</table>

5. Point(s) of production (city, county, and state or foreign country): **Same as company address**

6. Discount from list prices or statement of net price: **Prices are listed as GSA Net, Discount and IFF included. See labor category and hourly rates.**

7. Quantity discounts: **1% off total task order for $150,000 or more**

8. Prompt payment terms: **Net 30 days**

   Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchanged for other concessions

9. Foreign items (list items by country of origin). **Not Applicable**

10a. Time of delivery. (Contractor insert number of days.) **To Be Determined at the Task Order level.**
10b. Expedited Delivery. Items available for expedited delivery are noted in this price list. To Be Determined at the Task Order level.

10c. Overnight and 2 day delivery. To Be Determined at the Task Order level.

10d. Urgent Requirements. To Be Determined at the Task Order level.

11. F.O.B. point(s). - Destination

12a. Ordering address(es). Same as Contractor

12b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s) are found in Federal Acquisition Regulation (FAR) 8.405-3.

13. Payment address(es). Same as Contractor

14. Warranty provision. Standard Commercial Warranty Terms & Conditions

15. Export packing charges, if applicable. Not Applicable

16. Terms and conditions of rental, maintenance, and repair (if applicable). Not Applicable

17. Terms and conditions of installation (if applicable). Not Applicable

18a. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable). Not Applicable

18b. Terms and conditions for any other services (if applicable). Not Applicable

19. List of service and distribution points (if applicable). Not Applicable

20. List of participating dealers (if applicable). Not Applicable

21. Preventive maintenance (if applicable). Not Applicable

22a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants). Not Applicable

22b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor’s website or other location.) The EIT standards can be found at: www.Section508.gov/. Not Applicable

23. Unique Entity Identifier (UEI) number CL1LGpb2PKN3
24. Notification regarding registration in System for Award Management (SAM) database.
Contractor registered and active in SAM

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (**) in this pricelist are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide).

JOB DESCRIPTIONS

**Principal:** Manages and oversees the successful completion of projects for clients. Provides advice and assistance to businesses on environmental issues, including on the control of environmental contamination from pollutants, toxic substances, and other hazardous materials. Conducts audits and inspections to identify problems (e.g., compliance issues, hazardous materials/waste, etc.), measure and evaluate risks, and recommends solutions. Reviews client issues/concerns associated with air and water quality, environmental law, fire codes, ISO14001, remediation, ecology, etc. Writes proposals and provides cost/scope/level of effort for projects. Meets with clients for entertainment and information gathering in support of project work. Provides final review and is signatory on project deliverables.

Minimum Education: Masters

Minimum Experience: 15 years

**Project Manager:** Manages and oversees the successful completion of projects for clients, often with multi-disciplined team of scientists, engineers, and other technicians. Provides advice and assistance to businesses on environmental issues, including on the control of environmental contamination from pollutants, toxic substances, and other hazardous materials. Conducts and/or oversees audits and inspections to identify problems (e.g., compliance issues, hazardous materials/waste, etc.), measure and evaluate risks, and recommends solutions. Reviews client issues/concerns associated with air and water quality, environmental law, fire codes, ISO14001, remediation, ecology, etc. Writes proposals and provides cost/scope/level of effort for projects. Meets with clients for entertainment and information gathering in support of project work. Provides final review and is signatory on project deliverables.
materials/waste, etc.), measure and evaluate risks, and recommends solutions. Reviews client issues/concerns associated with air and water quality, environmental law, fire codes, ISO14001, remediation, ecology, etc. Writes draft proposals and provides estimated cost/scope/level of effort for projects. May meet with clients for entertainment and information gathering in support of project work. Responsible for technical completion of project related work.

Minimum Education: Bachelors

Minimum Experience: 10 years

**Technician I:** Assists on field work for projects as needed, including auditing, training, industrial hygiene sampling, etc. May engage in research and problem solving for technical support activities. Assists on audits and inspections to identify problems (e.g., compliance issues, hazardous materials/waste, etc.). Helps identify client issues/concerns associated with air and water quality, environmental law, fire codes, ISO14001, remediation, ecology, etc. Drives and provides manual labor as needed for project work.

Minimum Education: High School

Minimum Experience: 1 year

**Technician II:** Assists and supervises field work for projects as needed, including auditing, training, industrial hygiene sampling, etc. Engages in research and problem solving for technical support activities. May interact with client on project related issues.

