SCRAM of California, Inc. is a Service Provider of electronic monitoring, drug and alcohol testing, offender supervision, and case management solutions for criminal justice agencies and courts throughout the southwest U.S. Founded in 2010 and headquartered in San Diego, SCRAM of California currently provides services to courts and agencies from 19 locations throughout California, Arizona, Nevada, and Hawaii. We are the largest SCRAM Systems service provider in the Western U.S.

Our goal is to use the best testing and monitoring tools available and deliver them to our criminal justice partners through best-in-class customer and client service. We hold the designation of being a SCRAM Systems Preferred Partner, a distinction we’ve earned

based on the quality of our services and our experience delivering SCRAM Systems monitoring technologies.

SCRAM of California Full-Service Offerings

In addition to our monitoring technologies, SCRAM of California also provides full-service programs that incorporate every element of the client and case management process, including client assessments, installation, enrollment, equipment maintenance, full reporting, and court support. We also specialize in developing and managing self-sustaining client-pay programs that provide optimal monitoring at no cost to agencies and taxpayers. Our partner courts and agencies can customize the level and type of services they require based on the program’s needs.

Additional Products

In addition to the monitoring technologies listed on GSA, we provide 24/7 transdermal drug sweat patch testing, standalone House Arrest monitoring, a mobile app for client check-ins, and Cognitive Behavioral Therapy courses.

For more information, please contact our GSA Administrator, Danny Prokosch, at (925) 597-0340 or dprokosch@scramca.com.

Overview of Schedule Offering

SIN	SIN Description
334290	Security and Detection Systems—Includes security and detection systems and devices, such as gas detectors, pressure level monitoring, patient/detainee monitoring systems, etc. NOTE: Excludes vehicular alarms NOTE: Subject to Cooperative Purchasing
334516	Analytical Instruments—Includes analytical equipment for laboratory use, such as testing equipment, etc.
ANCILLARY	Ancillary Supplies and Services—Ancillary supplies and/or services are support supplies and/or services, which are not within the scope of any other SIN on this schedule. These supplies and/or services are necessary to compliment a contractor’s offerings to provide a solution to a customer requirement. This SIN may be used for orders and blanket purchase agreements that involve work or a project that is solely associated with the supplies and/or services purchased under this schedule. NOTE: When used in conjunction with a Cooperative Purchasing eligible SIN, this SIN is Cooperative Purchasing Eligible.

Continuous Alcohol Monitoring Solutions

SCRAM Continuous Alcohol Monitoring® is the world's most widely used 24/7 transdermal alcohol monitoring technology

SCRAM CAM® provides 24/7, continuous testing for your higher-risk/higher-need alcohol clients. With the click of a button, you can increase supervision by activating the optional RF/House Arrest curfew monitoring in the same bracelet.

Features:

- Continuous, automated, 24/7 sample collection.
- Samples Insensible Perspiration every 30 minutes.
- Independently-tested, peer-reviewed, court-validated.
- Industry-leading anti-tamper technology.
- Optional RF/House Arrest monitoring included in the same bracelet.
- Automatic, daily data uploads.
- Robust reporting per client, agent, or program.

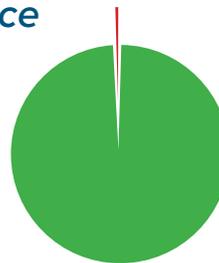

Benefits:

- No testing windows, no missed drinking events.
- Single-source admissible—no back-up tests required.
- Testing confidence—SCRAM CAM is the only transdermal system that can conclusively distinguish between consumption and environmental alcohol.
- Daily notifications—easily prioritize the <1% of clients who require your time.

SCRAM CAM is the #1 choice for ensuring compliance with ordered abstinence

SCRAM CAM programs have been shown to actually change behavior in repeat, high-risk, high-need clients, both during monitoring and subsequent to the period of supervision.

