Note: Iteris has been awarded Cooperative Purchasing for SIN(s) 54151S and Disaster Recovery Programs for all awarded SIN(s).

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. Not Applicable

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item. See price list below.

2. Maximum order:

3. Minimum order: $100

4. Geographic coverage (delivery area). Domestic
5. Point(s) of production (city, county, and State or foreign country):
1700 Carnegie Ave. STE 100 Santa Ana, CA 92705

6. Discount from list prices or statement of net price. Government Net Prices (discounts already deducted.)

7. Quantity discounts. None

8. Prompt payment terms. Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions. Net 30 days

9. Foreign items (list items by country of origin). Not Applicable

10a. Time of delivery. (Contractor insert number of days.) Contact Contractor

10b. Expedited Delivery. Items available for expedited delivery are noted in this price list. Contact Contractor

10c. Overnight and 2-day delivery. Contact Contractor

10d. Urgent Requirements. Contact Contractor

11. F.O.B. point(s). Destination

12a. Ordering address(es). Same as Contractor

12b. Ordering procedures: For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s) are found in Federal Acquisition Regulation (FAR) 8.405-3.

13. Payment address(es). Same as Contractor

14. Warranty provision. Standard Commercial Warranty Terms & Conditions

15. Export packing charges, if applicable. Not Applicable

16. Terms and conditions of rental, maintenance, and repair (if applicable). Not Applicable

17. Terms and conditions of installation (if applicable). Not Applicable

18a. Terms and conditions of repair parts indicating date of parts price lists and any discounts from list prices (if applicable). Not Applicable

18b. Terms and conditions for any other services (if applicable). Not Applicable

19. List of service and distribution points (if applicable). Not Applicable
20. List of participating dealers (if applicable). *Not Applicable*

21. Preventive maintenance (if applicable). *Not Applicable*

22a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants). *Not Applicable*

22b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g., contractor’s website or other location.) The EIT standards can be found at: [www.Section508.gov/](http://www.Section508.gov/). *Not Applicable*

23. Unique Entity Identifier (UEI) number. Z475JYLWFCK8

24. Notification regarding registration in System for Award Management (SAM) database. *Cage code: 56372*
**Labor Category Descriptions**

**Job Title:** Administrative/Clerical Level 1  
**Functional Responsibilities:** Entry-level position providing general administrative support to relieve department managers or staff of administrative details. Performs routine and non-routine tasks including special projects. May be responsible for inventory control, scheduling and organizing meetings, researching and securing requested information, and for researching, compiling and proofing of various reports and studies. May take and/or transcribe confidential or technical information, take and distribute meeting minutes, order supplies, distribute mail, answer phones, respond to customer/client/employee inquiries, and other office administrative duties. Interacts with other support staff and departments to gather, supply, or coordinate information. Job requires moderate understanding of general job aspects and some understanding of the detailed aspects.  
**Minimum Education:** High School Graduate or General Education Degree (GED) Required  
**Minimum/General Experience:** 0 years

**Job Title:** Administrative/Clerical Level 2  
**Functional Responsibilities:** Junior-level position providing general administrative support to relieve department managers or staff of administrative details. Performs routine and non-routine tasks including special projects. May be responsible for inventory control, scheduling and organizing meetings, researching and securing requested information, and for researching, compiling and proofing of various reports and studies. May take and/or transcribe confidential or technical information, take and distribute meeting minutes, order supplies, distribute mail, answer phones, respond to customer/client/employee inquiries, and other office administrative duties. Interacts with other support staff and departments to gather, supply, or coordinate information. Duties and tasks are varied but standardized; performs some more advanced functions.  
**Minimum Education:** High School Graduate or General Education Degree (GED) Required  
**Minimum/General Experience:** 3 years

**Job Title:** Administrative/Clerical Level 3  
**Functional Responsibilities:** Senior-level position providing general administrative support to relieve department managers or staff of administrative details. Performs routine and non-routine tasks including special projects. May be responsible for inventory control, scheduling and organizing meetings, researching and securing requested information, and for researching, compiling and proofing of various reports and studies. May take and/or transcribe confidential or technical information, take and distribute meeting minutes, order supplies, distribute mail, answer phones, respond to customer/client/employee inquiries, and other office administrative duties. Interacts with other support staff and departments to gather, supply, or coordinate information. Job requires complete acquaintance with and understanding of the general and detailed aspects of the job and their practical applications to problems and situations ordinarily encountered.  
**Minimum Education:** High School Graduate or General Education Degree (GED) Required  
**Minimum/General Experience:** 6 years

