22 b. If applicable, indicate that Section 508 compliance information is available on Electronic and Information Technology (EIT) supplies and services and show where full details can be found (e.g. contractor's website or other location). The EIT standards can be found at: www.Section508.gov/.

23. Unique Entity Identifier (UEI) number: U15RUNNKM2W7.

24. Systems for Award Management (SAM): Registered and current.

SECTION I - LABOR CATEGORIES

SIN: ANCILLARY

HVAC TECHNICIAN II / HVAC FIELD TECHNICIAN

Function: HVAC Technician II / HVAC Field Technician is "Carrier Certified and Trained" with knowledge of mechanical systems and associated commercial/industrial safety requirements. Expertise includes all unitary product repair and maintenance. Can perform routine maintenance on all existing systems, including systems under service agreement, filter changing, oiling, adjustment or replacement, parts delivery and power electronic maintenance.

Minimum Years of Experience: 5

Minimum Education: Trade School, Certification.

HVAC TECHNICIAN III / CHILLER MECHANIC

Function: HVAC Technician III / Chiller Mechanic is "Carrier Certified and Trained". Also performs maintenance and inspections on all existing chilled water systems, including systems under service agreement, filter changing, oiling and greasing, belt adjustment or replacement, parts delivery and power electronic maintenance. More experienced technicians will be skilled in the trade with a minimum of 5 years experience. They may be subject to testing by the local union to prove their knowledge. All activity covered by our CBA.

Minimum Years of Experience: 5

Minimum Education: Trade School, Certification.

CONTROLS TECHNICIAN

Function: Controls Technician is "Carrier Certified and Trained". Under direct supervision performs configuration, and programming of building systems. Assist with startup, commissioning and testing of systems that utilize pneumatic / electrical / electronic technology. Assist with the setup and testing of new systems. Responsible for completing all project documentation, including as-builts, work orders, punch lists. Perform operator training on how to operate and maintain a system.

Minimum Years of Experience: 1

Minimum Education: Associate Degree/Certification

PROJECT ENGINEER / MANAGER

Function: Project Engineer / Manager "Carrier Certified and Trained". Manage projects and where applicable provide direction to assisting Project Engineers. Complete project requirements within budget, on time and with a high level of customer satisfaction. Responsible for the financial performance of assigned projects including project planning, billing, revenue forecasting and re-estimating costs of installation projects. Manage the delivery of the contracted scope of work and orders for the expansion of scope.

Minimum Years of Experience: 3

Minimum Education: Bachelor's Degree
