**Service Contract Act:** While no specific labor categories have been identified as being subject to SCA due to exemptions for professional employees (FAR 22.1101, 22.1102 and 29 CRF 541.300), this contract still maintains the provisions and protections for SCA eligible labor categories. If and/or when the contractor adds SCA labor categories/employees to the contract through the modification process, the contractor must inform the Contracting Officer and establish a SCA matrix identifying the GSA labor category titles, the occupational code, SCA labor category titles and the applicable WD number.
LABOR CATEGORIES AWARDED UNDER SINs 541690, 541690E, and OLM

Note: Experience may be substituted for education as outlined in the table below.

Analyst
Functional Responsibility: The Analyst performs research, writing tasks, data input, and data review with guidance and supervision by senior staff. Responsible for gathering information, identifying issues, and writing first drafts of outlines, memos, reports, and other short documents.

Minimum Education: Bachelor’s degree in Environmental Science, Energy, Policy, Economics, Engineering, Statistics, or other relevant discipline.

Minimum Experience: Two (2) years of relevant experience, or equivalent combination of education.

Associate
Functional Responsibility: The Associate performs research, writing tasks, data input, and data analysis with minimal supervision by more senior staff. Responsible for first drafts of chapters, memos, reports, and medium-length documents.

Minimum Education: Bachelor’s degree in Environmental Science, Energy, Policy, Economics, Engineering, Statistics, or other relevant discipline.

Minimum Experience: Four (4) years of experience or equivalent combination of education.

Consultant
Functional Responsibility: The Consultant reports to Project Managers (PMs) for work delivery and performance. Leads research, writing tasks, and performs high level analysis. Provides guidance including day-to-day supervision of junior staff. Responsible for first drafts of deliverables.

Minimum Education: Bachelor’s degree in Environmental Science, Energy, Policy, Economics, Engineering, Statistics, Business, Management, or other relevant discipline.

Minimum Experience: Six (6) years of experience or equivalent combination of education.

Energy Engineer I
Functional Responsibility: The Energy Engineer I is an entry-level worker in the development, installation, operation, maintenance, and end-of-life management of energy generation projects. Possesses experience with one (1) or more generation types. Possesses experience in at least one (1) of the following: project siting analysis, project financial analysis, permitting, and interconnection studies.

Minimum Education: Bachelor’s degree in Engineering or technology related discipline.

Minimum Experience: Two (2) years of experience or advanced technical training plus one (1) year of experience.
Energy Engineer II

**Functional Responsibility:** The Energy Engineer I is a mid-level professional in the development, installation, operation, maintenance, and end-of-life management of energy generation projects. Has demonstrated hands-on experience with one or more generation types. Possesses experience in at least two (2) of the following: project siting analysis, project financial analysis, permitting, and interconnection studies.

**Minimum Education:** Bachelor’s degree in Engineering or technology related discipline.

**Minimum Experience:** Five (5) years of experience or advanced technical training plus seven (7) years of experience.

Energy Engineer III

**Functional Responsibility:** The Energy Engineer III is a senior level expert in the development, installation, operation, maintenance, and end-of-life management of energy generation projects. Possesses extensive hands-on experience with one (1) or more generation types. Has diverse experience in all of the following: project siting analysis, project financial analysis, permitting, and interconnection studies.

**Minimum Education:** Bachelor’s degree in Engineering or technology related discipline.

**Minimum Experience:** Ten (10) years of experience or advanced technical training plus fourteen (14) years of experience.

Senior Consultant

**Functional Responsibility:** The Senior Consultant manages and directs a work team in developing and providing deliverables identified under the Task Orders (TOs) of the Contract. Directs projects, providing advice in support of customer priorities.

**Minimum Education:** Bachelor’s degree in Environmental Science, Energy, Policy, Economics, Engineering, Statistics, Business, Management, or other relevant disciplines.

**Minimum Experience:** Ten (10) years of experience, or equivalent combination of education and experience.

Senior Project Manager

**Functional Responsibility:** The Senior PM directs one (1) or more large, complex, or critically important projects. Manages all project elements and resources. Provides oversight of subcontractors. Advises client and offers solutions to complex challenges.

**Minimum Education:** Bachelor’s degree in Environmental Science, Energy, Policy, Economics, Engineering, Statistics, Business, Management, or other relevant disciplines.

**Minimum Experience:** Twenty (20) years of experience, or equivalent combination of education and experience.
Experience & Degree Substitution Equivalencies
Experience exceeding the minimum shown may be substituted for education. Likewise, education exceeding the minimum shown may be substituted for experience.
