541910	541910RC	Marketing Research and Analysis
611430	611430RC	Professional and Management Development Training
OLM	OLMSTLOC / OLMRC	Order-Level Materials (OLM's)

1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment discounts, or any other concession affecting price. Contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply.

Please refer to our rates on page [#25](#)

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility, and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, the Contractor shall insert "Not applicable" for this item:

Please refer to page [#8](#)

2. Maximum Order:

SINs	Maximum Order
541330ENG	\$1,000,000
512110	\$1,000,000
541420	\$1,000,000
541430	\$1,000,000
541511	\$1,000,000
541611	\$1,000,000
541613	\$1,000,000

SINs	Maximum Order
541690	\$1,000,000
541715	\$1,000,000
541910	\$1,000,000
611430	\$1,000,000
54151	\$500,000
54151S	\$500,000
OLM	\$250,000

3. Minimum Order:

\$100.00

4. Geographic coverage (delivery area).

Domestic

5. Point (s) of Production (city, county, and State or foreign country):	Not Applicable
6. Discount from List Prices or statement of net price:	Government Net Prices (discounts already deducted.)
7. Quantity Discounts:	Not Applicable
8. Prompt Payment Terms:	Net 30 days <i>Information for Ordering Offices: Prompt payment terms cannot be negotiated out of the contractual agreement in exchange for other concessions</i>
9. Foreign Items (list items by country of origin):	Not Applicable
10a. Time of Delivery:	Contact Contractor
10b. Expedited Delivery:	Contact Contractor
10c. Overnight and 2-Day Delivery:	Contact Contractor
10d. Urgent Requirements:	Contact Contractor
11. F.O.B. Point(s):	Destination
12a. Ordering Address(es):	Applied Research Associates, Inc. Attn: GSA Orders 4300 San Mateo Blvd, NE, Suite A-220 Albuquerque, NM 87110-1295
12b. Ordering Procedures:	See Federal Acquisition Regulation (FAR) 8.405-3.

- 22a. Special attributes such as environmental attributes (e.g., recycled content, energy efficiency, and/or reduced pollutants): Not Applicable
- 22b. If applicable, indicate that Section 508 compliance information is available for the information and communications technology (ICT) products and services offered and show where full details can be found (e.g., Contractor's website or other location). ICT accessibility standards can be found at <https://www.section508.gov/>. Not Applicable
23. Unique Entity Identifier (UEI) Number: LTMGBJ76B9D8
24. Applied Research Associates, Inc. *is* registered and active in the System for Award Management (SAM).

CONTRACT OVERVIEW

GSA awarded Applied Research Associates, Inc. (ARA) a GSA Federal Supply Schedule contract for Multiple Award Schedule (MAS), Contract No. 47QRAA24D003E. The contract was awarded on February 1, 2024. The current contract period is February 1, 2024 – January 31, 2029. GSA may exercise a total of up to three additional 5 year option periods. The contract allows for the placement of Firm Fixed Price or Time and Materials task orders using the labor categories and ceiling rates defined in the contract.

CONTRACT ADMINISTRATOR

Rachel Cavallaro
Applied Research Associates, Inc.
4300 San Mateo Blvd, NE, Suite A-220
Albuquerque, NM 87110-1295
Telephone: 505-881-8074
Fax: 505-883-3673
Email: rcavallaro@ara.com

BRIEF COMPANY OVERVIEW

Applied Research Associates, Inc. (ARA) is globally recognized for applying technically-excellent, in-depth and diversified research, engineering, and technical support services to provide answers to complex and challenging problems in the physical sciences. We approach every project as an opportunity to go beyond expectations by delivering mission critical solutions that accomplish objectives and also lead to new possibilities.

CONTRACT USE

This contract is available for use by all federal government agencies, as a source for the Multiple Award Schedule (MAS) for domestic use. Executive agencies, other Federal agencies, mixed –ownership Government corporations, and the District of Columbia; government contractors authorized in writing by a Federal agency pursuant to 48 CFR 51.1; and other activities and organizations authorized by statute or regulation to use GSA as a source of supply may use this contract. Additionally, contractors are encouraged to accept orders received from activities within the Executive Branch of the Federal Government.

CONTRACT SCOPE

The contractor shall provide all resources including personnel, management, supplies, services, materials, equipment, facilities and transportation necessary to provide a wide range of professional services as specified in each task order.

