ATTACHMENT A

DESCRIPTION OF SERVICES

Hyperion provides water testing and analysis for Legionella bacteria in facilities' water systems at domestic locations across the United States. Hyperion conducts environmental microbiology laboratory testing services at its **in-house laboratory**. We are one of the few **Service-Disabled Veteran-Owned and**

Woman-Owned Small Businesses with accredited qualifications to provide Legionella testing services in the United States. Our Legionella testing services provide timely and accurate analysis and reporting of results. Hyperion holds national accreditation for Legionella water testing with CDC ELITE and EMLAP environmental microbiology laboratory certifications. Hyperion's team of trained water collectors are available to collect and ship water samples for Legionella testing from locations across the United States.

SIN ANCILLARY – Ancillary Supplies and/or Services

Ancillary supplies and/or services are support supplies and/or services which are not within the scope of any other SIN on this schedule. These supplies and/or services are necessary to compliment a contractor's offerings to provide a solution to a customer requirement. This SIN may be used for orders and blanket purchase agreements that involve work or a project that is solely associated with the supplies and/or services purchased under this schedule. This SIN EXCLUDES purchases that are exclusively for supplies and/or services already available under another schedule. Special Instructions: The work performed under this SIN shall be associated with existing SIN(s) that are part of this schedule. Ancillary supplies and/or services shall not be the primary purpose of the work ordered but be an integral part of the total solution offered. Ancillary supplies and/or services may only be ordered in conjunction with or in support of supplies or services purchased under another SIN(s) of the same schedule. Offerors may be required to provide additional information to support a determination that their proposed ancillary supplies and/or services are commercially offered in support of one or more SIN(s) under this schedule.

SIN 541690E – Energy Consulting Services

Services and consulting related to the improvement of water quality. These services can include, but are not limited to, consultation, facility water audits, water balance, and water system analysis.

SIN OLM - Order-Level Materials (OLMs)

OLMs are supplies and/or services acquired in direct support of an individual Order placed against a Schedule Contract or BPA when the supplies and/or services are not known at the time of award of the Schedule Contract.
