GSA PRICE LIST

SIN	MANUFACTURER NAME	MFR PART NO	PRODUCT DESCRIPTION	GSA Price	COO
332999	Combined Systems	HC 7084	Handcuffs can be preloaded into box before being put on prisoner. Box and handcuffs can be applied to the subject from the interrogation position (no more dangerous face to face confrontations). The blue box's patented double lock slots allow you to set the double locks after the prisoner is in the cuffs and the box is locked to the belly chain. (Some S&W models must be double locked first.) When used with the blue box, a standard set of handcuffs will limit the subject's mobility, hide the keyholes, and provide greater safety for the transporting officer.	\$22.54	US
