On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create electronic delivery order is available through GSA Advantage!™, a menu-driven database system. The INTERNET address for GSA Advantage!™ is: <http://www.GSAAdvantage.gov>

CUSTOMER INFORMATION:

1a. TABLE OF AWARDED SPECIAL ITEM NUMBERS (SINs)

561320SBSA

1b. LOWEST PRICED MODEL NUMBER AND PRICE FOR EACH SIN: N/A

1c. HOURLY RATES AND DESCRIPTION OF ALL CORRESPONDING COMMERCIAL JOB TITLES, EXPERIENCE, FUNCTIONAL RESPONSIBILITY AND EDUCATION: All hourly rates shown are firm fixed price. See the following price list for hourly rates. See the Job Descriptions provided after the pricing information.

2. MAXIMUM ORDER*: \$250,000 per SIN

*If the best value selection places your order over the Maximum Order identified in this catalog/pricelist, you have an opportunity to obtain a better schedule contract price. Before placing your order, contact the aforementioned contractor for a better price. The contractor may (1) offer a new price for this requirement (2) offer the lowest price available under this contract or (3) decline the order. A delivery order that exceeds the maximum order may be placed under the schedule contract in accordance with FAR 8.404.

3. MINIMUM ORDER: \$100

4. GEOGRAPHIC COVERAGE: The preponderance of work location has been identified as the 48 contiguous United States.

Service in an area with lower SCA rates, resulting in lower wages being paid, will have the bill rates for that task order discounted accordingly from the approved pricing spreadsheet (baseline). SeaHill Consulting Group, LLC shall never offer bill rates to any customer that have been deemed higher than those included on the approved pricing spreadsheet prior to the request (and subsequent receipt or award) of a modification for the area with the higher pricing.

5. POINT(S) OF PRODUCTION: N/A

6. DISCOUNT FROM LIST PRICES: N/A

7. QUANTITY DISCOUNT(S): N/A

8. PROMPT PAYMENT TERMS: *Net 30.*

9a. Government Purchase Cards :N/A

- 25. DUNS NUMBER: 043066565**
- 26. NOTIFICATION REGARDING REGISTRATION IN CENTRAL CONTRACTOR REGISTRATION (CCR) DATABASE: SeaHill Consulting Group, LLC. has an Active Registration in the CCR database.**

Labor Category/Service Title	Labor Category/Service Description	Minimum Education	GSA Bill Rate
Tier 2 Firewall Engineer	This is an engineer role, and the candidate must be able to demonstrate ability to install, manage and maintain Firewalls in both on-premises and Cloud environments.	High School	\$92.44
Tier 3 Firewall Engineer	This is an engineer role, and the candidate must be able to demonstrate ability to install, manage and maintain Firewalls in both on-premises and Cloud environments. Demonstrated experience in supporting CISCO Firewalls as an engineer is REQUIRED. Holding one or more CISCO Security Certifications is REQUIRED. Holding one or more vendor-neutral security certifications (e.g., Security +, CISM, CISSP) is a plus for this position.	High School	\$115.21
Tier 1 Incident Handler/Help Desk	This position requires a knowledge of problem escalation and follow-up processes to ensure timely resolution of reported issues. Related documentation and online knowledge articles are used for troubleshooting and incidents are tracked in an incident ticket tracking system. The primary role of this Entry Level Incident Handler Tier 1 position is to pick up incidents from the incident system as well as email requests daily 100% of the time. Must deliver outstanding customer service in a timely and efficient manner and with a demonstrated commitment to overall customer satisfaction.	High School	\$47.77
Tier 2 Incident Handler/Help Desk	This position requires a knowledge of problem escalation and follow-up processes to ensure timely resolution of reported issues. Related documentation and online knowledge articles are used for troubleshooting and incidents are tracked in an incident ticket tracking system. The primary role of this Entry Level Incident Handler Tier 1 position is to pick up incidents from the incident system as well as email requests daily 100% of the time. Must deliver outstanding customer service in a timely and efficient manner and with a demonstrated commitment to overall customer satisfaction.	High School	\$56.20

Tier 2 Network Security Engineer	5-7 years' experience in the Information Technology industry, with minimum of 3 years of experience in a network security operations center. Experience maintaining Network and Security technologies and the systems they run on to support MSSP environment. Experience in Cloud technologies and knowledge of VMWare and virtual technologies. Vendor certifications on one or more core technologies (VMWare, McAfee, Fortinet, Cisco) are preferred but may be compensated by experience.	High School	\$70.25
Tier 3 Network Security Engineer	Experience as a Team leader over other Security Analysts (peers and junior analysts). Experience in using SIEM technologies to support in-depth investigations and 'hunting' activities. Experience with vulnerability and firewall software. Holds Certified Ethic Hacker (CEH) and/or Certified Incident Handler (GCIH or ECIH) credentials. 3+ years of supervisory experience in an Analyst role.	High School	\$101.17
GRC Analyst	Experience in performing risk assessments based upon NIST standards including NIST SP 800-30 and as required by IRS Publication 1075. Performing a risk assessment of the system(s) that receive, process, store or transmit FTI The risk assessment scope is of the system(s) that receive, process, store or transmit Federal Tax Information (FTI) and must include the likelihood and magnitude of harm, from the unauthorized access, use, disclosure, disruption, modification, or destruction of the information system and the information it processes, stores, or transmits.	Bachelors	\$92.37
Senior Incident Response Engineer	Experienced Consultant to provide Incident Response and Forensic (IRF) Trusted Advisor services to client's US and global clients. Candidate would be responsible for managing cybersecurity incidents and breach responses, forensic analysis of compromised assets, malware reverse engineering, and identification and remediation of compromised assets.	Bachelors	\$111.82
Security Operation Center (SOC) Manager	The Security Operations Center Manager will be responsible for project success; staffing, the day-to-day management of security service, including SLA performance management, metrics development, management of process and procedures, recommending security improvements, and developing, implementing, and ensuring compliance with all security policies and procedures.	Bachelors	\$115.21

