ABOUT US

Alutiiq Advanced Security Solutions, LLC (AASS) was founded in 2013 as an Alaska Native Corporation. AASS offers a myriad of services with a focus on efficiency, customer satisfaction and quality. We have routinely exceeded customer expectations through a management approach that fosters teamwork (both within our company and with our customers), open communication and a philosophy of getting the job done quickly, efficiently, and cost-effectively.

Alutiiq Advanced Security Solutions, LLC has developed a reputation for delivering solid dependable performance in the fixed price and indefinite quantity contracting arenas. Our team has successfully provided the labor, materials, vehicles, equipment, tools and other resources to perform all tasks our customers have assigned. Alutiiq Advanced Security Solutions, LLC possesses the technical expertise, managerial experience, and human resources organization to excel as a Multiple Award Schedule a service provider.

Alutiiq Advanced Security Solutions, LLC maintains service and supply sites at nationwide strategic locations. Alutiiq provides a myriad of logistics services to our Government customers, ranging from supply operations to administrative functions.

OUR SERVICES

Alutiiq Advanced Security Solutions, LLC’s is pleased to announce the expanded range of services through our new (MAS) Multiple Award Schedule with a focus on Law Enforcement, Security, Facilities Management, Fire and Rescue. Alutiiq Advanced Security Solutions, LLC offers world-class experience in providing leading edge services to a wide range of public and private sector organizations.

AASS is a full-spectrum Protective Services provider supporting Government force protection operations globally and at some of our nation’s most sensitive strategic locations. Our company consists of former high-ranking and operationally experienced federal, state, and local law enforcement, as well as former military personnel. We offer full-service capabilities in emergency management, electronic security, law enforcement, armed/unarmed guards, fixed-site & mobile security, and special operations.
**Contractor Information**

On-line access to contract ordering information, terms and conditions, up-to-date pricing, and the option to create an electronic delivery order is available through **GSA Advantage!**, a menu-driven database system. The INTERNET address for **GSA Advantage!** is [http://www.gsaadvantage.gov](http://www.gsaadvantage.gov).

25. DATA UNIVERSAL NUMBER SYSTEM (DUNS) NUMBER: 078776091

26. NOTIFICATION REGARDING REGISTRATION IN CENTRAL CONTRACTOR REGISTRATION (CCR) DATABASE: CAGE CODE 6YRV5

Use of Federal Supply Service Schedule Contracts

Orders placed pursuant to a Multiple Award Schedule (MAS), using the procedures in FAR 8.404, are considered to be issued pursuant to full and open competition. Therefore, when placing orders under Federal Supply Schedules, ordering offices need not seek further competition, synopsize the requirement, make a separate determination of fair and reasonable pricing. By placing an order against a schedule using the procedures outlined below, the ordering office has concluded that the order represents the best value and results in the lowest overall cost alternative (considering price, special features, administrative costs, etc.) to meet the Government’s needs.

GSA Advantage!

GSA Advantage! is an on-line, interactive electronic information and ordering system that provides on-line access to ALUTHIQ ADVANCED SECURITY SOLUTIONS SERVICES, LLC schedule prices with ordering information. GSA Advantage! will allow the user to perform various searches across all contracts including, but not limited to: Search by ALUTHIQ ADVANCED SECURITY SOLUTIONS, LLC name or contract number to view or download its complete GSA approved price list with terms, conditions and up-to-date pricing. Perform various searches across all contracts including.

Agencies can browse GSA Advantage! to view our current price list, by navigating to https://www.gsaadvantage.gov/advantage/main/start_page.do

Purchase of Incidental, Non-Schedule Items

For administrative convenience, open market (non-contract) items may be added to a Federal Supply Schedule Blanket Purchase Agreement (BPA) or an individual order provided that the items are clearly labeled as such on the order, all applicable regulations
have been followed and price reasonableness has been determined by the ordering activity for the open market (non-contract) items.

**Contractor Team Arrangements**
Federal Supply Schedule Contractors may use “Contractor Team Arrangements” to provide solutions when responding to a customer agency requirements. The policy and procedures outlined in the FAR will provide more flexibility and allow innovative acquisition methods when using the Federal Supply Schedules.

**Incidental Support Costs**
Incidental support costs are available outside the scope of this contract. The costs will be negotiated separately with the ordering agency in accordance with the guidelines set forth in the FAR.

**Approval of Subcontracts**
The ordering activity may require that ALUTIIQ ADVANCED SECURITY SOLUTIONS, LLC receive from the ordering activity’s Contracting Officer, written consent before placing any subcontract for furnishing any of the work called for in a task order.

**Schedule Items (Special Item Numbers SINs)**
Provided are descriptions of each type of Special Item Number offered under this Total Solutions for Law Enforcement, Security, Facilities Management, Fire, Rescue Maintenance Schedule.

334512 **Total Solution Support Products for Facilities Management Systems** - Includes products to support facilities management systems, such as repair parts, surveillance systems, security functions, energy functions, building comfort systems, etc.

NOTE: Subject to Cooperative Purchasing

541990L **Professional Law Enforcement Services** - Includes professional law enforcement services, such as fingerprinting, handwriting analysis, ballistic analysis, forensic artist, etc.

