**Service Contract Labor Standards:** The Service Contract Labor Standards (SCLS) are applicable to this contract as it applies to the entire Multiple Award Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CFR 541.300), this contract still maintains the provisions and protections for SCLS eligible labor categories. If and / or when the contractor adds SCLS labor categories / employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
SIN 541611 Labor Category Descriptions

Data Analyst
Functional Responsibilities: Receives, gathers, analyzes, and organizes information from multiple sources. Analyzes/evaluates quality and completeness of received data/information and resolves inconsistencies. Records data in databases, documents, and/or spreadsheets. Establishes and maintains physical files. Tracks file status in order to ensure compliance with established deadlines. Coordinates requests for additional information as needed. Selects relevant information from a variety of sources to prepare documents, reports, summaries, and replies to inquiries, ensuring accuracy and proper format of the information provided. Performs other duties as required.

Minimum Education: Bachelor’s
Minimum Experience: 1 year

Intelligence Analyst II
Functional Responsibilities: Develops creative solutions to answer analytic questions and solve difficult problems. Conducts research, develops query strategies, and analyzes foreign and open source target intelligence to produce reports and oral briefings with recommendations.

Minimum Education: Bachelor’s
Minimum Experience: 2 years

Intelligence Analyst - Cyber
Functional Responsibilities: Conducts all-source analysis, digital forensics and targeting to identify, monitor, assess and counter the threat posed by criminal cyber actors. Utilizes threat intelligence to mitigate any potential data threats and defend data. Conducts quality control in order to determine validity and relevance priority of information gathered. Advises team members on specific findings and recommending appropriate courses of action. Collects, evaluates, analyzes, and extracts information from various sources, sometimes involving raw intelligence, and compiles it into useful, finished analytical products, reports, and correspondence.

Minimum Education: Bachelor’s
Minimum Experience: 2 years
Intelligence Analyst - ISR

Functional Responsibilities: Identifies ISR trends and opportunities, assesses trade-offs, tests assumptions, and produces original and incisive judgments, solutions, and recommendations to better refine ISR effectiveness, assessment processes, and assessment support to decision making and ISR Division processes. Captures data throughout the ISR cycle representing planned, tasked and executed ISR operations. Captures and populates specified data representing ISR activity. Monitors and understands the results of collection or other ISR-related activity. Collates and analyzes the data. Prepares and delivers well and clearly written assessments. Disseminates the assessments to key ISR customers and stakeholders.

Minimum Education: Bachelor’s
Minimum Experience: 2 years

Records Examiner/Analyst

Functional Responsibilities: Prepares records and/or files for adjudicators, reviewers, attorneys, or senior decision makers. Examines records and/or files for quality, accuracy, and completeness and resolves incompleteness or inconsistencies. Retrieves records and/or files, as required, from various sources and agencies. Creates new records and/or files from data and information from multiple sources and records data in databases, documents, and/or spreadsheets. Uses data and information to create case/project files and manage the validation and verification. Enters data, information, and/or files into a case or data management system. Ensures compliance of record and/or files with established standards. Manages records and/or files ensuring they are stored in the correct location at the correct time. Assists decisionmakers with understanding of data and information through preparation of documents, reports, summaries, and presentations. Communicates with decisionmakers and other stakeholders, ensuring accuracy, proper format, and timeliness of the information provided.

Minimum Education: Bachelor’s
Minimum Experience: 3 years

Senior Security Analyst

Functional Responsibilities: Analyzes the Government organization's security program, policies and procedures to ensure compliance with applicable information, physical, industrial, and personnel security directives. Develops and submits facility and equipment security accreditation packages. Develops and manages security education and refresher training; develops and coordinates Security Operation Plans (SOPs) and tactics, techniques and procedures (TTP). Develops, coordinates, and executes security objectives for personnel security issues that include but are not limited to all administrative processing of unit personnel and access to Joint Personnel Adjudication System (JPAS) at the level 3 and 6 for management of those personnel; and supports the coordinating actions with local and national agencies to obtain security accreditation of the new facility.

Minimum Education: Bachelor’s
Minimum Experience: 5 years
Technical Writer

Functional Responsibilities: Writes, and edits material that is mostly standardized for reports, manuals, briefs, proposals, instruction books, catalogs, and related technical and administrative publications concerned with work methods and procedures, and installation, operation, and maintenance of machinery and other equipment. To determine procedures and details, observes production, developmental, and experimental activities. To become familiar with product technologies and production, may conduct interviews, as well as conducts related research. Organizes research material and completes writing assignments according to set standards regarding order, clarity, conciseness, style, and terminology. Reviews published materials and recommends revisions or changes in scope, format, content, and methods of reproduction and binding. Studies blueprints, sketches, drawings, parts lists, specifications, mockups, and product samples to become familiar with technology, operating procedures, and production sequence and details. Scans/types articles and prepares documents for internet posting. Maintains records and files of work and revisions. Selects photographs, drawings sketches, diagrams, and charts to illustrate material, as well as assists in laying out material for publication and working with production to complete projects. Schedules typing, duplication, and distribution of material. Writes speeches, articles, and public or employee relations releases. Makes changes to material prepared by others. Specializes in writing material related to work methods and procedures. Delivers/distributes print jobs to printing and budget offices. Performs other duties as assigned.

Minimum Education: Bachelor’s
Minimum Experience: 2 years

Experience & Degree Substitution Equivalencies
Experience exceeding the minimum shown may be substituted for education. Likewise, education exceeding the minimum shown may be substituted for experience.

Equivalent Degree | Experience
---|---
Associate’s | 2 years relevant experience
Bachelor’s | Associate’s degree + 2 years relevant experience or 4 years relevant experience
