1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. N/A

1c. If the Contractor is proposing hourly rates a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item. See labor category descriptions and hourly rates

2. Maximum Order: $1,000,000.00

3. Minimum Order: $100.00

4. Geographic Coverage (delivery Area): Domestic and Overseas

5. Point(s) of production (city, county, and state or foreign country): Same as company address

6. Discount from list prices or statement of net price: Government net prices (discounts already deducted).

7. Quantity discounts: None

8. Prompt payment terms: Net 30

9a. Notification that Government purchase cards are accepted up to the micro-purchase threshold: Yes

9b. Notification whether Government purchase cards are accepted or not accepted above the micro-purchase threshold: Yes

10. Foreign items (list items by country of origin): None
11a. Time of Delivery (Contractor insert number of days): TBD at Task Order Level

11b. Expedited Delivery. The Contractor will insert the sentence “Items available for expedited delivery are noted in this price list.” under this heading. The Contractor may use a symbol of its choosing to highlight items in its price list that have expedited delivery: Contact Contractor

11c. Overnight and 2-day delivery. The Contractor will indicate whether overnight and 2-day delivery are available. Also, the Contractor will indicate that the schedule customer may contact the Contractor for rates for overnight and 2-day delivery: Contact Contractor

11d. Urgent Requirements. The Contractor will note in its price list the “Urgent Requirements” clause of its contract and advise agencies that they can also contact the Contractor’s representative to effect a faster delivery: Contact Contractor

12. F.O.B Points(s): Destination

13a. Ordering Address(es): Same as Contractor

13b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s), and a sample BPA can be found at the GSA/FSS Schedule homepage (fss.gsa.gov/schedules).

14. Payment address(es): Same as company address

15. Warranty provision: Contractor’s standard commercial warranty.

16. Export Packing Charges (if applicable): N/A

17. Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level): Contact Contractor

18. Terms and conditions of rental, maintenance, and repair (if applicable): N/A

19. Terms and conditions of installation (if applicable): N/A

20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable): N/A

20a. Terms and conditions for any other services (if applicable): N/A

21. List of service and distribution points (if applicable): N/A

22. List of participating dealers (if applicable): N/A

23. Preventive maintenance (if applicable): N/A
24a. Environmental attributes, e.g., recycled content, energy efficiency, and/or reduced pollutants: N/A

24b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor’s website or other location.) The EIT standards can be found at: www.Section508.gov/.

25. Data Universal Numbering System (DUNS) number: 807900063

26. Contractor is registered in the System for Award Management (SAM) database.
Special Identification Number (SIN) Descriptions

899-1 Environmental Consulting Services

The services include, but are not limited to consultation in the areas of: Planning and Documentation Services for the development, planning, facilitation, coordination, and documentation of and/or for environmental initiatives (or mandates such as Executive Order 13693 in areas of chemical, radiological, and/or hazardous materials; ISO 14001 Environmental Management System (EMS) and sustainable performance measure development; Environmental Assessment (EA) and Environmental Impact Statement (EIS) preparation under the National Environmental Policy Act (NEPA); Endangered species, wetland, watershed, and other natural resource management plans; Archeological and/or cultural resource management plans; Environmental program and project management; Environmental regulation development; Climate change adaptation and resiliency planning and implementation support, including but not limited to, identifying climate risks and impacts; applying and interpreting climate and impact assessment model outputs; development and/or implementation of solutions to build climate resilience, reduce identified climate risks, and/or provide both climate change mitigation and adaptation benefits; climate decision support, risk management, and vulnerability assessments and analyses; and climate risk communications and training; Economic, technical and/or risk analysis; other environmentally related studies and/or consultations; Homeland Security solutions that include Biochemical protection; Crime prevention through environmental design surveys (CPTED); Economical, technical and/or risk analysis; Identification and mitigation of threats inclusive of protective measures to mitigate the threats; and Vulnerability assessments. Compliance Services such as review, audit, and implementation/management of EMS and other compliance and contingency plans and performance measures; Permitting; Spill prevention/control and countermeasure plans; Pollution prevention surveys; and Community Right to-Know Act reporting. Advisory Services for ongoing advice and assistance with data and information in support of agency environmental programs involving areas such as Hazardous material spills; Material safety data sheets (MSDS), Biological/medical data sheets; Information hotlines; Poison control hotlines; Environmental regulations and environmental policy/procedure updates; Management, furnishing, or inventory of MSDS. Waste Management Consulting Services to provide guidance in support of waste-related data collection, feasibility studies and risk analyses; Resource Conservation and Recovery Act/Comprehensive Environmental Response Compensation and Liability Act (RCRA/CERCLA) site investigations; Hazardous and/or non-hazardous exposure assessments; Waste characterization and source reduction studies; Review and recommendation of waste tracking or handling systems; Waste management plans and/or surveys; Waste minimization/pollution prevention initiatives; and Review of technologies and processes impacting waste management. Note: Services involving only the consulting portion of environmental remediation efforts are included under this SIN. Any actual remediation efforts are performed under SIN 899-8.

