GENERAL SERVICES ADMINISTRATION
FEDERAL SUPPLY SERVICE
AUTHORIZED FEDERAL SUPPLY SCHEDULE PRICE LIST

On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA Advantage!®, a menu-driven database system. The INTERNET address GSA Advantage!® is: GSAAdvantage.gov.

For more information on ordering from Federal Supply Schedules go to the GSA Schedules page at GSA.gov.

Schedule Title: Multiple Award Schedule (MAS)
Federal Supply Group: Professional Services

FSC/PSC Codes:
R425

Contract Number:
47QRAA18D00A1

Contract Period:
May 31, 2018 through May 30, 2023
Price list current as of Modification #PS-0025 effective July 8, 2022

MORSECORP, Inc.
101 Main St, FL 14
Cambridge, MA 02142
Phone: 617-314-7509
Website: www.morsecorp.com

POC For Contract Administration: Joshua Torgerson
Email: jtorgerson@morsecorp.com

Business Size: Small
CUSTOMER INFORMATION

1. Table of awarded SIN
   1a. Table of awarded special item numbers with appropriate cross-reference to item descriptions and awarded prices.
   
   541715: Engineering Research and Development and Strategic Planning
   541330ENG: Engineering Services
   541420: Engineering System Design and Integration Services
   541380: Testing Laboratories
   OLM: Order-Level Materials

   1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract.
   See Pricelist for Awarded Prices

   1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided.
   See Pricelist for Awarded Descriptions and Awarded Prices

2. Maximum order
   $1,000,000

3. Minimum order
   $100

4. Geographic coverage
   Domestic Only - 48 States, DC

5. Point of production
   MORSECORP, Inc.
   101 Main St, FL 14
   Cambridge, MA 02142

6. Discount from list prices or statement of net price
   Prices listed are NET.

7. Quantity discounts
   No quantity or volume discounts

8. Prompt payment terms
   Net 30 days.
   Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9. Foreign items
   None
10. Delivery
10a. Time of delivery.
   As Negotiated
10b. Expedited Delivery.
   Contact MORSECORP, Inc. for expedited delivery.
10c. Overnight and 2-day delivery.
   Contact MORSECORP, Inc. for overnight and 2-day delivery.
10d. Urgent Requirements.
   When the Federal Supply Schedule contract delivery period does not meet the bona fide urgent delivery requirements of an ordering agency, agencies are encouraged, if time permits, to contact the Contractor for the purpose of obtaining accelerated delivery. The Contractor shall reply to the inquiry within 3 workdays after receipt. (Telephonic replies shall be confirmed by the Contractor in writing.) If the Contractor offers an accelerated delivery time acceptable to the ordering agency, any order(s) placed pursuant to the agreed upon accelerated delivery time frame shall be delivered within this shorter delivery time and in accordance with all other terms and conditions of the contract.

11. F.O.B. point
11a. Destination

12a. Ordering address
MORSECORP, Inc.
101 Main St, FL 14
Cambridge, MA 02142

12b. Ordering procedures
For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA's) are found in Federal Acquisition Regulation (FAR) 8.405-3.

13. Payment address
MORSECORP, Inc.
101 Main St, FL 14
Cambridge, MA 02142

14. Warranty provision
Not Applicable

15. Export packing charges
Not Applicable

16. Terms and conditions of rental, maintenance, and repair (if applicable)
Not Applicable
17. Terms and conditions of installation
Not Applicable

18a. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices
Not Applicable

18b. Terms and conditions for any other services.
Not Applicable

19. List of service and distribution points
Not Applicable

20. List of participating dealers
Not Applicable

21. Preventive maintenance
Not Applicable

22a. Special attributes such as environmental attributes
None

22b. Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor's website or other location.)
Not Applicable

23. Unique Entity Identifier (UEI) Number
UEI: UVRXZ4EASJ93

24. Notification regarding registration in System for Award Management (SAM) database
Registered- CAGE Code: 78X46
LABOR CATEGORY DESCRIPTIONS

Experience can be substituted for education or education for experience according to the following guidelines:

- A High School Diploma plus four years of experience is the equivalent of a Bachelor’s Degree
- An Associates Degree plus two years of experience is the equivalent of a Bachelor’s Degree
- A Bachelor’s Degree plus four years of experience is the equivalent of a Master’s Degree
- A Master’s Degree plus two years of experience is the equivalent of a Doctorate Degree

Analyst I

*Functional Responsibility:*
Under direct supervision, assists in providing analysis, guidance, and insight into the technical disciplines in use in support of higher-level analysts and engineers. Assists with studies, assessments, and analysis to determine and enhance system performance and effectiveness. Supports the data management process during discipline-specific planning and design phases.

