SIN	TITLE	DESCRIPTION	YEARS OF EXP	DEGREE REQUIRED
54151S, 541611	Database Developer	Data Developers transform data into information that can be utilized to make business decisions and actions. Their work involves acquiring data from other sources, creating reports on a regular basis, correcting any code issues, and ensuring that databases remain error-free and organized.	4	Bachelor's Degree
541611	Business Analyst	Reviews, analyzes, and evaluates business systems and user needs. Formulates systems to parallel overall business strategies. Experienced with business process reengineering and identifying new applications of technology to business problems to make business more effective. Familiar with industry standard business process mapping, and reengineering. Prepares solution options, risk identification, and financial analyses such as cost/benefit, ROI, buy/build, etc. Writes detailed description of user needs, program functions, and steps required to develop or modify computer programs. 4-7 years of experience in the field or in a related area as a Business Analyst (Technical). Familiar with standard concepts, practices, and procedures within a particular field. Relies on limited experience and judgment to plan and accomplish goals. A certain degree of creativity and latitude is required. Works under limited supervision with considerable latitude for the use of initiative and independent judgment. 2+ years of experience as a data analyst analyzing raw data using Excel, Tableau, etc.	4	Bachelor's Degree
54151S, 541611	Enterprise Architect	Responsible for translating the client's business requirements into specific systems, applications or process designs with interlocked financial modeling for very large complex technical solutions. Analyzes customer service requirements and designs service solutions to meet those objectives. Primary expert to construct the specific solution, scope document, risk profile, and corresponding financials. Maintains and utilizes detailed industry and internal services knowledge in the construction of industry-leading services solutions, including expert working level knowledge of the processes, technologies,	8	Bachelor's Degree

		and people components involved in the services arena. Composes Statement of Work or other documents, using departmental automation tools as available, to craft detailed and accurate deliverables that specify processes, technology, staffing, and project management involved in proposed services solutions. As needed, provide a "trusted expert advisor" role as a Subject Matter Expert for technical services, to both internal and external customers, ranging from formal advice to internal and external customer presentations. Level 3: 8 or more years of experience, relies on experience and judgment to plan and accomplish goals, independently performs a variety of complicated tasks, may lead and direct the work of others, a wide degree of creativity and latitude is expected.		
54151S, 541611	QA Analyst	Investigates and diagnoses quality complaints, tracks down components, and recommends corrective actions. Verifies logs, databases, and other data to track and flag quality concerns and improvements. Level 2: 4-7 years of experience in the field or in a related area. Familiar with standard concepts, practices, and procedures within a particular field. Relies on limited experience and judgment to plan and accomplish goals. A certain degree of creativity and latitude is required. Works under limited supervision with considerable latitude for the use of initiative and independent judgment.	4	Bachelor's Degree
541611, 541451S	Lead Developer	Provides technical expertise, support, and advice for a variety of project including but not limited to state-of-the-art technologies, problem definition, analysis, requirements development, recommendation, and issue resolution. May hold certifications and clearances.	5	Bachelor's Degree
54151S, 541611	Project Lead	Project Leads are the people in charge of a specific project or projects within a company. As the project lead, your job is to plan, budget, oversee and document all aspects of the specific project you are working on. Project leads might work by themselves or be in charge of a team to get the job done. Level 3: 8 or more years of experience, relies on experience and judgment to plan and accomplish goals, independently performs a variety of complicated tasks, a wide degree of creativity and latitude is expected. Certification in Project Management by a recognized project management organization or Scrum Master a plus.	8	Bachelor's Degree
541611	Lead IV&V Advisor	Responsible for design and implementation of verification and validation paradigms for technical and program management initiatives to provide the Government with assurances and independent analysis of system and program statuses. Level 3: 10 or more years of experience, relies on experience and judgment to plan and accomplish goals, independently performs a variety of complicated tasks, a wide degree of creativity and latitude is expected.	10	Bachelor's Degree
54151S	Technical Consultant	Understands business objectives and problems, identifies alternative solutions, performs studies and cost/benefit analysis of alternatives. Analyzes user requirements, procedures, and problems to automate processing or to improve existing	8	Bachelor's Degree

		computer system: Confers with personnel of organizational units involved to analyze current operational procedures, identify problems, and learn specific input and output requirements, such as forms of data input, how data is to be summarized, and formats for reports. Writes detailed description of user needs, program functions, and steps required to develop or modify computer program.

The Service Contract Labor Standards, formerly the Service Contract Act (SCA), is applicable to this contract as it applies to the entire Multiple Award Schedule and all services provided. While no specific labor categories have been identified as being subject to SCLS due to exemptions for professional employees; FAR 22.1101, 22.1102 and 29 CFR 541.300, this contract still maintains the provisions and protections for SCLS eligible labor categories. If and/or when the contractor adds SCLS labor categories/employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCLS matrix identifying the GSA labor category titles, the occupational code, SCLS labor category titles and the applicable WD number. Failure to do so may result in cancellation of the contract.
