Project Manager
Education: Master’s degree in Anthropology/Archaeology

The Project Manager is the primary liaison with the regulatory agency and is responsible for maintaining project budgets, initiating quality controls, and disseminating information to the Principal Investigator and project staff. The Project Manager also develops schedules to ensure project milestones are met on time.

Experience:
8 years of experience in archaeology in the Great Basin and/or California

Principal Investigator (I and II)
Education: Master’s degree in Anthropology/Archaeology

The Principal Investigator is responsible for all technical aspects of a project and supervising and directing project staff in the field and the office. In coordination with the Project Manager, the Principal Investigator maintains staff and production schedules and is responsible for executing quality controls. Technical duties include but are not limited to authoring survey and data recovery reports, developing cultural contexts, preparing and implementing treatment plans, ensuring agency and company data collection and reporting requirements are met, evaluating archaeological sites for their eligibility to be listed on Local, State and/or National Registers, and directing large and small-scale inventories, excavations, laboratory analysis, and monitoring projects.

Experience:
Principal Investigator I - 10 years of experience in archaeology in the Great Basin and/or California
Principal Investigator II - 20 years of experience in archaeology in the Great Basin and/or California

Senior Archaeologist (I and II)
Education: Master’s degree in Anthropology/Archaeology
The Senior Archaeologist provides technical and management support to the Principal Investigator on large and small-scale projects. Technical duties include but are not limited to co-authoring survey and data recovery reports, conducting research, adhering to agency and company data collection and reporting requirements, providing recommendations for a sites eligibility to be listed on Local, State and/or National Registers, and directing large and small-scale inventories, laboratory analysis and monitoring projects. Management duties include supervising and directing project Archaeologists in the field, laboratory and office.

Experience:
Senior Archaeologist I - 8 years of experience in archaeology in the Great Basin and/or California
Senior Archaeologist II - 20 years of experience in archaeology in the Great Basin and/or California

Archaeologist (I, II, and III)
Education: Bachelor’s degree in Anthropology/Archaeology

The Archaeologist provides technical support to the Principal Investigator and/or Senior Archaeologist on large and small-scale field and laboratory projects. Archaeologists I and II serve as field crew and laboratory technicians and are responsible for following agency and company data collection and reporting requirements. An Archaeologist III may also serve as an archaeological monitor and/or Crew Chief and be responsible for leading crews of various sizes in the field and for ensuring data collection standards are of the highest quality. The Archaeologist is also responsible for data entry and limited report writing.

Experience:
Archaeologist I - 3 years of experience in archaeology in the Great Basin and/or California
Archaeologist II - 7 years of experience in archaeology in the Great Basin and/or California
Archaeologist III- 10 years of experience in archaeology in the Great Basin and/or California

Office Manager
Education: Bachelor’s degree

The Office Manager is responsible for producing the draft and final products for each project. Under the guidance of the Principal Investigator or Senior Archaeologist, the Office Manager compiles and prints technical reports and appendices and assists in the preparation of site form photo logs and photo pages.

Experience:
1 year of experience

GIS Manager
Education: Bachelor’s degree in Anthropology/Archaeology plus GIS Certification

The GIS Manager is responsible for maintaining and creating cultural GIS databases for use in the office and the field. Main duties include post-processing GPS field data, creation of field maps, and producing site form and report graphics using ArcGIS 10.6. The GIS Manager adheres to agency GIS standards for maps and databases by constantly staying current with protocols.

Experience:
4 years of experience in archaeology of the Great Basin and/or California and ESRI ArcGIS
