**Systems Engineer**
Provide Systems Engineering Support which includes Baseline Characterization and Analysis, Systems Impact Analysis, and Systems/Project Planning. Responsible for assessing systems, determining problems, providing solutions to issues that arise, designing systems, maintaining systems and concept engineering for possible improvements that can be made to a system in the future. Engineers control features to ensure systems effectively meet the organization’s quality standards. Engages in quality control procedures to ensure that systems are efficient and operational. Engineers a cost-efficient system for projects by performing a cost-benefit analysis. Ensures that an organization is operating at maximum efficiency, from manufacturing to distribution.

**Minimum years of experience:** 3 Years  
**Minimum education/degree requirements:** Bachelor’s Degree

**Senior Systems Engineer**
This senior level role approaches complex systems engineering challenges and integrations with a holistic, big picture mindset which allows for comprehensive execution and seamless delivery. Assesses infrastructure and builds upon existing solutions to enhance an organization's engineering needs while aligning with business objectives. Functions include Program & Strategic Planning, Development of System Requirements, Plan Design and Implementation of Systems, On-Site Technical Assessments, GAP Analysis, Systems Requirements, System Sustainment Strategies, Document Review, Requirements Development, Risk Mitigation, and Acquisition Documentation. 

**Minimum years of experience:** 5 years  
**Minimum education/degree requirements:** Bachelor’s Degree

**Service Contract Labor Standards:** The Service Contract Labor Standards (SCLS) is applicable to this contract as it applies to the entire Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLA eligible labor categories. If and/or when the contractor adds SCLA labor categories/employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLA matrix identifying the GSA labor category titles, the occupational code, SCLA labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