Minimum Education: High School

Minimum Experience: 1

**Industrial Hygienist:** Develops plans and proposals for Industrial Hygiene projects, including cost estimates and scoping. Oversees industrial hygiene sampling campaigns to identify issues involving pollutants, toxic substances, and air quality. Measure and evaluate risks and recommend solutions. Collects samples as needed and fills out chain of custody and other sampling paperwork. Receives and reviews sampling data results. Writes reports and provides conclusions and recommendations based on expertise and sampling.

Minimum Education: Masters

Minimum Experience: 5 years

**RCRA Awareness:** A 2-hour class designed to help workers at hazardous waste generating facilities safely manage their hazardous waste, including Universal Waste, Used Oil, and so forth. The class meets the requirements of 40 CFR 262.16(b)(9)(iii) and 40 CFR 262.17(a)(7)

**HAZWOPER 8-hr Refresher:** An 8-hr class providing HAZWOPER trained personnel with their annual update. The class meets the requirements of 29 CFR 1910.120(e)(8) and/or 29 CFR 1910.120(p)(7)

**OSHA 10-hr Construction:** The OSHA-authorized hazard recognition class designed for entry level workers to be safe on construction sites. The class uses a mix of adult-learning techniques to keep it interesting and memorable. Successful students receive an OSHA-10 hour Construction outreach card upon completion.
EHS Compliance

RÄV supports corporate environmental health and safety programs to evaluate and improve compliance with permit limits, state and federal regulations, and corporate policies and procedures.

Compliance Auditing and Program Development
Audits are designed to help prepare and implement cost-effective solutions and improve systems for maintaining and tracking regulatory compliance. Compliance support services include:
- Compliance assessments to support due diligence and acquisitions
- Programs and procedures development to assist with regulatory compliance
- Compliance assessments to support ISO 14001, ISO 45001, VPP and other management system compliance evaluations
- Legal requirements determinations

Environmental Health and Safety Management Systems
RÄV assists with the creation, implementation and ongoing support of Environmental Management Systems (EMS) and Occupational Health and Safety Management Systems (OHSMS). Services include:
- Identifying EHS impact of activities, operations, processes, products and services
- Identifying and evaluating applicability of state, federal and local regulations
- Identifying responsibilities and resources for successful EMS or OHSMS implementation
- EMS/OHSMS program development and auditing
- Training of internal auditors
- Pre-certification audits, gap analyses, registrar audit support

Pollution Prevention/Waste Management
RÄV applies pollution prevention (P2) sciences and techniques to assist facilities with plans, projects and programs to reduce the cost of manufacturing chemicals or other products. P2 success depends on identifying the root causes of waste before considering P2 options. Service support includes:
- Evaluation of waste streams
- Process design/re-engineering and technology evaluations
- Program development and regulatory review
- Strategic planning of process changes to enhance on-site P2 initiatives
- Value stream assessments and cost savings analyses

Spill Prevention Control and Countermeasure Plans (SPCC)
RÄV’s approach to the management of above-ground storage tanks (ASTs) begins with the design of effective containment and spill planning. The following services help to achieve and maintain compliance:
- Evaluation of SPCC rule applicability
- Containment alternative evaluations and design
- Updating SPCC plans with certification by a professional engineer
- Inspection programs and employee training
- Contingency and Facility Response Plans
- Slug Control Plans (for Significant Industrial Dischargers)

Emergency Planning and Community Right to Know Act (EPCRA)
RÄV routinely assists clients in complying with annual filings of Hazardous Chemical Reports (Tier II) and Chemical Release Reports (Toxic Release Inventory Reports).

PRACTICES
Environmental Engineering and Sciences:
- Compliance auditing
- UST/LUST
- RCRA support
- Air permitting
- NPDES permitting
- SPCC/SWPPP/HWC
- ISO 14001
- GHG inventories/verification
- EPCRA (Tier II, Form R)
- Training
- Phase I ESA

Occupational Safety and Health:
- Compliance auditing
- 10/30 Hour Outreach Training
- VPP
- ISO 45001
- HAZWOPER training
- Program development

Management Systems
- Conformance auditing
- Training
- Program/system development
- ISO 45001
- ISO 14001

Auditing (Compliance, Conformance)

INDUSTRIES
Manufacturing
Power
Public Sector
Real Estate
Solid Waste
EHS Compliance

Services include:

▪ Rule applicability and Tier II/Form R reporting threshold evaluations
▪ Review of safety and chemical data sheets for completeness
▪ Preparation of Tier II reports from chemical inventory information
▪ Calculation of chemical releases and preparation of TRI Reports (Form R)