**Job Title:** Analyst Level 1  
**Functional Responsibilities:** May develop and recommend solutions to technical requirements as assigned relating to professional services such as but not limited to engineering, logistics, consulting, facilitation, and training. Work follows technical and process guidance and instructions, contributing to the completion of assigned technical tasks.  
**Minimum Education:** Bachelor's Degree Required  
**Minimum/General Experience:** 0 Years

**Job Title:** Analyst Level 2  
**Functional Responsibilities:** Responsibilities may support complex research and engineering assignments relating to professional services such as but not limited to engineering, logistics, consulting, facilitation, and training. Follows established procedures and contributes to the completion of milestones associated with specific projects.  
**Minimum Education:** Bachelor's Degree Required  
**Minimum/General Experience:** 2 Years
Job Title: Analyst Level 3
Functional Responsibilities: Responsibilities may require developing new or improved techniques and procedures relating to professional services such as but not limited to engineering, logistics, consulting, facilitation, and training. Provide analysis on a wide range of requirements. Individual contributes to the completion of specific programs and projects with frequent customer contacts.
Minimum Education: Bachelor's Degree Required
Minimum/General Experience: 5 Years w/Bachelor's

Job Title: Engineer Level 1
Functional Responsibilities: Develop and recommend solutions to technical problems as assigned relating to professional services such as but not limited to engineering, logistics, consulting, facilitation, and training. Work follows technical and process guidance and instructions, contributing to the completion of assigned technical tasks.
Minimum Education: Bachelor's Degree Required
Minimum/General Experience: 0 Years

Job Title: Engineer Level 2
Functional Responsibilities: Responsibilities require comprehensive knowledge of engineering principles to support complex research and engineering assignments relating to professional services such as but not limited to engineering, logistics, consulting, facilitation, and training. Follows established procedures and contributes to the completion of milestones associated with specific projects.
Minimum Education: Bachelor's Degree Required
Minimum/General Experience: 2 Years w/Bachelor's

Job Title: Engineer Level 3
Functional Responsibilities: Responsibilities require applications of diversified knowledge of engineering principles and practices, while developing new or improved techniques and procedures. Provide technical solutions to a wide range of requirements relating to professional services such as but not limited to engineering, logistics, consulting, facilitation, and training. Individual contributes to the completion of specific programs and projects with frequent customer contact.
Minimum Education: Bachelor's Degree Required
Minimum/General Experience: 5 Years

Job Title: Engineer Level 4
Functional Responsibilities: Responsible for solving engineering problems relating to professional services such as but not limited to engineering, logistics, consulting, facilitation, and training. Determines program objectives and requirements and develops standards and guides for diverse engineering and scientific activities. Guides the successful completion of major programs and may function in a project leadership role. Individual serves as the prime technical contact on contracts and projects. Individual will interact with clients on significant technical matters.
Minimum Education: Bachelor's Degree Required
Minimum/General Experience: 9 Years

Job Title: Engineer Level 5
Functional Responsibilities: Possess in-depth knowledge of principles, concepts, and techniques appropriate to professional services such as but not limited to engineering, logistics, consulting, facilitation, and training. Interprets requirements, performs highly complex analyses, and resolves complex problems. Develops advanced technological ideas and guides their development into a final product. The individual may act as advisor to customers on advanced technical research studies and applications. Individual provides leadership efforts, training, mentoring, and guidance. Individual may lead medium to large projects, including defining scope, objectives, and methods.
Minimum Education: Bachelor's Degree Required
Minimum/General Experience: 14 Years
Job Title: Planner Level 1
Functional Responsibilities: Performs routine planning assignments while developing professional proficiency. Planning work may be related to land utilization, urban development, transportation or environmental projects. Researches and analyzes technical data for studies and reports. Develops preliminary site plans for residential, commercial, industrial, recreational or transportation uses. Prepares maps, graphics and final plans for presentations. May be involved in analysis of specific technical areas. Conducts land development, traffic, or environmental impact studies and writes technical portions of reports. May perform limited portions of a broader assignment of an experienced planner, using prescribed methods.
Minimum Education: Bachelor's Degree in Planning Required
Minimum/General Experience: 1 Year

