**Service Contract Labor Standards:** The Service Contract Labor Standards (SCLS), formerly known as the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Multiple Award Schedule (MAS) and all services provided. While no specific labor categories have been identified as being subject to SCLS/SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS/SCA eligible labor categories. If and / or when the contractor adds SCLS/SCA labor categories to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS/SCA matrix identifying the GSA labor category titles, the occupational code, SCLS/SCA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
LABOR CATEGORY DESCRIPTIONS

ADMINISTRATIVE ASSISTANT II
Duties: Operates office systems, implementing corporate administrative procedures and policies. Performs clerical functions such as preparing correspondence, invoices, purchase orders and filing documents. Receives visitors, schedules meetings and other corporate functions. Prepares travel authorizations and itineraries for company employees; prepares travel reports and reimbursements upon completion of travel. May supervise other administrative staff.

Experience / Qualifications: High School diploma, equivalency or technical school training is required. Five (5) years’ experience as an administrative assistant / office management role. Knowledge of administrative / clerical procedures and systems such as word processing, office automation software, managing files and records, stenography and transcription, designing forms, and other office procedures. Must have the ability to use Microsoft Office programs and other clerical programs. May require a security clearance.

TASK / PROJECT MANAGER II
Duties: Serve as contract manager and representative authorized to interface with client, the Government Contracting Officer (CO), Government Contracting Officer’s Representative (COR), Government Program Manager, and customer agency representatives. Responsible for formulating and enforcing work standards, assigning schedules, reviewing work discrepancies, supervising personnel and communicating policies, purposes, and goals of the organization to subordinate personnel. Responsible for overall program performance. Manage support team of operational, technical and administrative personnel across all elements of the program. Provide monthly status reports to responsible corporate and government personnel, to include Government Program Manager and/or Government COR. Provide corporate staff with status of contract or task order performance, budgets and schedules. Coordinate program reviews including the provision of facilities and equipment, developing agendas, preparing correspondence, and publishing meeting results. Develops proposals, costing models, estimates, draft technical proposals and attends meetings / conferences in pursuit of business development. Ability and willingness to deploy and travel independently worldwide.

Experience / Qualifications: Must have a relevant Bachelor degree with Masters preferred. Should have at least ten (10) or more years of relevant leadership and program manager experience with Department of Defense or other government agencies. Demonstrated experience should include capability to lead project development from inception to completion, expertise in management and control of funds and resources using complex reporting mechanisms which may be defined by client requirements. Demonstrated capability to manage multi-task contracts and/or subcontracts of various types and complexity. Professional certification (PMP) is desired. Requires the ability to hold security clearance up to TS/SCI with polygraphs as required.

AVIATION SUBJECT MATTER EXPERT II - PILOT
Duties: Serves as pilot in command / copilot for instructional, training and operational flights. Supervises and trains junior pilots and crewmembers. Conducts flight planning, mission planning and passenger briefings as required. May be required to coordinate aircraft / crew / equipment availability and schedules with operations / dispatch personnel as well as maintenance technicians. May be required to provide first line servicing including fueling, daily inspections and other minor maintenance actions not requiring A & P certification. Ability and willingness to deploy and travel independently worldwide, while operating from austere locations with limited infrastructure may be required.
Experience / Qualifications: High School diploma is required, Associate or Bachelor degree is desired. Must have five years’ experience as a pilot and possess 1500 hours as pilot in command. Must possess both single and multi-engine ratings. Must possess instrument rating. Air Transport Pilot rating is desired. Certified Flight Instructor or former military flight instructor experience is desired. Model specific initial or recurrent instruction or type ratings may be required. Must meet applicable Federal Aviation Administration (FAA) aviation medical requirements for Class 1 / 2 / 3 medical as required. Experience as a military pilot in command of fixed / rotary wing aircraft is desired. Experience supporting Special Operations Forces is desired. Additional qualifications such as Night Vision Device Instructor, Crew Resource Management Instructor, Forward Air Controller (Airborne) and Safety School graduate may be required. Requires the ability to hold security clearance up to TS/SCI with polygraphs as required.

AVIATION SUBJECT MATTER EXPERT III - SENSOR OPERATOR

Duties: Operates integrated sensor suites associated with COTS, developmental or experimental detection & monitoring equipment, including radar, electro-optical, infrared or other sensor systems as required from diverse airborne platforms. Detects and tracks targets and points of interest based on intelligence sources, cueing from off board sensors / architectures or from deliberate search patterns. Using voice and electronic communication systems provides situational awareness and situation updates to crewmembers, other air / ground assets or command and control nodes as required. May be required to provide first line servicing for sensor and communication systems. Ability and willingness to deploy and travel independently worldwide, while operating from austere locations with limited infrastructure may be required.

Experience / Qualifications: Bachelor degree is desired. Must have a minimum of 1000 hours of flight time in military fixed and/or rotary wing aircraft, unmanned aircraft or commercial aircraft providing ISR support to DoD / other government agencies. In depth experience supporting Special Operations Forces and intimate understanding of SOF tactics, techniques and procedures is required. Five (5) years’ experience operating detection and monitoring equipment as listed above is required. Experience providing ISR support to theatre and national SOF during operations in Iraq, Afghanistan is desired. Designation as a Mission Commander on military fixed / rotary wing aircraft is required. Requires the ability to hold security clearance up to TS/SCI with polygraphs as required.

AVIATION SUBJECT MATTER EXPERT II – LNO

Duties: Coordinates with DoD and other government agencies to develop realistic training for military, government and law enforcement personnel. Develops computer based, classroom, lab or practical application training materials and courseware. Provides field training, exercise planning / support and training system analysis and reporting. Participates in exercise planning for scenario scripting and resource requirements definition. Serves as a liaison between contractor and client providing subject matter expertise during conduct of exercises. Ability and willingness to deploy and travel independently worldwide, while operating from austere locations with limited infrastructure may be required.

Experience / Qualifications: High School diploma or equivalency is required, Bachelor degree is preferred for duties involving courseware development. Ten (10) years of relevant training experience is required. Formal designations such as Master Training Specialist and military / law enforcement training may be required to meet specific client requirements. Experience with Special Operations, Marksman/Sniper, ISR, Strike-fighter aviation, Explosive Ordnance Disposal and Joint Terminal Attack Controller (JTAC) training may be required for specific task orders / contracts. May require a security clearance.
AVIATION MAINTENANCE TECHNICIAN III  
**Duties:** Manages the operational readiness of one or more fixed, rotary wing or unmanned aircraft. Provides detailed technical oversight of mission capabilities, projection of maintenance requirements and schedules maintenance actions in accordance with manufacturer or US Government publications and programs. Functions in support of programs essential to daily operations, training, and readiness missions. Manages, monitors or performs overall maintenance, servicing, inspections and documentation for one or more highly technical, high performance military or civil aircraft. Diagnoses and solves malfunctions of aircraft systems and components utilizing a wide variety of complex diagnostic equipment, computerized systems and printed publications. Services airframe, power plant, electrical, hydraulic and life support systems as required. Directs and trains junior personnel. Ability and willingness to deploy and travel independently worldwide, while operating from austere locations with limited infrastructure may be required.  
**Experience / Qualifications:** High school diploma or equivalency is required. FAA A&P certificate required. IA certificate desired. Model specific or formal training for specific aircraft may be required. Five (5) years’ experience as a maintenance technician with military training and experience preferred. May be required to hold a security clearance.
