Before placing your order, contact the aforementioned contractor for a better price. The contractor may (1) offer a new price for this requirement (2) offer the lowest price available under this contract or (3) decline the order. A delivery order that exceeds the maximum order may be placed under the schedule contract in accordance with FAR 8.404.

6. Discount from list prices:  
GSA Net Prices are shown on the attached GSA Pricelist. Negotiated discount has been applied and the IFF has been added.

For calculation of the GSA Schedule price (price paid by customers ordering from the GSA Schedule, and the price to be loaded into GSA Advantage), deduct the appropriate basic discount from the list price and add the prevailing IFF rate to the negotiated discounted price (Net GSA price). Current IFF rate is 0.75%.

Negotiated price divided by (1 minus .0075) which equates to Negotiated price divided by 0.9925.

Example:  ($100,000*(1-0.5)/ 0.9925) = $100,755.67

List price multiplied by (1 – discount) divided by 0.9925 (1 minus .0075), which equates to negotiated price divided by 0.9925.

Example:  ($100,000 / 0.9925) = $100,755.67
