Information on any company, any size, anywhere in the world.

Founded in 2003 in Chicago, GloBIS provides freshly investigated reports on companies and individuals worldwide. Whether to:
- vet a client or supplier,
- learn who truly controls a company,
- reveal the connections between entities, or
- identify a compliance concern before it becomes an expensive problem,
GloBIS provides the unbiased facts on companies any size, any industry, anywhere in the world.

Fortune 500 quality with small business agility and pricing.

GloBIS reports are always freshly investigated when the client places the order to ensure the content is as current and accurate as possible. Our researchers:
- access information from the local official company registration authority, including ownership, financials and litigation records;
- cull big data for information such as import/export and trade financing records;
- conduct open source searches;
- then contact the company itself to confirm the information found elsewhere.
Generally, a Fullcheck report for just a few hundred dollars is all we need to uncover red flags, identify threats and expose scams. There is no more accurate report at this speed and price point than a GloBIS report.