561612 **Protective Service Occupations** - Includes protective service occupations to support on-site security operations, such as security guards, alarm monitors, baggage inspectors, corrections and court security officers, etc.

611430ST **Security Training** - Includes all security training related to law enforcement, security, emergency preparedness and/or first responders. Examples include instructor-led training, web-based training, pre-set courses, training development, etc.
ANCILLARY Ancillary Supplies and Services - Ancillary supplies and/or services are support supplies and/or services which are not within the scope of any other SIN on this schedule. These supplies and/or services are necessary to complement a contractor’s offerings to provide a solution to a customer requirement. This SIN may be used for orders and blanket purchase agreements that involve work or a project that is solely associated with the supplies and/or services purchased under this schedule.

OLM Order-Level Materials (OLM) - OLMs are supplies and/or services acquired in direct support of an individual task or delivery order placed against a Schedule contract or BPA. OLM pricing is not established at the Schedule contract or BPA level, but at the order level. Since OLMs are identified and acquired at the order level, the ordering contracting officer (OCO) is responsible for making a fair and reasonable price determination for all OLMs.

OLMs are procured under a special ordering procedure that simplifies the process for acquiring supplies and services necessary to support individual task or delivery orders placed against a Schedule contract or BPA. Using this new procedure, ancillary supplies and services not known at the time of the Schedule award may be included and priced at the order level.

OLM SIN-Level Requirements/Ordering Instructions:
OLMs are:
- Purchased under the authority of the FSS Program
- Unknown until an order is placed
- Defined and priced at the ordering activity level in accordance with GSAR clause 552.238-115 Special Ordering Procedures for the Acquisition of Order-Level Materials. (Price analysis for OLMs is not conducted when awarding the FSS contract or FSS BPA; therefore, GSAR 538.270 and 538.271 do not apply to OLMs)
- Only authorized for use in direct support of another awarded SIN.
- Only authorized for inclusion at the order level under a Time-and-Materials (T&M) or Labor-Hour (LH) Contract Line Item Number (CLIN)
- Subject to a Not To Exceed (NTE) ceiling price

OLMs are not:
- Open Market Items.
- Items awarded under ancillary supplies/services or other direct cost (ODC) SINs (these items are defined, priced, and awarded at the FSS contract level)

OLM Pricing:
- Prices for items provided under the Order-Level Materials SIN must be inclusive of the Industrial Funding Fee (IFF).
- The value of OLMs in a task or delivery order, or the cumulative value of OLMs in orders against an FSS BPA awarded under an FSS contract.

The Service Contract Act (SCA) is applicable to this contract and it includes SCA applicable labor categories. Indicated SCA labor categories are based on the U.S. Department of Labor Wage Determination Number(s) identified in the matrix. The prices offered are based on the preponderance of where work is performed and should the contractor perform in an area with lower SCA rates, resulting in lower wages being paid, the task order prices will be discounted accordingly.

- Operate communication equipment to receive incoming calls for assistance and dispatch personnel and equipment to the scene of an emergency.
- Operate telephone console to receive incoming calls for assistance.
- Question caller(s) to determine nature of problem and type and number of personnel and equipment needed following established guidelines.
- Scan status charts and computer screen to determine units available.
- Monitor alarm system signals that indicate the location of the fire or other emergency.
- Operate two-way radio to dispatch police, fire, medical, and other personnel and equipment and relay instructions or information to remove units.
- Type commands on computer keyboard to update files and maintain logs.
- Test communications and alarm equipment and backup systems to ensure serviceability.
- May provide pre-arrival instructions to the caller, utilizing knowledge of emergency medical techniques and activate alarm system to notify fire stations.
- Provide general guidance and oversight to other Alarm Monitors.

Minimum Education and Experience: High School Diploma and 2 years of experience

BACKGROUND INVESTIGATION PROCESSOR** – DOL CATEGORY 27006
The Background Investigation Processor will perform the following tasks:

- Conduct background investigations to determine employment suitability of persons who require access to sensitive or classified U.S. Government information.
• Conduct face-to-face interviews with the subject and their neighbors, employers, friends, and family.
• Perform record searches at police agencies, courthouses, educational and financial institutions, and medical/mental health facilities providing all obtained information in a clear and concise report.
• Collect, investigate, research, document, and forward to adjudications, all reportable information from employees within industry guidelines.
• Document, file, and maintain all actions in the assigned security system of record.
• Travel nationwide, including U.S. Territories, to perform background investigations on applicants, employees, and contractor employees.
• Travel to the applicant’s former schools, residences, places of employment, etc. and, at these places, interview references, relatives, neighbors, friends, co-workers, and other sources to acquire background information regarding the subject person.
• Compile data from written information found in schools and employment records.
• Upon completion of the investigation, compile all the data into a report and submit it to the government.
• May be required to perform these duties in other U.S. Territories such as the Virgin Islands, or Puerto Rico.