Services specified in a task order may be performed at the contractor's facilities or the ordering agencies' facilities. The government will determine the contractor's compensation by any of several different methods (to be specified at the task order level) e.g., a firm-fixed price for services with or without incentives, labor hours or time-and-material.

SPECIAL ITEM NUMBER (SIN) DESCRIPTIONS

The Special Item Numbers (SINs) available under this contract provide services across the full life cycle of a project. When task orders are placed, they must identify the SIN or SINs under which the task is being executed. Applied Research Associates, Inc. has been awarded a contract by GSA to provide services under the following SINs:

541330ENG	Engineering Services
54151	Software Maintenance Services
54151S	Information Technology Professional Services
512110	Video/Film Production
541420	Engineering System Design and Integration Services
541430	Graphic Design Services
541511	Web Based Marketing
541611	Management and Financial Consulting, Acquisition and Grants Management Support, and Business Program and Project Management Services
541613	Marketing Consulting Services
541690	Technical Consulting Services
541715	Engineering Research and Development and Strategic Planning
541910	Marketing Research and Analysis
611430	Professional and Management Development Training
OLM	Order-Level Materials (OLM's)

Please refer to GSA eLibrary (www.gsaelibrary.gsa.gov) for detailed SIN descriptions.

INSTRUCTIONS FOR PLACING ORDERS FOR SERVICES BASED ON GSA SCHEDULE HOURLY RATES

GSA provides a streamlined, efficient process for ordering the services you need. GSA has already determined that Applied Research Associates, Inc. (ARA) meets the technical requirements and that our prices offered are fair and reasonable. Agencies may use written orders; facsimile orders, credit card orders, blanket purchase agreement orders or individual purchase orders under this contract.

If it is determined that your agency needs an outside source to provide MAS services, follow these simple steps:

Orders under the Micro-Purchase Threshold	
<ul style="list-style-type: none"> Select the contractor best suited for your needs and place the order. 	
Orders in-between the Micro-Purchase Threshold and the Simplified Acquisition Threshold	
<ul style="list-style-type: none"> Prepare a SOW or Performance Work Statement (PWS) in accordance with FAR 8.405-2(b). Prepare and send the RFQ (including SOW and evaluation criteria) to at least three GSA Schedule contractors. Evaluate, then make a "Best Value" determination. <p>Note: The ordering activity should request GSA Schedule contractors to submit firm-fixed prices to perform the services identified in the SOW.</p>	
Orders over the Simplified Acquisition Threshold	
<ul style="list-style-type: none"> Prepare the RFQ (including the SOW and evaluation criteria) and post on eBay to afford all Schedule contractors the opportunity to respond, or provide the RFQ to as many Schedule contractors as practicable, consistent with market research, to reasonably ensure that quotes are received from at least three contractors. Seek price reductions. Evaluate all responses and place the order, or establish the BPA with the GSA Schedule contractor that represents the best value (refer to FAR 8.405-2(d)). <p>Note: The ordering activity should request GSA Schedule contractors to submit firm-fixed prices to perform the services identified in the SOW.</p>	
Developing a Statement of Work (SOW)	Preparing a Request for Quote (RFQ)
<p>In the SOW, include the following information:</p> <ul style="list-style-type: none"> Work to be performed, Location of work, Period of performance; Deliverable schedule, and Special standards and any special requirements, where applicable. 	<ul style="list-style-type: none"> Include the SOW and evaluation criteria; Request fixed price, ceiling price, or, if not possible, labor hour or time and materials order; If preferred, request a performance plan from contractors and information on past experience; and include information on the basis for selection. May be posted on GSA's electronic RFQ system, e-Buy

For more information related to ordering services, go to <https://www.gsa.gov/schedules>

BLANKET PURCHASE AGREEMENT

Ordering activities may establish BPAs under any schedule contract to fill repetitive needs for supplies or services. BPAs may be established with one or more schedule contractors. The number of BPAs to be established is within the discretion of the ordering activity establishing the BPAs and should be based on a strategy that is expected to maximize the effectiveness of the BPA(s). In determining how many BPAs to establish, consider:

- The scope and complexity of the requirement(s);
- The need to periodically compare multiple technical approaches or prices;
- The administrative costs of BPAs; and
- The technical qualifications of the schedule contractor(s).

Establishment of a single BPA, or multiple BPAs, shall be made using the same procedures outlined in 8.405-1 or 8.405-2. BPAs shall address the frequency of ordering, invoicing, discounts, requirements (e.g. estimated quantities, work to be performed), delivery locations, and time.

