Company Overview

Moran Environmental Recovery (MER) is an integrated supplier of environmental, industrial, mechanical, and commercial diving services with an unwavering commitment to industry-leading performance. We deliver the highest level of safety, quality and reliability to each and every client, which is why MER is trusted by many of the nation’s largest utilities, railroads, ports and government agencies. With a culture of performance guiding every aspect of our service, MER’s expert staff, specialized equipment and vast network of locations allows MER to continually meet the intense demands of industries all across North America.

At MER we believe that developing and retaining the top minds in the industry allows us to deliver the superior level of performance that defines our business. Over the years we have succeeded in building a great team with deep knowledge of our services and our clients’ needs. We recognize that our customers’ businesses never stop running, which is why all of our offices are available 24 hours a day, seven days a week, 365 days a year and each location has a designated ‘on-call’ team for emergencies. Nearly-950 people strong, MER’s value can be seen in our unmatched industry-recognized expertise and our consistent performance record. United by our core values, the team brings integrity, mutual respect, professionalism and discipline to every job, every day.
Scope of the Contract

Under our GSA Multiple Award Schedule (MAS) Contract, Moran Environmental Recovery (MER) can provide marine engineering and environmental remediation services for federal agencies and departments. The contract also is available for states and municipalities under certain circumstances (e.g., Disaster Recovery).

SPECIAL ITEM NUMBER (SIN) 562910REM

Environmental Remediation Services

Federal government agencies and departments can order these services from MER under SIN 562910REM. State and local agencies can procure Disaster Recovery services under SIN 562910REMR.

Services include site preparation, field investigation, conservation and closures, emergency response cleanup (ERC), underground storage tank/above-ground storage tank (UST/AST) removal, air monitoring, soil vapor extraction, stabilization/solidification, bio-venting, carbon absorption, containment, monitoring and/or reduction of hazardous waste sites, unexploded ordnance removal, and remediation-related laboratory testing (e.g., biological, chemical, physical, pollution and soil testing). Reclamation services include: creating new land from sea or riverbeds, wetland restoration, and restoring areas to a more natural state (e.g., after pollution, desertification, or salinization have made it unusable). Remediation services encompassing three (3) or more industries/NAICS codes, where the preponderance of work is at least 50% under NAICS 562910, should be solicited and performed under SIN 562910RMI.

Note: Services offered under this SIN shall not include any remediation/transportation/disposal of radioactive waste, asbestos and/or paint abatement, radon mitigation, or construction and architect-engineering services as set forth in FAR Part 36 (including construction, alteration or repair of buildings, structures, or other real property). This SIN does not include Davis-Bacon work as defined in FAR Subpart 22.4. Ordering agencies must ensure the work being required is not covered by the Davis-Bacon Act.

SPECIAL ITEM NUMBER (SIN) 541330EMI

Federal government agencies and departments can order these services from MER under SIN 541330EMI. State and local agencies can procure Disaster Recovery services under SIN 541330EMIR.

Services include: applying physical laws and principles of engineering in the design, development, and utilization of machines, materials, instruments, processes, and systems specifically relating to military aerospace equipment and/or military weapons, and/or engineering services awarded under the National Energy Policy Act of 1992, and/or marine engineering or naval Architecture. Services may involve any of the following activities: provision of advice, concept development, requirements analysis, preparation of feasibility studies, preparation of preliminary and final plans and designs, provision of technical services during the construction or installation phase, inspection and evaluation, and related services.
SPECIAL ITEM NUMBER (SIN) ANCILLARY

Ancillary Supplies and Services

If any Ancillary supplies or services become part of a task order, they are placed under SIN ANCILLARY (for task orders for Federal government agencies and departments) or SIN ANCILLARYRC (for Disaster Recovery task orders for state or local agencies).

Ancillary supplies and/or services are support supplies and/or services which are not within the scope of any other SIN on this Schedule. These supplies and/or services are necessary to compliment a contractor’s offerings to provide a solution to a customer requirement. This SIN may be used for orders and blanket purchase agreements that involve work or a project that is solely associated with the supplies and/or services purchased under this Schedule.

SPECIAL ITEM NUMBER (SIN) OLM

Order-Level Materials

If any OLMs become part of a task order, they are placed under SIN OLM (for task orders for Federal government agencies and departments) or SIN OLMRC (for Disaster Recovery task orders for state or local agencies).

