## Basic Discount (covered drug “Dual Pricing”)

Not Applicable

## Tracking Customer(s)

For the purpose of Clause 552.238-75 Price Reductions (May 2004) for each item the contract shall be predicated on the nexus or price/discount relationship between the contract holder’s acquisition price and the manufacturer’s commercial pricelist (Alafair, RCAI, Ferno). If there is a decrease in the manufacturer’s pricelist or any transactional price decrease from (Alafair, RCAI, Ferno) to (BMK Ventures, Inc.) excluding spot discounts, the contract holder is required to extend a price reduction equivalent to the manufacturer discount/discount relationship between the contract holder and the Government, within 15 days of occurrence. Price increases will be governed by the following in conjunction with the Economic Price adjustment Clause, 552.216-70. Price increases are allowable when the manufacturer increases the price to the contract holder and there is a corresponding increase to the manufacturer’s commercial pricelist. Should BMK Ventures, Inc. sell any of the items commercially, the company must submit notification (within 15 days) to possibly change and identify the commercial customer(s) and incorporate a tracking customer and tracking ratio. If the identified tracking mechanism contract/agreement has been canceled, terminated, or expired, the assigned contract specialist shall be notified within 15 days after the event occurs, and if possible, before the event occurs. At such time, the contractor will negotiate in good faith with the assigned contract specialist in order to establish a successor tracking customer via the Request for Modification procedure.

## Tracking Ratio(s)

N/A
