1b. Identification of the lowest priced model number and lowest unit price for that model for each special item number awarded in the contract. This price is the Government price based on a unit of one, exclusive of any quantity/dollar volume, prompt payment, or any other concession affecting price. Those contracts that have unit prices based on the geographic location of the customer, should show the range of the lowest price, and cite the areas to which the prices apply. See Page 7

1c. If the Contractor is proposing hourly rates, a description of all corresponding commercial job titles, experience, functional responsibility and education for those types of employees or subcontractors who will perform services shall be provided. If hourly rates are not applicable, indicate “Not applicable” for this item.

Technical Surveillance Counter Measure Agent

TCSM Agent designs, evaluates, plans, tests, and operates electrical, electronic, mechanical, and/or computer components, equipment and systems. The TSCM Agent provides input and advises on issues concerning TSCM, physical security and information security policy creation, implementation, and practical applications. The TSCM Agent reports anomalies and hazards to customers and supports any follow-on investigative efforts. The TSCM Agent provides oversight and accounts for equipment and assists in the research and identification of new TSCM equipment and technologies.

Duties:
- Conducts technical surveillance and countermeasures inspections to ensure clandestine devices have not been introduced into sensitive areas of a facility.
- Formulates scopes of work for each TSCM inspection in conjunction with current threat information or other special intelligence information.
- Responsible for overseeing equipment logistics and operational status.
- Recommends new detection equipment to enhance the inspection processes.
- Coordinates findings with cognizant security representatives and authorities when necessary.
- Ensures that adequate countermeasures have been established for continually protecting sensitive and proprietary information activities.
- Manages travel budgets, monthly reports, and personnel tracking.
- Makes recommendations to improve effectiveness of TSCM inspections.
- Determines the scope of each TSCM inspection; plans and implements TSCM logistical operations for staff and equipment required for each trip, identifies and recommends resolution to security issues pertaining to technical security standards; drafts report that details the TSCM activities.
- Conducts in-depth security analyses and formulate and recommend technical solutions based on the analysis.
- Prepares written reports detailing findings and recommendations from TSCM inspections.