Job Title: Planner Level 2
Functional Responsibilities: Applies technical professional proficiency to the solution of planning problems and the coordination of related project activities. Planning work may involve land utilization, urban planning, transportation or archaeological projects. Prepares all or part of technical reports. Visits project sites and gathers data. Analyzes zoning requirements, traffic and/or environmental impact of projects. Provides written and graphic input for technical memo, feasibility studies, proposals and project status reports. Coordinates graphic exhibit preparation and/or other portions of a planning project. Coordinates technical work requirements with internal disciplines.
Minimum Education: Bachelor's Degree in Planning Required
Minimum/General Experience: 3 Years

Job Title: Planner Level 3
Functional Responsibilities: Applies full competency in conventional planning work and broad knowledge of precedents in functional area of assignment. Plans, schedules, conducts or coordinates detailed phases of planning assignments in a part of a major project or in a total project of moderate scope. Work may involve land utilization, urban planning, transportation or archaeological projects. Coordinates technical work requirements of planning projects. Provides guidance to more junior planners in the design and preparation of plans and technical reports, and in the preparation of graphics, proposals, contracts, scopes of work and feasibility studies. Conducts analyses to determine impact of proposed project. Designs and formulates plans in graphic or written format. Writes project proposal components. Assists in the management of projects and acts as project manager on specific project tasks.
Minimum Education: Bachelor's Degree in Planning Required
Minimum/General Experience: 5 Years

Job Title: Planner Level 4
Functional Responsibilities: Provides the expertise of a seasoned planner, applying advanced concepts and techniques to unconventional problems. May function as individual contributor or technical specialist. Work may involve land utilization, urban planning, transportation or environmental projects. Coordinates technical aspects of planning projects with both internal disciplines and external consultants and subconsultants. Prepares technical reports for client submission. Negotiates contracts with clients. Prepares proposals and is responsible for project cost control. Conducts on-site inspections and reviews. Monitors progress and quality control. Routinely manages projects.
Minimum Education: Bachelor's Degree in Planning Required
Minimum/General Experience: 7 Years

Job Title: Planner Level 5
Functional Responsibilities: Provides technical expertise to diverse planning projects throughout the region, district or company wide. May function as lead planner or technical consultant. Work may involve land utilization, urban planning, transportation or environmental projects. Defines scope of project, with full responsibility for interpreting, organizing, executing and coordinating planning projects. Coordinates preparation of technical reports and project submissions. Participates in negotiations with clients. Monitors work progress and conformance to technical standards and regulations. Manages planning projects for budget compliance, deadlines and quality control. Prepares planning and site design concepts for special clients, governmental agency or commission hearings. Routinely manages projects.
Minimum Education: Bachelor's Degree in Planning Required
Minimum/General Experience: 10 Years
**Job Title:** Project Support Level 1  
**Functional Responsibilities:** Individual is an entry-level support person whose duties may include activities relating to project administration, scheduling, contracts, general project accounting, and pricing. Job requires limited use and/or application of basic principles, theories, and concepts and a general knowledge of industry practices and standards relating to support of professional services such as but not limited to engineering, logistics, consulting, facilitation, and training. Demonstrates the skill and ability to perform basic administrative/professional tasks, and solve routine problems of limited scope and complexity following established policies and procedures.  
**Minimum Education:** Bachelor's Degree Preferred  
**Minimum/General Experience:** 0 years

**Job Title:** Project Support Level 2  
**Functional Responsibilities:** Duties may include activities relating to project administration, scheduling, contracts, general project accounting, and pricing. Job requires frequent use and general knowledge of industry practices, techniques, standards and a general application of concepts and principles to support of professional services such as but not limited to engineering, logistics, consulting, facilitation, and training. Demonstrates the skill and ability to perform moderately complex administrative/professional tasks, and develop solutions to a variety of problems of moderate scope and complexity.  
**Minimum Education:** Bachelor's Degree Preferred  
**Minimum/General Experience:** 5 Years

