*The Service Contract Labor Standards (SCLS) is applicable to this contract and as it applies to the entire Multiple Award Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 5413.300), this contract still maintains the provisions and protections for SCLS eligible labor categories. If and/or when the Contractor adds labor categories/employees to the contract through the modification process, the Contractor must inform the Contracting Officer and establish a matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles, and applicable wage determination (WD) number. Failure to do so may result in cancellation of the contract.*

1) Labor Category Rates reflect both onsite and offsite work.
Labor Category Descriptions

The following labor category descriptions, functional responsibilities, and minimum education and experience requirements apply to all SINs awarded under this contract. MED PROV policy includes a standard substitution clause as follows:

Each year of education may be substituted for 9 months of relevant experience. Similarly, 9 months of additional experience above the minimum may be substituted for each year of education. In addition, certifications, professional licenses, and vocational training may be substituted for experience or education.

**Consultant**

Functional Responsibility: Manages a wide variety of complex technical activities in support of contracts. Provides consulting services, organizational improvement efforts, facilitation and training services within the context of MOBIS. Duties and responsibilities ordinarily include performing testing and analysis and drafting reports and findings. Analyzes user needs to determine functional requirements for a wide variety of projects; performs functional allocations to identify tasks and their inter-relationships; researches, identifies, and recommends resources required for task execution and completion; performs functional modeling based on requirements analysis. Also serves as technical advisor to clients in assigned subject areas, recommends functional changes, and identifies areas for further investigation; consults with clients to determine optimum design for assigned projects; develops new systems or updates existing systems to meet client needs and identifies emergent relevant technologies that may result in improvements to current processes. Writes and updates project documentation including system procedures, presentations, and training materials; conducts functional testing of various systems. Maintains current knowledge of relevant technologies in area of expertise as assigned.