Minimum Education and Experience: High School Diploma with 1 year of experience

BACKGROUND INVESTIGATION PROCESSOR – SUPERVISOR
The Background Investigation Processor – Supervisor will perform the following tasks:
• Conduct background investigations to determine employment suitability of persons who require access to sensitive or classified U.S. Government information.
• Conduct face-to-face interviews with the subject and their neighbors, employers, friends, and family.
• Perform record searches at police agencies, courthouses, educational and financial institutions, and medical/mental health facilities providing all obtained information in a clear and concise report.
• Collect, investigate, research, document, and forward to adjudications, all reportable information from employees within industry guidelines.
• Document, file, and maintain all actions in the assigned security system of record.
• Travel nationwide, including U.S. Territories, to perform background investigations on applicants, employees, and contractor employees.
• Travel to the applicant’s former schools, residences, places of employment, etc. and, at these places, interview references, relatives, neighbors, friends, co-workers, and other sources to acquire background information regarding the subject person.
• Compile data from written information found in schools and employment records.
• Upon completion of the investigation, compile all the data into a report and submit it to the government.
• May be required to perform these duties in other U.S. Territories such as the Virgin Islands, or Puerto Rico.
• Manage the daily activities of other Background Investigation Processors.
• Ensure the safety, quality, and compliance requirements are well understood and applied by employees working in its unit.
• Act as a point of contact during internal and external audits.
Minimum Education and Experience: Bachelor’s Degree with 3 years of experience. A Bachelor’s Degree may be substituted for an additional 4 years of experience.

BADGING ASSISTANT** – DOL CATEGORY 27101
The Badging Assistant will perform the following tasks:

- Create access control badges to include all programming as it relates to activation and deactivation.
- Process tenant badges and maintain appropriate logs regarding their issuance and return and track all associated actions.
- Sound alarms or call police or fire department in case of fire or presence of unauthorized persons.
- Perform customer service by interacting with internal and external clients and assist in finding resolutions of issues or concerns.
- Permit authorized persons to enter property and monitors entrances and exits.
- Monitor all communication devices to include but not limited to: phones, emails or online requests.
- Report all issues that cannot be resolved within the scope of work to a supervisor.
- Assist customers, employees, and visitors in a courteous and professional manner.
- Protect property from theft or damage, or persons from hazards or interference.
- May help visitors and customers by answering questions and giving directions.
- Carry out detailed instructions and procedures primarily oriented to ensure that emergencies and security violations are readily discovered, and reported to the appropriate authority.
- Primary duty is to observe and report security and emergencies and intervene directly only in situations which require minimal action to safeguard property or persons.

Minimum Education and Experience: High School Diploma and 1 year of experience

CONFIGURATION MANAGER
The Configuration Manager will perform the following tasks:

- Establish end-to-end processes for documentation, testing, and engineering release activities.
- Facilitate communication between Engineering, Operations, and Training and Test teams regarding releases.
- Manage multiple projects.
- Support field personnel with issue tracking, support documentation, and deployment preparedness.
- Use Subversion (SVN) Configuration Management and Bit Bucket (GIT) for all changes affecting the operational baseline and as the final repository for code and program documentation.
- Provide monthly configuration and document metric reporting for management review and provide briefs as requested for meetings.
- Contribute to the development and maintenance of a Configuration Management Plan and/or Configuration Management and Document Management Procedures.

Minimum Education and Experience: High School Diploma and 3 years of experience

CONSULTANT/BIOMETRICS EXPERT
The Consultant/Biometrics Expert will perform the following tasks:

- Serve as an expert in biometric data sharing and specialize in methods to solve specific problems in many fields, such as economics, biology, and engineering.
- Develop, test, evaluate, and deploy an application for the procurement of biometric and biographic information.
• Analyze and interpret biometric data to identify significant differences in relationships among sources of information.
• Develop an understanding of fields to which statistical methods are to be applied to determine whether methods and results are appropriate.
• Evaluate sources of information to determine any limitations regarding reliability or usability.
• Evaluate the biometric methods and procedures used to obtain data to ensure validity, applicability, efficiency, and accuracy.
• Identify relationships and trends in data, as well as any factors that could affect the results of research.
• Plan data collection methods for specific projects and determine the types and sizes of sample groups to be used.
• Prepare data for processing by organizing information, checking for any inaccuracies, and adjusting and weighing the raw data.

Minimum Education and Experience: Bachelor’s Degrees with 5 years of experience. A Bachelor’s Degree may be substituted for an additional 4 years of experience.

CONTRACT MANAGER
The Contract Manager will perform the following tasks:
• Implement program through a risk and oversight approach for all phases of program activities.
• Identify risks and problems, propose solutions, and provide timely and accurate contract deliverables.
• Develop and interpret policies in specific program areas, and provide leadership, coordination, and authoritative advice to customers.
• Direct, administer, and evaluate programs, policies, and procedures in the required program areas.
• Ensure the effective management of the assigned program areas.

Minimum Education and Experience: Bachelor’s Degree with 5 years of experience. A Bachelor’s Degree may be substituted for an additional 4 years of experience.

CURRICULUM MANAGER** – DOL CATEGORY 15060
The Curriculum Manager will perform the following tasks:
• Provide expertise in instructional methodology, tests and measurement, and curriculum development.
• Develop courseware format guidelines, review and maintain task lists and objective hierarchies, and write courseware materials in designated format (student study guide, workbooks, etc.).
• Work with Instructional Developers and Instructor/Subject Matter Experts to ensure accurate content and format.
• Plan graphics and integrate completed graphics into curriculum.
• Track individual lesson status and review lesson materials before submission to ensure revisions do not impact instructional flow.
• Monitor lecture presentations to evaluate and assist with lesson organization and content.

