Service Contract Act: The Service Contract Labor Standards (SCLS) is applicable to this contract as it applies to the entire Multiple Award Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS eligible labor categories. If and/or when the contractor adds SCLS labor categories/employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
Management Consulting and Administrative Services

Program Director
Minimum/General Experience:
Ten (10) to Twenty (20) years of experience performing non-routine functional activities by providing leadership, management and technical direction to all program and project personnel. Exercises leadership and independent judgment, as well as a high level of analytical skill, in solving non-routine technical, administrative and managerial problems. Responsible for all aspects of program performance and assists in the overall direction to all project-level activities and personnel.

Functional Responsibility:
Is responsible for managing all aspects of program performance (i.e. technical, contractual, administrative, financial). Supervises personnel involved in all aspects of project activity, organizes and assigns responsibilities to subordinates, oversees the successful completion of all assigned tasks, establishes and maintains technical and financial reports to show progress to division management and customers, and maintains customer contacts to ensure conformity to all contractual obligations. Responsible for strategic, business and action planning in support of the entire scope of the tasked consulting services’ requirement area.

Minimum Education:
Master’s Degree in a technical discipline. Bachelor’s Degree and at Twenty-One (21) years of applicable experience may be substituted for degree requirements.

Project Director
Minimum/General Experience:
Eight (8) to Fifteen (15) years of experience providing management and technical direction of multiple complex projects to project personnel. Must be familiar with the principles of exercising independent judgment, as well as a high level of analytical skill, in solving complex and unusual technical, administrative and managerial problems. Provides overall direction of project activities.

Functional Responsibility:
Under limited supervision, responsible for all aspects of performance (i.e. technical, contractual, administrative, financial) of a project or set of projects within an overall program. Consults with the customer to ensure conformity to contractual obligations, establishes and maintains technical and financial reports to show progress of projects to management and customers, organizes and assigns responsibilities to subordinates, oversees the successful completion of all assigned tasks, and assumes the initiative and provides support to marketing personnel in identifying and acquiring potential business.

Minimum Education:
Bachelor’s Degree. Sixteen (16) years of applicable experience may be substituted for degree requirements.
Project Manager  
Minimum/General Experience:  
Six (6) to Thirteen (13) years of experience performing complex functional activities of the project by providing management and technical direction to personnel focusing on a particular project within a set of projects supporting an overall program. Under limited supervision, responsible for specific aspects of project performance (i.e. technical, contractual, administrative, financial). Manages and supervises personnel involved in all aspects of project activity, organizes and assigns responsibilities to subordinates and oversees the successful completion of all assigned tasks.

Functional Responsibility:  
Under limited supervision, responsible for specific aspects of project performance (i.e. technical, contractual, administrative, financial) of a specific project as part of a larger program effort. Consults with the customer to ensure conformity to contractual obligations, establishes and maintains technical and financial reports to show progress of projects to management and customers, organizes and assigns responsibilities to subordinates, oversees the successful completion of all assigned tasks, and assumes the initiative and provides support to marketing personnel in identifying and acquiring potential business.

Minimum Education:  
Bachelor’s Degree. Fourteen (14) years of applicable experience may be substituted for degree requirements.

Executive Consulting Scientist  
Minimum/General Experience:  
Eleven (11) to Fifteen (15) years work experience in a scientific or engineering field related to the consulting services’ requirement area. Perform logical analysis of complex scientific, engineering and other technical problems and formulate solutions.

Functional Responsibility:  
Supervises the performance of technical tasks associated with a management, organization or general business process environment. Will usually function as the lead systems analyst on an effort and performs the technical interface between the customer’s management and leadership and the supporting project teams. Establishes the targets and goals for setting performance standards, measures and indicators, identifies the needs for process and productivity improvements, and designs organization assessment efforts.

Minimum Education:  
Master’s Degree in a technical, engineering or scientific field. Bachelor’s Degree and Sixteen (16) years of applicable experience may be substituted for degree requirements.

