any questions or concerns you may have.

Please call us at (816)-926-6760; DSN 465-6760 or HSSMarketing@gsa.gov

When determining what is a “best value,” you may consider the following:

- Special features of the product/services that are being offered but not provided by a comparable product/service
- Trade-in considerations
- Probable life of the item selected compared to that of a comparable item
- Warranty considerations
- Maintenance availability
- Past performance
- Environmental and energy efficiency considerations

When ordering through GSA using a DD Form 1348, SF 344 or DD Form 1348-6, specific guidelines MUST BE FOLLOWED.

For complete information on using this form please visit the DOD website at: <http://www.dla.mil/j-6/dlms/eLibrary/Manuals/MILSTRIP/Reissue2004/html/0011-Chap-02.htm>.

In accordance with Paragraph C2.1.2 of the manual, these forms may only be used when:

C2.1.2.1 Facilities are not available to the requisitioning activity to enable electrical transmission of documents in data pattern format, formatted teletype messages, or when computer-readable machine-sensible facilities are not available to the requisitioning activity.

C2.1.2.2 The requisition coding structure does not provide sufficient data to assist the supply source in making supply decisions. Use of exception data will cause delays in supply of materiel since each document containing such data must be withdrawn from routine processing, reviewed for the exception and continued in process after a decision has been made as a result of the review. Activities should not attempt to use exception data as a normal method for requisitioning materiel requirements. Limitations on the use of exception data are outlined in paragraph C2.2.

C2.1.8 Under exception circumstances, requisitions may be prepared on DD Form 1348 or 1348m, and read to the appropriate supply source by telephone in exact record position alignment. When requisitions are relayed by telephone, confirmation copies are not required and will not be forwarded.

DOCUMENTATION

Minimum documentation is generally all that is required (e.g., contractor's name, item purchased and price paid). Additional documentation is necessary when the requirement is defined to a particular brand name and only for orders exceeding the micro-purchase threshold (see FAR 8.404(b)(7)).

GSA ADVANTAGE!™ WWW.GSAADVANTAGE.GOV

This on-line electronic ordering system allows customers to search for products, review delivery options and place orders.

HOW TO ACCESS GSA ADVANTAGE!™

- You must be able to connect to the Internet.
- You must have access to web browser (i.e., Netscape, Internet Explorer).
- Use your web browser to connect to GSA Advantage!™ at www.gsaAdvantage.gov

CONTRACTOR AWARD INFORMATION

www.gsa.gov/elibrary

For a listing of the very latest contract award information, go to the website above. You can search the E-Library by SIN, Contractor, Contract Number, Schedule Number or by a key word. When you get to the Schedule you want, you'll see the list of SINs and the Contractors listed below each SIN. When the Contractor's Internet address is available, it will be shown and you can use it to link to their Website.

The e-mail address, if available, will enable you to e-mail the Contractor for price lists or any other contract information.

Consult the contractor's catalog/price list for more detailed ordering information, such as:

PUBLICIZING CONTRACT ACTIONS

The Federal Supply Schedules have been synopsised in the Commerce Business Daily and satisfy the requirements of the Competition in Contracting Act (Pub. Law 98-369) and FAR Part 5, Publicizing Contract Action.

SMALL BUSINESS PARTICIPATION

The General Services Administration and the Small Business Administration strongly support the participation of small business concerns in the Federal Supply Schedules Program. To enhance small business participation, SBA policy requires agencies to include in their procurement base and goals, the dollar value of orders expected to be placed against the Federal Supply Schedules, and to report accomplishments against these goals. See the following address for guidance on goal setting and goal submittal via the Internet at www.sba.gov/GC/goals

For orders exceeding the micro-purchase threshold, FAR 8.404 requires agencies to consider the catalogs/ price lists of at least three Schedule contractors or to consider reasonably available information by using the GSA *Advantage!*[™] on-line shopping service at www.gsaAdvantage.gov

The catalogs/price lists and GSA *Advantage!*[™] and the Federal Supply Service home page listed above contain information on a broad array of products and services offered by small business contractors.