**Job Title:** Project Support Level 3  
**Functional Responsibilities:** Duties may include activities relating to project administration, scheduling, contracts, general project accounting, and pricing. Complete understanding and application of principles, concepts, practices, and standards supporting professional services such as but not limited to engineering, logistics, consulting, facilitation, and training. Full knowledge of industry practices. Demonstrates the skill to perform fairly complex administrative/professional tasks and develop solutions.  
**Minimum Education:** Bachelor's Degree Required  
**Minimum/General Experience:** 10 Years

**Job Title:** Project Manager Level 1  
**Functional Responsibilities:** Individual responsible for daily operations of a team or work unit (direct supervision of the staff, assignment of work, schedules, day-to-day workflow, and operating costs) relating to professional services such as but not limited to engineering, logistics, consulting, facilitation, and training. Responsibilities may include cost, schedule, and technical performance of a specific unit or work package on a large system development-type task or broad responsibility for all aspects of program/project performance on a small technical services-type task.  
**Minimum Education:** Bachelor's Degree Required  
**Minimum/General Experience:** 2 Years

**Job Title:** Project Manager Level 2  
**Functional Responsibilities:** Manages a segment of a project, or function relating to professional services such as but not limited to engineering, logistics, consulting, facilitation, and training. The individual will be responsible for providing objective-oriented direction utilizing management guidelines and general policies. Responsibilities may include planning and project performance addressing cost, schedule, technical performance, and quality of work package, subsystem, or related group of work packages on large system development type task or full responsibility for all aspects of project performance on technical services-type task.  
**Minimum Education:** Bachelor's Degree Required  
**Minimum/General Experience:** 5 Years
Job Title: Project Manager Level 3  
**Functional Responsibilities:** Manages projects relating to professional services such as but not limited to engineering, logistics, consulting, facilitation, and training by providing guidance based on goals, objectives, and customer requirements. Responsibilities may include planning, risk management, and project performance addressing cost, schedule, and technical quality for related Work Breakdown Structure (WBS) elements on a large system development-type task or full responsibility for all aspects of project performance on a large technical services-type task.  
**Minimum Education:** Bachelor's Degree Required  
**Minimum/General Experience:** 9 Years

---

Job Title: Software Developer Level 1  
**Functional Responsibilities:** Collaborates in the process of conceiving, specifying, designing, programming, documenting, testing, and bug fixing involved in creating and maintaining applications, frameworks, or other software components. Participates in the process of writing and maintaining the source code. Position includes all that is involved between the conception of the desired software through to the final manifestation of the software, sometimes in a planned and structured process. Develops functional software in accordance with the defined requirements. Develops repeatable processes; clearly communicate ideas and expectations. Learns new technologies in collaboration with the principle software developers and architecture to support product innovation. Participates in SCRUM ceremony as an active contributor and member of the SCRUM organization.  
**Minimum Education:** Bachelor's Degree Required  
**Minimum/General Experience:** 0 Years

---

Job Title: Software Developer Level 2  
**Functional Responsibilities:** Collaborates in the process of conceiving, specifying, designing, programming, documenting, testing, and bug fixing involved in creating and maintaining applications, frameworks, or other software components. Participates in the process of writing and maintaining the source code. Position includes all that is involved between the conception of the desired software through to the final manifestation of the software, sometimes in a planned and structured process. Develops functional software in accordance with the defined requirements. Develops repeatable processes; clearly communicate ideas and expectations. Learns new technologies in collaboration with the principle software developers and architecture to support product innovation. Participates in SCRUM ceremony as an active contributor and member of the SCRUM organization.  
**Minimum Education:** Bachelor's Degree Required  
**Minimum/General Experience:** 3 Years

---

Job Title: Software Developer Level 3  
**Functional Responsibilities:** Analyzes requirements and converts to functional software to be validated by product. Participates as a principle contributor in design reviews, code reviews, and technical planning sessions. Serves as technical lead on key initiatives. Collaborates in the process of conceiving, specifying, designing, programming, documenting, testing, and bug fixing involved in creating and maintaining applications, frameworks, or other software components. Participates in the process of writing and maintaining the source code. Position includes all that is involved between the conception of the desired software through to the final manifestation of the software, sometimes in a planned and structured process. Develops functional software in accordance with the defined requirements. Develops repeatable processes; clearly communicate ideas and expectations.  
**Minimum Education:** Bachelor's Degree Required  
**Minimum/General Experience:** 5 Years