When establishing multiple BPAs, the ordering activity shall specify the procedures for placing orders under the BPAs.

Establishment of a multi-agency BPA against a Federal Supply Schedule contract is permitted if the multi-agency BPA identifies the participating agencies and their estimated requirements at the time the BPA is established.

Ordering from BPAs:

Single BPA. If the ordering activity establishes one BPA, authorized users may place the order directly under the established BPA when the need for the supply or service arises.

Multiple BPAs. If the ordering activity establishes multiple BPAs, before placing an order exceeding the micro-purchase threshold, the ordering activity shall:

- Forward the requirement, or statement of work and the evaluation criteria, to an appropriate number of BPA holders, as established in the BPA ordering procedures; and
- Evaluate the responses received, make a best value determination (see 8.404(d)), and place the order with the BPA holder that represents the best value.

BPAs for hourly rate services. If the BPA is for hourly rate services, the ordering activity shall develop a statement of work for requirements covered by the BPA. All orders under the BPA shall specify a price for the performance of the tasks identified in the statement of work.

Duration of BPAs. BPAs generally should not exceed five years in length, but may do so to meet program requirements. Contractors may be awarded BPAs that extend beyond the current term of their GSA Schedule contract, so long as there are option periods in their GSA Schedule contract that, if exercised, will cover the BPA's period of performance.

Review of BPAs:

The ordering activity that established the BPA shall review it at least once a year to determine whether:

- The schedule contract, upon which the BPA was established, is still in effect;
- The BPA still represents the best value (see 8.404(d)); and
- Estimated quantities/amounts have been exceeded and additional price reductions can be obtained.

The ordering activity shall document the results of its review.

LABOR CATEGORY DESCRIPTIONS

Experience Substitutions:

H.S. Diploma + 8 years additional experience Associates Degree + 4 years additional experience	Equals	Bachelors Degree
Bachelors Degree + 4 years additional experience	Equals	Masters Degree
Masters Degree + 6 years additional experience Bachelors Degree + 10 years additional experience	Equals	Ph.D.

Education Substitutions:

A Ph.D. may be substituted for six (6) years of related experience for positions requiring a Masters Degree or ten (10) years with positions requiring a Bachelors Degree
A Masters Degree may be substituted for four (4) years of related experience with positions requiring a Bachelors Degree
A Bachelors Degree may be substituted for eight (8) years of related experience with positions requiring a High School Diploma
An Associates Degree may be substituted for four (4) years of related experience with positions requiring a High School Diploma
A Bachelors Degree may be substituted for specialized software certifications and four (4) years of related experience with a High School Diploma
Specialized software certifications may be substituted for two (2) years of experience
Project Management Professional (PMP) certification may be substituted for two (2) years of experience

Professional Services – SINS 541330ENG, 541715, 541420, 541611, 541690, 512110, 541430, 541511, 541613, 541910, 611430

Principal Subject Matter Expert - Transportation	
Functional Description	<p>Renowned expert in transportation-related technical disciplines (e.g., computer security, network engineering, etc.) with many years of experience. Extensive experience may include technical leadership and senior Project Manager. May prepare and deliver presentations to colleagues, subordinates, and government representatives. May produce and/or review substantive and/or complex documentation reflecting detailed knowledge of areas as identified in the statement of work. Relevant experience includes, but is not limited to, experience in supporting large projects related to the individuals subject matter expertise.</p> <p>Areas of expertise may include, but are not limited to: engineering, management and technical consulting services, marketing, training, and software development and support.</p>
Minimum Education	Master's Degree
Minimum Experience	12 years of experience

Principal Program Director - Transportation	
Functional Description	<p>Responsible for the successful technical, schedule, and cost performance of a major Transportation and Infrastructure program, or multiple programs, through subordinate program/project managers, in accordance with contract requirements and company policies, procedures and guidelines. Assign staff and provide technical direction as necessary to complete task. Acts as a technical liaison with vendors. Responsible for all phases of the program budget. Develops Quality Assurance Program for all products and services. Monitor contract, subcontract, and funding; prepare forecasts of program financial performance. Develop and deliver required contract, departmental, project and/or financial reports.</p>

	Areas of expertise may include, but are not limited to: engineering, management and technical consulting services, marketing, training, and software development and support.
Minimum Education	Bachelor's degree
Minimum Experience	12 years of experience