Minimum Education and Experience: Associate’s Degree with 3 years of experience. An Associate’s Degree may be substituted for an additional 2 years of experience.
**DISPATCHER** – DOL CATEGORY 01060

The Dispatcher will perform the following tasks:

- Prioritize call schedule according to the level of emergency.
- Responsible for the assignment of motor vehicles and drivers for conveyance of freight or passengers, and compiles lists of available vehicles.
- Assignment of vehicles is determined by factors such as length and purpose of the trip, freight or passenger requirements, and preference of the user.
- Additional responsibilities include the issuance of keys, record sheets, and driver credentials.
- Record time of departure, destination, cargo, expected time of return and investigate overdue vehicles.
- May confer with customers to expedite or locate missing, misrouted, delayed or damaged merchandise, maintain a record of mileage, fuel used, repairs made, and other expenses.
- May establish service or delivery routes, supervise loading and unloading, issue equipment to drivers, direct activities of drivers, assign helpers to drivers, work at vehicle distribution centers, and assign vehicles to customer agencies.

*Minimum Education and Experience*: High School Diploma and 1 year of experience

**Electronic Security Systems Technician**

The Electronic Security Systems Technician will perform the following tasks:

- Converse with customer or supervisor to plan layout of equipment.
- Read and study blueprints, schematics, manuals, and other specifications to determine installation procedures.
- Install or oversee the installation of equipment according to manufacturer's specifications.
- Operate system to demonstrate equipment and to analyze malfunctions.
- Interpret maintenance manuals, schematics, and wiring diagrams, and repairs equipment, utilizing knowledge of electronics and using standard test instruments and hand tools.
- Instruct and direct workers in servicing and repairing equipment.
- Instruct customers on operation of equipment.
- Consult with engineering personnel to resolve unusual problems in system operation and maintenance.
- May instruct workers in electronic theory.
- May supervise workers in testing, tuning, and adjusting equipment to obtain optimum operating performance.
- May advise management regarding customer satisfaction, product performance, and suggestions for product improvements.

*Minimum Education and Experience*: High School Diploma 1 year of experience

**Electronic Security Systems Technician – Senior**

The Electronic Security Systems Technician – Senior will perform the following tasks:

- Converse with customer or supervisor to plan layout of equipment.
- Read and study blueprints, schematics, manuals, and other specifications to determine installation procedures.
- Install or oversee the installation of equipment according to manufacturer's specifications.
• Operate system to demonstrate equipment and to analyze malfunctions.
• Interpret maintenance manuals, schematics, and wiring diagrams, and repairs equipment, utilizing knowledge of electronics and using standard test instruments and hand tools.
• Instruct and direct workers in servicing and repairing equipment.
• Instruct customers on operation of equipment.
• Consult with engineering personnel to resolve unusual problems in system operation and maintenance.
• May instruct workers in electronic theory.
• May supervise workers in testing, tuning, and adjusting equipment to obtain optimum operating performance.
• May advise management regarding customer satisfaction, product performance, and suggestions for product improvements.
• May provide guidance, mentorship, or supervision to lower level Electronic Security Systems Technicians.

Minimum Education and Experience: High School Diploma 3 years of experience

Electronic Technician Maintenance I** – DOL Category 23181
The Electronic Technician Maintenance I will perform the following tasks:

• Maintain, repair, troubleshoot, modify, and install various types of electronic equipment and related devices such as electronic transmitting and receiving equipment (e.g., radar, radio, television, telecommunications, sonar, and navigational aids); personal and mainframe computers and terminals; industrial, medical, measuring, and controlling equipment; and industrial robotic devices.
• Apply technical knowledge of electronics principles in determining equipment malfunctions and applies the skill in restoring equipment operation.
• Evaluate performance and reliability of prototype or production mode and recommend changes in circuitry or installation specifications to simplify assembly and maintenance.
• Applies basic technical knowledge to perform simple or routine tasks following detailed instructions.
• Perform tasks such as replacing components, wiring circuits, repairing simple electronic equipment; and taking test readings using common instruments such as digital multi-meters, signal generators, semiconductor testers, curve tracers, and oscilloscopes.
• Work under close supervision receiving technical guidance from supervisor or higher-level technician.
• Work is checked frequently for accuracy.

Minimum Education and Experience: High School Diploma with 1 year of experience

Electronic Technician Maintenance II** – DOL Category 23182
The Electronic Technician Maintenance II will perform the following tasks:

• Maintain, repair, troubleshoot, modify, and install various types of electronic equipment and related devices such as electronic transmitting and receiving equipment (e.g., radar, radio, television, telecommunications, sonar, and navigational aids); personal and mainframe computers and terminals; industrial, medical, measuring, and controlling equipment; and industrial robotic devices.
• Apply technical knowledge of electronics principles in determining equipment malfunctions and applies the skill in restoring equipment operation.
• Evaluate performance and reliability of prototype or production mode and recommend changes in circuitry or installation specifications to simplify assembly and maintenance.
• Applies basic technical knowledge to perform simple or routine tasks following detailed instructions.
• Perform tasks such as replacing components, wiring circuits, repairing simple electronic equipment; and taking test readings using common instruments such as digital multi-meters, signal generators, semiconductor testers, curve tracers, and oscilloscopes.
• Work under close supervision receiving technical guidance from supervisor or higher-level technician.
• Work is checked frequently for accuracy.
• Apply basic and some advanced technical knowledge to solve routine problems by interpreting manufacturers’ manuals or similar documents.
• Require familiarity with the interrelationships of circuits and judgment in planning work sequence, selecting tools, and testing instruments.
• Performance is reviewed for compliance with accepted practices.
• Work under the immediate supervision and achieve technical guidance, as required, from supervisor or higher-level technician.