Daily Compliance*:

- 99.4% ● Compliant
- 0.6% ● Noncompliant

* Rate of violations on any given monitoring day

- **True compliance**—99.4% of SCRAM CAM clients are completely sober and compliant each and every day. No drinking, no tampering.
- **Behavior modification**—Studies show as much as a 45% decrease in DUI recidivism for repeat, high-risk offenders who wear SCRAM CAM more than 90 days vs DUI offenders who were not monitored with CAM.
- **Deterrence**—88% of participants report that SCRAM CAM deterred them from drinking.

Continuous, transdermal alcohol testing

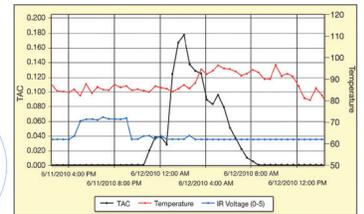

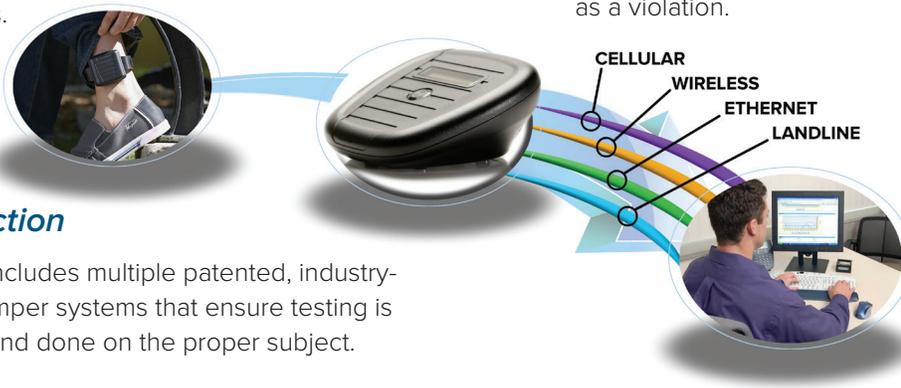

How It Works

- The lightweight anklet takes a sample of the subject's perspiration automatically, every 30 minutes, 24/7/365.
- Test results upload automatically via the SCRAM Base Station 1 to as many as 6 times a day—or immediately when alcohol or a tamper are detected.
- Test results upload to secure, web-based SCRAMNET Optix™, where data is stored and analyzed.
- We notify supervising agents of any confirmed violations within 24 hours.

Reliability

- SCRAM is the world's only transdermal testing system that can reliably distinguish between consumed and environmental alcohol exposure.
- SCRAM CAM is the only transdermal alcohol monitoring system in the world that has been independently tested, peer-reviewed, and court-validated in every state.
- The continuous testing protocol is the only one in the world that can reliably provide proof of sobriety as well as a violation.

Tamper Detection

- SCRAM CAM includes multiple patented, industry-leading anti-tamper systems that ensure testing is unobstructed and done on the proper subject.

What Sets Us Apart: The SCRAM of California Difference

SCRAM of California is a public safety-first organization. Along with our sister companies, **SCRAM of Nevada**, **SCRAM of Arizona**, and **SCRAM of Hawaii**, we deliver swift and certain monitoring programs using the best products and technologies, and we do it with the most experienced team of criminal justice professionals in the industry. As the **largest SCRAM Systems provider in the Western U.S.**, our comprehensive service offerings go above and beyond the industry standard and are designed to maximize efficiencies and results and minimize the time and resources spent on the administration of your program.

- ✓ Comprehensive offender case management
- ✓ 24/7 monitoring center operations **and** 24/7 customer and client support
- ✓ Full-service, customizable client-pay programs
- ✓ The most experienced court support team in the U.S.
- ✓ Unsurpassed product and program training—online, in-person, ongoing
- ✓ A dedicated court liaison for every program
- ✓ Inventory management
- ✓ Our Quality Assurance and Compliance Manager

Location Monitoring Solutions

The best tracking device meets the best reporting software

SCRAM GPS® is a one-piece tracking bracelet with superior location accuracy, a patented strap design that eliminates false strap alerts, and the industry's longest battery life.