Tier 2 Security Operation Center (SOC) Analyst	The Tier 2 Security Operation Center (SOC) Analysts have experience in using SIEM technologies to support in-depth investigations and threat hunting activities. Experience with McAfee Enterprise Security Manager (ESM), Splunk, or other SIEM technology required. An understanding of ticket workflow and handling is also required.	High School	\$75.87
Tier 3 Security Operation Center (SOC) Analyst	The preferred candidate will have experience as a Team leader over other Security Analysts (peers and junior analysts. Experience in using SIEM technologies to support in-depth investigations and ‘hunting’ activities. Experience with McAfee Enterprise Security Manager and other vulnerability tools. Holds Certified Ethic Hacker (CEH) and/or Certified Incident Handler (GCIH or ECIH) credentials. 3+ years of supervisory experience in an Analyst role.	High School	\$89.91
Security Endpoint Engineer	Candidate must be able to demonstrate ability to install, manage, and maintain Endpoint Security technologies in a Cloud environment. Demonstrated experience in supporting Endpoint Security technologies as an engineer is REQUIRED. Holding vendor certifications for one or more of the following is preferred for this position: McAfee Endpoint Security, Symantec Endpoint Protection, Tanium Protect, or ESET Endpoint Protection Standard.	High School	\$98.35
Tier 3 SEIM Engineer	Candidate must be able to demonstrate ability to install, manage and maintain SIEM technologies in a Cloud environment. Demonstrated experience in supporting the Splunk Enterprise Security SIEM technologies. Holding the Splunk Administrator Certification is REQUIRED for this position. Holding the Splunk Certified Architect credential is a plus for this position.	High School	\$101.17
Technical Writer	Technical Writers are responsible for creating, editing, formatting, organizing, and maintaining content for network and security operations. They also work closely with Subject Matter Experts (SMEs) to generate document templates that drive quality and consistency. Technical Writers handle content across a wide range of subject areas, including software installation and configuration, network and security monitoring, Information Technology (IT) operations, and contract-related deliverables and reports. Some examples of documents produced by Technical Writers include processes, procedures, work instructions, guides, runbooks, and assessment reports.	High School	\$50.58

Vulnerability Manager	<p>This role is a blend between specific technology engineering and process / resource management. The candidate must be able to demonstrate ability to install, manage and maintain vulnerability scanning technologies in a Cloud environment and the ability to manage the remediation of identified vulnerabilities through coordinating the efforts of teammates and customer resources. The candidate will perform assessments of systems and networks within the network environment or enclave and identify where those systems/networks deviate from acceptable configurations, enclave policy, or local policy. Measures effectiveness of defense-in-depth architecture against known vulnerabilities. Demonstrated experience in supporting vulnerability scanning technologies as an engineer is REQUIRED.</p>	High School	<p style="text-align: center;">\$95.55</p>
Tier 3 Cloud Services Engineer	<p>An experience Cloud engineer with experience using a combination of Cloud-based technologies from AWS, Azure, and/or Google Cloud Platform. This candidate will have hands on experience deploying and supporting Cloud-based services. Documentation of design, configuration, test procedures, and change management are part of the daily operational duties in addition to lifecycle support of existing Cloud services. Vendor certifications on one or more core technologies (AWS, VMWare, McAfee, Fortinet, Cisco) are preferred but may be compensated by experience.</p>	High School	<p style="text-align: center;">\$101.17</p>
Solution Architect	<p>Candidate will have experience as a Team leader over other engineers (peers and junior engineers). Ability to work with internal and external(customer) technical resources to implement security devices (NIDPS, HIDPS, MDPS, Firewall, WAF, Endpoint, etc.) into complex network environments. Ability to work with external (customer) management and executives to describe offered services and to design solutions to meet customer or project needs. Candidate must be able to deliver a service to customers, not just technical implementation of devices. Ability to work with internal technical resources to manage and establish service delivery. Holder of Certified Information Systems Security Professional (CISSP), Certified Information Security Manager (CISM) credentials or similar credentials preferred.</p>	High School	<p style="text-align: center;">\$98.35</p>

Configuration Manager	Candidate must be able to manage the day-to-day process of Configuration management and technical care and feeding of the CMDB (Configuration Management Database). The preferred candidate must be able to demonstrate the ability to perform the tasks required to manage the CMDB. Holding the certifications ITIL is REQUIRED. Holding additional technical certifications for related network or security technologies is a plus for this position.	High School	\$85.98
Tier 2 Information Security Engineer	Experience deploying and maintaining security technologies and the systems they run on to support MSSP environment. Experience in Cloud and/or Data Center technologies. Vendor certifications on one or more core technologies (McAfee, Fortinet, Cisco, Alien Vault) are preferred but may be compensated by experience.	High School	\$81.50
Power BI Developer	Design, build, deploy, and maintain presentation layer components (dashboards, scorecards, reports, and other visualizations) of BI solutions using Power BI Desktop and Power BI Online service. Conduct unit testing and troubleshooting before deploying solutions for customer testing.	Bachelor's Degree	\$102.10
Change Specialist	The Change Specialist will work with Cloud migration Project Managers to develop a process that can be repeated with each application team to prepare and support application users for the change they will experience as a result of their migration. This will include identifying the differences in the user experience after the application migrates (i.e., they used to log on this way, but now will log on this way) and compiling instructions or user guides.	Bachelor's degree	\$120.56