899-5 Materials and Waste Recycling and Disposal Services

Services include, but are not limited to: Management and oversight of Hazardous Material (HAZMAT) disposal operations, and management, oversight and recycling of universal waste (e.g., electronic equipment, batteries, cell phones, cathode ray tubes (CRTs), and compact fluorescent light bulbs (CFLs)). This includes reuse assessments and inventory, destruction, inventory transfer and/or disposal after compliance with GSA Office of Personal Property Management requirements outlined in Federal Management Regulations 101-42, 102-36, and 102-37 (as applicable). Examples of types of material...
waste services include, but are not limited to: Solid waste, industrial waste, mining waste, and oilfield waste (e.g., drill cuttings); Liquid waste (e.g., wastewater containing less than 1% solids); Excess inventory; Surplus inventory; Non-hazardous materials that pose no immediate threat to human health and the environment, excluding household waste (e.g., routine refuse collection and disposal); Hazardous materials and/or those that contain leachable toxic components; Plastics such as acrylic, nylon, high-density polyethylene (HDPE) and low-density polyethylene (LDPE); Confiscated materials; and Construction debris such as asphalt, drywall and/or metal. Note: Services offered under this SIN shall NOT include any association with construction services and/or the transportation and/or disposal of Special Waste such as radioactive and medical waste, and/or the disposal of discarded, unwanted material (e.g., office paper, newspaper, food waste, and beverage containers, cardboard and packing materials).

899-7 Geographic Information Systems (GIS) Services

Provides GIS services in support of environmental programs. Services include, but are not limited to: Creation/enforcement of environmental legislation; Cultural resource GIS (CRGIS); Environmental cost assessment; Environmental impact analyses; Environmental regulatory compliance; Groundwater monitoring; Growth forecast modeling; Habitat conservation plans; Habitat modeling; Image analysis support for emergency response; Mapping, Cartography, and Mashups (e.g., combining data from more than one source into a single integrated tool to include aerial mapping); Migration pattern analysis; Natural resource planning; Remote sensing for environmental studies; Terrestrial, marine, and/or atmospheric measuring/management; Vegetation mapping; and Watershed characterization for mitigation planning.

899-8 Remediation and Reclamation Services

Remediation services include, but are not limited to: Excavation, removal and disposal of hazardous waste; Site preparation, characterization, field investigation, conservation and closures; Wetland restoration; Emergency response clean up (ERC); Underground storage tank/above-ground storage tank (UST/AST) removal; Air monitoring; Soil vapor extraction; Stabilization/solidification, bio-venting, carbon absorption, reactive walls, containment, monitoring and/or reduction of hazardous waste sites, as well as unexploded ordnance removal; Remediation-related laboratory testing (e.g., biological, chemical, physical, pollution and soil testing). Reclamation services include, but are not limited to: Land (e.g., creating new land from sea or riverbeds and/or restoring areas to a more natural state, such as after pollution, desertification, or salination have made it unusable); and Water and refrigerant reclamation.

