On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order are available through GSA Advantage!, a menu-driven database system. The INTERNET address for GSA Advantage! is GSAAAdvantage.gov.

Schedule For – Multiple Award Schedule (MAS)
Federal Supply Group: Professional Services
Contract Number: 47QRAA22D00DC

For more information on ordering from Federal Supply Schedules go to the GSA Schedules page at GSA.gov.

**CONTRACT PERIOD:** August 9, 2022 through August 8, 2027

**Contractor:** Go Energistics, LLC
2101 Cedar Springs Rd.
Ste. 1050
Dallas, TX 75201

Telephone: 917-226-2127 (telephone)
Website: [www.goenergistics.com](http://www.goenergistics.com)
E-mail: Christy.ullo@goenergistics.com
Contract Administration: Christy Ullo

**BUSINESS SIZE:** Small Business, Service Disabled Veteran Owned Small Business, SBA Certified Small Disadvantaged Business
CONTRACTOR INFORMATION

1a. TABLE OF AWARDED SPECIAL ITEM NUMBER(s) with appropriate cross-references to page numbers:

<table>
<thead>
<tr>
<th>SIN</th>
<th>Recovery</th>
<th>SIN Description</th>
</tr>
</thead>
<tbody>
<tr>
<td>541611</td>
<td>541611-RC</td>
<td>Management and Financial Consulting, Acquisition and Grants Management Support, and Business Program and Project Management Services</td>
</tr>
<tr>
<td>541614</td>
<td>541614-RC</td>

</tbody>
</table>

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply.

LOWEST PRICED MODEL NUMBER AND PRICE FOR EACH SIN:
See pricelist below.

1c. If the Contractor is proposing hourly rates a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item. See Section 28, below.

2. MAXIMUM ORDER: $1,000,000 for 541611 and 541614

3. MINIMUM ORDER: $100

4. GEOGRAPHIC COVERAGE (delivery area): Domestic

5. POINT(S) OF PRODUCTION (city, county, and state or foreign country): Same as company address.

6. DISCOUNT FROM list prices or statements of net price: The GSA Net Prices published on the GSA Advantage website reflect the fully burdened price. The negotiated discount has been applied and the Industrial Funding Fee has been added.

7. QUANTITY DISCOUNT: None

8. PROMPT PAYMENT TERMS: Net 30 Days. Note: Prompt payment terms must be followed by the statement "Information for Ordering Offices: Prompt payment terms
cannot be negotiated out of the contractual agreement in exchange for other concessions."

9. FOREIGN ITEMS (list items by country of origin): None

10a. TIME OF DELIVERY (Contractor insert number of days):

Negotiated at the Task Order Level with the Ordering Activity.

10b. EXPEDITED DELIVERY The Contractor will insert the sentence “Items available for expedited delivery are noted in this price list.” under this heading. The Contractor may use a symbol of its choosing to highlight items in its price list that have expedited delivery:

Please contact the Contractor for availability and rates.

10c. OVERNIGHT AND 2-DAY DELIVERY: The Contractor will indicate whether overnight and 2-day delivery are available. Also, the Contractor will indicate that the schedule customer may contact the Contractor for rates for overnight and 2-day delivery

Please contact the Contractor for availability and rates.

10d. URGENT REQUIRMENTS: The Contractor will note in its price list the “Urgent Requirements” clause of its contract and advise agencies that they can also contact the Contractor’s representative to affect a faster delivery:

Agencies can contact the Contractor’s representative to affect a faster delivery. Customers are encouraged to contact the contractor for the purpose of requesting accelerated delivery.

11. FOB POINT(s): Destination

12a. ORDERING ADDRESS(es): Same as company address

12b. ORDERING PROCEDURES:

For supplies and services, the ordering procedures, information on Blanket Purchase Agreements (BPA’s) are found in Federal Acquisition Regulation (FAR) 8.405-3.

