Appendix B – Labor Category Descriptions

Project Manager
Education: B.S/B.A. degree in a relevant discipline
Experience: Three years industry experience
Daily job duties: An on-site supervisor in charge of all work that is going on with the site. The PM will manage the jobs from beginning to end and be the primary contact for any issues or needs from the customer, engineers or employees.

Senior Engineer
Education: B.S/B.A. degree in a relevant discipline
Experience: Three years industry experience
Daily job duties: A senior engineer providing technical expertise and will work with a team of controls specialists and consultants involved in the design and implementation of various systems. Has expertise in applicable disciplines.

Field Engineering
Education: High School Diploma and Certificate in related discipline; Manufacturer certified
Experience: Two years industry experience
Daily job duties: An engineer who provides on-site control troubleshooting, analysis of existing systems, building auditing, drawings, sketches and designs.

Software Engineer
Education: B.S/B.A. degree in a relevant discipline
Experience: Two years industry experience
Daily job duties: Engineer who will provide on-site IT troubleshooting, network troubleshooting and other support services as agreed upon by supplier.

*Educational Equivalency: In lieu of a B.S/B.A degree, an additional two (2) years of industry experience would substitute.
