Service Contract Labor Standards: The Service Contract Labor Standards, formerly the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Multiple Award Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS eligible labor categories. If and/or when the contract adds SCLS labor categories/employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.” Per the Multiple Award Schedule Solicitation and FPR document.

Labor Category Descriptions

1. Audit Managing Consultant

Description and Skill Level:

Senior management level personnel with highly specialized/expert level experience and knowledge of audit concepts and methodologies in the health care environment conducting policy/program audits, risk analyses, advanced data analysis, technical assistance, strategic planning, and/or project management, as applicable. Responsible for planning, directing, and coordinating activities of designated projects to ensure that the goals of the projects are accomplished within prescribed time frame and budgetary constraints. Frequently meets with clients regarding the status of specific projects to discuss issues requiring resolution. May include Subject Matter Experts with particular expertise. Experience in project leadership on tasks in areas of functional expertise.

Experience and Education:

- Bachelor’s degree with 13 years of experience, Master’s degree with 11 years of experience, or 17 years of experience with no degree.
- Excellent communication, problem solving, and facilitation skills.
- Depending upon area of expertise, current certification or licensure may be required, such as an CPA, CFE, or PMP.
2. **Compliance Audit Consultant**

**Description and Skill Level:**

Associate management or intermediate level personnel with specialized/expert level experience and knowledge of compliance audit concepts and methodologies in the health care environment conducting program audits, research, risk analyses, advanced data analysis, technical assistance, strategic planning, technical conference planning, trainings, and/or project management, as applicable. Serves as the lead analyst or Subject Matter Expert on medium and large complex projects. May be responsible for executing one or more subtasks on a project. Some experience on large, technically complex projects in areas of functional expertise.

Creates detailed project plans, work assignments, and target dates for assigned projects. Leads project team to determine project requirements, goals, implementation, and schedules. Provides expertise in field of specialization for conducted analyses and assessments. Participate in and contribute to the quality management system.

**Experience and Education:**

- Bachelor’s with 11 years of experience, Master’s degree with 9 years of experience or 15 years of experience with no degree.
- Excellent communication, problem solving, and facilitation skills.
- Depending upon area of expertise, current certification or licensure may be required, such as an CPA, CFE, or PMP.

3. **Performance Measure Audit Consultant**

**Description and Skill Level**

Associate management or intermediate level personnel with experience and knowledge of concepts and methodologies in the health care environment conducting performance measure and quality evaluations, data collection and analysis, policy analyses, technical assistance, trainings, as applicable. Provides specific expertise required for a task, including but not limited to high-level analytical assignments. Experience in one of the functional areas or related disciplines included in the description of functional expertise. Collects, documents, and analyzes information regarding client business and management processes. Participates in and contribute to the quality management system.

**Experience and Education:**

- Bachelor’s degree with 6 years of experience, Master’s degree with 4 years of experience, or 10 years of experience with no degree.
- Excellent communication, problem solving, and facilitation skills.
- Depending upon area of expertise, current certification or licensure may be required, such as an RN, CPC, or CPM.
4. **Business Analyst**

**Description Skill Level:**

Junior level personnel with a background in research analysis, data collection and analysis, providing technical assistance, database design and management, graphic design, and/or editing and development of technical documents. Provides specific expertise required for a task, including but not limited to mid-level analytical assignments. The purpose of this position is to serve as an experienced analyst on all assignments relating to client concerns and is expected to work independently with only minimal supervision and direction by more senior personnel.

Primarily responsible to analyze and evaluate data from a variety of sources to discern problems, identify opportunities, understand issues, and predict trends. An effective contributor to research teams and, in a multidisciplinary setting, shows sufficient independent skill and judgment about topics to pursue and selection of appropriate analytical approaches. Performs data analysis to identify patterns and trends, vulnerabilities, and opportunities for improvement. Designs, initiates, and conducts key tasks or smaller projects independently. Provides reports on identified data issues. Conducts research on identified issues, as needed.

**Experience and Education:**

- Bachelor’s degree with 4 years of experience, Master’s degree with 1 year of experience or 7 years of experience with no degree.
- Experience with spreadsheet, database, and software applications.