Note: Services offered under this SIN shall NOT include any remediation / transportation / disposal of radioactive waste, asbestos and/or paint abatement, radon mitigation, construction and architect-engineer services as set forth in FAR Part 36 (including construction, alteration or repair of buildings, structures, or other real property). Disposal services performed under SIN must be ancillary to remediation services performed.

This SIN does not include Davis-Bacon Act work as described in Federal Acquisition Regulation Subpart 22.4. Ordering Contracting Officers utilizing this SIN for environmental remediation projects/support must ensure the work being required is not covered by the Davis-Bacon Act prior to issuing a Request for Quotes (RFQ).

Ordering Contracting Officers are advised to consult with the Department of Labor and/or their Ordering
Agency Labor advisor (if applicable). Additionally, Ordering Contracting Officers should review the DOL Field Operations Handbook and the Davis-Bacon Desktop Guide, which are excellent online resources for researching whether the Davis-Bacon Act applies to a specific environmental remediation project.

**00CORP 500 Order-Level Materials (OLMs)**

Order-Level Materials (OLMs) are supplies and/or services acquired in direct support of an individual task or delivery order placed against a Federal Supply Schedule (FSS) contract or FSS blanket purchase agreement (BPA). OLMs are not defined, priced, or awarded at the FSS contract level. They are unknown before a task or delivery order is placed against the FSS contract or FSS BPA. OLMs are only authorized for inclusion at the order level under a Time-and-Materials (T&M) or Labor-Hour (LH) Contract Line Item Number (CLIN) and are subject to a Not To Exceed (NTE) ceiling price. OLMs include direct materials, subcontracts for supplies and incidental services for which there is not a labor category specified in the FSS contract, other direct costs (separate from those under ODC SINs), and indirect costs. OLMs are purchased under the authority of the FSS Program and are not "open market items."

Items awarded under ancillary supplies/services or other direct cost (ODC) SINs are not OLMs. These items are defined, priced, and awarded at the FSS contract level, whereas OLMs are unknown before an order is placed. Ancillary supplies/services and ODC SINs are for use under all order type CLINs (Fixed-Price (FP), T&M, and LH), whereas the Order-Level Materials SIN is only authorized for use under T&M and LH order CLINs.

The Order-Level Materials SIN is only authorized for use in direct support of another awarded SIN. Price analysis for OLMs is not conducted when awarding the FSS contract or FSS BPA; therefore, GSAR 538.270 and 538.271 do not apply to OLMs. OLMs are defined and priced at the ordering activity level in accordance with GSAR clause 552.238-82 Special Ordering Procedures for the Acquisition of Order-Level Materials. Prices for items provided under the Order-Level Materials SIN must be inclusive of the Industrial Funding Fee (IFF). The value of OLMs in a task or delivery order, or the cumulative value of OLMs in orders against an FSS BPA awarded under an FSS contract, cannot exceed 33.33%.
Labor Category Descriptions

PROGRAM MANAGER
Program Manager shall be responsible for the overall management of tasks performed under this contract and shall be the primary point-of-contact for overall contractual issues. The Offeror shall assign the proposed Program Manager upon award of the contract. He/she shall be responsible for ensuring that practical and effective systems are developed to meet the objectives of the action. The Program Manager shall also ensure that quality work is completed on schedule and within the allocated budget.

Minimum Education/Certification Level: Bachelors
Minimum Required Experience: 12 years

PROJECT MANAGER – LEVEL I
Project Manager - Level I facilitates and implements cost-effective management for all aspects of the project, including the development of project launch meetings, timelines, status reports, day-to-day management and the adherence to project budgets. Serves as the primary daily contact with clients for specific projects as assigned. Responsible for addressing client questions, feedback and proactively troubleshooting potential issues or concerns. Engages and effectively communicates with key leaders associated with the project initiatives. Works on project matters of considerable complexity.

Minimum Education/Certification Level: Bachelors
Minimum Required Experience: 10 years

PROJECT MANAGER – LEVEL II
Project Manager - Level II shall be responsible for the day to day execution of projects and is the single point of contact for administration, performance and technical aspects of each project. Responsibilities include carrying out site investigations, collecting, processing, and evaluating the off-site and on-site data, processing and interpretation of chemical, geographical, and geological data for preparing environmental reports and work plans accordingly. Coordinating with planning the project, providing technical assistance to project staff and program managers, and maintaining the project standards per the project scope. Works on project matters of moderate complexity.