Minimum Education and Experience: High School Diploma with 2 years of experience

**ELECTRONIC TECHNICIAN MAINTENANCE III** – DOL CATEGORY 23183
The Electronic Technician Maintenance III will perform the following tasks:

• Maintain, repair, troubleshoot, modify, and install various types of electronic equipment and related devices such as electronic transmitting and receiving equipment (e.g., radar, radio, television, telecommunications, sonar, and navigational aids); personal and mainframe computers and terminals; industrial, medical, measuring, and controlling equipment; and industrial robotic devices.
• Apply technical knowledge of electronics principles in determining equipment malfunctions and applies the skill in restoring equipment operation.
• Evaluate performance and reliability of prototype or production mode and recommend changes in circuitry or installation specifications to simplify assembly and maintenance.
• Applies basic technical knowledge to perform simple or routine tasks following detailed instructions.
• Perform tasks such as replacing components, wiring circuits, repairing simple electronic equipment; and taking test readings using common instruments such as digital multi-meters, signal generators, semiconductor testers, curve tracers, and oscilloscopes.
• Work under close supervision receiving technical guidance from supervisor or higher-level technician.
• Work is checked frequently for accuracy.
• Apply basic and some advanced technical knowledge to solve routine problems by interpreting manufacturers’ manuals or similar documents.
• Require familiarity with the interrelationships of circuits and judgment in planning work sequence, selecting tools, and testing instruments.
• Performance is reviewed for compliance with accepted practices.
• Work under the immediate supervision and achieve technical guidance, as required, from supervisor or higher-level technician.
• Apply advanced technical knowledge to solve complex problems that typically cannot be solved solely by referencing manufacturers’ manuals or similar documents.
• Work typically requires an understanding of the interrelationships of circuits, exercising independent judgment in performing such tasks as making circuit analysis, calculating wave forms, and tracing relationships in signal flow, using complex test instruments such as high-frequency pulse generators, frequency synthesizers, distortion analyzers, and complex computer control equipment.
• Work may be reviewed by supervisor for general compliance with accepted practices.
• May provide technical guidance to lower level technicians.

Minimum Education and Experience: High School Diploma with 3 years of experience

ENGINEER
The Engineer will perform the following tasks:
• Contribute to the completion of major programs and projects.
• Guides the successful completion of minor programs.
• Provide technical assessments for business development decisions as needed.
• Provide technical solutions to a wide range of difficult and complex problems.
• Collect, organize and analyze technical information to support the development and design of products.
• Assist in technical and statistical analysis in the form of written reports.
• Assist in drawing reviews and track requirements throughout development.
• Collaborate with other teams to ensure design criteria are met.
• Participate in change management for new requirements throughout the product lifecycle.
• Prepare technical presentations, reports, or process studies.

Minimum Education and Experience: Bachelor’s Degree with 1 year of experience. A Bachelor’s Degree may be substituted for an additional 4 years of experience.

ENGINEER - SENIOR
The Engineer - Senior will perform the following tasks:
• Contribute to the completion of major programs and projects.
• Guides the successful completion of minor programs.
• Provide technical assessments for business development decisions as needed.
• Provide technical solutions to a wide range of difficult and complex problems.
• Collect, organize and analyze technical information to support the development and design of products.
• Assist in technical and statistical analysis in the form of written reports.
• Assist in drawing reviews and track requirements throughout development.
• Collaborate with other teams to ensure design criteria are met.
• Participate in change management for new requirements throughout the product lifecycle.
• Prepare technical presentations, reports, or process studies.
• Perform technical and statistical analysis in the form of written reports.
• Identify technical opportunities and provide analysis to demonstrate concept while meeting key specifications.
• Develop and manage design requirements and produce hierarchal system-based functional diagrams.
• Perform drawing reviews and track requirements throughout development.

Minimum Education and Experience: Bachelor’s Degree with 3 years of experience. A Bachelor’s Degree may be substituted for an additional 4 years of experience.
GUARD I** – DOL CATEGORY 27101
The Guard I will perform the following tasks:

- Secures premises and personnel by patrolling property; monitoring surveillance equipment; inspecting buildings, equipment, and access points; permitting entry.
- Completes reports by recording observations, information, occurrences, and surveillance activities; interviewing witnesses; obtaining signatures.
- Protect property from theft or damage, or persons from hazards or interference.
- Duties involve serving at a fixed post, making rounds on foot or by motor vehicle, or escorting persons or property.
- Carry out detailed instructions and procedures primarily oriented to insure that emergencies and security violations are readily discovered, and reported to the appropriate authority.
- Primary duty is to observe and report security and emergencies.
- Intervene directly only in situations which require minimal action to safeguard property or persons.
- Duties require minimal training and physical fitness standards.