This information should be used as a tool to assist ordering activities in meeting or exceeding established small business goals. It should also be used as a tool to assist in including small, small disadvantaged, and women-owned small businesses among those considered when selecting price lists for a best value determination.

For orders exceeding the micro-purchase threshold, customers are to give preference to small business concerns when two or more items at the same delivered price will satisfy their requirement.

JWOD (NIB/NISH) PRODUCTS

The Javits-Wagner-O'Day (JWOD) Program (NIB/NISH) provides many products to Federal customers under its mandatory source authority. Before making any open market purchase from a Schedule contractor, ordering agencies should determine if there is a comparable JWOD (NIB/NISH) product.

Please call or e-mail a JWOD representative at the following numbers to check if there is an appropriate product manufactured by people who are blind or have other severe disabilities.

(703) 603-7743 (ext. 112) or (703) 603-7750 (ext. 118)
info@jwod.gov

UNICOR PRODUCTS

UNICOR (Federal Prison Industries, Inc.) provides items that may be similar to some of the items in this Schedule. Prior to making a purchase from the Schedule, ordering agencies should check with UNICOR to see if UNICOR's product meets their specific need. For your convenience, this check can be made quickly by calling the UNICOR Customer Service Group at **(800) 827-3168**.

CONTRACTOR TEAM ARRANGEMENTS

Federal Supply Schedule contractors may use "Contractor Team Arrangements" (see FAR 9.6) to provide solutions when responding to a customer's requirements. The policy and procedures outlined in this part will provide more flexibility and allow innovative acquisition methods when using the Federal Supply Schedules.

Refer to the contractor team arrangement information provided in this document, for more details.

MAXIMUM ORDER

If the "best value" selection places your order over the Maximum Order identified in the contractor's catalog or price list, you have an opportunity to obtain a better Schedule contract price. Before placing your order, contact the contractor to ask for a better discount price.

The contractor may:

- 1) offer a new lower price for this requirement
- 2) offer the lowest price available under the contract
- 3) decline the order

A delivery order that exceeds the maximum order may be placed with the contractor selected in accordance with FAR 8.404. The order may be placed under the Schedule contract.

PRICE REDUCTIONS

There may be circumstances when a customer finds it advantageous to request a price reduction, such as where the quantity of an individual order clearly indicates the potential for obtaining a reduced price. Customers who obtain a further price reduction may still place these orders against the Schedule contract. MAS contractors will not be required to pass on to all Schedule users a price reduction extended only to an individual customer for a specific order.

BLANKET PURCHASE AGREEMENTS (BPA)

Federal Supply Schedule contracts contain BPA provisions to maximize your purchasing and administrative savings. This feature permits Schedule customers and contractors to set up "accounts" to fill a "recurring requirement." These accounts establish a period for the BPA and generally address issues, such as frequency of ordering and invoicing, authorized callers, discounts, delivery locations and times.

Agencies may qualify for the best quantity/volume discounts available under the contract, based on the potential volume of business that may be generated through such an agreement, regardless of the size of the individual orders. In addition, agencies may be able to secure a discount higher than that available in the contract based on the aggregate volume of business possible under the BPA.

Finally, contractors may be open to a progressive type discounting where the discount would increase once the sales accumulated under the BPA reach certain prescribed levels. Use of a BPA may be especially useful with the new Maximum Order feature. A suggested format for customers is included in this document to consider when using this purchasing tool.

INCIDENTAL ITEMS

For administrative convenience, open market (non-contract) items may be added to a Federal Supply Schedule BPA or the individual task/delivery order if the items are clearly labeled as such on the order, all applicable acquisition regulations have been followed, and price reasonableness has been determined by the ordering activity for the open market items.

