8(a) Certified, Veteran-Owned Small Business

Environmental Solutions
For a Greener Tomorrow

solsolutions.net
Sol Solutions, LLC (Sol) is an 8(a) Certified, Veteran-Owned Small Business located in Scottsdale, Arizona, with satellite offices in Hampton Roads, VA; Tulsa, OK; and Austin, TX. Sol was founded in 2009 as a Veteran- and Minority-Owned business and was certified as a participant in the U.S. Small Business Administration’s (SBA) 8(a) Business Development Program on May 30, 2014.

We strive to build a team of highly skilled professionals who are well rounded in all disciplines of environmental compliance, engineering, and management. Sol has the capabilities and technical expertise to provide reliable, efficient, and cost-effective services that exceed client expectations.

MISSION
To provide high-quality, cost-effective environmental services through excellence and integrity in all aspects of business operations. We ensure the highest ethical standards in relationships with clients, partners, and employees.

BUSINESS INFORMATION
8(a) Certified Veteran-Owned Small Business
Federal ID No.: 26-4564857
DUNS No.: 012049963
Cage Code: 5X2D5
Sol provides a range of services including environmental compliance and management, environmental inspections/audits and training, health and safety, natural and cultural resources, hazardous waste management, installation restoration, pollution prevention support, and CAD/GIS. Sol employs environmental professionals with an array of expertise, interests, and experience to perform tasks with professional acumen and attention to detail.

Environmental Compliance
Installation Restoration Program (IRP)
Natural and Cultural Resources
Sustainability Planning & Energy Mgmt
Information Technology
ENVIRONMENTAL COMPLIANCE

Compliance Auditing and Inspections
Sol performs multi-media environmental compliance audits and inspections to ensure compliance with:

- Resource Conservation and Recovery Act (RCRA)
- Clean Air Act (CAA)
- Clean Water Act (CWA)
- Safe Drinking Water Act (SDWA)
- Emergency Planning and Community Right-to-Know Act (EPCRA)
- National Environmental Policy Act (NEPA)
- Toxic Substances Control Act (TSCA)

Audited facilities include storage areas, motor pools, schools, laboratories, fire stations, fueling facilities, and detention centers.

Management of Hazardous Waste Storage Facilities
Sol manages hazardous waste storage areas in compliance with applicable RCRA requirements and permits. Our staff are trained and certified in proper labeling, storage, and disposal of hazardous and universal waste. We have successfully passed regulatory inspections for our managed facilities.

Compliance Plans and Training
Sol prepares environmental compliance plans and conducts compliance training classes. Compliance plans and training topics include:

- Hazardous Waste Management
- Universal Waste Management
- Asbestos Management and Awareness
- Air Compliance
- Spill Prevention Control and Countermeasures (SPCC) and Spill Response

Permitting and Permit Compliance
Sol assists clients with permit applications and renewals and responses to regulatory comments. We assist with permit compliance to include monitoring and reporting.

Asbestos and Lead-Based Paint
Sol’s fully licensed staff conducts asbestos and lead-based paint inspections prior to renovation and demolition projects.
INSTALLATION RESTORATION PROGRAM (IRP)
Sol oversees remediation and restoration activities on cleanup sites. We coordinate site access, ensure conformance with remediation plans, monitor compliance with regulatory requirements, and coordinate waste manifests and disposal.

Regulatory and Stakeholder Coordination
Sol assists clients with negotiating and coordinating cleanup efforts with representatives of Federal, State, and local regulatory agencies and other stakeholders. We respond to regulatory requests for information, prepare briefings, and participate in regulatory meetings.

Public Outreach and Administrative Record
Sol plans and facilitates Restoration Advisory Board meetings. We coordinate public comment periods and responses to comments. Our staff maintain Administrative Records in accordance with CERCLA.

NATURAL AND CULTURAL RESOURCES
Surveys and Assessments
Sol conducts natural and cultural resources investigations and studies to include threatened/endangered species surveys, habitat assessments, and National Register of Historic Places surveys. We utilize the latest technology to improve data accuracy and management.

Threatened and Endangered Species
Sol monitors threatened and endangered species’ activity patterns and conducts habitat assessments. Utilizing that information, we develop and implement species management and habitat restoration plans to include planting of native species, reforestation, and community involvement and education.

Stakeholder Involvement
We coordinate natural and cultural resources stakeholder involvement for our clients and have experience with the U.S. Fish and Wildlife Service, Native American Tribes, State Historic Preservation Offices, universities, and community groups.
SUSTAINABILITY PLANNING AND ENERGY MANAGEMENT

Energy and Water Conservation Planning
Sol supports energy conservation initiatives through the investigation of renewable energy technologies and identification of projects to improve energy efficiency by upgrading existing equipment. We support the management of Energy Savings Performance Contracts and the Energy Conservation Investment Program. Sol’s subject matter experts assist with the implementation of Net Zero initiatives to include rainwater harvesting, solar panels, wind turbines, recycling, and installation of energy efficient fixtures.

