</tr>
</tbody>
</table>

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. See Pricing Page 5.

1c. If the Contractor is proposing hourly rates a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item. See Labor Category Descriptions Page 6.

2. Maximum Order: For SINs 541330ENG and 541611 - $1,000,000.00 For SIN OLM - $250,000.00

3. Minimum Order: $100.00

4. Geographic Coverage (delivery Area): Domestic

5. Point(s) of production (city, county, and state or foreign country): Same as company address

6. Discount from list prices or statement of net price: Government net prices (discounts already deducted).

7. Quantity discounts: 2% discount on orders over $250,000

8. Prompt payment terms: Net 30 Days. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions

9. Foreign items (list items by country of origin): None

10a. Time of Delivery (Contractor insert number of days): Specified on the Task Order

10b. Expedited Delivery. The Contractor will insert the sentence “Items available for expedited delivery are noted in this price list.” under this heading. The Contractor may use a symbol of its choosing to highlight items in its price list that have expedited delivery: Contact Contractor

10c. Overnight and 2-day delivery. The Contractor will indicate whether overnight and 2-day delivery are available. Also, the Contractor will indicate that the schedule customer may contact the Contractor for rates for overnight and 2-day delivery: Contact Contractor
10d. Urgent Requirements. The Contractor will note in its price list the “Urgent Requirements” clause of its contract and advise agencies that they can also contact the Contractor’s representative to effect a faster delivery: Contact Contractor

11. F.O.B Points(s): Destination

12a. Ordering Address(es): Contract Department
    Attn: Juan D. Gutierrez
    705 Winding Hills Rd.

**Service Contract Labor Standards:** The Service Contract Labor Standards (SCLS) are applicable to this contract as it applies to the entire Consolidated MAS Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS eligible labor categories. If and/or when the contractor adds SCLS labor categories/employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
SIN 541330ENG Labor Category Descriptions

Engineer II

**Functional Responsibilities:** Responsible for design, development, implementation, and analysis of technical products and systems. Demonstrated knowledge of Government regulations, manuals, technical orders, standards, and industry publications related to a variety of disciplines. Recommends alterations to development and design to improve quality of products and/or procedures.

**Minimum Education:** Bachelors  
**Minimum Experience:** 6 years

Engineer III

**Functional Responsibilities:** Responsible for design, development, implementation, and analysis of technical products and systems. Demonstrated knowledge of Government regulations, manuals, technical orders, standards, and industry publications related to a variety of disciplines. Recommends alterations to development and design to improve quality of products and/or procedures. Performs a variety of complicated tasks.

**Minimum Education:** Bachelors  
**Minimum Experience:** 8 years

Engineer IV

**Functional Responsibilities:** Responsible for design, development, implementation, and analysis of technical products and systems. Demonstrated knowledge of Government regulations, manuals, technical orders, standards, and industry publications related to a variety of disciplines. Recommends alterations to development and design to improve quality of products and/or procedures. Performs a variety of complicated tasks and oversees the work of others.

**Minimum Education:** Bachelors  
**Minimum Experience:** 10 years

Engineer V

**Functional Responsibilities:** Responsible for design, development, implementation, and analysis of technical products and systems. Demonstrated knowledge of Government regulations, manuals, technical orders, standards, and industry publications related to a variety of disciplines. Recommends alterations to development and design to improve quality of products and/or procedures. Performs a variety of complicated tasks. Considered an expert in their field.

**Minimum Education:** Masters  
**Minimum Experience:** 15 years
Senior Program Analyst

**Functional Responsibilities:** Possess knowledge of applying analytic methodologies and principles to address client’s needs. Supports analyst functions including data collection, interviewing, data modeling, project testing, and creation of performance measurements to support project objectives. Conducts activities in support of project team’s objectives.

**Minimum Education:** Bachelors

**Minimum Experience:** 12 years

System Architect

**Functional Responsibilities:** Responsibilities span the entire program including program leadership in areas such as short and long term planning, successful execution, risk and change management, and reporting of key program milestones, technical and financial data. Efforts will include overseeing full lifecycle engineering and scientific research, system requirement decomposition, software development, sustainment, and support efforts. In addition, manage team providing specialized DOD technical subject matter expertise and specialized support functions. Works with project leads to develop and manage master integrated program schedules and agile processes, collects program metrics data, and analyzes data to report to customer. Provides presentations to senior level customer leaders. Responsible for providing technical leadership and guidance to plan, organize, develop, and assist the government in system architecture approaches and to provide support to multiple complex technical program efforts. Provides expertise in DOD areas such as doctrine, policy, and organization. Possess a proven subject matter expertise in areas such as command and control, intelligence, acquisition, data handling, space, cyber, and/or intelligence data handling.

**Minimum Education:** Bachelors

**Minimum Experience:** 12 years

System Software Engineer I

**Functional Responsibilities:** Provides requirement decomposition/definition and provides engineering expertise to assure program DOD requirements are developed and sustained. Supports full life cycle support to specify, design, develop, document, unit test and integration, and to conduct problem resolution for applications and scientific software and systems. Fully support senior engineering efforts.

**Minimum Education:** Bachelors

**Minimum Experience:** 5 years

System Software Engineer II

**Functional Responsibilities:** Provides requirement decomposition/definition and provides engineering expertise to assure program DOD requirements are developed and sustained. Leads support senior engineering efforts. Experience as technical lead working in a medium to large size engineering teams across network, hardware, software, integration, and/or verification efforts. Knowledge of and adherence to sound engineering lifecycle workflow principles across hardware, software, network, interfaces, high-level/detail design, integration, verification, and regression testing. Works with government stakeholders design, develop, integrate, and test solutions for technical requirements; analyzes system capabilities to resolve problems on program intent, output requirements, input data
acquisition, programming techniques and controls; prepares operating instructions and end user training; U Provides in-depth analysis related to the design, development, and integration of hardware, software, man-machine interfaces and all system level requirements to provide an integrated solution. Supports development of integrated system test requirement, strategies, devices and systems.

Minimum Education: Masters
Minimum Experience: 10 years
