YOUR PARTNER, PLANNER, & PROJECT MANAGER

DESIGN
SERVICES TEAM

WORK SMARTER BY PARTNERING WITH PROFESSIONALS

ICP Construction's Design Services Team is an important resource for industry professionals looking to intelligently manage projects. We partner with contractors, architects, and builders to develop and deliver quality solutions that benefit your business.

EXPERTS IN YOUR INDUSTRY

ICP Construction is a global leader and provider of high quality paints, coatings, sports surfaces, and environmental remediation solutions for the architectural and building industries. With a global network of offices, ICP Construction and the Design Service Team deliver dependable, innovative solutions that are strategically planned and executed.

SOLUTIONS FROM START TO FINISH

Imagine how much more you could accomplish with a trusted partner who happens to be an expert builder, designer, and manufacturer. Now add the power of ICP Construction's global resources, like seamless solutions to every challenge, compliance expertise, and on-the-job educational training for your team. And because we develop and manufacture products in our plants, you can rest assured that the right materials are delivered to the right people at just the right time.

HOW CAN WE HELP YOU?

ICP Construction specializes in:

**Architectural
Paint & Coatings**

Products &
Abatement
Restoration**

**Polymer
Flooring &
Coatings**

**Specialty
Architectural
Coatings**

**Sports &
Recreational
Surfaces**

**Stone &
Masonry
Protective
Coatings**

STRATEGIC ASSESSMENT

Your personalized service starts at step #1. A Design Service Team expert will assess your situation and get involved. Working together, a plan will be developed from project start to completion that considers all possible efficiencies and cost-savings.

System Recommendations: The goal of the Design Services Team is to create a personalized plan with fully integrated solutions from the ICP Construction product lines. Our search goes beyond just recommending the correct products to use. We assess product compatibility to ensure you are using the right products and meeting your performance goals.

Regulatory & Compliance Assistance: We ensure that our recommendations and products are compliant with both regulations and best practices; all backed by independently sourced verification data. Our capability to blend compliance into a competitive advantage is considered one of our many strengths. Since we routinely solve challenges in the regulatory space associated with our products, we can easily thread together innovative solutions that intersect positively with compliance, plus capital/budgets, occupancy issues, and timelines. Our service also includes educating your team, adding regulatory, code and EH&S entities into your vocabulary.

Logistics Quality Assurance: The Design Services Team oversees the complete product ordering and delivery process. Your product will be correctly ordered, arrive on time, and be delivered in top condition.

Specs, Scope, & The Bidding Process: We take the stress out of accurately estimating your project costs. Our Team will write up the full specs and scope, taking into consideration all of the important information you have provided. We will suggest a bid that is competitive, accurate, and ensures all of your operating costs are fully covered.

Quality Applicator Assurance: You don't have to worry about finding a qualified contractor for your job. We recruit highly skilled, certified talent or train your existing contractors to ensure you have the right people helping you. The Design Services Team then verifies the quality of the work once the installation is complete.