Order-Level Materials (OLMs) are supplies and/or services acquired in direct support of an individual task or delivery order placed against a Federal Supply Schedule (FSS) contract or FSS blanket purchase agreement (BPA). OLMs are not defined, priced, or awarded at the FSS contract level. They are unknown before a task or delivery order is placed against the FSS contract or FSS BPA. OLMs are only authorized for inclusion at the order level under a Time-and-Materials (T&M) or Labor-Hour (LH) Contract Line Item Number (CLIN) and are subject to a Not to Exceed (NTE) ceiling price. OLMs include direct materials, subcontracts for supplies and incidental services for which there is not a labor category specified in the FSS contract, other direct costs, and indirect costs. OLMs are purchased under the authority of the FSS Program and are not “open market items.”

Items awarded under ancillary supplies/services or other direct cost (ODC) SINs are not OLMs. These items are defined, priced, and awarded at the FSS contract level, whereas OLMs are unknown before an order is placed. Ancillary supplies/services and ODC SINs are for use under all order type CLINs (Fixed-Price (FP), T&M, and LH), whereas the Order-Level Materials SIN is only authorized for use under T&M and LH order CLINs.

The Order-Level Materials SIN is only authorized for use in direct support of another awarded SIN. Price analysis for OLMs is not conducted when awarding the FSS contract or FSS BPA; therefore, GSAR 538.270 and 538.271 do not apply to OLMs. OLMs are defined and priced at the ordering activity level in accordance with GSAR clause 552.238-82 Special Ordering Procedures for the Acquisition of Order-Level Materials. Prices for items provided under the Order-Level Materials SIN must be inclusive of the Industrial Funding Fee (IFF). The cumulative value of OLMs in an individual task or delivery order cannot exceed 33.33% of the total value of the order.
Advantages of Using a GSA Schedule Contract

Do you need a quick, convenient, and cost-effective way to order services from Moran Environmental Recovery, LLC (MER)? Our GSA Schedule contract provides an excellent solution. It offers the following advantages:

- **Dramatic time savings.** You can typically complete the task order initiation process (as specified in FAR 8.405) very quickly—often in a matter of weeks.

- **Minimal administrative burden.** When you place an order with MER through our GSA Contract, the order will be considered to have been placed using “full and open competition.”
  - You are not required to synopsize the requirement ahead of time in FedBizOpps.
  - GSA has already determined that prices offered by GSA contractors are “fair and reasonable.”
  - All applicable federal procurement laws and regulations, including “small business” set-asides and other types of set-asides, already have been applied.

- **No dollar limits** on task orders.

- **Flexibility.** For example, you can set up a “Blanket Purchase Agreement” (BPA) with MER if you do not know the precise amount or types of services that you would like purchase. You can use the BPA as an ordering device in which all of your offices can participate, allowing them to place orders directly.

- **Direct relationship** with MER.
  - GSA will not get involved in your selection process.
  - Your agency will not have to transfer funds to GSA and will not have to set up an interagency agreement.
  - MER will deliver services and submit invoices directly to your agency. You will remit payment directly to MER. GSA does not inject itself into the client/contractor relationship.
Prices

The following prices are “net” (prices shown include all applicable discounts and are inclusive of the 0.75% Industrial Funding Fee).

Quantity/Volume Discounts

For any individual GSA Task order, MER will apply quantity discounts as follows:

- 0.0% off GSA prices for the portion of the GSA Task order billing up to $99,999.99.
- 1.0% off GSA prices for the portion of the GSA Task order billing that falls between $100,000 and $249,999.99.
- 1.5% off GSA prices for the portion of the GSA Task order billing that falls between $250,000 and $499,999.99.
- 2.0% off GSA prices for the portion of the GSA Task order billing that equals or exceeds $500,000.

The discounts do not apply to non-GSA items (e.g., travel and per diem; open market items) nor to items or services that may be provided under the Order-Level Materials SIN.
Service Contract Labor Standards Matrix

</table>

The Service Contract Labor Standards (SCLS), formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (***) in this pricelist are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide).
Position Descriptions

Manager

FUNCTIONAL RESPONSIBILITIES

The Project Manager is responsible for the proper delivery of services to clients by making sure the job is delivered with the required level of safety, quality and resources. Develop and communicate work orders, including all supporting documentation. Monitor daily progress of projects by regularly communicating with Supervisors.