---

Job Title: Software Development Lead Level 1  
**Functional Responsibilities:** Leads, coaches, mentors subordinates to create a healthy work environment in which they can be successful professionals and contribute to the organization's success. Participates as a principle contributor in strategic planning sessions to strategically align business objectives. Travels to industry conferences to create thought leadership presence and create network of client relationships to fuel product innovation. Performs some day to day tasks to remove client and employee barriers as expertise is required. Individual code contribution is still necessary.  
**Minimum Education:** Bachelor's Degree Required  
**Minimum/General Experience:** 7 Years
**Job Title:** Software Development Lead Level 2  
**Functional Responsibilities:** Leads, coaches, mentors subordinates to create a healthy work environment in which they can be successful professionals and contribute to the organization's success. Participates as a principle contributor in strategic planning sessions to strategically align business objectives. Travels to industry conferences to create thought leadership presence and create network of client relationships to fuel product innovation. Performs some day to day tasks to remove client and employee barriers as expertise is required. Individual code contribution is still necessary.  
**Minimum Education:** Bachelor's Degree Required  
**Minimum/General Experience:** 9 Years

**Job Title:** Subject Matter Expert (SME) Level 2  
**Functional Responsibilities:** Develops and maintains client partnerships. Cultivates strategic thinking and to grow business and increase return client rates. Performs design and programming activities involving multiple modules or subsystems. Periodically participates in coordination meetings and consults with other staff members. Creates and maintains documentation required of the product(s). Collaborates with engineers and planners to create more efficient methods and maintain profitability. Identifies technology solutions for clients. Defines client needs and develops a plan and proposal for delivery of the project. May mentor lower level engineers or planners.  
**Minimum Education:** Bachelor's Degree Required  
**Minimum/General Experience:** 15 Years

**Job Title:** Traffic Specialist Level 1  
**Functional Responsibilities:** Utilizes advanced engineering knowledge, combined with extensive experience and training, to prepare the development of system performance measurement tools, standard operating policies/procedures, deficiency reports and mitigation plans to improve the traffic flow or safety in compliance with applicable standards or regulations. Independently analyzes, assess, and interprets data, conditions, and systems to plan and execute traffic signal retiming projects, covering the data collection phase through the project reporting phase. Maintains knowledge of Advanced Traffic Management System (ATMS) platforms, optimization software, and analysis software to ensure technical competence. Diagnoses mechanical, hardware, software and systems failures using established procedures and experience.  
**Minimum Education:** Bachelor's Degree Required  
**Minimum/General Experience:** 2 Years

**Job Title:** Traffic Specialist Level 2  
**Functional Responsibilities:** Utilizes advanced engineering knowledge, combined with extensive experience and training, to prepare the development of system performance measurement tools, standard operating policies/procedures, deficiency reports and mitigation plans to improve the traffic flow or safety in compliance with applicable standards or regulations. Independently analyzes, assess, and interprets data, conditions, and systems to plan and execute traffic signal retiming projects, covering the data collection phase through the project reporting phase. Maintains knowledge of Advanced Traffic Management System (ATMS) platforms, optimization software, and analysis software to ensure technical competence. Diagnoses mechanical, hardware, software and systems failures using established procedures and experience. Assists in training of staff on traffic engineering fundamental and advanced tactics to efficiently move traffic.  
**Minimum Education:** Bachelor's Degree Required  
**Minimum/General Experience:** 4 Years

**Job Title:** Traffic Technician Level 1  
**Functional Responsibilities:** Under the direction of an engineer, supports the planning and execution of traffic signal retiming projects, covering the data collection phase through the project reporting phase. Maintains knowledge of Advanced Traffic Management System (ATMS) platforms, optimization software, and analysis software to ensure technical competence. Provides technical support to customers on operational or maintenance aspects of system equipment. Serves as customer contact on technical and service related problems. Diagnoses mechanical, hardware, software and systems failures using established procedures.  
**Minimum Education:** High School Graduate or General Education Degree (GED) Required  
**Minimum/General Experience:** 1 Year
The Service Contract Labor Standards, formerly the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Multiple Award Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCLS eligible labor categories. If and/or when the contractor adds SCLS labor categories/employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