This position is Unarmed Minimum Education and Experience: High School Diploma with 6 months of experience.

GUARD II – LEVEL I (UNARMED) ** – DOL CATEGORY 27102
The Guard II – Level I will perform the following tasks:

- Secures premises and personnel by patrolling property; monitoring surveillance equipment; inspecting buildings, equipment, and access points; permitting entry.
- Completes reports by recording observations, information, occurrences, and surveillance activities; interviewing witnesses; obtaining signatures.
- Protect property from theft or damage, or persons from hazards or interference.
- Duties involve serving at a fixed post, making rounds on foot or by motor vehicle, or escorting persons or property.
- Carry out detailed instructions and procedures primarily oriented to insure that emergencies and security violations are readily discovered, and reported to the appropriate authority.
- Primary duty is to observe and report security and emergencies.
- Intervene directly only in situations which require minimal action to safeguard property or persons.
- Duties require minimal training and physical fitness standards.
- Enforces regulations and procedures designed to prevent breaches of security.
- Exercise judgment and use discretion in responding to incidents and emergencies.
- Determine whether to intervene directly, ask for assistance as time permits, keep situation under control, conduct surveillance, or report the incident to the appropriate authority for handling.
- Duties require specialized training in methods and techniques of protecting controlled areas.

Minimum Education and Experience: High School Diploma with 6 months of experience

GUARD II – LEVEL II** – DOL CATEGORY 27102
The Guard II – Level II will perform the following tasks:
• Secures premises and personnel by patrolling property; monitoring surveillance equipment; inspecting buildings, equipment, and access points; permitting entry.
• Completes reports by recording observations, information, occurrences, and surveillance activities; interviewing witnesses; obtaining signatures.
• Protect property from theft or damage, or persons from hazards or interference.
• Duties involve serving at a fixed post, making rounds on foot or by motor vehicle, or escorting persons or property.
• Carry out detailed instructions and procedures primarily oriented to insure that emergencies and security violations are readily discovered, and reported to the appropriate authority.
• Primary duty is to observe and report security and emergencies.
• Intervene directly only in situations which require minimal action to safeguard property or persons.
• Duties require minimal training and physical fitness standards.
• Enforces regulations and procedures designed to prevent breaches of security.
• Exercise judgment and use discretion in responding to incidents and emergencies.
• Determine whether to intervene directly, ask for assistance as time permits, keep situation under control, conduct surveillance, or report the incident to the appropriate authority for handling.
• Duties require specialized training in methods and techniques of protecting controlled areas.
• May be required to demonstrate proficiency in the use of firearms and/or other special weapons and continuing physical fitness.

Minimum Education and Experience: High School Diploma with 6 months of experience

GUARD II – LEVEL III** – DOL CATEGORY 27102
The Guard II – Level III will perform the following tasks:

• Secures premises and personnel by patrolling property; monitoring surveillance equipment; inspecting buildings, equipment, and access points; permitting entry.
• Completes reports by recording observations, information, occurrences, and surveillance activities; interviewing witnesses; obtaining signatures.
• Protect property from theft or damage, or persons from hazards or interference.
• Duties involve serving at a fixed post, making rounds on foot or by motor vehicle, or escorting persons or property.
• Carry out detailed instructions and procedures primarily oriented to insure that emergencies and security violations are readily discovered, and reported to the appropriate authority.
• Primary duty is to observe and report security and emergencies.
• Intervene directly only in situations which require minimal action to safeguard property or persons.
• Duties require minimal training and physical fitness standards.
• Enforces regulations and procedures designed to prevent breaches of security.
• Exercise judgment and use discretion in responding to incidents and emergencies.
• Determine whether to intervene directly, ask for assistance as time permits, keep situation under control, conduct surveillance, or report the incident to the appropriate authority for handling.
• Duties require specialized training in methods and techniques of protecting controlled areas.
• May be required to demonstrate proficiency in the use of firearms and/or other special weapons and continuing physical fitness.
• Required to demonstrate proficiency in the use of firearms and/or other special weapons and continuing physical fitness.
Minimum Education and Experience: High School Diploma with 1 year of experience

Guard II – Level IV** – DOL Category 27102
The Guard II – Level IV will perform the following tasks:

- Secures premises and personnel by patrolling property; monitoring surveillance equipment; inspecting buildings, equipment, and access points; permitting entry.
- Completes reports by recording observations, information, occurrences, and surveillance activities; interviewing witnesses; obtaining signatures.
- Protect property from theft or damage, or persons from hazards or interference.
- Duties involve serving at a fixed post, making rounds on foot or by motor vehicle, or escorting persons or property.
- Carry out detailed instructions and procedures primarily oriented to insure that emergencies and security violations are readily discovered, and reported to the appropriate authority.
- Primary duty is to observe and report security and emergencies.
- Intervene directly only in situations which require minimal action to safeguard property or persons.
- Duties require minimal training and physical fitness standards.
- Enforces regulations and procedures designed to prevent breaches of security.
- Exercise judgment and use discretion in responding to incidents and emergencies.
- Determine whether to intervene directly, ask for assistance as time permits, keep situation under control, conduct surveillance, or report the incident to the appropriate authority for handling.
- Duties require specialized training in methods and techniques of protecting controlled areas.
- May be required to demonstrate proficiency in the use of firearms and/or other special weapons and continuing physical fitness.
- Required to demonstrate proficiency in the use of firearms and/or other special weapons and continuing physical fitness.
- May provide guidance, mentorship, or supervision to lower level guards.