Principal Technical Professional 2 - Transportation	
Functional Description	<p>Performs a variety of complex technical tasks supporting Transportation and Infrastructure projects/programs requiring strong technical skills in one or more of engineering, software, research, or other technical disciplines. Exhibits technical insight and understanding in multiple fields and disciplines with an in-depth facility in one nationally-recognized area. Develops solutions to complex problems which impact organizational objectives requiring the use of ingenuity and innovation. Works independently, exercises considerable latitude in determining objectives and approaches to assignment. Participates on project teams and provides direction to team members.</p> <p>Areas of expertise may include, but are not limited to: engineering, management and technical consulting services, marketing, training, and software development and support.</p>
Minimum Education	Bachelor's degree
Minimum Experience	15 years of experience

Principal Technical Professional 1 - Transportation	
Functional Description	<p>Performs a variety of complex technical tasks supporting Transportation and Infrastructure projects/programs requiring strong technical skills in one or more of engineering, software, research, or other technical disciplines. Exhibits technical insight and understanding in multiple fields and disciplines. Develops solutions to complex problems requiring the use of ingenuity and innovation. Works independently, exercises considerable latitude in determining objectives and approaches to assignment. Participates on project teams and provides direction to team members.</p> <p>Areas of expertise may include, but are not limited to: engineering, management and technical consulting services, marketing, training, and software development and support.</p>
Minimum Education	Bachelor's degree
Minimum Experience	12 years of experience

Senior Technical Professional 2 - Transportation	
Functional Description	<p>Performs a variety of complex technical tasks supporting Transportation and Infrastructure projects/programs requiring strong technical skills in one or more of engineering, software, research, or other technical disciplines. Applies advanced principles, theories, and concepts. Develops solutions to complex problems requiring the use of ingenuity and innovation. Works independently, exercises considerable latitude in determining objectives and approaches to assignment. Participates on project teams and provides direction to team members.</p> <p>Areas of expertise may include, but are not limited to: engineering, management and technical consulting services, marketing, training, and software development and support.</p>
Minimum Education	Bachelor's degree
Minimum Experience	9 years of experience

Senior Technical Professional 1 - Transportation	
Functional Description	<p>Performs a variety of complex technical tasks supporting Transportation and Infrastructure projects/programs requiring strong technical skills in one or more of engineering, software, research, or other technical disciplines. Develops solutions to complex problems requiring the use of ingenuity and innovation. Works independently, exercises considerable latitude in determining objectives and approaches to assignment. Participates on project teams and provides direction to team members.</p> <p>Areas of expertise may include, but are not limited to: engineering, management and technical consulting services, marketing, training, and software development and support.</p>
Minimum Education	Bachelor's degree
Minimum Experience	7 years of experience

Staff Technical Professional 2 – Transportation	
Functional Description	<p>Performs a variety of technical tasks supporting Transportation and Infrastructure projects/programs requiring technical skills in one or more of engineering, software, research, or other technical disciplines. Participates in developing solutions to complex problems requiring the use of ingenuity and innovation. Work is performed minimal direction, exercises some latitude in determining objectives and approaches to assignment. Participates on project teams.</p> <p>Areas of expertise may include, but are not limited to: engineering, management and technical consulting services, marketing, training, and software development and support.</p>
Minimum Education	Bachelor's degree
Minimum Experience	5 years of experience

Staff Technical Professional 1 – Transportation	
Functional Description	<p>Performs a variety of technical tasks supporting Transportation and Infrastructure projects/programs requiring technical skills in one or more of engineering, software, research, or other technical disciplines. Participates in developing solutions to various problems requiring the use of ingenuity and innovation. Work is defined, exercises some latitude in determining objectives and approaches to assignment. Participates on project teams.</p> <p>Areas of expertise may include, but are not limited to: engineering, management and technical consulting services, marketing, training, and software development and support.</p>
Minimum Education	Bachelor's degree
Minimum Experience	3 years of experience

Junior Technical Professional - Transportation	
Functional Description	<p>Performs a variety of technical tasks supporting Transportation and Infrastructure projects/programs requiring technical skills in one or more of engineering, software, research, or other technical disciplines. Participates in developing solutions to problems of limited scope, requiring the use of ingenuity and innovation. Work is defined, exercises some latitude in determining objectives and approaches to assignment. Participates on project teams.</p> <p>Areas of expertise may include, but are not limited to: engineering, management and technical consulting services, marketing, training, and software development and support.</p>