ENVIRONMENTAL PRODUCTS

In order to assist our customers who have determined that their acquisition needs can best be met by purchasing an EPA designated item (considering price, availability and performance requirements), our Schedule contractors have been requested to identify such products on their individual catalogs and or price lists. Schedule contractors have been requested (where possible and/or feasible) to identify items that:

- Have recycled content (*meet EPA designated item criteria*)
- Are energy and/or water conserving (*e.g., Energy Star*)
- Have reduced pollutants (*e.g., low volatile organic compounds (VOCs) and chromate-free*)

Customers should review contractor literature and contact the contractor directly to obtain complete information regarding environmental claims. Please visit our Environmental Products Website at the address listed below.

www.gsa.gov/enviro

VARIABLE CONTRACT PERIODS

Generally, Federal Supply Schedules will no longer have a prescribed beginning and ending date. The Schedule periods will be continuous, and will contain contracts with contract periods that commence on the Date of Award (DOA) and expire in 5 years (exclusive of any options) from the DOA.

REMOVAL OF SURPLUS OR OBSOLETE PRODUCTS PROGRAMS

Several industries have special programs for the removal of surplus or obsolete products. As a Government customer any action taken by your ordering activity under this program would be not be eligible under the terms and conditions of Multiple Award Schedule (MAS) contracts.

Before you participate in any program for this service, be sure to review FMR 102-39 for guidelines concerning the exchange/sale program. FMR 102-39 allows exchange for trade-in credit when procuring replacement equipment. Exchange/sale is not applicable to excess or surplus property as defined in 40 USC. It is applicable only for property for which an activity has a continuing need but the current equipment is obsolete, outdated, beyond repair, etc. The utility of the item is still required so it must be replaced.

The exchange or sale credit must be used to offset the replacement of similar property. Specifically, as defined in the FMR:

Replacement means the process of acquiring property to be used in place of property that is still needed but:

- (1) No longer adequately performs the tasks for which it is used; or
- (2) Does not meet the agency's need as well as the property to be acquired.

Similar means where the acquired item and replaced item:

- (1) Are identical;
- (2) Are designed and constructed for the same purpose;
- (3) Constitute parts or containers for identical or similar end items; or
- (4) Fall within a single Federal Supply Classification (FSC) group of property that is eligible for handling under the exchange/sale authority.

A complete listing of FSC's not eligible for exchange/sale can also be found in FMR 102-39.

AUTHORIZED USERS

The agencies and activities named below may use contracts established under this Federal Supply Schedule.

- All federal agencies and activities in the executive, legislative and judicial branches.
- Government contractors authorized in writing by a federal agency pursuant to 48 CFR 51.1.
- Mixed-ownership Government corporations (as defined in the Government Corporation Control Act).
- The Government of the District of Columbia.
- Other activities and organizations authorized by statute or regulation to use GSA as a source of supply.

Questions regarding activities authorized to use this Schedule should be directed to Customer/Vendor Relations contact point identified in this document.

GEOGRAPHIC COVERAGE

All Federal Supply Schedules provide contractors the opportunity to offer worldwide coverage. Schedule contractors have three categories of geographic coverage to offer:

- 1) **Domestic:** covers delivery to the 48 contiguous states; Washington, DC; Alaska; Hawaii and Puerto Rico.
- 2) **Worldwide:** covers delivery domestically AND overseas
- 3) **Overseas Only:** covers delivery to overseas destinations other than Alaska, Hawaii and Puerto Rico

PURCHASE CARD

Agencies may make payments for oral or written delivery orders by using the Government purchase card.

Payments made using the Government SmartPay purchase card ARE NOT eligible for any negotiated prompt payment discount.

“Government purchase card” means a uniquely numbered GSA SmartPay credit card issued to named individual Government employees or entities, to pay for official Government purchases.