*Minimum Education:*
Bachelor’s Degree in a relevant scientific or technical discipline.

*Minimum General Experience:*
0 years

Analyst III

*Functional Responsibility:*
Serves as a technical resource on a task. Provides analysis, guidance, and insight into the technical disciplines in use to determine and enhance system performance and effectiveness. Supports the transformation of overall requirements to a discipline-specific plans and design.

*Minimum Education:*
Bachelor’s Degree in a relevant scientific or technical discipline.

*Minimum General Experience:*
4 years

Analyst IV

*Functional Responsibility:*
Serves as a technical resource on a task or tasks. Provides analysis, guidance, and insight into the technical disciplines in use. Conducts studies and assessments to enhance system performance and effectiveness. Designs and implements overall requirements to discipline-specific plans for complex operations and system development. Ensures the quality of the project.

*Minimum Education:*
Bachelor’s Degree in a relevant scientific or technical discipline.

*Minimum General Experience:*
6 years

Engineer II

*Functional Responsibility:*
Serves as an engineering resource on a task. As part of a team, contributes analysis, guidance, and insight into the engineering discipline in use. Performs basic engineering functions and carries out assignments from more senior project staff.

*Minimum Education:*
Bachelor’s Degree in a relevant engineering discipline.
Minimum General Experience:
2 years

Engineer III
Functional Responsibility:
Serves as an engineering resource on a task. Provides analysis, guidance, and insight into the engineering discipline in use. Performs engineering design, systems integration, engineering change/configuration evaluation and implementation, and test and evaluation.
Minimum Education:
Bachelor’s Degree in a relevant engineering discipline.

Minimum General Experience:
4 years

Engineer IV
Functional Responsibility:
Serves as an engineering resource on a task or tasks. Provides analysis, guidance, and insight into the engineering disciplines in use. Performs design work to transform system requirements and specifications into a complete system design. Analyzes operational requirements to support system integration. Prepares and implements change/configuration in support of engineering systems performance. Provides guidance to project engineers and analysts.
Minimum Education:
Bachelor’s Degree in a relevant engineering discipline.

Minimum General Experience:
6 years

Engineer V
Functional Responsibility:
Serves as a senior engineering resource on a task. Executes advanced engineering activities within a project. Provides analysis, guidance, & insight into the engineering disciplines in use. Performs design and technical solutions implementation. Performs detailed and complex engineering tasks including assessment of advanced system concepts and specifications. Directs advanced engineering activities to address complex discipline-specific problems. Prepares, implements, validates and/or follows cost estimates for engineering systems.
Minimum Education:
Master’s Degree in a relevant engineering discipline.

Minimum General Experience:
6 years

Engineer VI
Functional Responsibility:
Serves as a senior engineering resource on a task. Executes advanced engineering activities within a project and provides input on overall technical direction. Provides advanced analysis, guidance, & insight.
Assesses and reviews advanced system concepts and specifications and analyzes designs and work of other junior engineers. Prepares, implements, validates and/or follows cost estimates for engineering systems.
Minimum Education:
Masters degree in a relevant engineering discipline.

Minimum General Experience:
8 years
Engineer VII

**Functional Responsibility:**
Serves as a senior engineering resource on a task and acts as a broader program resource across all tasks. Executes advanced engineering activities within a project. Determines overall technical direction. Responsible for decisions on technical tools and project plan. Provides advanced analysis, guidance, & insight. Assesses and reviews advanced system concepts and specifications and analyzes designs and work of other junior engineers. Prepares, implements, validates and/or follows cost estimates for engineering systems.