Minimum Education and Experience: High School Diploma with 2 years of experience

Guard II – Level V** – DOL Category 27102
The Guard II – Level V will perform the following tasks:

- Secures premises and personnel by patrolling property; monitoring surveillance equipment; inspecting buildings, equipment, and access points; permitting entry.
- Completes reports by recording observations, information, occurrences, and surveillance activities; interviewing witnesses; obtaining signatures.
- Protect property from theft or damage, or persons from hazards or interference.
- Duties involve serving at a fixed post, making rounds on foot or by motor vehicle, or escorting persons or property.
- Carry out detailed instructions and procedures primarily oriented to insure that emergencies and security violations are readily discovered, and reported to the appropriate authority.
- Primary duty is to observe and report security and emergencies.
- Intervene directly only in situations which require minimal action to safeguard property or persons.
- Duties require minimal training and physical fitness standards.
- Enforces regulations and procedures designed to prevent breaches of security.
• Exercise judgment and use discretion in responding to incidents and emergencies.
• Determine whether to intervene directly, ask for assistance as time permits, keep situation under control, conduct surveillance, or report the incident to the appropriate authority for handling.
• Duties require specialized training in methods and techniques of protecting controlled areas.
• May be required to demonstrate proficiency in the use of firearms and/or other special weapons and continuing physical fitness.
• Required to demonstrate proficiency in the use of firearms and/or other special weapons and continuing physical fitness.
• May provide guidance, mentorship, or supervision to lower level guards.
• May be deputized to make arrests.

Minimum Education and Experience: High School Diploma with 3 years of experience

GUARD II – LEVEL VI** – DOL CATEGORY 27102
The Guard II – Level VI will perform the following tasks:

• Secures premises and personnel by patrolling property; monitoring surveillance equipment; inspecting buildings, equipment, and access points; permitting entry.
• Completes reports by recording observations, information, occurrences, and surveillance activities; interviewing witnesses; obtaining signatures.
• Protect property from theft or damage, or persons from hazards or interference.
• Duties involve serving at a fixed post, making rounds on foot or by motor vehicle, or escorting persons or property.
• Carry out detailed instructions and procedures primarily oriented to insure that emergencies and security violations are readily discovered, and reported to the appropriate authority.
• Primary duty is to observe and report security and emergencies.
• Intervene directly only in situations which require minimal action to safeguard property or persons.
• Duties require minimal training and physical fitness standards.
• Enforces regulations and procedures designed to prevent breaches of security.
• Exercise judgment and use discretion in responding to incidents and emergencies.
• Determine whether to intervene directly, ask for assistance as time permits, keep situation under control, conduct surveillance, or report the incident to the appropriate authority for handling.
• Duties require specialized training in methods and techniques of protecting controlled areas.
• May be required to demonstrate proficiency in the use of firearms and/or other special weapons and continuing physical fitness.
• Required to demonstrate proficiency in the use of firearms and/or other special weapons and continuing physical fitness.
• May provide guidance, mentorship, or supervision to lower level guards.
• Deputized to make arrests.

Minimum Education and Experience: High School Diploma with 4 years of experience

LOCKSMITH** – DOL CATEGORY 23500
The Locksmith will perform the following tasks:
- Install, repair, modify, and open a variety of locking mechanisms found on doors, desks, compartments, mobile equipment, safes, and vaults.
- Examine locking mechanism and install new unit or disassemble the unit and replace worn tumblers, springs, and other parts or repair them by filing, drilling, chiseling and grinding.
- Open door locks by moving lock pick in the cylinder or open safe locks by listening to lock sounds or by drilling.
- Make new or duplicate keys, using a key cutting machine.
- Change combination by inserting new or repaired tumblers into the lock.
- Establish keying systems for buildings.

**Minimum Education and Experience:** High School Diploma with 1 year of experience

---

**Operations Manager**
The Operations Manager will perform the following tasks:

- Provide technical support in conjunction with ongoing customer agency programs to manage facilities or other tasks including but not limited to operating systems and equipment; developing system management plans, and adhering to established policies and procedures.
- Review and evaluate ongoing and completed project management.
- Determine project schedules and develop plans to track and justify schedules; coordinate schedules and system management activities; provide engineering and/or technical expertise.
- Manage projects from design through completion; coordinate and provide system training.
- Attend technical meetings to provide task status briefings and reports.
- Develop plans for correction/improvement.
- Assess adequacy of internal communication by contacting customers and getting feedback.

