"The Service Contract Labor Standards, formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (**) in this pricelist are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide)." per the Multiple Award Schedule Solicitation.
ORGANIZATION

SSFM International is a Hawaii-based, minority-owned business founded in 1959, incorporated in the State of Hawaii in 1961, and 100% employee owned. With a current staffing of approximately 160 professional managers, planners, engineers, architects and technicians, SSFM provides professional services for program development, project management, planning, civil engineering, structural engineering, traffic engineering, and construction management assignments in the State of Hawaii and the Pacific Region. In addition to the headquarters office in Honolulu, SSFM has offices on the islands of Hawaii, Maui, and Kauai, as well as in Guam, Okinawa (Japan), and Manila (Republic of the Philippines).

With offices on all major Hawaiian Islands and in other strategic locations in Asia, our comfort and familiarity with the environment and cultures in the Pacific Rim including our past experience with addressing project delivery needs in these locations is a distinct asset for our clients.

SSFM was founded in the Hawaiian Islands and practices throughout the Asia-Pacific region, but we never stray from our roots. The uniqueness of our islands permeates our culture and is embodied in every aspect of how we conduct our business. This same culture and spirit fosters the special bond between our people, our clients, and our communities. We commit to bringing a common mindset, proven processes and honed management skills to this construction management services contract.

OUR CORE VALUES

Progressive | Integrity | Nurturing | Client-Focused
**Principal**

**Minimum/General Experience:** Must have a minimum of fifteen (15) years of experience in project management or construction management including supervisory or management experience.

**Minimum Education:** Bachelor’s Degree.

**Certification:** Certified Construction Manager.

Senior level position with the responsibility of ensuring the firm’s ability to deliver quality services in a timely and efficient manner. Responsible for managing multiple projects or one that is significant in size, budget or complexity. Serves as an in-house expert in managing construction.

**Senior Construction Manager**

**Minimum/General Experience:** Must have a minimum of fifteen (15) years of experience in construction management with a strong understanding of all phases of construction.

**Minimum Education:** Bachelor’s Degree.

**Certification:** Certified Construction Manager or Registered Professional Engineer.

Manages the project team. Makes pertinent recommendations to the client. Leads weekly OAC meetings. Reviews plans and specifications and if brought on early enough in the process, is able to review for constructability concerns without deviating from the General Contractors means and methods. By verifying if there are any conflicting issues prior to construction, changes orders and delays to the project are minimized.

**Construction Engineer**

**Minimum/General Experience:** Must have a minimum of ten (10) years of experience in construction with a strong understanding of all phases of construction.

**Minimum Education:** Bachelor’s Degree.

**Certification:** Certified Construction Manager or Registered Professional Engineer.

Manages the project schedule and budget and makes recommendations to the client. Reviews and monitors the Contractor’s work schedules; tracks and reviews construction costs. Monitors construction to ensure it is being completed according to contract documents. Reviews and processes certified payrolls. Receives and distributes RFI’s. Oversees the receipt and approval of operation and maintenance manuals. Coordinates pre-final and final inspections. Reviews and coordinates change orders. Oversees acceptance and performance testing.

**Senior Construction Inspector**

**Minimum/General Experience:** Must have a minimum of ten (10) years of experience in
construction inspection and related construction field work.

**Minimum Education:** High School Diploma

**Certification:** Hawaii Department of Transportation or equivalent certifications.

Coordinates all necessary and applicable construction activities and supervises all field inspection personnel as required to successfully complete the project pursuant to contract obligations, which includes maintaining the highest quality, documenting all trade and field personnel, and administering good construction safety practices with all on-site activities. Reviews inspectors’ reports. Quickly and timely verifies any issues in the field with the Engineer.

---

**Construction Inspector**

**Minimum/General Experience:** Must have a minimum of five (5) years of experience in construction inspection and related construction field work.

**Minimum Education:** High School Diploma

**Certification:** Hawaii Department of Transportation or equivalent certifications.

Verifies that construction meets the plans and specifications. Documents on-site occurrences in the daily reports with written and photo documentation. Informs the Senior Inspector of non-compliance issues and other problems encountered on the project site.

---

**Senior Project Coordinator**

**Minimum/General Experience:** Must have a minimum of five (5) years of experience in project administration and general administrative.

**Minimum Education:** High School Diploma and Associates Degree

**Certification:** None

Provides support to the Construction Manager or Engineer. Assists in the preparation of proposals, scopes of work and submittal packages. Maintains a tracking log for shop drawings, submittals and other contractual documents. Facilitates meeting schedules and attendance. Assists in data collection and reporting. Maintains project files.

---

**Senior Clerical**

**Minimum/General Experience:** Must have a minimum three (3) years of experience in general administrative duties.

**Minimum Education:** High School Diploma

**Certification:** None

Under the direct supervision of the Construction Manager or Engineer, this position performs entry level project coordination support functions for their assigned groups. Assists managers in data coordination, compilation of information from a wide variety of source materials and documents for the end client needs. Maintains project files and folders in accordance with established standards and procedures or to the client’s requirements and needs.