Effective March 20, 1998, GSA began requiring Federal Supply Schedule contractors to accept the GSA SmartPay purchase card as a method of payment for acquisitions up to the micro-purchase threshold, currently \$2,500. This requirement was phased in and all Federal Supply Schedule contracts must include this requirement. The card may be used for payment in excess of this threshold if the using agency and contractor agree.

Information about the GSA Fleet, Travel and Purchase Payment System is available within your agency’s written internal operating procedures and on the Internet at the address listed below.

www.gsa.gov/smartpay

The contractor shall not process a transaction for payment through the credit card clearinghouse until the purchased supplies have been shipped or services performed. Unless the cardholder requests correction or replacement of a defective or faulty item in accordance with other contract requirements, the contractor shall immediately credit a cardholder’s account for items returned as defective or faulty.

SIGNIFICANT CHANGES

This Schedule has added:

- Guidance for using DD Form 1348, SF 344 or DD Form 1348-6
- Guidance for participating in Obsolete Products Programs (OPP)

This Schedule incorporates the following departments:

- Hardware Store Department
- Commercial Coatings, Adhesives, Sealants, Fuels and Lubricants Department
- Household and Office Appliance Department
- Tools Department
- Lawn and Garden Department
- Woodworking and Metalworking Machinery and Equipment Department

In the Commercial Coatings, Adhesives, Sealants, Fuels and Lubricants department Special Item Number 834-800, Recycled Latex Paint has been deleted in its entirety. Contractors previously shown under this SIN are still under contract but are now listed under the appropriate application.

HARDWARE STORE DEPARTMENT

The Hardware Store Department offers you the flexibility of ordering directly from commercial sources by walking into a local store and purchasing what you need on site, purchasing through a catalog, or placing your order through GSA.

SIN 105-001 – HARDWARE STORE - WALK -IN/WALK-OUT

When selection specific items, other than hand or measuring tools or stainless steel flatware, buyers should only purchase items that are compliant with the Trade Agreements Act; i.e., US made products, designated country end products, Canadian end products or Mexican end products.

SIN 105-001 allows customers to walk into a Hardware Store and with their Government Purchase Card, purchase and receive a discount at the point of sale. Below is a listing of the vendors currently participating in this program:

Ace Hardware & Lumber Co.
 Bruce Watkins Supply Inc.
 DK Enterprises
 Duncan Equipment Company Inc.
 The Fastenal Company
 Frank's Supply Company
 Frost Electric Supply Company
 Hagemeyer North America
 Hardware Associates
 Hardware & Supply of Chester

Hi-Line Electric Company
 The Home Depot U.S.A., Inc.
 Johnstone Supply Co.
 KFI Fasteners Inc.
 Leemore Hardware
 MAC Tools, A Division of the Stanley Works
 W.S. Jenks Inc.
 WW Grainger
 Williams Home Center

SIN 105-002 – HARDWARE STORE - CATALOG

SIN 105-002 allows customers to place catalog order over the phone or via the internet. Contractor's listed will provide catalog service and the customer will receive the lowest price or a discount off the vendor's retail price. Below is a listing of the vendors currently participating in this program.

COMMERCIAL COATINGS, ADHESIVES, SEALANTS, FUELS AND LUBRICANTS

COMMERCIAL COATINGS, ADHESIVES, SEALANTS, FUELS AND LUBRICANTS

(NOW INCLUDES ALL PAINTS, COATINGS, SEALANTS, ADHESIVES, FUELS AND LUBRICANTS)

834-100 – AEROSPACE COMMERCIAL COATINGS, ADHESIVES AND SEALANTS

Including topcoats, primers, film adhesives, composite repair materials, pre-treatment products, thinners and related products designed primarily for, but limited to use in the manufacture, repair, routine, maintenance or prevention of the formation and propagation of corrosion on aircraft, helicopters, missiles or vehicles designed to travel outside earth's atmosphere. Anti-seize compounds and materials to convert oxide corrosion to protective coatings. Products containing either lead or chromate must be prominently and properly identified and labeled. Product may be a kit or require multi-component system application. Application accessories and equipment may be included. Technical support or training that is normally provided with commercial sales of this product may be included.