Features:

- SCRAM GPS Analytics
- GSM and CDMA options
- On-demand Pursuit Mode with GPS points every 15 seconds to aid in apprehension
- Reliable GPS and A-GPS location technology
- Secondary tracking via cell tower triangulation and location-based services (LBS)
- RF base station
- On-board zone storage
- 2-way client communication
- Caseload and alert management mobile app
- Industry-leading 40+ hours of battery life on an aggressive rate plan
- 30-second, tool-free installation
- Integrates with all SCRAM Systems technologies via SCRAMNET Optix™

GPS Hardware Built to Reduce Alerts

Revolutionary Strap Design

- No intermittent strap disruptions—alerts are genuine
- No system-imposed grace periods to manage false alerts

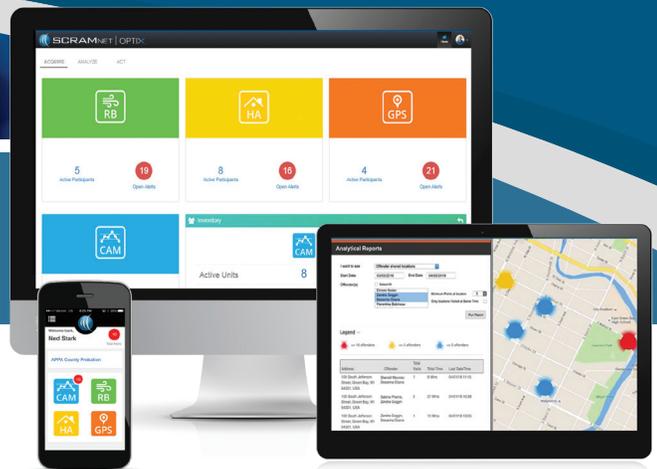

Maximize Performance With Optional Beacon

- Bracelet automatically converts to RF when in range
- Reduces location and communication alerts in high-density and impaired settings
- Extends bracelet battery life

Industry-leading software that's intuitive and intelligent—the right information, right when you need it.

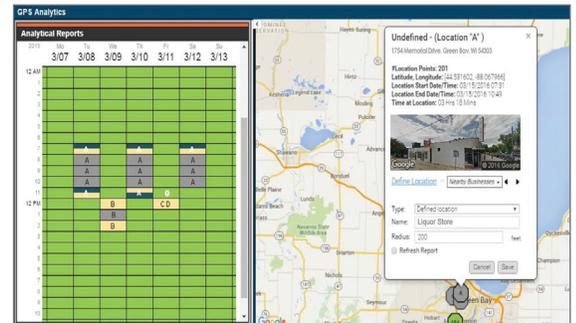

- The dashboard automatically prioritizes your caseload based on urgency status.
- Easy, one-click access to notes, mapping, alert actions, and client information. Simplifies data management of even the largest caseloads.
- Analyze up to a month of GPS points in seconds with GPS Analytics.

The SCRAMNET Mobile™ app brings you the right information any time, any place.

Select	Offender	Locator	Battery	Equipment	Location	Zones	Notes	Map	Events
▶	Doi, Jane								Details
▶	Smith, Tom								Details
▶	Jones, Bill								Details
▶	Smith, Kim								Details
▶	Jones, Jane								Details

- Easily scan your entire caseload to find when and where two or more of your clients were together at the same time.
- Color-coded markers let you identify how many clients were together at once.
- Identify dead drop areas with pinpoint accuracy.

- Identify client travel patterns, stops, and unknown locations by viewing street or interior views in Google Maps.

Breath Alcohol Testing Solutions

Improve accountability with device-initiated testing, automated facial recognition, and a GPS point with every test.

SCRAM Remote Breath® provides handheld, portable breath alcohol monitoring with options for scheduled, random, and on-demand testing. For your lower-risk clients or those who have earned less intensive monitoring.

