Disaster Purchasing Guide for Professional Services

GSA's Disaster Purchasing Program allows state and local governments to buy supplies and services directly from all GSA Schedules to facilitate disaster preparation, response, or major disaster recovery. Purchases made in support of recovery must be in response to a Stafford Act Presidential declaration. The Federal Emergency Management Agency (FEMA) manages the list of declared disasters. State and local governments can purchase equipment and services to support natural or man-made disasters, including acts of terrorism, or nuclear, biological, chemical, or radiological attack.

</tbody>
</table>
The Service Contract Labor Standards (SCLS) is applicable to this contract and includes SCLS applicable categories as indicated above by an asterisk. The prices for the indicated SCLS labor categories are based on U.S. Department of Labor Wage Determinations in areas where the preponderance of work is anticipated to be performed. Should ATI perform in an area with lower SCLS rates, resulting in lower wages being paid, the task order prices will be discounted accordingly.

The two labor categories that are subject to the requirements of the SCLS, with their corresponding SCLS labor categories and SCLS occupational codes, are as indicated in the table below:

<table>
<thead>
<tr>

</tbody>
</table>

The responsibilities and minimum qualifications of each labor category are listed under subsection Labor Category Definitions (Page 9).

2 Maximum Order
$1,000,000*

* If the best value selection places your order over the Maximum Order identified in this catalog/pricelist, you have an opportunity to obtain a better schedule contract price. Before placing your order, contact ATI for a better price. We may elect to (1) offer a new price for this requirement; (2) offer the lowest price available under this contract; or (3) decline the order. A delivery order that exceeds the maximum order may be placed under the schedule contract in accordance with FAR 8.404.

3 Minimum Order
$100

4 Geographic Coverage
Domestic and Overseas

5 Point of Production
Same as company address

6 Discount from List Price
Government net prices (discounts already deducted). Further discounts may be negotiated.

7 Quantity Discounts
None offered but may be negotiated.
8 **Prompt Payment Terms**
Payment terms are Net 30.

Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9 **Government Purchase Cards**
a. Government purchase cards are accepted at or below the micro-purchase threshold.

b. Government purchase cards are accepted above the micro-purchase threshold.

10 **Foreign Items**
None.

11a **Time of Delivery**
Specified on the task order.

11b **Expedited Delivery**
Items available for expedited delivery may be negotiated.

11c **Overnight and Two-Day Delivery**
Contact ATI.

11d **Urgent Requirements**
Contact ATI.

12 **F.O.B. Point**
Destination.

13a **Ordering Addresses**
See *Ordering* (Page 4).

13b **Ordering Procedures**
See the GSA/FSS Schedule homepage (fss.gsa.gov/schedules).

14 **Payment Address**
By mail:
ATI, Inc.
9220 Rumsey Road, Suite 100
Columbia, MD 21045
Attn.: Accounts Receivable

Electronic payment information will be provided upon request.
15 **Warranty**
ATI’s standard commercial warranty applies. All services meet or exceed professional standards. We are committed to client satisfaction. If any error or deficiency is found due to inadequate performance on our part, we will correct it at no additional cost to the client.

27 Labor Category Definitions

Program Manager
Education: Master’s degree from an accredited college/university in science, engineering, or business
Experience: A minimum of eight years of relevant experience
Functional Responsibilities: Manages programs involving multiple projects to include complying with all contractual, work assignment, and reporting requirements; staffing and managing all program staff; preparing, negotiating, and signing related proposals; and managing subcontractors.

Project Manager
Education: Bachelor’s degree from an accredited college/university in science, engineering, or business
Experience: A minimum of five years of relevant experience
Functional Responsibilities: Manages individual projects to include complying with all project budget, schedule, and quality requirements.

Senior Engineer/Scientist
Education: Bachelor’s degree from an accredited college/university in science, engineering, or other relevant subject
Experience: A minimum of five years of relevant experience
Functional Responsibilities: Provides support on projects that require a higher level of expertise and experience than the other two engineer/scientist positions (described below).

Engineer/Scientist
Education: Bachelor’s degree from an accredited college/university in science, engineering, or other relevant subject
Experience: A minimum of two years of relevant experience
Functional Responsibilities: Provides support on projects that require mid-level expertise and experience.
Junior Engineer/Scientist

Education: Bachelor’s degree from an accredited college/university in science, engineering, or other relevant subject

Experience: No experience required as this is an entry-level position. Training prior to performance of tasks will be provided as required.

Functional Responsibilities: Provides support on projects that require an entry level of expertise and experience.

Certified Industrial Hygienist

Education: Bachelor’s degree from an accredited college/university in science or engineering, Industrial Hygienist certification from the American Board of Industrial Hygienists

Experience: A minimum of five years of relevant experience

Functional Responsibilities: Provides certified industrial hygiene support on programs/projects to include conducting activity hazard analyses; developing program and site specific health and safety plans; providing safety and industrial hygiene-related training to employees; performing periodic safety surveys and audits; and conducting or supervising complex industrial hygiene projects.

Clerical

Education: High school diploma or equivalent from an accredited high school

Experience: A minimum of two years relevant experience

Functional Responsibilities: Provides administrative and clerical support on programs and projects such collecting, coding, copying and filing documents; editing and formatting electronic files; operating basic office equipment; and other daily office tasks.

Site Supervisor

Education: Associate’s degree from an accredited college/university

Experience: A minimum of five years of relevant experience

Functional Responsibilities: Oversees the execution of project field tasks such as sampling, monitoring, and restoration activities. This includes day-to-day supervision of on-site employees; monitoring project performance and compliance with all contractual requirements; and reporting progress on regular basis to program/project management.
**Technician**

**Education:** High school diploma or equivalent from an accredited high school and certifications and formal training as required on projects

**Experience:** No experience required. Training prior to performance of tasks will be provided as required.

**Functional Responsibilities:** Performs technical work under the direction of senior or project management staff to include collecting samples; conducting and documenting the results of tests; operating basic field and diagnostic equipment; and other related technical tasks.

**Note**

For the above positions having educational requirements, relevant experience may be substituted for education beyond a high school diploma based on two years of additional experience for one year of education.