SUPPLIES AND/OR SERVICES

Commodity Listing Information

- Special Item Numbers
- Descriptions

See "Contractors" section for complete contractor names, addresses, telephone numbers, contract numbers and contract Effective dates.

*Indicates small business set-aside.

What Are the Ordering Procedures for Appliances?

Orders Under the \$2,500 Micro-purchase Threshold

- Order from any Schedule contractor of your choice

Orders Over the \$2,500 Micro-purchase Threshold

- Review 3 Schedule contractors price lists or price items on  on-line shopping
- Select the "Best Value"

Orders Over the Maximum Order Threshold

- Follow procedures for orders over \$2,500
- Review additional Schedule contractor's price lists
- Seek price reductions from contractors that represent "Best Value"
- Place your order with the contractor offering the "Best Value"

How Can I Order Appliances On Schedule if I Need to Order Using an NSN and No NSN is Available?

GSA has established an NSN for each of the appliance's Federal Stock Class (FSC) where no valid NSN existed. These NSNs are accessible through FED LOG and should be used only for appliance models without a current valid NSN. Please submit an AOE/AO5 requisition using the corresponding NSN listed below. Also, reference the valid manufacturer's model/part number in the exception field. Listed below are the NSNs and their corresponding product line:

3510-01-471-1872	Laundry Appliances
4110-01-471-1875	Refrigerated Appliances
4120-01-471-1877	Air Conditioners
7310-01-471-1878	Cooking Appliances
7320-01-471-1879	Dishwashers

Contractor Team Arrangements and Federal Supply Schedules continued

Each member of the “acquisition team” is to exercise personal initiative and sound business judgment and is responsible for making acquisition decisions that deliver the best value product or service to meet the customer's needs. FAR 1.102-4 further empowers Government team members to make acquisition decisions within their areas of responsibility including selection, negotiation and administration. The contracting officer has the authority, to the maximum extent practical, to determine the application of rules, regulations, and policies.

In light of these changes, Federal Supply Schedule customers may refer to FAR 9.6 – Contractors Team Arrangements. The policy and procedures outlined in this part will provide more flexibility and allow innovative acquisition methods when using the Federal Supply Schedules. Customers are encouraged to review this section and should note this is permissible after contract award.

Team Arrangements Combined with the Federal Supply Schedule Program Provide Federal Customers a Powerful Commercial Acquisition Strategy

Contractor Team Arrangements and Federal Supply Schedules

In the spirit of the acquisition reform, all Federal agencies have been encouraged to facilitate innovative contracting/acquisition approaches.

FAR Part 1.102 provides Guiding Principles on the Federal Acquisition System, outlining what the System will achieve as follows:

- Satisfy the customer (cost, quality and timeliness of delivery)
- Maximize use of commercial products and services
- Consider contractor's past performance
- Promote competition
- Minimize administrative costs
- Conduct business with integrity, fairness and openness
- Fulfill public policy objectives

The Federal Supply Schedule program is a source customers may use to achieve what the System has outlined for acquisition teams to follow.

Basic Guidelines for Using Contractor Team Arrangements

Federal Supply Schedule contractors may use “Contractor Team Arrangements” (see FAR 9.6) to provide solutions when responding to a customer agency requirements.

These team arrangements can be included under a Blanket Purchase Agreement (BPA). BPAs are permitted under all Federal Supply Schedule contracts.

Orders under a team arrangement are subject to terms and conditions of the Federal Supply Schedule contract.

Participation in a team arrangement is limited to Federal Supply Schedule contractors.

Customers should refer to FAR 9.6 for specific details on Team Arrangements.

Here is a General Outline on How it Works:

- The customer identifies his/her requirements.
- Federal Supply Schedule contractors may individually meet the customer's needs, or
- Federal Supply Schedule contractors may submit a Schedules “Team Solution” to meet the customer's requirement.
- Customer makes a best value selection.