Minimum Required Education
High School

Minimum Required Years of Experience
5

Certifications
Hazmat (Hazwoper40)

Chemical Analyst

FUNCTIONAL RESPONSIBILITIES

The Chemical Analyst is responsible for the proper mixing, handling and application of specialty chemicals and periodically checks chemical mixtures and application methods to ensure safety and quality. Produces documentation of procedures and results.

Minimum Required Education
Bachelor’s Degree

Minimum Required Years of Experience
10

Certifications
Hazmat (Hazwoper40); MER-certified expert in AgWash process and AgWash-specific formulation, testing, and QC protocols.
**Supervisor**

**FUNCTIONAL RESPONSIBILITIES**

Direct and supervise project-assigned labor forces including foremen, equipment operators, and laborers to maintain competent completion of their duties. Understand and enforce project’s detailed scope-of-work to maintain strict compliance with contract documents, project schedules, and corporate policies and procedures. Work safely and ensure that the crew is working safely during all phases of performing the job duties required in the field.

- **Minimum Required Education**
  - High School

- **Minimum Required Years of Experience**
  - 2

- **Certifications**
  - Hazmat (Hazwoper40)

**Laborer**

**FUNCTIONAL RESPONSIBILITIES**

Performs assigned field work in accordance with the directions provided by the Supervisor, as well as setting up and breaking down job site equipment and supplies. Strict adherence to all safety practices and procedures.

- **Minimum Required Education**
  - High School

- **Minimum Required Years of Experience**
  - 0

- **Certifications**
  - Hazmat (Hazwoper40)

**Principal**

**FUNCTIONAL RESPONSIBILITIES**

Provides oversight and management of civil and marine construction management and other engineering services projects across the entire organization. This includes direct management of large projects, and mentoring and oversight of personnel managing smaller projects. Applies extensive knowledge through demonstrated experience in heavy civil and/or marine construction management and related projects.

- **Minimum Required Education**
  - Bachelor’s Degree in Construction Engineering, Construction Management or related field.

- **Minimum Required Years of Experience**
  - 10

- **Certifications**
  - None
Project Manager

FUNCTIONAL RESPONSIBILITIES

Provides management of civil and marine construction management projects and other engineering projects including: development and tracking of project schedules; tracking and reporting job costs; interpreting construction plans and specifications; and assisting with the development of bids and proposals.

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. *See page 5.*

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibilities, and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item. *See pages 7-9.*

2. **Maximum Order:** SINs 562910REM, 541330EMI: $1 million; SINs ANCILLARY, OLM: $250,000.

   Note: These are not limits on the size of any task order under the contract. MER may honor orders exceeding the maximum in accordance with Clause 52.216-19.

3. **Minimum Order:** $1,000

4. **Geographic Coverage:** Domestic.

5. **Points of Production:** Same as company address.

6. **Discount from List Prices or Statement of Net Price:** Government net prices (discounts already deducted). *See page 5.*

7. **Quantity/Volume Discounts:**

   For any individual GSA Task order, MER will apply quantity discounts as follows:

   0.0% off GSA prices for the portion of the GSA Task order billing up to $99,999.99.

   1.0% off GSA prices for the portion of the GSA Task order billing that falls between $100,000 and $249,999.99.

   1.5% off GSA prices for the portion of the GSA Task order billing that falls between $250,000 and $499,999.99.

   2.0% off GSA prices for the portion of the GSA Task order billing that equals or exceeds $500,000.
The discounts do not apply to non-GSA items (e.g., travel and per diem; open market items) nor to items or services that may be provided under the Order-Level Materials SIN.

8. **Prompt Payment Terms**: Net 30 days. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions.

9. **Foreign Items**: None.

10a. **Time of Delivery**: As specified in Task Orders.

10b. **Expedited Delivery**: Contact Contractor.

10c. **Overnight and 2-day Delivery**: Contact Contractor.

10d. **Urgent Requirements**: Contact Contractor.

11. **F.O.B. point(s)**: Destination.

12a. **Ordering Address**:
Moran Environmental Recovery, LLC  
75 D York Ave  
Randolph, MA 02368  
E-mail: MZinsmeister@MoranEnvironmental.com  
Tel.: (339) 216-7663

12b. **Ordering Procedures**: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPAs) are found in Federal Acquisition Regulation (FAR) 8.405-3.

13. **Payment Address**: Same as company address.

14. **Warranty Provision**: Contractor’s standard commercial warranty.

15. **Export Packing Charges (if applicable)**: N/A

16. **Terms and Conditions of Rental, Maintenance, and Repair (if applicable)**: N/A