13. PAYMENT ADDRESS(es): Same as company address

14. WARRANTY PROVISION: None

15. EXPORT PACKING CHARGES: Not Applicable
16. TERMS AND CONDITIONS OF RENTAL, MAINTENANCE, AND REPAIR (IF APPLICABLE):
   Not Applicable

17. TERMS AND CONDITIONS OF INSTALLATION:
   Not Applicable

18a. TERMS AND CONDITIONS OF REPAIR PARTS INDICATING DATE OF PARTS PRICE LISTS AND ANY DISCOUNTS FROM LIST PRICES (IF APPLICABLE):
   Not Applicable

18b. TERMS AND CONDITIONS FOR ANY OTHER SERVICES (IF APPLICABLE):
   Not Applicable

19. LIST OF SERVICE AND DISTRIBUTION POINTS (IF APPLICABLE): Not Applicable

20. LIST OF PARTICIPATING DEALERS (IF APPLICABLE): None

21. PREVENTIVE MAINTENANCE (IF APPLICABLE): None

22a. SPECIAL ATTRIBUTES SUCH AS ENVIRONMENTAL ATTRIBUTES (e.g. recycled content, energy efficiency, and/or reduced pollutants):
   None

22b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor’s website or other location.) The EIT standards can be found at: www.Section508.gov.
   Not Applicable

23. UNIQUE ENTITY IDENTIFIER (UEI): R37RBYJR5AE7

24. NOTIFICATION REGARDING REGISTRATION IN SYSTEM FOR AWARD MANAGEMENT (SAM) DATABASE: Registered
Database Developer  
**Bachelor’s Degree, 1 Years of Experience**  
Performs moderately complex evaluations of requirements associated with the collection, organization, analysis and reporting of data and information. Designs new processes, models or systems for collection, organization, analysis and reporting of information as required by clients. Develops data models, and specifications to guide the development and implementation of processes, models, or systems.

Project Director  
**Bachelor’s Degree, 5 Years of Experience**  
Provides strategic direction and makes strategic decisions while directing project managers to implement those decisions. Monitors project progress to include, but not limited to, scope, schedule, resources, risk, and quality. Responsible for Liaising with senior level clients, stakeholders, and project managers for expectation management and to build strong work relationships. Must be able to plan, direct and coordinate activities of complex projects which may include multiple facilities with multiple phases. Often possesses industry certifications to include Project Management Professional (PMP) and DAWIA certification.

Quality Control Manager  
**Bachelor’s Degree, 3 Years of Experience**  
Responsible for gaining an understanding of the client’s needs and requirements and communicating them and the proposed quality standards and expectations to the project team. As a project progresses, identifies or devises ways to improve the project process to ensure higher quality and minimize resource utilization. Works with the client to ensure the final products meet established client needs and requirements. Oversees project planning and execution efforts to identify deviations from quality standards using random sampling methodologies. Inspects final project outputs, comparing it to the requirements and advising the project team in areas identified to be deficient. Gains feedback from the clients, attends meetings, submits reports to the client and the organization, and assists external auditors and inspectors as necessary. Responsible for the quality and correctness of all project documentation, including drawings, budgets, installations, and punch list.

Sr. Contract Manager  
**Bachelor’s Degree, 3 Years of Experience**  
Responsible for all project operations documentation and compliancy. Organizes, directs, and coordinates project documentation and archival for the most complex and challenging May also serve as a technical resource on a task. Serves as the primary point of contact for all parties and facilitates the resolution of conflicts between different parties. Develops and implements procedures for contract management, explains the terms of a contract to different parties, and monitors the contract for compliancy.
Sr. Designer  
**Bachelor’s Degree, 5 Years of Experience**  
Meet with end user to determine needs assessment. Create and present interior design concepts in response to the client’s needs. Develop preliminary layout. Confirm the dimensions of area to be occupied. Coordinate equipment and furniture plan with the mechanical, electrical, plumbing and security drawings to ensure the elimination of conflicts and supportability of design. Provides finishes and materials samples for the client to choose as required. Develops draft drawings using AutoCAD or Revit software. Participates in additional meetings as required to coordinate draft drawings with clients and integrating their input in accordance with the terms of the contract. Develop final layout of equipment and furniture floor plans for final sign off by the client. Participates in the development of estimates, schedules, and staffing plans to complete the project.

Designer I  
**Bachelor’s degree, 3 years**  
Producing consistently excellent visual work. Producing a host of ideas, selecting the best ones and selling them to the other members of the team and to clients. Encouraging others to share their ideas and nurturing creativity. Create and design various materials for print and digital collateral.

Sr. IT Planner  
**Bachelor’s Degree, 5 Years of Experience**  
Responsible for assisting with the conceptualization, design, development and fielding of information systems and applications that capitalize on information sharing as a means of gaining process efficiency. Assists with implementing information engineering projects and performs basic systems analysis.