**Minimum Education and Experience:** High School Diploma with 5 years of experience

---

**Personnel Security Specialist I** - DOL CATEGORY 01111
The Personnel Security Specialist I will perform the following tasks:

- Familiar with special access programs and security procedures.
- Follow detailed procedures in performing, simple repetitive tasks in the same sequence.
- Familiar with customer-required security protocols.
- Responsibilities include filing pre-coded documents in a chronological file or operating office equipment (e.g., mimeograph, photocopy, addressograph or mailing machine).
- Follow detailed specific procedures in completing several repetitive clerical steps performed in a prescribed or slightly varied sequence.
- Specific work may include but is not limited to coding and filing documents in an extensive alphabetical file, simple posting to individual accounts, opening mail, calculating and posting charges to departmental accounts, operating basic office equipment.
- Little or no subject matter knowledge is required, but the clerk uses judgment in choosing the proper procedure for each task.

**Minimum Education and Experience:** High School Diploma with 6 months of experience
PERSONNEL SECURITY SPECIALIST II** - DOL CATEGORY 01112
The Personnel Security Specialist II will perform the following tasks:

- Familiar with special access programs and security procedures.
- Follow detailed procedures in performing, simple repetitive tasks in the same sequence.
- Familiar with customer-required security protocols.
- Responsibilities include filing pre-coded documents in a chronological file or operating office equipment (e.g., mimeograph, photocopy, addressograph or mailing machine).
- Follow detailed specific procedures in completing several repetitive clerical steps performed in a prescribed or slightly varied sequence.
- Specific work may include but is not limited to coding and filing documents in an extensive alphabetical file, simple posting to individual accounts, opening mail, calculating and posting charges to departmental accounts, operating basic office equipment.
- Little or no subject matter knowledge is required, but the clerk uses judgment in choosing the proper procedure for each task.
- Familiar with special access programs, analyze security procedures, and recommend changes to make the procedures more effective.
- Use some subject matter knowledge and judgment to complete assignments consisting of numerous steps varying in nature and sequence.
- Select from alternative methods and refer problems not solvable by adapting or interpreting substantive guides, manuals, or procedures.
- Typical duties include but are not limited to assisting in a variety of administrative matters; maintaining a wide variety of financial or other records (stored both manually and electronically); verifying statistical reports for accuracy and completeness; compiling information; handling and adjusting complaints.
- May direct lower level specialists.

Minimum Education and Experience: High School Diploma with 1 year of experience

PERSONNEL SECURITY SPECIALIST III** - DOL CATEGORY 01113
The Personnel Security Specialist III will perform the following tasks:

- Familiar with special access programs and security procedures.
- Follow detailed procedures in performing, simple repetitive tasks in the same sequence.
- Familiar with customer-required security protocols.
- Responsibilities include filing pre-coded documents in a chronological file or operating office equipment (e.g., mimeograph, photocopy, addressograph or mailing machine).
- Follow detailed specific procedures in completing several repetitive clerical steps performed in a prescribed or slightly varied sequence.
- Specific work may include but is not limited to coding and filing documents in an extensive alphabetical file, simple posting to individual accounts, opening mail, calculating and posting charges to departmental accounts, operating basic office equipment.
- Little or no subject matter knowledge is required, but the clerk uses judgment in choosing the proper procedure for each task.
- Familiar with special access programs, analyze security procedures, and recommend changes to make the procedures more effective.
- Use some subject matter knowledge and judgment to complete assignments consisting of numerous steps varying in nature and sequence.
• Select from alternative methods and refer problems not solvable by adapting or interpreting substantive guides, manuals, or procedures.
• Typical duties include but are not limited to assisting in a variety of administrative matters; maintaining a wide variety of financial or other records (stored both manually and electronically); verifying statistical reports for accuracy and completeness; compiling information; handling and adjusting complaints.
• May direct lower level specialists.

Minimum Education and Experience: High School Diploma with 2 years of experience

PROGRAM COORDINATOR
The Program Coordinator will perform the following tasks:

• Coordinate duties assigned to the security, loss prevention, and safety function including staff management, general administration, facility access control, and life/safety responsibilities of the department.
• Operate security and access control systems.
• Process requests for access from staff, visitors, and contractors.
• Schedule security coverage, as necessary. Arrange schedules and regulate the flow of work within or between organizational units or businesses.
• Maintain departmental training records.
• Serve as the senior security representative after hours and on weekends.
• Ensure the Security Department is properly staffed.
• Conduct briefings with contract security personnel.
• Prepare detailed support documents for high-level customer meetings.
• Prepare reports by collecting and analyzing information.
• Confer with supervisors to determine progress of work and to provide information on changes in processing methods.

Minimum Education and Experience: High School Diploma with 2 years of experience

PROGRAM MANAGER
The Program Manager will perform the following tasks:

• Manage program to ensure implementation and prescribed activities are carried out in accordance with specified objectives.
• Direct and coordinate program activities for specific functions or phases of programs.
• Select personnel according to knowledge and experience in specific program areas, such as social or public welfare, education, economics, or public relations.
• Confer with staff to explain the program and individual responsibilities for functions and phases of the program.
• Direct and coordinate, personally or through subordinate managerial personnel, activities concerned with implementation and carrying out objectives of the program.
• Review reports and records of activities to ensure specified program objectives are met; modify or change methodology as required to redirect activities and attain objectives.
• Prepare program reports for superiors.
• Control expenditures in accordance with budget allocations.

Minimum Education and Experience: Associate’s Degree with 5 years of experience. An Associate’s Degree may be substituted for an additional 2 years of experience.
**PROJECT MANAGER**
The Project Manager will perform the following tasks:
