332999	Combined Systems	Handcuffs can be preloaded into box before being put on prisoner. Box and handcuffs can be applied to the subject from the interrogation position (no more dangerous face to face confrontations). The blue box's patented double lock slots allow you to set the double locks after the prisoner is in the cuffs and the box is locked to the belly chain. (Some S&W models must be double locked first.) When used with the blue box, a standard set of handcuffs will limit the subject's mobility, hide the keyholes, and provide greater safety for the transporting officer.	\$22.54	US

332999	Viking Dry Suits	Viking latex HD cuffs are made of a dipped latex construction. Thicker than the PRO cuffs, and built for durability. Extra long for different arm lengths. Material: Dipped seamless latex construction. Size: One size, adjustable (cut to fit, see Vikinging drysuit manual)	\$30.83	SE
332999	Viking Dry Suits	Viking Surveyor Latex Hood - Size Regular for Pro / Protech / HD / Haztech / WRS Suits. The Surveyor latex hood is permanently attached to a suit and provides a basic level of protection for contaminated water diving. Ideal for biological contaminated water diving; Latex neck seal must be attached to the suit underneath the hood. Important Note: The Surveyor latex hood must be used in conjunction with a thermal liner to provide thermal insulation and to protect the ears.	\$53.10	SE
332999	Viking Dry Suits	Viking Surveyor Latex Neckseal - Size Standard for Pro / Protech / HD / Haztech / WRS Suits. Applications: Surveyor Latex Neck Seal is fitted as standard for the majority of VIKING drysuits. Features: Viking Surveyor latex neck seals are designed for comfort once properly adjusted to fit the diver by way of internal cutting rings. Long seal moves with the diver when bending.** Note: Neckseal should have a circumference approximately 20% less than your neck size. Using a neckseal which is too tight can lead to unconsciousness.	\$35.97	SE

332999	Viking Dry Suits	Viking Pro Latex Cuff for Pro / Protech / Haztech / WRS - Sold as Each. Viking latex PRO cuffs are made of a dual dipped latex construction. Thicker at the end where they attach to the suit , and thinner at the wrist to form the best seal. Extra long for different arm lengths. Material: Dipped seamless latex construction. Size: One size, adjustable (cut to fit, see Viking drysuit manual)	\$23.12	SE
332999	Viking Dry Suits	Viking Standard Cuff Ring System for Pro / Protech / HD / Haztech / WRS Suits. Applications: For Pro / Protech / HD / Haztech / WRS Suits. The cuff ring kit comprises of an outer rubber ring which can be glued to the end of the drysuit sleeve. The latex wrist seal is then pulled over the inner plastic ring, and held in place with plastic tape. The inner plastic ring and seal are then inserted down through the sleeve, until it pushes into place inside the rubber ring. A latex glove may then be pulled over the outer rubber ring, and held in place by a rubber outer band for additional security. Alternatively, the outer rubber ring can be mounted directly onto a latex seal which is already glued to the end of the sleeve, and the inner plastic ring inserted from inside the seal until it connects with the outer rubber ring.