Energy Consumption Tracking and Reporting
Sol tracks facility energy usage and identifies anomalies which potentially indicate system failures or opportunities for system upgrades. Sol updates energy tracking databases (e.g., AEWRS), prepares quarterly consumption reports, and analyzes and prepares utility cost data.

INFORMATION TECHNOLOGY

Geographic Information Systems (GIS)
Sol’s GIS Specialists develop GIS data layers for environmental features to include monitoring wells, sampling locations, cleanup sites, wetlands, and cultural resource sites. We develop custom maps for clients and project sites, and maintain electronic cartographic libraries.

Computer Aided Drafting and Design (CAD)
Sol develops CAD files ensuring compliance with Corps of Engineer guide specifications, Tri-Service CAD standards, and standard design criteria including, but not limited to Uniform Building Code; Army Regulations 420-90; Occupational Safety and Health Administration requirements; National Fire Association Codes and Standards; Military Handbook 1008C; Uniform Federal Accessibility Standard, and the Americans with Disabilities Act of 1990.
Sol employs engineers, scientists, and environmental specialists with an array of expertise, interest, and experience to enable our clients to successfully execute their environmental programs. Our multi-disciplinary team of technical professionals are equipped to provide comprehensive environmental compliance and regulatory support to clients with a broad range of environmental requirements.

**ROBERT NOYES**
President and CEO
Robert Noyes is the President and CEO of Sol Solutions. He is a U.S. Army veteran with more than 27 years' experience in the environmental industry as a State Regulator, Federal Employee and an Environmental Consultant supporting and managing Army and Air Force Environmental Programs. During his career he has managed numerous on-site staffing and environmental performance-based contracts, programs and projects. Mr. Noyes excels in building strong relationships with clients to ensure Sol meets or exceeds current expectations in achieving program and project goals. Mr. Noyes is personally committed to setting and monitoring the current and future direction of Sol Solutions.

**ALISON ZEYTOONIAN, PMP**
Director, Environmental Programs
Ms. Zeytoonian is Sol’s Director of Environmental Programs. She has 17 years’ experience in environmental program and project management. Her areas of expertise include environmental compliance auditing and training, environmental remediation, and environmental management system (EMS) implementation. She has nationwide experience with the U.S. Army, U.S. Air Force, and Department of Interior; and is knowledgeable in the full range of environmental services. She is committed to providing cost-effective and high-quality environmental services to our clients. Ms. Zeytoonian is a certified Project Management Professional.

**KATY BONNER, PMP**
Project Manager/Contract Specialist
Ms. Bonner is a skilled project manager and contract specialist with experience managing environmental compliance services contracts for the U.S. Army and executing acquisition and contract management actions in accordance with all contractual requirements. She manages projects through all lifecycle phases, develops and implements project management plans, ensures tasks are performed in accordance with scopes of work, manages subcontractors, and manages monthly project reporting and invoicing. She reviews and prepares contract documents in accordance with corporate standard operating procedures; reviews solicitations; and responds to proposals, bids, and contract modifications. Ms. Bonner is a certified Project Management Professional.
NOELLE DOLINA
Human Resources Manager/Project Coordinator
Ms. Dolina has more than 25 years’ experience in providing office and administrative support, with the last 15 in the environmental consulting field. Over the last several years, her focus has been on human resources and project coordination. As our Human Resource Manager, Ms. Dolina conducts new employee onboarding, benefits enrollment, coordination of annual open enrollment, and other human resources activities. She also provides administrative support to project staff, project coordination, budget and expenses tracking, and proofreading and editing of technical documents and proposals.

ERIC DUNKER, P.E.
Program Manager
Mr. Dunker is an accomplished engineer and project manager with 17 years’ experience in environmental engineering, compliance, design, permitting, and consulting. He currently provides support to the Fort Carson Installation Restoration Program to meet the Army’s environmental restoration goals in accordance with CERCLA, RCRA, Army Regulations, and state and local regulations. Mr. Dunker has extensive water and wastewater experience to include treatment design, permitting, sampling and reporting, and implementation of corrective actions for non-compliance. He also develops SPCC Plans for federal facilities. Mr. Dunker is a licensed Professional Engineer.

BRADLEY DAVIS, P.G., PMP
Project Manager
Mr. Davis has 16 years’ professional experience in the project management, environmental consulting, and geology fields. He has extensive experience managing projects through all project lifecycle phases in accordance with scopes of work, work plans, and Federal, state, and local laws and regulations. He is currently providing support to the White Sands Missile Range Installation Restoration Program. Mr. Davis has completed site investigations, developed work plans with regulatory approval, coordinated remediation activities, implemented SDWA compliance activities for water systems, and contributed to SPCC Plan development. Mr. Davis is a licensed Professional Geologist and certified Project Management Professional.
Sol has provided environmental support to Department of the Army, Air Force, Interior and Homeland Security with projects executed through contract vehicles with the U.S. Army Corps of Engineers Albuquerque, Baltimore, Fort Worth, Omaha, Sacramento, and Tulsa Districts.
