Service Contract Labor Standards (SCLS) Act: The Service Contract Labor Standards (SCLS) Act is applicable to this contract as it applies to the entire Multiple Award Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCLS eligible labor categories. If and/or when the contractor adds SCLS labor categories / employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.

Labor Category Descriptions:

Actuarial Analyst/Statistician
Reviews the financial components of the risk management program and certifies that they will produce the desired outcome. Measures risk related to agricultural commodities. Performs high level actuarial analyses and project review. Compiles reports, charts based on established statistical methods. Provides guidance on technical issues and performs statistical analyses.
Experience: A minimum of six (6) years of related work experience. A minimum of two (2) years must be specialized in crop insurance or comparable commodities or numerical modeling or actuarial analysis.
Education: A doctorate degree in a related discipline.
Analyst
Performs work requiring judgment in evaluation, selection, and substantial adaptation and modification of standard methods, techniques, procedures, and criteria related to assigned projects. Devises approaches to problems encountered. Requires sufficient professional experience to assure competence as a fully trained worker. Performs majority of assignments with instructions as to the general results expected. Receives technical guidance on unusual or complex problems and supervisory approval on proposed plans for projects. Plans, schedules, conducts, or coordinates phases of the technical work. Performs work that involves conventional analysis practices but may include a variety of more complex features. Work requires a broad knowledge of precedents, experience, and a working knowledge of related principles and practices.
Experience: A minimum of five (5) years of related work experience. A minimum of three (3) must be specialized in analytics.
Education: A master’s degree in a related discipline.

Intermediate Software Programmer
Under general supervision of the Senior Software Programmer or the Project Director, is proficient in writing queries and stored procedures in SQL Server; utilizes extensive C# / VB.NET programming knowledge on a regular basis; understands and applies OOP principles and best practices; utilizes a firm understanding of the fundamentals of ASP.NET, CSS, and JavaScript on a daily basis; and assists in creation of architectural designs.
Experience: A minimum of two (2) years of related work experience.
Education: A bachelor's degree in a related discipline.

Lead Underwriter
Certifies that the risk management components are compatible, and that the system is in place to properly underwrite the proposed risk management program. Analyzes risk management related to agricultural programs.
Experience: A minimum of ten (10) years of related work experience. A minimum of seven (7) years must be specialized in underwriting or agricultural risk management.
Education: A bachelor's degree in a related discipline.

Principal Investigator
Makes decisions and recommendations that are recognized as authoritative and have a far-reaching impact on projects and related activities. Negotiates critical and controversial issues with top level scientists and managers. Demonstrates a high degree of creativity, foresight, and mature judgment in planning, organizing, and guiding extensive technical programs and activities of outstanding novelty and importance. Provides general administrative direction in a supervisory capacity, is responsible for a very extensive and highly diversified technical program. Decides the type and extent of scientific and related programs needed to accomplish the objectives of the overall program, selects technical approaches, plans and organizes facilities and programs, and interprets results.
Experience: A minimum of ten (10) years of related work experience.
Education: A doctorate degree in a related discipline.
**Project Director**
Plans and executes multi-disciplinary programs involving multiple projects or task orders. Develops work plans and schedules, ensures that work and quality standards are met, and resolves discrepancies to ensure that technical solutions and schedules are implemented within estimated time frames and budget constraints.

**Experience:** A minimum of ten (10) years of experience related to project director responsibility. A minimum of one (1) year of specialized experience related to legislative authority and regulations, private reinsurance systems, and/or agricultural issues.

**Education:** A bachelor's degree in a related discipline.

---

**Project Manager**
Works under general supervision of the Project Director or high-level company management. Is responsible for the management of a specific task, or for a particular portion of a larger, more complex project. Is fully knowledgeable of all aspects of the technical areas involved in the assigned project.

Performs studies, analyses, and tests on projects or tasks that involve conventional plans, investigations, analyses, etc. Receives overall instructions on specific assignment objectives, features, or possible solutions. Assistance is furnished on unusual problems and work is reviewed for application of sound professional judgment.

**Experience:** A minimum of three (3) years of related work experience. A minimum of 1 year must be specialized.

**Education:** A bachelor's degree in a related discipline.

---

**Research Analyst**
Performs routine assignments requiring application of standard techniques, procedures, and criteria in carrying out a sequence of analytical tasks. Limited exercise of judgment is required on details of work and in making preliminary selections and adaptions or alternatives. Requires work experiences acquired in an entry level position, or appropriate graduate level study. Supervisor screens assignments for unusual or difficult problems and selects techniques, applications, and procedures to be applied on non-routine work. Receives close supervision on new aspects of assignments. Using prescribed methods, performs specific and limited portions of a broader assignment of an experienced analyst, engineer, or scientist. Applies standard practices and techniques in specific situations, adjusts and correlates data, recognizes discrepancies in results, and follows operations through a series of related detailed steps or processes.