Sr. Project Manager  
**Bachelor’s Degree, 7 Years of Experience**  
Plans and provides leadership and analysis for major office relocation/renovation projects as well as developing complex technical solutions for planning and design studies. Supervises, plans, and directs project coordination and management. Actively participates in business development and responsible for timely and accurate completion of projects. Responsible monitoring the progress of a project to include its budget, milestones, schedule, risks, scope, and changes to the scope. The Project Manager must be adept at both written and oral communications since he/she will be in constant communications with team members, stakeholders, and key personnel. The Project Manager shall be expected to thoroughly understand issue identification and resolution, time management, team building, and the use of various types of standard project management software.
Sr. Transition Planner
Bachelor’s Degree, 5 Years of Experience
Provides effective leadership and management to projects, ensuring quality performance by the project team and by the company. Expert knowledge of the planning, budgeting, and design process, including all phases from strategic operational/logistical planning/budgeting, procurement strategy and implementation, end user, project team and public communications, and close out. Responsible and accountable for all facets of project performance, including technical/ professional, financial and client satisfaction. Key representative of the company to clients and the public. Provides training and technical direction of junior personnel.

Transition Planner
Bachelor’s Degree, 3 years
Provides effective leadership and management to projects, ensuring quality performance by the project team and by the company. Expert knowledge of the planning, budgeting, and design process, including all phases from strategic operational/logistical planning/budgeting, procurement strategy and implementation, end user, project team and public communications, and close out. Responsible and accountable for all facets of project performance, including technical/ professional, financial and client satisfaction. Key representative of the company to clients and the public. Provides training and technical direction of junior personnel.

Sr. Operations Planner
Bachelor’s Degree, 3 Years of Experience
Manage operations planning activity for the organization in a manner that provides a sustainable balance between organizational resources, existing requirements, residual capacity, and future opportunities. Develop labor models to best utilize the workforce while decreasing operational costs. Develop labor schedules using methodologies that best utilize assets and labor to drive down operational costs. Establish training programs that train and develop team members on codes and compliances applicable to the IOT&A industry and our clients. Utilize data to forecast future demand requirements based on historical trends and the organization’s strategic business plan. Coordinate the resolution of operation related problems. Ensure proper relationships are established between customers, teaming partners, and vendors to facilitate the delivery of services. Supervise staff operations.

Sr. Logistics Manager
Bachelor’s Degree, 5 Years of Experience
Provides functional and technological support in the areas of procurement, logistics, maintenance, distribution, transportation, purchasing and inventory management. Provides program analysis and consulting services in the areas of systems, organizations, and operations. Generally, collects, compiles, and assembles data. Analyzes data and presents feasible alternatives and recommendations on projects based on thorough research / analysis.
Installation Project Manager
Bachelor’s Degree, 3 Years of Experience
Plans and provides leadership and analysis for major office relocation/renovation projects as well as developing complex technical solutions for planning and design studies. Supervises, plans, and directs project installation and management. Actively participates in business development and responsible for timely and accurate completion of projects. Perform consistent and timely follow-up with suppliers and vendors, tracing multiple shipments of commodities that will vary in quantity depending on the complexity of the project. Responsible for organizing and archiving shipment documents, installation schedules, and warranty information. Coordinates as necessary freight arrangements for commodity shipments. Locates installers to be used for various projects. Coordinates and ensures the development and execution of installer scopes of work. Determines the steps necessary to meet project deadlines, monitors the installation efforts and ensures they are meeting schedule and quality standards. Maintains installation bills and reviews them for accuracy.

Certified Installer
High School Diploma with 1 Year of Experience
Performs breakdown services of client’s office cubicles, desks, office equipment, computers, etc.; Prepares items for transportation or storage; Loads and unloads vehicles by hand or by use of hand truck or dolly; Performs installation or re-installation of office cubicles, desks, office equipment, computers, etc. Ensures all work is done in a manner that protects the client’s facility. Communicates issues effectively and provides input to mitigate or eliminate the issue. Ensure equipment is always safe and serviceable. Identifies and documents existing facility damage when necessary.

Tractor Trailer Driver
High School Diploma with 1 Years of Experience
Ability to load, protect and transport client assets, inspection of truck to ensure 100% compliance and that it is in proper working order, maintaining clean and safe operating conditions of vehicles and equipment, manages workers in loading and offloading goods and materials. Ensures up-to-date insurance and registration documentation is always available. Maintain and help always build good client relationships. Be able to operate a pallet jack, dolly set, and hand truck. Must be able to lift heavy weight in a safe and proper manner.
Warehouse Supervisor  
**High School Diploma with 1 Year of Experience**

