**Labor Category Pricing**

**Labor Position Descriptions**

**SME/Supervisory Scientist**

Minimum Year Experience: 10
Minimum Education: PhD

Responsibilities: The SME/Supervisory Scientist will have participated in epidemiology studies and will have published at least three articles in peer-reviewed publications. The SME/Supervisory Scientist must have a working familiarity with national and international organizations that sponsor epidemiologic research and provide health risk assessment literature. These include the Centers for Disease Control, the National Institutes of Health, the U.S. Environmental Protection Agency, and the World Health Organization. The SME/Supervisory Scientist will have participated in scientific meetings including the
presentation of epidemiologic study results. The SME/Supervisory Scientist will have experience in the supervision and guidance of epidemiologic studies or assessments.

**Senior Scientist**

Minimum Year Experience: 10
Minimum Education: Masters in Science or a related field
Responsibilities: The Senior Scientist will be either a Senior Scientist or statistician. The Senior Scientist has a record of publications in peer-reviewed journals and at least ten years of experience. The Senior Scientist can review complex studies and summarize the information. The Senior Scientist has a working knowledge of various types of toxicological studies including dermal toxicity studies, inhalation studies, and feeding studies. The Senior Scientist can use benchmark dose approach for quantitative assessment of toxicological data. The Senior Scientist can evaluate complex statistical formulae and is familiar with various types of statistical programs such as SAS and R and different types of models such as Poisson, proportional hazards, and log-linear models.

**Staff Scientist II**

Minimum Year Experience: 5
Minimum Education: Masters in Science or a related field
Responsibilities: The Staff Scientist II will be familiar with epidemiological statistical programs such as EpiStat and SAS and will understand the various types of epidemiological studies and the limitations/advantages of each. The Staff Scientist II individual may be called on to conduct epidemiological studies, including assisting in the design of such studies. The Staff Scientist II may also be called on to analyze individual epidemiologic studies and/or groups of studies and summarize the meaning of such studies. The Staff Scientist II must be familiar with literature searching and methods to retrieve scientific literature. The Staff Scientist II must be able to work in a group with other Staff Scientists.

**Staff Scientist**

Minimum Year Experience: 5
Minimum Education: BA in Science or related field
Responsibilities: The Staff Scientist will be either a Staff Scientist or statistician. The Staff Scientist can assist in the review of complex studies and help summarize the information. The Staff Scientist has a working knowledge of various types of toxicological studies including dermal toxicity studies, inhalation studies, and feeding studies. The Staff Scientist can use benchmark dose approach for quantitative assessment of toxicological data. The statistician can evaluate complex statistical formulae.

**Service Contract Labor Standards:** The Service Contract Labor Standards (SCLS) is applicable to this contract as it applies to the entire Multiple Award Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for
SCLS eligible labor categories. If and / or when the contractor adds SCLS labor categories / employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