Clean Air Act (CAA)
RÄV assists clients with various air quality compliance support items, including:

▪ New Source Review (NSR) Permitting
▪ Title V Air Permitting
▪ Minor Source Permitting
▪ Emission Inventories
▪ Detailed NSPS/MACT/NESHAP/Permit Compliance Assessments/Audits
▪ Deviation and Compliance Reporting
▪ GHG Permitting/Reporting
▪ Air Pollution Control Design & Evaluation
▪ Indoor Air Quality Evaluation

Clean Water Act (CWA)
RÄV assists clients across many market sectors with various CWA issues, including:

▪ NPDES individual discharge permit acquisition and renewal applications
▪ NPDES storm water and general permit acquisition and renewal applications
▪ Storm Water Pollution Prevention Plan (SWPPP) preparation
▪ Routine Discharge Monitoring Report (DMR) completion and submittal
▪ Assistance with design and implementation of Best Management Practices (BMPs)

Resource Conservation and Recovery Act (RCRA)
RÄV assists clients with compliance with RCRA obligations, including:

▪ Waste Characterization Evaluations and Support
▪ Waste Management Planning and Evaluation of Beneficial Use / Recycling Opportunities
▪ Implementation of weekly hazardous waste inspection programs
▪ Providing RCRA training for personnel involved with management of hazardous waste
▪ Preparation of Facility RCRA Contingency Plans
▪ Completion of Biennial Hazardous Waste Reports
▪ Completion of Various State Residual Waste (Non-Hazardous) Biennial Reports

Toxic Substances Control Act (TSCA)
RÄV works with clients on various TSCA issues, including:

▪ Pre-manufacture notifications
▪ Completion of TSCA Chemical Data Reporting (CDR) Reports (Form U)
▪ Training
▪ Assisting with management of Electrical Equipment containing Polychlorinated Biphenyls (PCBs)

Underground Storage Tanks (UST), Leaking Underground Storage Tanks (LUST)
RÄV provides UST/LUST services, including:

▪ Part 280/281 Compliance auditing and plans (registration, notification, leak detection and secondary containment requirements, operator training, O&M, etc.)
Occupational Health and Safety Support

RÄV provides a full array of occupational health and safety services, including compliance audits, corporate health and safety policies and procedures, training, and management system support and audits.

Occupational Health and Safety Management Systems
RÄV provides Occupational Health and Safety Management System (OHSMS) services by assisting with the creation, implementation and ongoing support of these programs, including:

- Identifying hazards and risks of activities, operations, processes, products and services
- Identifying and evaluating applicability of state, federal and local regulations
- Compliance auditing and training
- Evaluations of operations for PSM and RMP applicability
- Identifying responsibilities and resources for successful OHSMS implementation
- OHSMS scope, risk, and interested party development
- OHSMS program auditing, program design, and development
- Integrating Environmental Management Systems (EMS) with OHSMS to facilitate integrated management systems
- Gap analyses and program support for clients working towards OSHA Voluntary Protection Program (VPP) “Star” status

Health, Safety, and Industrial Hygiene
RÄV hazard assessments and safety analyses evaluate facility and manufacturing operations. These assessments assist in identifying hazards within facility operations and support activities. RÄV’s health, safety, and industrial hygiene services include:

- Health, safety, and industrial hygiene compliance support
- Indoor air quality and noise studies
- Occupational health and safety program development and audits

Training and Certification
RÄV engineers and scientists provide training and certification in many areas, including:

- OSHA-authorized 10- and 30-hour outreach training (General Industry and Construction)
- Hazardous Waste Operations and Emergency Response (HAZWOPER) training – initial and refresher
- Confined Space Entry
- Powered Industrial Truck (PIT – aka forklift)
- Control of Hazardous Energy (aka LOTO)
- Internal auditor
- ISO 14001/ISO 45001 Executive and Employee training
- Employee training
- First Aid/AED/CPR
- Hazard Communication
- Custom program development

PRACTICES

Environmental Engineering and Sciences:
- Compliance auditing
- RCRA support
- Air permitting
- NPDES permitting
- SPCC/SWPPP/HWC
- GHG inventories/verification
- EPCRA (Tier II, Form R)
- Training
- Phase I ESA
- Fire Inspections

Occupational Safety and Health:
- Compliance auditing
- 10/30 Hour Outreach Training
- VPP
- ISO 45001
- HAZWOPER training
- Program development

Management Systems
- Conformance auditing
- Training
- Program/system development
- ISO 45001