Minimum Education/Certification Level: Bachelors
Minimum Required Experience: 8 years

PROJECT MANAGER – LEVEL III
Project Manager - Level III manages and oversees all aspects of the project to ensure it is completed on-time and within budget. Has overall responsibility for managing scope, cost, schedule, internal staffing, outside vendors, and contractual deliverable. Prepares reports for upper management regarding status of project. Works on project matters of limited complexity.

Minimum Education/Certification Level: Bachelors
Minimum Required Experience: 5 years

CORPORATE QC MANAGER
Plans, directs and coordinates quality assurance/quality control programs while developing, maintaining and ensuring compliance with QC policy and standards. Ensures the quality of deliverables and compliance with the project scope requirements. Reviews planning documents such as SAPs, UFP-QAPP and QC Plans, and perform QA/QC for project deliverables. Ensures all planning documents and reports
to meet client QC requirements. Monitors and conducts training of QC field staff, and ensures personnel are familiar with all QC policies. Reviews all final documents and deliverables.

**Minimum Education/Certification Level:** Bachelors

**Minimum Required Experience:** 10 years

**CORPORATE HEALTH & SAFETY MANAGER**

Development of Site Specific Health and Safety Plans (SSHP), Corporate Health and Safety Programs, and Accident Prevention Plans (APP). Development and implementation of confined space, exposure monitoring/industrial hygiene, personal protective equipment, hazard communication, respiratory protection, radiation, and other safety related programs. Conduct detailed field safety and health audits with an in-depth working knowledge of federal, state, and local occupational health and safety regulations. Implements contract health and safety programs in accordance with 29 CFR 1910, EM 385-1-1 and ER385-1-92.

**Minimum Education/Certification Level:** Bachelors

**Minimum Required Experience:** 10 years

**REGULATORY COMPLIANCE SPECIALIST**

Provides overall guidance to all technical disciplines regarding Federal, State and Local regulations associated with permitting hazardous waste classification, transportation and disposal of hazardous and non-hazardous materials, and evaluating manifests of materials taken off-site.

**Minimum Education/Certification Level:** Bachelors

**Minimum Required Experience:** 5 years

**CONTRACTS ADMINISTRATOR/PROCUREMENT SPECIALIST**

Preparing sales and purchase contracts. Negotiating contract terms with internal and external partners. Reviewing and updating existing contracts. Coordinate actions with internal procurement and legal teams if needed. Report status of current contract processes to management. Serve as a liaison between internal and external parties during contract development and negotiation stages. Maintain contracts documentation and reporting files.

**Minimum Education/Certification Level:** Bachelors

**Minimum Required Experience:** 5 years

**GEOLOGIST**

Responsible for the evaluation of all geologic calculations, evaluations and interpretation of geologic data. Primary author on all geologic aspects of work plans and reports. Oversees field activities associated with geologic investigations and evaluations.

**Minimum Education/Certification Level:** Bachelors

**Minimum Required Experience:** 3 years

**FIELD/JUNIOR GEOLOGIST**

Responsible for the evaluation of all geologic calculations, evaluations and interpretation of geologic data. Primary author on all geologic aspects of work plans and reports. Oversees field activities associated with geologic investigations and evaluations.

**Minimum Education/Certification Level:** Bachelors

**Minimum Required Experience:** 1 year
HYDROGEOLOGIST
Responsible for the evaluation of all hydrogeological calculations, evaluations and interpretation of hydrologic data. Primary author on all hydrogeological aspects of work plans and reports. Oversees field activities associated with hydrogeological investigations and evaluations.
Minimum Education/Certification Level: Bachelors
Minimum Required Experience: 3 years

ENVIRONMENTAL ENGINEER
Responsible for the evaluation of all engineering calculations, evaluations and interpretation of engineering data. Primary author on all engineering aspects of work plans and reports.
Minimum Education/Certification Level: Bachelors
Minimum Required Experience: 5 years

