About ANALYGENCE, Inc.

ANALYGENCE, Inc. (ANALYGENCE), is a Small Business Administration (SBA) certified 8(a) and Service-Disabled Veteran Owned Small Business (SDVOSB) founded in 2010 on the principle of providing our customers with result driven professionals that understand the dynamic customer environment. ANALYGENCE provides mission support services as well as cyber solutions and intelligence throughout the U.S. and abroad. Appraised at CMMI Level 3 and ISO 9001:2015 certified, we are a process-driven organization that implements standards to maintain quality management practices. Our culture is deeply rooted in our unparalleled belief in the support of our team members. We provide an environment where all of our team members contribute directly to the success of each other and to the success of our business. At ANALYGENCE, we provide a family atmosphere where each team member has a voice. Each team member is expected to set goals to achieve personal excellence, provide unparalleled service to our customers through adherence to our Core Values of Vision, Service and Excellence!

Mission Support and Services. ANALYGENCE provides Program Management, Logistics Operations Support, Financial/Budget Analysis, and Optimization services necessary to drive project and program success. We apply our extensive Government acquisition lifecycle and management consulting experience to ensure our client's quadruple constraints (cost, schedule, performance, and risks) are managed from initiation through closeout as well as through every phase and facet of the program.

Cyber Solutions and Intelligence. We support clients at the forefront of Defense, Intelligence, and Homeland Security. With services in Intelligence Analysis (Insider Threat and Supply Chain Risk Management), Language, Cyber Threat and Vulnerability Analysis, and Special Programs, our SMEs provide mission and requirements management, multi-intelligence production, target development and tracking, reporting, and open source collection and monitoring.

LABOR CATEGORY DESCRIPTIONS

Job Title	Description of Functional Responsibility	Education (Years)	Experience / Certifications
Senior Program Analyst	The Senior Program Analyst requires the ability to combine functional expertise and analytical skills with practical understanding of the customer mission and operations to work collaboratively with technical and functional Subject Matter Experts (SMEs) to contribute substantively to program planning and devise operationally-responsive and practical solutions to complex challenges.	Bachelors' Degree (4 years)	12 years
Senior Budget Analyst	The Senior Budget Analyst will act as the technical lead for contractor personnel performing resource management support. This task requires knowledge and skill in the application of related budgetary laws, regulations/instructions, policies, methods and techniques of proper budgeting and budget forecasting.	Bachelors' Degree (4 years)	12 years
Senior Requirements Analyst	The Senior Requirements Analyst assists requirement owners with refining, assessing, documenting and maintaining requirements to convey key program objectives, their relative contributions to the mission, and estimated costs. Assists government leads with conducting annual capability gap and requirements validation/re-validation assessments in response to emerging threats, changing external guidance, and realignment of mission priorities.	Bachelors' Degree (4 years)	12 years
Senior Portfolio Manager	The Portfolio Manager provides project management and system engineering expertise during the oversight process to ensure capabilities can meet customer requirements. Applies advanced business analytics to analyze data related to budget, finance, schedule, capabilities, and processes, and recommend solution for improvement to close any identified deficiencies, omissions, gaps and/or inefficiencies.	Bachelors' Degree (4 years)	12 years
Senior Capability Development Analyst	The Senior JCIDS Integration Analyst facilitates and assists in, the creation of JCID documentation including Capabilities Based Assessments (CBA), Initial Capability Document (ICD), Capability Development Document (CDD), Joint Urgent Operational Need (JUON)/Joint Emerging Operational Need (JEON), Analysis of Alternatives (AoA), for varying program initiatives. Assists in the technical analysis required in defining and drafting requirements documentation, which defines the capability gap; summarizes the results of Doctrine, Organization, Training, Materiel, Leadership and education, Personnel and Facilities, and Policy (DOTMLPF-P) analysis; and describes why non-materiel changes alone may have been judged inadequate in fully providing the capability.	Bachelors' Degree (4 years)	12 years
Senior Program Manager	The Program Manager reviews project metrics and status reports (cost, schedule, and scope) to measure progress of programs/projects, identify potential/emerging cost, schedule or performance risks, and inform the Government program/project manager. Assists	Bachelors' Degree (4 years)	12 years PMP or DAWIA Level III in Program

	with technical requirements and solutions to meet enterprise measures. Provides analysis and reporting of development, acquisition, integration and implementation of customer requirements.		Management
Subject Matter Expert	The Subject Matter Expert provides functional analysis support in identification of relationships, overlaps, and gaps in functional areas that impact the government mission. Assists in leading the government in strategic planning processes and effectively partnering with external overseers and stakeholders in support of achieving customer strategic goals and objectives. Assists and enables government senior leadership to make better management and investment decisions through the use of objective and meaningful performance measures.	Bachelors' Degree (4 years)	12 years
Mid-Level Program Analyst	The Mid-Level Program Analyst Applies analytic techniques in the evaluation of government program/project objectives. Analyzes requirements, status, budget and schedules. Performs management, technical, or business case analyses. Participates as a member of and/or supports the specified program or project team. Collects, completes, organizes and interprets data relating to acquisition and product programs. Tracks program/project status and schedules. Applies government-instituted processes for documentation, change control management and data management.	Bachelors' Degree (4 years)	7 years
Senior Systems Analyst	The Senior Systems Analyst analyzes user's requirements, concept of operations documents, and high-level system architectures to develop system requirements specifications. Analyzes system requirements and leads design and development activities. Guides users in formulating requirements, advises alternative approaches, and conducts feasibility studies. Provides technical leadership for the integration of requirements, design, and technology. Incorporates new plans, designs and systems into ongoing operations. Develops technical documentation. Develops system Architecture and system design documentation. Guides system development and implementation planning through assessment or preparation of system engineering management plans and system integration and test plans.	Bachelors' Degree (4 years)	12 years
Senior Solution Analyst	The Senior Solution Analyst identifies solution alternatives and recommendations for formally defined, government approved and prioritized requirements. Evaluates identified solutions, and/or the AoA to ensure the recommended Course of Action (COA) is valid and financially feasible, align solutions in accordance with the Operation of the DAS DoD Instruction 5000.02 and provide a solution analysis report. Conducts risk assessments and develops mitigation strategies for the AoAs and COAs and provide a risk analysis report.	Bachelors' Degree (4 years)	12 years