**Minimum Education:**
Masters degree in a relevant engineering discipline.

**Minimum General Experience:**
10 years

Subject Matter Expert

**Functional Responsibility:**
Serves as industry expert on project for a given area of expertise. Has extensive enterprise-wide knowledge in designated functional or content area. Initiates, supervises, and/or develops requirements from a project’s inception to conclusion for complex to extremely complex programs; Provides strategic advice, technical guidance and expertise to program and project staff; Provides detailed analysis, evaluation and recommendations for improvements, optimization development, and/or maintenance efforts for client-specific or mission critical challenges/issues; Consults with client to define need or problem supervises studies and leads surveys to collect and analyze data to provide advice and recommend solutions.

**Minimum Education:**
Masters degree in a relevant engineering discipline.

**Minimum General Experience:**
4 years

Manager II

**Functional Responsibility:**
Manages complex tasks & staff performing engineering, technical, or scientific activities. Manages resources and activities or defines technical approaches on project. Tracks cost, time and schedule performance in support of project. Monitors adherence to costs, time and scheduling milestone achievement during project performance. May also serve as a technical resource on a task.

**Minimum Education:**
Master’s Degree in management, business, or relevant engineering, scientific, or technical discipline.

**Minimum General Experience:**
4 years

Manager III

**Functional Responsibility:**
Manages multiple or large complex tasks and staff performing a variety of engineering, technical, or scientific activities. May also serve as a senior technical resource on task. Manages resources and activities or defines technical approaches to be by project staff. Responsible for the cost, schedule, and technical performance from project inception through project completion. Manages project staff and provides direction during project performance. Develops and monitors project including cost, time and scheduling estimates. Ensures project outputs and milestones are delivered on schedule and within funding. Monitors
adherence to project plan and schedule. Works with Project Engineers to identify and define project problems, obtains solutions, and resolve issues. May also serve as a technical resource on a task.

**Minimum Education:**
Master’s Degree in management, business, or relevant engineering, scientific, or technical discipline.

**Minimum General Experience:**
6 years

**Manager IV**

**Functional Responsibility:**
Manages program-level scope and staff performing the full breadth of engineering, technical, or scientific activities. Creates a strategic vision that benefits the customer and user, aligns the program team to this vision, and drives toward it. May also serve as a senior technical resource on task. Holds overall responsibility for program execution and customer satisfaction. Creates program-level plans for technical, cost, and schedule and tracks progress against those plans. Allocates resources and ensures all contractual obligations are met. Leads Engineers, Analysts, and Functional Specialists to identify and define requirements, develop designs, implement solutions, and test.

**Minimum Education:**
Master’s Degree in management, business, or relevant engineering, scientific, or technical discipline.

**Minimum General Experience:**
8 years

**Functional Specialist I**

**Functional Responsibility:**
Provides program-level expertise in a specific specialty relevant to one or more tasks. Applies subject matter knowledge in the project requirements development, identification of program and operational constraints, and evaluating operational suitability of deliverables. Assists in designing operational test cases and scenarios. Utilizes expertise to support execution of development tasks. Supports the definition of functional processes and policies.

**Minimum Education:**
Bachelor’s Degree in management, business, or relevant engineering, scientific, or technical discipline.

**Minimum General Experience:**
4 years

**Functional Specialist III**

**Functional Responsibility:**
Provides advanced, program-level expertise in a specific specialty relevant to one or more tasks. Applies subject matter knowledge in the project requirement development, identification of program and operational constraints, and evaluation of operational suitability. Presents subject matter expert viewpoint to program leadership and external stakeholders. Designs, executes, and evaluates operational test cases. Defines functional processes and policies and implements them.

**Minimum Education:**
Bachelor’s Degree in management, business, or relevant engineering, scientific, or technical discipline.

**Minimum General Experience:**
8 years

The Service Contract Act (SCA) is applicable to this contract as it applies to the entire Professional Services Schedule and all services provided. While no specific labor categories/services have been identified as being subject to SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCA eligible labor categories. If and / or when the contractor adds SCA labor categories / employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCA matrix identifying the GSA labor category titles, the occupational code, SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