Minimum Education	Bachelor's degree
Minimum Experience	0 years of experience

Lead Technician - Transportation	
Functional Description	<p>Installs, maintains, and repairs products at the client and/or field locations. Instructs customers in equipment operation, provides technical assistance, performs preventative maintenance, troubleshoots equipment for malfunctions to eliminate problem in minimum time. Performs one or many of a wide range of installation. Assembles, installs, and configures systems and equipment in accordance with site assessments and schematics. Performs routine system maintenance and analysis functions. Extensive knowledge of field. Uses judgment within limits of standard practice. Works on assignments that are complex, requiring judgment in resolving issues or in making recommendations. Trains and may oversee the work of less experienced staff.</p> <p>Areas of expertise may include, but are not limited to: engineering, management and technical consulting services, marketing, training, and software development and support.</p>
Minimum Education	Associate's degree
Minimum Experience	6 years of experience

Senior Technician - Transportation	
Functional Description	<p>Installs, maintains, and repairs products at the client and/or field locations. Instructs customers in equipment operation, provides technical assistance, performs preventative maintenance, troubleshoots equipment for malfunctions to eliminate problem in minimum time. Performs one or many of a wide range of installation. Assembles, installs, and configures systems and equipment in accordance with site assessments and schematics. Performs routine system maintenance and analysis functions. Extensive knowledge of field. Uses judgment within limits of standard practice to work on assignments which are moderately difficult. May have day to day work coordination of others.</p> <p>Areas of expertise may include, but are not limited to: engineering, management and technical consulting services, marketing, training, and software development and support.</p>
Minimum Education	Associate's degree
Minimum Experience	3 years of experience

Staff Technician – Transportation**	
Functional Description	<p>Installs, maintains, and repairs products at the client and/or field locations. Instructs customers in equipment operation, provides technical assistance, performs preventative maintenance, troubleshoots equipment for malfunctions to eliminate problem in minimum time. Performs one or many of a wide range of installation. Assembles, installs, and configures systems and equipment in accordance with site assessments and schematics. Performs routine system maintenance and analysis functions. Under general supervision, capable of performing all jobs. Uses judgment within limits of standard practice to work on assignments which are semi-routine in nature.</p> <p>Areas of expertise may include, but are not limited to: engineering, management and technical consulting services, marketing, training, and software development and support.</p>
Minimum Education	High School Diploma
Minimum Experience	2 years of experience

Junior Technician/Aide – Transportation**	
Functional Description	<p>Installs, maintains, and repairs products at the client and/or field locations. Instructs customers in equipment operation, provides technical assistance, performs preventative maintenance, troubleshoots equipment for malfunctions to eliminate problem in minimum time. Performs one or many of a wide range of installation. Assembles, installs, and configures systems and equipment in accordance with site assessments and schematics. Performs routine system maintenance and analysis functions. Under direct supervision, capable of performing most jobs. Uses judgment within limits of standard practice to work on assignments which are routine in nature.</p> <p>Areas of expertise may include, but are not limited to: engineering, management and technical consulting services, marketing, training, and software development and support.</p>
Minimum Education	High School Diploma
Minimum Experience	0 years of experience

Senior Operations Manager - Transportation	
Functional Description	<p>Management of administration and operational tasks supporting Transportation and Infrastructure programs/projects under the direction of Program Manager. Assists in project coordination, logistics, recruiting, and procurement of resources and management thereof. Prepares and updates operating plans. Provides professional support to personnel in conjunction with the shared services team.</p> <p>Areas of expertise may include, but are not limited to: engineering, management and technical consulting services, marketing, training, and software development and support.</p>
Minimum Education	Bachelor's degree
Minimum Experience	12 years of experience

Operations Manager - Transportation	
Functional Description	<p>Management of administration and operational tasks supporting Transportation and Infrastructure programs/projects under the direction of Senior Operations Manager or Program Manager. Assists in project coordination, logistics, recruiting, and procurement of resources and management thereof. Prepares and updates operating plans. Provides professional support to personnel in conjunction with the shared services team.</p> <p>Areas of expertise may include, but are not limited to: engineering, management and technical consulting services, marketing, training, and software development and support.</p>
Minimum Education	Bachelor's degree
Minimum Experience	6 years of experience

