Company Profile

Spectrum Center Government Services, LLC is a woman owned small business offering services in spectrum management, spectrum engineering as well as commercial-off-the-shelf (COTS) software solutions. Spectrum Center leverages the specific experience necessary to aid in strategy development and implementation wherein research, evaluations, and studies are conducted to ensure each project is tailored to their unique goals and objectives. Spectrum Center prides itself on placing client satisfaction at the forefront of each project, which often means creating innovative technological solutions to multi-faceted problems.

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply.

Radio Frequency Engineer II, $83.25

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided.

Please See Page 6

25. Notification regarding registration in System for Award Management (SAM) database: Spectrum Center Government Services, LLC maintains an accurate and complete SAM registration.

Labor Category Descriptions

Subject Matter Expert (SME) I
Possesses extensive experience in a spectrum management and/or radio frequency (RF) discipline such as spectrum monitoring; propagation; RF coverage, interference, and optimization analyses; frequency assignment; spectrum reallocation (e.g., AWS-3); and spectrum policy/regulation/procedures. Meets with client regularly to discuss performance, propose initiatives, and establish priorities. Utilizes functional and/or subject matter area expertise gained through direct industry experience to assess the organizational, operational, and functional baseline for clients. Works with senior officials and executives to provide industry vision and strategic direction with regard to their enterprise. May serve as an expert to assist agencies in determining and engage a wide range of stakeholders. Guides the determination of systems, mission engineering, and business process inadequacies and deficiencies that affect the
functional area’s ability to support/meet organizational threats. Participates in strategy sessions, strategic assessments, and design reviews to validate enterprise approach and associated work products. Provides expert consulting and advisory expertise in the areas of organizational and vulnerability assessments, intelligence and threat analysis, and resolution of highly complex project and problems. Is recognized for strong expertise and recognition in determining industry issues and trends.

Service Contract Labor Standards Statement

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Multiple Award Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS eligible labor categories. If and/or when the contractor adds SCLS labor categories/employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
