1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract:
Administrative Assistant - $40.40 per hour, See page 5 for additional job titles and GSA pricing.

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education who will perform services shall be provided: See page 5 for additional job titles and GSA pricing.

2. Maximum order: $1,000,000

3. Minimum order: $100.00

5. Point of production: Same as company address.

6. Discount from list prices or statement of net price: Government Net prices, Prices include discount.

7. Quantity discounts: None offered.

8. Prompt payment terms. Net 30 days. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9a. Notification that Government purchase cards are accepted at or below the micro-purchase threshold: Yes.
9b. Notification whether Government purchase cards are accepted or not accepted above the micro-purchase threshold: Will accept.

10. Foreign items: None.

11a. Time of delivery: As specified in individual task order.
11b. Expedited Delivery: Contact the Contractor to request a faster delivery.
11c. Overnight and 2-day delivery: Not applicable.
11d. Urgent Requirements. Contact the Contractor to request any urgent requirements.

12. F.O.B. point: Destination.
13a. Ordering address: 157 S. Colonial Avenue, Richmond, Virginia 23221-3517
13b. Ordering procedures: For supplies and services the ordering procedures and information on Blanket Purchase Agreements (BPAs) are found in Federal Acquisition Regulation (FAR) 8.405-3.

14. Payment address: 157 S. Colonial Avenue, Richmond, Virginia 23221-3517

15. Warranty provision: Standard commercial warranty and industry standard of care.

16. Export packing charges: Not applicable.
17. Terms and conditions of Government purchase card acceptance (any thresholds above the micro-purchase level): Contact the contractor.

18. Terms and conditions of rental, maintenance, and repair: Not applicable.

19. Terms and conditions of installation: Not applicable.

20. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices: Not applicable.
20a. Terms and conditions for any other services: Not applicable.

21. List of service and distribution points: Not applicable.

22. List of participating dealers: Not applicable.

23. Preventive maintenance: Not applicable.

24a. Special attributes such as environmental attributes (i.e., recycled content, energy efficiency, and/or reduced pollutants: Not applicable.
24b. Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found: The EIT standards can be found at: www.Section508.gov/ - Not applicable.

25. Data Universal Number System (DUNS) number: 135420151.

26. Notification regarding registration in System for Award Management (SAM) database: Registered, up to date.

SERVICES
Under this Contract, dpSTUDIO can provide services under the following SINs:

541620, 541620RC: Environmental Consulting Services
The services include, but are not limited to consultation in the areas of: Planning and Documentation Services for the development, planning, facilitation, coordination, and documentation of and/or for environmental initiatives (or mandates such as Executive Order 13693 in areas of chemical, radiological, and/or hazardous materials; ISO 14001 Environmental Management System (EMS) and sustainable performance measure development; Environmental Assessment (EA) and Environmental Impact Statement (EIS) preparation under the National Environmental Policy Act (NEPA); Endangered species, wetland, watershed, and other natural resource management plans; Archeological and/or cultural resource management plans; Environmental program and project management; Environmental regulation development; Climate change adaptation and resiliency planning and implementation support, including but not limited to, identifying climate risks and impacts; applying and interpreting climate and impact assessment model outputs; development and/or implementation of solutions to build climate resilience, reduce identified climate risks, and/or provide both climate change mitigation and adaptation benefits; climate decision support, risk management, and vulnerability assessments and analyses; and climate risk communications and training; Economic, technical and/or risk analysis; other environmentally related
studies and/or consultations; Homeland Security solutions that include Biochemical protection; Crime prevention through environmental design surveys (CPTED); Economical, technical and/or risk analysis; Identification and mitigation of threats inclusive of protective measures to mitigate the threats; and Vulnerability assessments. Compliance Services such as review, audit, and implementation/management of EMS and other compliance and contingency plans and performance measures; Permitting; Spill prevention/control and countermeasure plans; Pollution prevention surveys; and Community Right to Know Act reporting. Advisory Services for ongoing advice and assistance with data and information in support of agency environmental programs involving areas such as Hazardous material spills; Material safety data sheets (MSDS), Biological/medical data sheets; Information hotlines; Poison control hotlines; Environmental regulations and environmental policy/procedure updates; Management, furnishing, or inventory of MSDS. Waste Management Consulting Services to provide guidance in support of waste-related data collection, feasibility studies and risk analyses; Resource Conservation and Recovery Act/Comprehensive Environmental Response Compensation and Liability Act (RCRA/CERCLA) site investigations; Hazardous and/or non-hazardous exposure assessments; Waste characterization and source reduction studies; Review and recommendation of waste tracking or handling systems; Waste management plans and/or surveys; Waste minimization/pollution prevention initiatives; and Review of technologies and processes impacting waste management.

Note: Services involving only the consulting portion of environmental remediation efforts are included under this SIN. Any actual remediation efforts are performed under SIN 562910REM, see below.

562910REM, 562910REMRC: Environmental Remediation Services
Remediation services include, but are not limited to: Excavation, removal and disposal of hazardous waste; Site preparation, characterization, field investigation, conservation and closures; Wetland restoration; Emergency response clean up (ERC); Underground storage tank/above-ground storage tank (UST/AST) removal; Air monitoring; Soil vapor extraction; Stabilization/solidification, bio-venting, carbon absorption, reactive walls, containment, monitoring and/or reduction of hazardous waste sites, as well as unexploded ordnance removal; Remediation-related laboratory testing (e.g., biological, chemical, physical, pollution and soil testing). Reclamation services include, but are not limited to: Land (e.g., creating new land from sea or riverbeds and/or restoring areas to a more natural state, such as after pollution, desertification, or salination have made it unusable); and Water and refrigerant reclamation.

