15. Warranty provision: Harmar Mobility warrants its lift products against defects in material, mechanical and electrical components (parts), batteries, paint and covers, for a period of three (3) years from date of retail purchase, provided that the products have been installed, maintained and operated properly. Harmar Mobility offers a one-year labor warranty covering all labor costs for one year for purchases through Harmar's FSS contract. This warranty does not cover defects in vehicles on which Harmar products are installed or defects in Harmar products caused by defects in any part of the vehicle upon which the product is installed. This warranty does not cover maintenance or adjustments. Harmar will not be charged for consequential damage or repair expenses. Harmar will not, under any circumstances, be liable for the loss of the use of its products or loss of time. This warranty becomes null and void if the product has been lost, damaged by accident, over-stressed, misused and/or neglected, or if the product has been modified in any way. Defective parts must be returned, prepaid, to Harmar at the address listed above, for inspection prior to credit, repair or replacement, at Harmar's option. Harmar's sole obligation and the exclusive remedy under this warranty is limited to such credit, repair or replacement.
16. Return Goods Policy: No returns will be allowed after 30 days on stock items, and custom parts are not returnable. No returns will be accepted without prior authorization and a Harmar Return Merchandise Authorization (RMA) number which can be obtained direct by Harmar (see phone or email procedure below). Once the RMA is authorized and issued, a credit will be given prior to the actual return.

Serial numbers are assigned to the End User and documented on invoice paperwork, so clearly mark RMA number on all return documents and the address label of each package being returned. Returned merchandise must include all original parts, shipping materials, blank warranty cards, accessories and documentation and be in as-new condition. If a return is a result of an error by the ordering entity, a 25% restocking fee and freight charges will apply. If the return is due to Harmar error, no restocking fee or return freight will be charged. RMA numbers cannot be extended or re-issued.

- Returns requested due to End User Expiration will be automatically accepted with NO restocking fees. If the product is custom built, Harmar will only issue credit for common parts, if applicable.
- Returns requested due to End User Refusal will be assessed a 25% restocking fee. Harmar maintains a robust process to interview and evaluate each End User and their needs which includes a thorough review of the product, its features, and user requirements. When product is refused due to End User preference, Harmar will attempt to convince End User to proceed with install, but if

unsuccessful, a restocking fee will apply.

- Returns requested due to PO Expiration will be closely monitored by Harmar. If the End User is unable to accommodate the product installation within 70 days from PO date for any reason, Harmar will provide a disposition letter to the Purchasing Agent. Harmar will review the disposition options and assist in making a decision up to day 180 from the PO date. If no decision can be made within 180-days, Harmar will close the opportunity and issue RMAs to have products returned to Harmar.

Obtain a Return Authorization Number: Contact Harmar by e-mail at va@harmar.com or phone at (800)-833-0478 between 8:00 a.m. – 7:00 p.m. ET, Monday through Friday, to obtain a Return Authorization Number prior to returning any merchandise. Be sure to include your order number, account number and item number of the product(s) you'd like to return, as well as your contact information.