ENVIRONMENTAL SPECIALIST
Responsible for supporting environmental evaluations, assessments and interpretations of environmental data collected from field efforts.
Minimum Education/Certification Level: Bachelors
Minimum Required Experience: 3 years

FIELD TECHNICIAN**
Performs environmental project field related tasks such as groundwater sampling, soil and sediment sampling and general investigation tasks under the direction of an environmental scientist or environmental specialist.
Minimum Education/Certification Level: Associates
Minimum Required Experience: 2 years

CHEMIST
Chemist shall be responsible for developing, maintaining, and ensuring implementation of the quality assurance program as it pertains to sampling and chemical analyses. This responsibility includes oversight of field sampling and laboratory analyses, periodic reviews of the processes being implemented, evaluation of any recommendations made by the project team over the course of the program regarding use of these processes, and continuous improvement evaluations of the chemistry program.
Minimum Education/Certification Level: Bachelors
Minimum Required Experience: 3 years

SITE SUPERINTENDENT/SITE SAFETY AND HEALTH OFFICER (SSHO)
On-site responsibility to ensure safe work practices and "stop work" authority for any safety deficiency. Conducts daily health and safety meetings to document the necessary compliance with the day's activities.
Minimum Education/Certification Level: Associates
Minimum Required Experience: 4 years

CONTRACTOR/FIELD QUALITY CONTROL SUPERVISOR
On-site responsibility to ensure quality standards and work practices are met. Perform basic QC inspection operations while reviewing and refining all procedures in conjunction with the QC Manager (QCM). Assist QCM in general oversight staff of QC inspections, ensuring that all incoming, in-process,
and final inspections are being performed correctly and expeditiously. Clearly document and report any non-conformances to the QCM and initiate "Stop work" actions for any quality or safety deficiencies. Performs the 3-phase QC inspection process, and conducts field QC meetings to document the necessary compliance of QC standards and activities. Perform other QC duties as instructed by the QCM.

**Minimum Education/Certification Level:** Associates
**Minimum Required Experience:** 4 years

**CERTIFIED INDUSTRIAL HYGIENIST**
Responsible for maintaining medical monitoring program, training and auditing of field activities. Responsible for distributing health and safety plans and monitoring of on-site health and safety professionals.

**Minimum Education/Certification Level:** Bachelors
**Minimum Required Experience:** 5 years

**GIS SPECIALIST - SENIOR**
Responsible for management of all GIS data, reporting and development of databases to support environmental and construction projects.

**Minimum Education/Certification Level:** Bachelors
**Minimum Required Experience:** 6 years

**GIS SPECIALIST - MID**
Supports Senior GIS Specialist in reviewing data, inputting data and generating maps and figures from GIS data bases to support the project team.

**Minimum Education/Certification Level:** Bachelors
**Minimum Required Experience:** 4 years

**GIS SPECIALIST – JUNIOR**
Create & maintain data/maps using GIS or related software to provide geographical information & assist in geographical analysis.

**Minimum Education/Certification Level:** Bachelors
**Minimum Required Experience:** 1 year

**CADD OPERATOR**
Perform drawing/documentation to support engineering reports.

**Minimum Education/Certification Level:** High School or GED
**Minimum Required Experience:** 3 years

**WORD PROCESSOR/ADMINISTRATIVE ASSISTANT**
Provide administrative support for report production.

**Minimum Education/Certification Level:** High School or GED
**Minimum Required Experience:** 1 year
HEAVY EQUIPMENT OPERATOR**
Operator shall be capable of efficiently and safely operate a variety of equipment including wheel loaders, excavators, graders and forklifts.
Minimum Education/Certification Level: High School or GED
Minimum Required Experience: 2 years

LABORER**
Performs any necessary unskilled labor onsite. Drives a truck and unloads materials and equipment at job site.
Minimum Education/Certification Level: High School or GED
Minimum Required Experience: 2 years

The Service Contract Act (SCA) is applicable to this contract and it includes SCA applicable labor categories. The prices for the indicated (**) SCA labor categories are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e. nationwide).