Note: Services offered under this SIN shall NOT include any remediation / transportation / disposal of radioactive waste, asbestos and/or paint abatement, radon mitigation, construction and architect-engineer services as set forth in FAR Part 36 (including construction, alteration or repair of buildings, structures, or other real property). Disposal services performed under SIN must be ancillary to remediation services performed.

This SIN does not include Davis-Bacon Act work as described in Federal Acquisition Regulation Subpart 22.4. Ordering Contracting Officers utilizing this SIN for environmental remediation projects/support must ensure the work being required is not covered by the Davis-Bacon Act prior to issuing a Request for Quotes (RFQ).

Ordering Contracting Officers are advised to consult with the Department of Labor and/or their Ordering Agency Labor advisor (if applicable). Additionally, Ordering Contracting Officers should review the DOL Field Operations Handbook and the Davis-Bacon Desktop Guide, which are excellent online resources for researching whether the Davis-Bacon Act applies to a specific environmental remediation project.

<table>
<thead>
<tr>
<th>SIN</th>
<th>Labor Category</th>
<th>Labor Category Description</th>
</tr>
</thead>
</table>
| 541620, 562910REM | Principal Engineer/Scientist            | **Minimum Education:** Bachelor’s Degree in related technical discipline  
**Minimum Experience:** 20 years  
**Functional Responsibility:** Provides subject matter expertise, deep understanding, and thorough knowledge related to environmental and/or engineering consulting services and related business program support services disciplines. Applies the principles, methods, and knowledge of specific functional areas of expertise to project and program requirements. Provides advice and problem solving where an extensive knowledge of the subject matter is necessary. Designs and prepares technical reports, studies, and related documentation, employing technical and analytical methodologies. Prepares and delivers presentations and briefings where expert testimony and knowledge is required. |
| 541620, 562910REM | Senior Environmental Engineer           | **Minimum Education:** Bachelor’s Degree in civil/environmental engineering  
**Minimum Experience:** 10 years  
**Functional Responsibility:** Has the ability to plan and direct complex projects requiring integration of engineering processes with other scientific disciplines such as environmental and regulatory compliance. Establishes performance and technical standards. Performs design and analysis tasks for complex systems. Fully competent to plan direct and conduct engineering work requiring judgment in the independent evaluation, selection and substantial adaptation and modification of standard techniques, procedures and criteria to accomplish project goals. Serves as mentor for lower level employees, and may directly supervise the work of other engineers, scientists, planners, architects, technicians, draftsmen or other purely technical staff. Requires project management responsibility depending on individual’s capabilities and career path. |
| 541620, 562910REM | Project Environmental Engineer          | **Minimum Education:** Bachelor’s Degree in related technical discipline  
**Minimum Experience:** 5 years  
**Functional Responsibility:** Works on conventional and straightforward plans, investigations, surveys, structures or other problems with relatively few complex features for which precedents exist. Assignments have clear and specified objectives and require the investigation of a limited number of variables and may include equipment design/development, test of specifications, process study, research investigations, modelling, or report. Independently evaluates, selects and applies standard techniques, procedures and criteria using judgment and knowledge of principles and techniques in making minor adaptations and modifications. Assistance may be provided by other engineers, scientists, planners, architects or technicians on unusual problems. Work is reviewed by senior team members for application of sound professional judgment. May sometimes supervise or coordinate the work of technicians and other less experienced staff, and may be called upon to manage tasks on large projects or phases of small projects. |
| 541620, 562910REM | Senior Environmental Scientist          | **Minimum Education:** Bachelor’s Degree in related technical discipline  
**Minimum Experience:** 10 years  
**Functional Responsibility:** Plans and directs complex environmental assessment and/or compliance projects and establishes performance and technical standards. Performs scientific and analysis tasks involving complex systems. Fully competent to plan direct and conduct environmental compliance and assessment work requiring judgment in the independent evaluation, selection and substantial adaptation and modification of standard techniques, procedures and criteria to accomplish project goals. Serves as mentor for lower level employees, and may directly supervise the work of junior engineers, scientists, planners, architects, technicians, draftsmen or other purely technical staff. Requires project management responsibility depending on individual’s capabilities and career path. |
| 541620, 562910REM | Project Environmental Scientist         | **Minimum Education:** Bachelor’s Degree in related technical discipline

**ABOUT DPSTUDIO**

dpSTUDIO environmental consulting & design is a Woman-owned small business (WOSB) providing you with innovation, high quality, and fast turnaround solutions. Our key staff have exceptional experience in serving a wide range of client needs in the following technical practice areas:

- Phase I, II, and III Environmental Site Assessments
- Brownfield and Voluntary Remediation Program (VRP) Services
- Solid and Hazardous Waste Management
- Compliance Audits
- Wetland & Ecological Studies
- Environmental Permitting
- Asbestos, Lead Paint, Radon, Indoor Air Quality
- Underground & Aboveground Storage Tank Services
- NEPA Environmental Impact Statements
- Expert Witness Testimony & Litigation Support
- Environmental and Science Education & Training Programs

From simple to complex environmentally impaired sites, dpSTUDIO has the in-house expertise to provide quick turnaround environmental site assessments and remedial investigations for commercial, industrial, Federal, and ecologically sensitive properties as well as historic sites undergoing restoration or adaptive reuse. dpSTUDIO has particular experience with assessments of active and inactive Federal facilities, and has performed projects in 43 states in the CONUS. Experience includes thousands of Phase I and Phase II ESAs; sampling of air, water & soil media; groundwater monitoring well installation; permitting; NEPA and HUD compliance; on-site analysis; and design and implementation of remedial systems for building contaminants and soil and groundwater cleanup and regulatory closure. We have an Open Ratings Overall Performance Rating of 97 out of 100.