Principal Professional Support - Transportation	
Functional Description	<p>Provide professional support to Transportation and Infrastructure projects/programs in a variety of functional areas, which may include but not limited to multimedia design, user experience, graphical design, technical writing/editing and meeting facilitation. Leads the planning and implementation of large programs, and regularly interfaces with various levels of professionals. Provides advice and counsel in area of expertise based on extensive knowledge of principles, concepts, and practices. Plays a role in overall functional strategic planning. Makes significant contributions to project/program planning efforts and execution.</p>

	Areas of expertise may include, but are not limited to: engineering, management and technical consulting services, marketing, training, and software development and support.
Minimum Education	Bachelor's degree
Minimum Experience	7 years of experience

Information Technology Services - SIN 54151S

IT Principal Subject Matter Expert - Transportation	
Functional Description	Renowned expert in transportation-related IT technical disciplines (e.g., computer security, network engineering, etc.) with many years of experience. Extensive experience may include technical leadership and senior Project Manager. May prepare and deliver presentations to colleagues, subordinates, and government representatives. May produce and/or review substantive and/or complex documentation reflecting detailed knowledge of areas as identified in the statement of work. Relevant experience includes, but is not limited to, experience in supporting large projects related to the individuals subject matter expertise.
Minimum Education	Master's Degree
Minimum Experience	12 years of experience

IT Principal Program Director - Transportation	
Functional Description	Responsible for the successful technical, schedule, and cost performance of a major IT program in Transportation and Infrastructure, or multiple programs, through subordinate program/project managers, in accordance with contract requirements and company policies, procedures and guidelines. Assign staff and provide technical direction as necessary to complete task. Acts as a technical liaison with vendors. Responsible for all phases of the program budget. Develops Quality Assurance Program for all products and services. Monitor contract, subcontract, and funding; prepare forecasts of program financial performance. Develop and deliver required contract, departmental, project and/or financial reports.
Minimum Education	Bachelor's degree
Minimum Experience	12 years of experience

IT Principal Technical Professional 2 - Transportation	
Functional Description	Performs a variety of complex IT technical tasks supporting Transportation and Infrastructure projects/programs requiring strong technical skills in one or more of IT, engineering, software, research, or other technical disciplines. Exhibits technical insight and understanding in multiple fields and disciplines with an in-depth facility in one nationally-recognized area. Develops solutions to complex problems which impact organizational objectives requiring the use of ingenuity and innovation. Works independently, exercises considerable latitude in determining objectives and approaches to assignment. Participates on project teams and provides direction to team members.
Minimum Education	Bachelor's degree
Minimum Experience	15 years of experience

IT Principal Technical Professional 1 - Transportation	
Functional Description	Performs a variety of complex IT technical tasks supporting Transportation and Infrastructure projects/programs requiring strong technical skills in one or more of engineering, software, research, or other technical disciplines. Exhibits technical insight and understanding in multiple fields and disciplines. Develops solutions to complex problems requiring the use of ingenuity and innovation. Works independently, exercises considerable latitude in determining objectives and approaches to assignment. Participates on project teams and provides direction to team members.
Minimum Education	Bachelor's degree
Minimum Experience	12 years of experience

IT Senior Technical Professional 2 - Transportation	
--	--

Functional Description	Performs a variety of complex IT technical tasks supporting Transportation and Infrastructure projects/programs requiring strong technical skills in one or more of engineering, software, research, or other technical disciplines. Applies advanced principles, theories, and concepts. Develops solutions to complex problems requiring the use of ingenuity and innovation. Works independently, exercises considerable latitude in determining objectives and approaches to assignment. Participates on project teams and provides direction to team members.
Minimum Education	Bachelor's degree
Minimum Experience	9 years of experience

IT Senior Technical Professional 1 - Transportation	
Functional Description	Performs a variety of complex IT technical tasks supporting Transportation and Infrastructure projects/programs requiring strong technical skills in one or more of engineering, software, research, or other technical disciplines. Develops solutions to complex problems requiring the use of ingenuity and innovation. Works independently, exercises considerable latitude in determining objectives and approaches to assignment. Participates on project teams and provides direction to team members.
Minimum Education	Bachelor's degree
Minimum Experience	7 years of experience

IT Staff Technical Professional 2 – Transportation	
Functional Description	Performs a variety of IT technical tasks supporting Transportation and Infrastructure projects/programs requiring technical skills in one or more of engineering, software, research, or other technical disciplines. Participates in developing solutions to complex problems requiring the use of ingenuity and innovation. Work is performed minimal direction, exercises some latitude in determining objectives and approaches to assignment. Participates on project teams.
Minimum Education	Bachelor's degree
Minimum Experience	5 years of experience