Senior Consulting Scientist  
Minimum/General Experience:  
Six (6) to Ten (10) years work experience in a scientific or engineering field related to the consulting services’ requirement area. Perform logical analysis of advanced scientific, engineering and other technical problems and formulate solutions.

Functional Responsibility:  
Works under minimal supervision in the performance of technical tasks associated with a management, organization or general business process environment. Will usually function as the lead systems analyst on an effort, and may train and assist less-experienced personnel, as is required. Provides guidance on system alignment and sets standards for program audits and evaluations.

Minimum Education:  
Bachelor’s Degree in a technical, engineering or scientific field. Eleven (11) years of applicable experience may be substituted for degree requirements.
Strategic Planning Specialist III
Minimum/General Experience:
Eleven (11) to Fifteen (15) years experience. Supports Senior Management with expert analysis and strategic business planning of consulting services’ requirement area operating procedures and workflow. Will advise of most efficient methods of accomplishing consulting services’ requirement area objectives and deliverables based on specific area of expertise.

Functional Responsibility:
Along with the executive leadership of the contracting agency, takes the strategic perspective in developing organizational business plans. Works under minimal supervision in the performance of all technical tasks associated with a management, organization, or general business process environment. Responsible for establishing overall strategic planning goals, objectives, and strategies to meet the needs of the consulting services’ requirement area and developing performance metrics to measure the progress and accomplishment of those strategic business elements. Usually functions as the lead systems analyst on an effort, and may train and assist less-experienced personnel, as is required.

Minimum Education:
Master’s Degree. Bachelor’s degree and Sixteen (16) years of applicable experience may be substituted for degree requirements.

Strategic Planning Specialist II
Minimum/General Experience:
Six (6) to Ten (10) years experience. Supports Senior Management with in-depth analysis and strategic business planning of consulting services’ requirement area operating procedures and workflow. Will advise of most efficient methods of accomplishing consulting services’ requirement area objectives and deliverables based on specific area of expertise.

Functional Responsibility:
Works under nominal project supervision in the performance of all technical tasks associated with a management, organization, or general business process environment. Will usually function as a member of a team of systems analyst on an effort, and may train and assist less-experienced personnel, as is required. Responsible for supporting the development of the details of strategic planning goals, objectives, and strategies to meet the needs of the consulting services’ requirement are and performing trend analysis on performance metrics to identify strategic business element progress and potential problem areas.

Minimum Education:
Bachelor’s Degree. Eleven (11) years of applicable experience may be substituted for degree requirements.

Strategic Planning Specialist I
Minimum/General Experience:
Five (5) years experience. Supports Senior Management with professional analysis and strategic business planning of consulting services’ requirement area operating procedures and workflow. Will advise of most efficient methods of accomplishing consulting services’ requirement area objectives and deliverables based on specific area of expertise.

Functional Responsibility:
Works on the tactical aspects of strategic business planning. Works under normal project supervision in the performance of specific technical tasks associated with a management, organization, or general business process environment. Will usually function as a member of a team of systems analysts on an effort. Responsible for gathering performance metrics data that support measurement of progress towards the strategic planning goals, objectives, and strategies. Supports the development of strategic planning goals, objectives, and strategies and develops the tactics to accomplish those strategic business elements.

Minimum Education:
Bachelor’s Degree. Six (6) years of applicable experience may be substituted for degree requirements.
Jr. Systems Analyst
Minimum/General Experience:
Zero (0) to Five (5) years experience.

Functional Responsibility:
Reviews and analyzes programming systems under supervision. Documents current operating procedures and programming objectives. Relies on instructions and pre-established guidelines to perform the functions of the job. Works under immediate supervision. Job functions do not require exercising independent judgment. Typically works in a team environment.

Minimum Education:
Requires a Bachelor’s Degree.

Project Coordinator II
Minimum/General Experience:
Four (4) to Six (6) years of experience supporting project teams.

Functional Responsibility:
Supports project teams and project lead by facilitating logistics such as meetings, conference rooms, conference calls, etc. including presentations and tracking action items.
