Translation Services: Translation services encompass translation of written content from source language to target language (i.e. English to a foreign language or a foreign language to English). Culmen translation is edited and proof read to ensure accuracy, completeness, readability of the final documents, and adaptability to the target audience linguistically and culturally. Culmen’s cadre of translators provide high-quality translation services for conversations, event presentations, technical and training materials that are accurate and clear and of high quality. Culmen’s translation capabilities range from translation of complex conversations and presentation into the target language with high degree of structural accuracy and vocabulary, including synopsising highly-technical documentation appropriately. Culmen’s translators are also culturally-sensitive and consider local practical, social, and professional considerations.

Translation turnaround Times:

Standard turnaround is based on 24 hours from receipt of purchase order for the first 1,500 words plus 24 hours for each additional 1,500 words

Expedited Delivery Rates: 15% additional rush fee

Interpretation Services:

Simultaneous Interpreting – Rendered in the simultaneous mode and typically takes place in format settings, where the interpreter is in a booth, outfitted with sound equipment, and cannot seek clarifications or affect the pace of the discussion.

Consecutive Interpreting – Rendered in the consecutive mode and typically takes place in informal settings, but it can also take place in format settings if requested.

Culmen’s cadre of interpreters provide high-quality translation services for conversations, event presentations, technical and training materials that are accurate and clear and of high quality. Culmen’s interpretation capabilities range from translation of complex conversations and presentation into the target language with high degree of structural accuracy and vocabulary, including synopsising highly-technical information appropriately. Culmen’s interpreters are also culturally-sensitive and consider local practical, social, and professional considerations.

Culmen’s interpreters are vetted and prequalified for specific tasks to ensure that their skill level meets or exceeds contract requirements. Culmen requires a combination of experience, education, qualifications, and certifications (such as the ATA certification), targeted to each customer country’s social, cultural, and training and educational needs. Qualified linguists and translators are tracked, and their performance is evaluated with each assignment to assure only the best services are provided.

On-Site Coordinator	SIN 541930 & 541930	B.A. or B.S. degree	9 Years of experience acting as point of contact and coordinator each project. Creates and implements staff and other logistical requirements.
Travel Coordinator	SIN 541930	AA	2years of experience managing schedules, hotel, and flight accommodations and procures necessary documentation such as passports, visas, or other clearances. Ensures that travel needs are met within the constraints of the clients travel budget.
Interpreters		B.A. or B.S. degree	Facilitate communication between parties who speak two different languages. Re-communicates verbal messages from one language into another.
Translators		B.A. or B.S. degree	Convert concepts in the source language to equivalent concepts in the target language. Compile information, such as technical terms used in legal settings, into glossaries and terminology databases to be used in translations.

SIN: 611630 Linguistic Training and Education

Language training classes are advance language classes reflecting current usage of the language in the target language country. The students will be exposed to dialects, slang expressions and specialized terminology (e.g. military/security, political, economic, scientific/technological, culture and social, geography: physical, political, economic.). The topic of “culture” will be treated as it contributes to proper understanding of a text or message and as it becomes critical in the ability to effectively transmit a message and to interact appropriately with native speakers. The focus is on communicative competence using functional, task-based language and activities. The training course include oral communication, pronunciation, structure, listening and reading comprehension, writing, as well as special skills development such as translation, interpretation and transcription.

Audio and Interpreting Equipment includes:

- One (1) Interpreter booth
- Forty (40) earpieces or headsets
- Table top conference microphones for every two to three participants.
- Sound equipment including one (1) wireless handheld microphones and two (2) lapel wireless microphones.

611630

SIN	Training Course	Description
611630	Language for Diplomacy Workshop	To improve the English as Foreign Language (EFL) proficiency and professional English language skills for diplomats. The class size will typically range from 4 to 6 participants and the expected proficiency level of the participants is advanced. The focus of the course is on developing highly polished executive level writing and presentation skills that are directly related to the professional needs of personnel from diplomacy agencies. Participants will enhance their English abilities to produce concept papers, strategies, reviews, reports, as well as speeches and presentations.
611630	Writing and presentation skills to for advanced executive level professional	To improve the English as Foreign Language (EFL) proficiency and professional English language skills for executive level professionals. The class size will typically range from 4 to 6 participants and the expected proficiency level of the participants is advanced. The focus of the course is on developing highly polished executive level writing and presentation skills that are directly related to the professional needs of personnel from diplomacy agencies. Participants will enhance their English abilities to produce concept papers, strategies, reviews, reports, as well as speeches and presentations.
611630	Counter Transnational Organized Crime ESP (English for Specific Purposes) workshop	The class size will typically range from 5 to10 participants and the expected proficiency level of the participants is high-intermediate to advanced. The focus of the Security Sector Professional ESP workshop is on the language skills and terminology of counter transnational organized crime and related topics.
611630	Security Sector Professionals English for Specific Purposes (ESP) workshop	The class size will typically range from 5 to10 participants and the expected proficiency level of the participants is high-intermediate to advanced. The focus of the Security Sector Professional ESP workshop is on the language skills and terminology of counter-narcotics/illicit-trafficking, defense and security studies, and related topics.