IT Staff Technical Professional 1 – Transportation	
Functional Description	Performs a variety of IT technical tasks supporting Transportation and Infrastructure projects/programs requiring technical skills in one or more of engineering, software, research, or other technical disciplines. Participates in developing solutions to various problems requiring the use of ingenuity and innovation. Work is defined, exercises some latitude in determining objectives and approaches to assignment. Participates on project teams.
Minimum Education	Bachelor's degree
Minimum Experience	3 years of experience

IT Junior Technical Professional - Transportation	
Functional Description	Performs a variety of IT technical tasks supporting Transportation and Infrastructure projects/programs requiring technical skills in one or more of engineering, software, research, or other technical disciplines. Participates in developing solutions to problems of limited scope, requiring the use of ingenuity and innovation. Work is defined, exercises some latitude in determining objectives and approaches to assignment. Participates on project teams.
Minimum Education	Bachelor's degree
Minimum Experience	0 years of experience

IT Lead Technician - Transportation	
Functional Description	Installs, maintains, and repairs products at the client and/or field locations. Instructs customers in equipment operation, provides technical assistance, performs preventative

	maintenance, troubleshoots equipment for malfunctions to eliminate problem in minimum time. Performs one or many of a wide range of installation. Assembles, installs, and configures systems and equipment in accordance with site assessments and schematics. Performs routine system maintenance and analysis functions. Extensive knowledge of field. Uses judgment within limits of standard practice. Works on assignments that are complex, requiring judgment in resolving issues or in making recommendations. Trains and may oversee the work of less experienced staff.
Minimum Education	Associate's degree
Minimum Experience	6 years of experience

IT Senior Technician - Transportation	
Functional Description	Installs, maintains, and repairs products at the client and/or field locations. Instructs customers in equipment operation, provides technical assistance, performs preventative maintenance, troubleshoots equipment for malfunctions to eliminate problem in minimum time. Performs one or many of a wide range of installation. Assembles, installs, and configures systems and equipment in accordance with site assessments and schematics. Performs routine system maintenance and analysis functions. Extensive knowledge of field. Uses judgment within limits of standard practice to work on assignments which are moderately difficult. May have day to day work coordination of others.
Minimum Education	Associate's degree
Minimum Experience	3 years of experience

IT Staff Technician – Transportation**	
Functional Description	Installs, maintains, and repairs products at the client and/or field locations. Instructs customers in equipment operation, provides technical assistance, performs preventative maintenance, troubleshoots equipment for malfunctions to eliminate problem in minimum time. Performs one or many of a wide range of installation. Assembles, installs, and configures systems and equipment in accordance with site assessments and schematics. Performs routine system maintenance and analysis functions. Under general supervision, capable of performing all jobs. Uses judgment within limits of standard practice to work on assignments which are semi-routine in nature.
Minimum Education	High School Diploma
Minimum Experience	2 years of experience

IT Junior Technician/Aide – Transportation**	
Functional Description	Installs, maintains, and repairs products at the client and/or field locations. Instructs customers in equipment operation, provides technical assistance, performs preventative maintenance, troubleshoots equipment for malfunctions to eliminate problem in minimum time. Performs one or many of a wide range of installation. Assembles, installs, and configures systems and equipment in accordance with site assessments and schematics. Performs routine system maintenance and analysis functions. Under direct supervision, capable of performing most jobs. Uses judgment within limits of standard practice to work on assignments which are routine in nature.
Minimum Education	High School Diploma
Minimum Experience	0 years of experience

IT Senior Operations Manager - Transportation	
Functional Description	Management of IT administration and operational tasks supporting Transportation and Infrastructure programs/projects under the direction of Program Manager. Assists in project coordination, logistics, recruiting, and procurement of resources and management thereof. Prepares and updates operating plans. Provides professional support to personnel in conjunction with the shared services team.