Ability to function in a fast paced, high-pressured environment, requires multi-tasking and attention to detail, ability to lift 55 pounds, manage to use special warehouse equipment including a fork-lift, be able to maintain an organized understanding of the location of parts in a complex warehouse. Must be able to perform duties with or without reasonable accommodations. Establishes and modifies daily work schedules considering warehouse capacities and client requirements. Oversees the daily receiving of product/commodities and oversees the daily selection of items to be transported to the project job sites. Develops and implements action plans to improve operating results. Establishes and communicates job responsibilities and performance expectations to direct reports. Monitors processes for inbound and outbound deliveries. Leads, plans, and executes regularly scheduled coordination meetings. Trains and develops direct reports to achieve their maximum professional potential and to ensure compliance with federal, state, and local regulations and safety policies. Oversees the activities of warehouse personnel to effective day-to-day operations.

Mover  
**High School Diploma with 1 Year of Experience**

Ability to communicate clearly and concisely with other crew members, clients, and move coordinators, Strong analytical and problem-solving skills, ability to lift 80 pounds. Ensure the integrity of packaging and boxes containing commodities. Be able to make on the spot logistical decisions that allow operations to continue while remaining in the confines of the requirements. Have a thorough knowledge of how to properly pack a vehicle to ensure maximum capacity and mitigate shifting of product during transportation. Know how to use the typical equipment used in moving such as forklifts, pallet jacks, dolly sets, lift gates and automated dock doors and dock levelers.

Installation Project Coordinator  
**High School Diploma with 2 Years of Experience**

Ability to communicate clearly and concisely with other crew members, clients, and move coordinators. Ability to properly pad, protect, and package all items, Knowledge in the labeling and mapping out of packed goods to ensure a successful unpack. Assists customers and installers to identify solutions to installation related issues. Conducts the daily scheduling of installers to ensure a successful project. Maintains daily status of installation completion and uses appropriate database to communicate install data to supervisors and ultimately clients. Ensures team members are well trained, conduct quality work and provide a positive customer experience.
Sr. Architect
Bachelor’s Degree, 5 Years of Experience
Oversees and plans all architectural aspects of construction projects. Responsible for final specifications, approval of ordered materials, and overall guidance on objectives and concepts. May also supervise and evaluate work of subordinate architects and technicians. Familiar with a variety of the field's concepts, practices, and procedures. Relies on extensive experience and judgment to plan and accomplish goals. Performs a variety of complex tasks. Leads and directs the work of others. A wide degree of creativity and latitude is expected. Reviews conformance of documents to codes. Has a deep knowledge of the sequences and status of the construction process and ability to communicate the same to client. Performs visual checks of construction, records observations, and verifies observations against contracts. Manages critical path situations by providing prompt, informed responses to contractors.

Sr. Electrical Engineer
Bachelor’s Degree, 5 Years of Experience
Evaluates electrical systems, products, components, and applications by designing and conducting research programs, applying knowledge of electricity and materials. Confirms system’s and components’ capabilities by designing testing methods, testing properties. Develops electrical products by studying customer requirements, researching, and testing manufacturing and assembly methods and materials. Develops manufacturing processes by designing and modifying equipment for building and assembling electrical components, soliciting observations from operators.

Sr. Mechanical Engineer
Bachelor’s Degree, 5 Years of Experience
Experienced mechanical Engineer with abilities to manage mechanical engineering product, machine, or tooling projects from concept through production. Strong communication, simulation, design, documentation, and CAD skills. Ability to perform mechanical engineering analysis to support programs. Can lead project through concept, preliminary design, processing, prototype, critical design, and verification phases of the program.

Sr. Structural Engineer
Bachelor’s Degree, 5 Years of Experience
Responsible lead, to review structural projects plans. Delegates work through subordinate Engineers, Designers and Technicians. Redlines sketches for Designers and Engineers. Performs technical Q/C review and reviews budget.

HVAC Technician
High School Diploma, 2 Years of Experience
Analyze, troubleshoot, install, repair, rebuild, adjust, and replace mechanical equipment such as, but not limited to, bearings, motors, heat exchanges, air conditioning compressors, humidity control units, coolers, freezers, and exhaust hoods.

Design Modeler
High School Diploma, 2 Years of Experience
Under direct supervision, prepares engineering drawings and specifications. May use applicable software applications including CAD or Revit to present models of a layout to the client.

Clinical Ops Planner
Bachelor’s Degree, 2 Years of Experience
Work with clinician in a healthcare facility to see how the install and product location should flow, design the layout, assist with furniture purchasing, assist in designing packages for the final installation.