SIN	Training Course	Description
611630	Counter Terrorism Professionals ESP (English for Specific Purposes) workshop	The class size will typically range from 5 to 10 participants and the expected proficiency level of the participants is high-intermediate to advanced. The focus of the Counter Terrorism Professional ESP workshop is on the language skills and terminology of counter-terrorism, defense and security studies, and related topics.
611630	Arabic Language Training	The Arabic Language Training course reflects current usage of the language in the target language country. Thus, students will be exposed to dialects, slang expressions and specialized terminology (e.g. military/security, political, economic, scientific/technological, culture and social, geography: physical, political, economic.). The topic of "culture" will be treated as it contributes to proper understanding of a text or message and as it becomes critical in the ability to effectively transmit a message and to interact appropriately with native speakers. The focus is on communicative competence using functional, task-based language and activities. The course will include oral communication, pronunciation, structure, listening and reading comprehension, writing, as well as special skills development such as translation, interpretation and transcription.
611630	Iraqi Language Training	The Iraqi Language Training course reflects current usage of the language in the target language country. Thus, students will be exposed to dialects, slang expressions and specialized terminology (e.g. military/security, political, economic, scientific/technological, culture and social, geography: physical, political, and economic.). The topic of "culture" will be treated as it contributes to proper understanding of a text or message and as it becomes critical in the ability to effectively transmit a message and to interact appropriately with native speakers. The focus is on communicative competence using functional, task-based language and activities although some explicit treatment of grammar and vocabulary might be required. The course will include oral communication, pronunciation, structure, listening and reading comprehension, writing, as well as special skills development such as translation, interpretation and transcription.
611630	Moroccan Language Training	The Moroccan Language Training course addresses various aspects of the society and reflect current usage of the language in the target language country. Thus, students will be exposed to dialects, slang expressions and specialized terminology (e.g. military/security, political, economic, scientific/technological, culture and social, geography: physical, political, and economic.). The topic of "culture" will be treated as it contributes to proper understanding of a text or message and as it becomes critical in the ability to effectively transmit a message and to interact appropriately with native speakers. Learning materials shall be derived from current and authentic sources and from all media (printed, audio, visual, electronic, etc.). The focus is on communicative competence using functional, task-based language and activities. The course will include oral communication, pronunciation, structure, listening and reading comprehension, writing, as well as special skills development, such as translation, interpretation and transcription.
611630	Hausa Language Training	The Hausa Language Training course addresses various aspects of the society and reflect current usage of the language in the target language country. Thus, students will be exposed to dialects, slang expressions and specialized terminology (e.g. military/security, political, economic, scientific/technological, culture and social, geography: physical, political, and economic.). The topic of "culture" will be treated as it contributes to proper understanding of a text or message and as it becomes critical in the ability to effectively transmit a message and to interact appropriately with native speakers. Learning materials shall be derived from current and authentic sources and from all media (printed, audio, visual, electronic, etc.). The focus is on communicative competence using functional, task-based language and activities. The course will include oral communication, pronunciation, structure, listening and reading comprehension, writing, as well as special skills development, such as translation, interpretation and transcription.

SIN	Training Course	Description
611630	Somali Language Training	The Somali Language Training course addresses various aspects of the society and reflect current usage of the language in the target language country. Thus, students will be exposed to dialects, slang expressions and specialized terminology (e.g. military/security, political, economic, scientific/technological, culture and social, geography: physical, political, and economic.). The topic of "culture" will be treated as it contributes to proper understanding of a text or message and as it becomes critical in the ability to effectively transmit a message and to interact appropriately with native speakers. Learning materials shall be derived from current and authentic sources and from all media (printed, audio, visual, electronic, etc.). The focus is on communicative competence using functional, task-based language and activities. The course will include oral communication, pronunciation, structure, listening and reading comprehension, writing, as well as special skills development, such as translation, interpretation and transcription.

For all categories,

- 1. Master's degree may be substituted for TWO years of experience.**
- 2. For all categories, a doctoral degree may be substituted for an additional THREE years of experience.**
- 3. For all categories, TWO ADDITIONAL years of directly related job experience may be substituted for each year of college not attended.**
- 4. Additional experience to be substituted for education must be in the area of the individual's assigned project responsibility.**

Service Contract Labor Standards (SCLS)

The Service Contract Labor Standards (SCLS), also referred to as the Service Contract Act (SCA) is applicable to this contract as it applies to the entire Multiple Award Schedule and all services provided. While no specific labor categories/services have been identified as being subject to SCLS/SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCA eligible labor categories. If and / or when the contractor adds SCA labor categories / employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCA matrix identifying the GSA labor category titles, the occupational code, SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
