COMPANY OVERVIEW

In 2009, DIGIS Corporation was awarded SMALL WOMAN-OWNED BUSINESS OF THE YEAR in recognition of outstanding performance in support of their procurement activities by Y12 National Security Complex. Through dedicated contract work in support of key federal agencies, DIGIS has a unique and comprehensive understanding of the vital security requirements of agencies.

About Us

Lead by CEO, Dorothy M. Daniels, DIGIS Corporation is a subject matter expert in threat detection and screening technologies for Military, Transportation, Homeland Security and Resilience applications. DIGIS experience in the field includes:

- Multiple technologies to achieve fast results and identify a range of threats including biological agents, chemical agents & TICs, explosives & narcotics, plus weapons and illegal items.
- Special applications such as contraband detection, forensic work, x-ray inspection, and video security and surveillance.
- X-ray and trace systems range from walk-through systems, tabletop units, and handheld devices.
- Video security devices include complete CCTV installations, cameras, DVR’s, and multi monitor displays (video walls).
- Computer hardware, software, and complete biometric solutions that integrate with all major access control systems.
- Perimeter detection devices and solutions to meet your specific application needs.

Protection of the Homeland

DIGIS Corporation supports the Pacific Northwest National Laboratory (PNNL) to supply critical spare equipment for the Office of the Nuclear Smuggling Detection and Deterrence (NSDD), part of the Office of International Material Protection and Cooperation (NA-25), which plays a key role in the nonproliferation mission of the Department of Energy’s National Nuclear Security Administration (DOE/NNSA). The Pacific Northwest National Laboratory
(PNPL), in support of NSDD, is investigating the issue of reduced gamma sensitivity in the Rapiscan Radiation Portal Monitor (RPM). NSDD seeks to investigate condition and methods of mitigation to maintain the sensitivity of the RPM.

DIGIS provides all the equipment for Highly Enriched Uranium Materials Facility (HEUMF) and the Perimeter Intrusion Detection and Assessment System (PIDAS) for protecting the building.

**Continuous Support**

DIGIS Corporation has direct relationships with all the Federal Representatives to major equipment manufacturers for the specialty equipment offered herein. These manufacturers include AVIGILON, Smiths Detection, CEIA, FLIR, RAPISCAN, IKEGAMI, TYCO, CINEMASSIVE. The manufacturers are responsive to and proactive in their equipment updates, delivery and customer service in conjunction with DIGIS Corporation.