Minimum Education	Bachelor's degree
Minimum Experience	12 years of experience

IT Operations Manager - Transportation	
Functional Description	Management of administration and operational tasks supporting Transportation and Infrastructure programs/projects under the direction of Senior Operations Manager or Program Manager. Assists in project coordination, logistics, recruiting, and procurement of resources and management thereof. Prepares and updates operating plans. Provides professional support to personnel in conjunction with the shared services team.
Minimum Education	Bachelor's degree
Minimum Experience	6 years of experience

IT Principal Professional Support - Transportation	
Functional Description	Provide professional support to IT Transportation and Infrastructure projects/programs in a variety of functional areas, which may include but not limited to multimedia design, user experience, graphical design, technical writing/editing and meeting facilitation. Leads the planning and implementation of large programs, and regularly interfaces with various levels of professionals. Provides advice and counsel in area of expertise based on extensive knowledge of principles, concepts, and practices. Plays a role in overall functional strategic planning. Makes significant contributions to project/program planning efforts and execution.
Minimum Education	Bachelor's degree
Minimum Experience	7 years of experience

IT Senior Professional Support - Transportation	
Functional Description	Provide professional support to IT Transportation and Infrastructure projects/programs in a variety of functional areas, which may include but not limited to multimedia design, user experience, graphical design, technical writing/editing and meeting facilitation. Leads the planning and implementation of large programs, and regularly interfaces with various levels of professionals. Provides advice and counsel in area of expertise. Plays a role in overall functional strategic planning. Makes significant contributions to project/program planning efforts and execution.
Minimum Education	Bachelor's degree
Minimum Experience	4 years of experience

IT Staff Professional Support - Transportation	
Functional Description	Provide professional support to IT Transportation and Infrastructure projects/programs in a variety of functional areas, which may include but not limited to multimedia design, user experience, graphical design, technical writing/editing and meeting facilitation. Supports the planning and implementation of large programs, and regularly interfaces with various levels of professionals. Provides advice and counsel in area of expertise. Contributes to project/program planning efforts and execution.
Minimum Education	Bachelor's degree
Minimum Experience	2 years of experience

IT Junior Professional Support - Transportation	
Functional Description	Provide professional support to Transportation and Infrastructure projects/programs in a variety of functional areas, which may include but not limited to multimedia design, user experience, graphical design, technical writing/editing and meeting facilitation. Supports the planning and implementation of programs, and regularly interfaces with various

	levels of professionals. Provides advice and counsel in area of expertise. Contributes to project/program planning efforts and execution.
Minimum Education	Associate's degree
Minimum Experience	4 years of experience

IT Administrative Support 2 – Transportation**	
Functional Description	Performs a variety of activities supporting Transportation and Infrastructure programs/projects. Performs normal office functions, answers questions relating to office operations and established policies and procedures. Gathers, collects, records, tracks, and verifies data and information from multiple sources. Provides data and information to others on functional unit processes and procedures.
Minimum Education	High School Diploma
Minimum Experience	3 years of experience

IT Administrative Support 1 – Transportation**	
Functional Description	Performs a variety of activities supporting Transportation and Infrastructure programs/projects under direct supervision. Performs normal office functions, answers questions relating to office operations and established policies and procedures. Gathers, collects, records, tracks, and verifies data and information from multiple sources. Provides data and information to others on functional unit processes and procedures as requested.
Minimum Education	High School Diploma
Minimum Experience	0 years of experience

Software Maintenance Services - SIN 54151

Software Maintenance Principal Subject Matter Expert - Transportation	
Functional Description	Renowned expert in software maintenance in support of transportation-related technical disciplines (e.g., computer security, network engineering, etc.) with many years of experience. Extensive experience may include technical leadership and senior Project Manager. May prepare and deliver presentations to colleagues, subordinates, and government representatives. May produce and/or review substantive and/or complex documentation reflecting detailed knowledge of areas as identified in the statement of work. Relevant experience includes, but is not limited to, experience in supporting large projects related to the individuals subject matter expertise.
Minimum Education	Master's Degree
Minimum Experience	12 years of experience

Software Maintenance Principal Program Director - Transportation	
Functional Description	Responsible for the successful technical, schedule, and cost performance of a major software maintenance Transportation and Infrastructure program, or multiple programs, through subordinate program/project managers, in accordance with contract requirements and company policies, procedures and guidelines. Assign staff and provide technical direction as necessary to complete task. Acts as a technical liaison with vendors. Responsible for all phases of the program budget. Develops Quality Assurance Program for all products and services. Monitor contract, subcontract, and funding; prepare forecasts of program financial performance. Service Contract Labor Standards: The Service Contract Labor Standards, formerly the Service Contract Act (SCA), apply to this contract and it includes SCLS applicable labor categories. Labor categories and fixed price services marked with a (**) in this pricelist are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCLS/SCA matrix. The prices awarded are in line with the geographic scope of the contract (i.e., nationwide).