**Experience:** A minimum of two (2) years of related work experience. A minimum of one (1) year must be specialized in analytics.

**Education:** A bachelor's degree in a related discipline.

---

**Senior Policy Analyst**
Applies intensive and diversified knowledge of analytical or scientific methods, principles and practices in broad areas of assignments and related fields. Make decisions independently on problems and methods and interfaces with counterparts to resolve important questions and to plan and coordinate analysis tasks. Requires the use of advanced analytical techniques and the modification and extension of theories, precepts, and practices of the field, as well as those in related sciences and disciplines.

**Experience:** A minimum of eight (8) years of related work experience. A minimum of five (5) years must be specialized in analytics.

**Education:** A master’s degree in a related discipline.
Senior Software Programmer
Under general supervision of the Project Director, is proficient in writing queries and stored procedures in SQL Server; utilizes extensive C# / VB.NET programming knowledge on a regular basis; understands and applies OOP principles and best practices; utilizes a firm understanding of the fundamentals of ASP.NET, CSS, and JavaScript on a daily basis; and assists in creation of architectural designs. May also supervise intermediate software developer or software development team.
Experience: A minimum of four (4) years of related work experience.
Education: A bachelor's degree in a related discipline.

Senior Underwriter
Certifies that the risk management components are compatible, and that the system is in place to properly underwrite the proposed risk management program.
Experience: A minimum of eight (8) years of related work experience. A minimum of five (5) years must be specialized in underwriting or agricultural risk management.
Education: A bachelor's degree in a related discipline.

Subject Matter Expert/Senior Analyst
Provides expert advice or assistance, evaluation of subject, project, reviews, analyses, training, and interpretation of subject matter that reflects detailed, expert knowledge. Develops requirements for multiple and complex client engagements. Performs complex analyses and studies to define new processes. Develops standards, policies, and guidelines to ensure compatibility with federal regulations. Evaluates investment, efficiencies, and practicality of agriculture approach/strategy. Initiates, supervises, or provides strategic advice, detailed analysis, and recommendations for improvements for challenges or problems.
Experience: A minimum of ten (10) years of related work experience.
Education: A doctorate degree in a related discipline.

Technical Editor
Under general supervision, edits and rewrites on-line and hard copy documents for grammatical, syntactical, and usage errors; spelling; punctuation; and adherence to standards, including consistency, format, and presentation. Proofreads documentation and graphics for accuracy and adherence to original content, provides quality control checking for documents received from photocopying and word processing; assembles master copies, including graphics, appendices, table of contents, and title pages, assists in scheduling printing, copying, and graphics with vendors. Obtains quotes and determines best prices to achieve quality documents. Assists in determining level of effort required for incoming documents, assists in document tracking and logging, and consults with technical staff to determine format, contents, and the organization of technical reports and proposals.
Experience: A minimum of two (2) years of related work experience.
Education: A bachelor’s degree in a related discipline.

Training Specialist I
Organizes and conducts moderately complex training and educational programs for agricultural producers, risk managers, risk advisors, and other risk professionals. Maintains records of training activities, student progress, and program effectiveness. Organizes and structures computer-based training programs and maintains configuration control of training media.
Experience: A minimum of three (3) years of related work experience. A minimum of one (1) year must be specialized in risk management or training development.
Education: A bachelor’s degree in a related discipline.
Training Specialist II
Evaluates customer requirements and analyzes program complexity to develop training requirements. Develops and conducts technical training and educational programs of a complex nature related to specific customer requirements. Creates teaching outlines where established guidelines may not exist. Selects and/or develops instructional aids, such as handouts, reference materials, or audio/visual supports. Maintains records and statistical information on employee training; monitors training program by reviewing and analyzing student course evaluations. Makes recommendations to management on course improvement and customer training needs. Plans training programs for customer employees in accordance with the agency/corporate training instruction/policy. Experience in hands-on training techniques and computer-based training. Provides training to more junior training specialists and instructors. Supervises enterprise-wide training.

Experience: A minimum of seven (7) years of related work experience. A minimum of three (3) years must be specialized in risk management or training development.

Education: A bachelor’s degree in a related discipline.

Educational Substitution:

In any case where a Doctorate Degree is specified below, 8 years of equivalent experience may be substituted, for a Master’s Degree, 6 years equivalent experience may be substituted; for a Bachelor’s Degree, 4 years equivalent experience may be substituted; and for an Associate’s Degree, two years equivalent experience may be substituted.

Experience Substitution: 8 years of equivalent experience may be substituted for a Doctorate Degree, 6 years equivalent experience may be substituted for a Master’s Degree, 4 years equivalent experience may be substituted for a Bachelor’s Degree, two years equivalent experience may be substituted for an Associate’s Degree.