Equipment Planner
Bachelor’s Degree, 2 Years of Experience
Work with clinician in healthcare facility to determine what equipment is needed, make suggestions, review specifications, work with design team to drop in the layout into the design software program, review layout with project team and use their feedback to modify the design.

Kitchen Designer
High School Diploma, 2 Years of Experience
Meet with end user to determine needs assessment. Develop preliminary layout. Confirm the dimensions of area to be occupied. Second meeting to confirm design. Develop final layout in AutoCAD format. Obtain signoff of design from client. Meet with electrical, plumbing, and data trades to confirm layout does not interfere with utilities. Meet with end user to finalize fabric, and finish selections related to the kitchen.

SharePoint Manager
Bachelor’s Degree, 2 Years of Experience
Develops graphics, schedules, plans to setup an electronic database for each project. Allows client to access files and deliverables and are developed and maintained in the SharePoint database. Oversees the functions of the SharePoint database, allowing both the client and project resources the ability to access schedules, plans and deliverables in one location.
Sr. Equipment Planner  
**Bachelor’s Degree, 5 Years of Experience**

Work with clinician in healthcare facility to determine what equipment is needed, make suggestions, review specifications, work with design team to drop in the layout into the design software program, review layout with project team and use their feedback to modify the design. Oversee Equipment Planner. Work with key stakeholders to verify planning of equipment purchase and installation.

**Acquisition Project Manager**  
**Bachelor’s Degree, 5 Years of Experience**

Supports the development of program acquisition documentation such as Acquisition Plans, Acquisition Strategy Reports, Procurement Initiation Document, Statement of Work, funding documents, Contract Data Requirements Lists, and Acquisition Program Baseline Agreements. Assess program procedures, practices, philosophies, and documentation for compliance with specifications, contracts, and mission requirements. Attends, participates, supports, analyzes, provides input, develops, prepares, and reports on briefs, point papers, reports, correspondence, meetings, conferences, and review boards.

**QA/QC Scheduler**  
**Bachelor’s Degree, 2 Years of Experience**

Ensures compliance with the requirements identified in the contract/task order and QA/QC Plans. Position will not be required to be on site during all remedial activities but shall be readily available for consultation when required. Reviews and approves QA/QC plans and other submittals. Oversees site QA/QC staff and their inspection of materials and equipment received on-site to assure compliance with contract requirements, inspection of on-site laboratory equipment and safety and health equipment to assure proper operation and accuracy, inspection of field activities, supervision of quality control testing as required by the contract documents, and other personnel as required.

**Signage and Wayfinding Planner**  
**Bachelor’s Degree, 2 Years of Experience**

Signage projects related to signage and wayfinding. Responsible for scope, budget, and schedule related to the signage portion of the projects. Works closely and coordinates with team members, consultants, stakeholders, and signage vendors at all levels of schematic design to design documents, through the construction phase to acceptance and move-in.

**Assistant Project Manager/ Safety**  
**Bachelors Degree, 2 Years of Experience**

Responsible for ensuring all safety standards are within OSHA standards. Reviews job site and creates safety standards where additional safety is required. Administers personnel safety meetings. Responsible for data entry pertaining to a project, assisting the Project
Manager in scheduling field personnel, coordinating the ordering and delivery of materials and assisting in the completion of invoices. Prepared to assume the role of the Project Manager in his/her absence.

Scheduler
**Bachelor’s Degree, 1 Year of Experience**
Responsible for coordinating appointments for employees, customers or patients. The scheduler coordinates delivery schedules with vendors. Their main duties include planning weekly employee schedules, determining appointment lengths and making phone calls to patients or customers regarding their appointment or meeting times.

IT Planner/LVS
**Bachelor’s Degree, 5 Years of Experience**
Responsible for assisting with the conceptualization, design, development, and fielding of information systems and applications that capitalize on information sharing as a means of gaining process efficiency. Assists with implementing information engineering projects and performs basic systems analysis.

BMET
**Bachelor’s Degree- 1 Year of Experience**
An entry-level or junior biomedical equipment technician (BMET). Works under close supervision. Performs skilled work on preventive maintenance, repair, safety testing, and recording functional test data. Has comprehensive knowledge of practices, procedures, and types of equipment.

Acquisition Specialist
**Bachelor’s Degree- 2 Years of Experience**
Provides basic support and assistance in all areas of pre-award contract and acquisition administration and modification of micro purchases for services and supplies, as appropriate, in support of Agency goals/mission. Acquisition Specialists additionally assist with the preparation of all pre-award documentation as well as the evaluation of contract proposals.