Features:

- Immediate notification of BrAC and client ID results
- Ethernet capability enables enrollment anywhere with Internet access
- GPS location with taken and missed tests
- Device automatically turns on and prompts client to test
- Flexible testing schedules
- STORE & FORWARD technology ensures all test results and data are captured and reported
- Promote compliance with optional client reminders via text or the SCRAM TouchPoint™ mobile app
- Rugged, built for corrections
- Proven fuel cell technology with ability to test down to 0.00 BrAC
- Easy to carry, easy to use

Automated Facial Intelligence™ (AFI™) Decreases Manual Photo Review by 90–95%

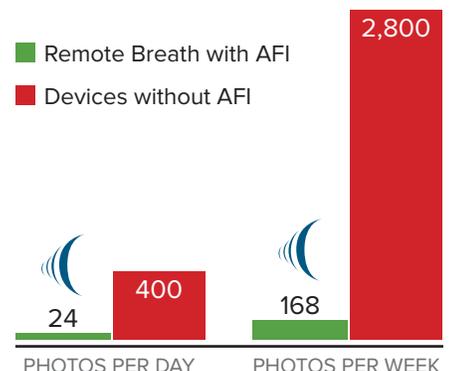

- Government security-grade facial recognition—not just photos
- Real-time client verification
- Significantly reduces the staff time required to review and confirm client identity
- High resolution camera ensures clear photos for the 5–10% you do need to review
- Smart technology further improves matches by automatically prompting clients to retake poor test photos

AFI Identifies Circumventions

AFI caught mismatched photos. Client admitted to having his cousin take his scheduled test.

Workload Reduction With AFI

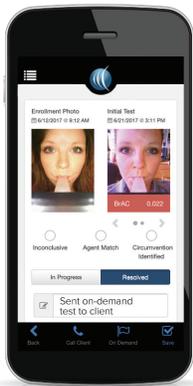

Industry comparison of manual photo matching in an average program.

Simplify client management with integrated software and mobile solutions

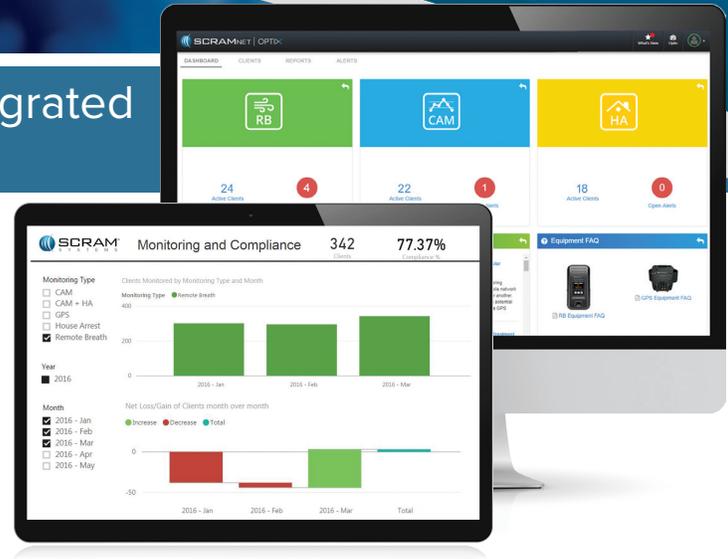

Unified Workload and Reporting

- SCRAMNET Optix™ brings together all of your electronic monitoring clients in one user experience
- Integrated reporting illustrates key program metrics, turning data into insights
- SCRAM Interactive Program Analytics provide in-depth, configurable analysis of your program's health

Mobile Client Management

- Manage Remote Breath clients anytime, anywhere with the SCRAMNET Mobile™ app
- Receive instant notification of alcohol events, missed tests, and attempted circumventions
- Resolve alerts, add notes, and send on-demand breath tests on-the-go, 24/7
- Call clients with a single tap and view a client's address or testing location in Google Maps™