Suggested Formats

BEST VALUE BLANKET PURCHASE AGREEMENT FEDERAL SUPPLY SCHEDULE

(Insert Customer Name)

In the spirit of the acquisition reform ____ (Agency) ____ and ____ (Contractor) ____ enter into a cooperative agreement to further reduce the administrative costs of acquiring commercial items from the General Services Administration (GSA) Federal Supply Schedule Contract(s) _____.

Federal Supply Schedule contract BPAs eliminate contracting and open market costs such as: search for sources; the development of technical documents, solicitations and the evaluation of bids and offers. Teaming Arrangements are permitted with Federal Supply Schedule contractors in accordance with Federal Acquisition Regulation (FAR) Part 9.6.

This BPA will further decrease costs, reduce paperwork and save time by eliminating the need for repetitive, individual purchases from the Schedule contract. The end result is to create a purchasing mechanism for a **Government that works better and costs less.**

Signatures:

_____	_____	_____	_____
Agency	Date	Contractor	Date

BPA Number

(Customer Name)

BLANKET PURCHASE AGREEMENT

Page 1 of 2

Pursuant to GSA Federal Supply contract number (s) _____, Blanket Purchase Agreements, the contractor agrees to the following terms of a Blanket Purchase Agreement (BPA) EXCLUSIVELY WITH (Ordering Agency):

- 1) The following contract items can be ordered under this BPA. All orders placed against this BPA are subject to the terms and conditions of the contract, except as noted below:

Model Number/Part Number	Special BPA Discount/Price
_____	_____
_____	_____

- 2) Delivery:

Destination	Delivery Schedule/Dates
_____	_____
_____	_____

- 3) The Government estimates, but does not guarantee, that the volume of purchases through this agreement will be _____.
- 4) This BPA does not obligate any funds.
- 5) This BPA expires on _____ or at the end of the contract period, whichever is earlier.
- 6) The following office(s) is hereby authorized to place orders under this BPA:

Office	Point Of Contact
_____	_____
_____	_____

- 7) Orders will be placed against this BPA via Electronic Data Interchange (EDI), FAX or paper.

BLANKET PURCHASE AGREEMENT

Page 2 of 2

- 8) Unless otherwise agreed to, all deliveries under this BPA must be accompanied by delivery tickets or sales slips that must contain the following information as a minimum:
- (a) Name of contractor;
 - (b) Contract number;
 - (c) BPA number;
 - (d) Model number on National Stock Number (NSN);
 - (e) Purchase order number;
 - (f) Date of purchase;
 - (g) Quantity, unit price, and extension of each item (unit prices and extensions need not be shown when incompatible with the use of automated systems; provided, that the invoice is itemized to show the information); and
 - (h) Date of shipment.
- 9) The requirements of a proper invoice are as specified in the Federal Supply Schedule contract. Invoices will be submitted to the address specified within the purchase order transmission issued against the BPA.

The terms and conditions included in this BPA apply to all purchases made pursuant to it. In the event of an inconsistency between the provision of this BPA and the contractor's invoice, the provisions of this BPA will take precedence.

***Important**

A new feature to the Federal Supply Schedules Program permits contractors to offer price reductions in accordance with commercial practice. Teaming Arrangements are permitted with Federal Supply contractors in accordance with FAR Part 9.6.

REQUEST FOR CONTRACT AWARD INFORMATION

Federal, State, and Local Government:

Contact the Schedules Information Center to obtain copies of GSA vendor price list and terms and conditions at schedules.infocenter@gsa.gov or by contacting the National Customer Service Center at 1-800-488-3111.

Questions on Schedules or How to Become a GSA Vendor:

Contact the Multiple Awards Schedules Helpdesk at mashelpdesk@gsa.gov or by contacting the National Customer Service Center at 1-800-488-3111.
