SCRAM of California, Inc. is a Service Provider of electronic monitoring, drug and alcohol testing, offender supervision, and case management solutions for criminal justice agencies and courts throughout the southwest U.S. Founded in 2010 and headquartered in San Diego, SCRAM of California currently provides services to courts and agencies from 22 locations plus Mobile Support Teams throughout California, Arizona, Nevada, Idaho, and Hawaii. We are the largest SCRAM Systems service provider in the Western U.S.

Our goal is to use the best testing and monitoring tools available and deliver them to our criminal justice partners through best-in-class customer and client service. We hold the designation of being a SCRAM Systems Preferred Partner, a distinction we’ve earned based on the quality of our services and our experience delivering SCRAM Systems monitoring technologies.

SCRAM of California Full-Service Offerings
In addition to our monitoring technologies, SCRAM of California also provides full-service programs that incorporate every element of the client and case management process, including client assessments, installation, enrollment, equipment maintenance, full reporting, and court support. We also specialize in developing and managing self-sustaining client-pay programs that provide optimal monitoring at no cost to agencies and taxpayers. Our partner courts and agencies can customize the level and type of services they require based on the program’s needs.

Additional Products
In addition to the monitoring technologies listed on GSA, we provide 24/7 transdermal drug sweat patch testing, standalone House Arrest monitoring, and Cognitive Behavioral Therapy courses.

For more information, please contact our GSA Administrator, Danny Prokosch, at (925) 597-0340 or dprokosch@scramca.com.

SCRAM GPS®
The best tracking device meets the best reporting software

SCRAM GPS Maximizes Performance

**Patented Strap Design**
- Unique design virtually eliminates false open strap alerts and intermittent strap disruptions

**SCRAM GPS Beacon**
- Optional beacon maximizes performance
- Reduces communication and location alerts, extends battery life
- Ideal for clients in apartments or areas with limited cellular communication

**On-Body Charger**
- Doubles SCRAM GPS battery life
- Charges on-the-go in approximately 2 hours

**SCRAM GPS Key Features**
- Unique strap design reduces alert workload
- 30-second, tool free installation
- Variable range and window leave settings
- On-Demand Pursuit Mode with GPS points every 15 seconds to aid in apprehension
- Long battery life minimizes low battery alerts
- On-board zone storage
- 2-Way client communication
- Industry-leading battery life even on the most aggressive rate plan

Pattern of Life Mapping With SCRAM GPS

Quickly identify a client’s exact location and puts client movements into context with integrated Google Maps and Google Info windows.
SCRAM Optix™

- Manage all SCRAM Systems clients, on every technology, through a single login on our integrated platform.
- The dashboard automatically prioritizes your caseload based on urgency status.
- Easy, one-click access to notes, mapping, alert actions, and client information.
- Simplifies data management of even the largest caseloads.
- Integrated, simple, customized reporting graphically illustrates key program metrics.
- Data accessible on-the-go from any computer, tablet, or smart phone with an Internet connection.

SCRAM GPS Analytics

- Quickly make sense of thousands of data points in order to visually see a client’s travel patterns.
- See specific locations visited by a client, easily distinguish travel patterns, and identify unknown locations with integrated Google Maps.

SCRAM Ally™ Mobile App

Works in conjunction with SCRAM GPS to notify a victim and the supervising agents when a GPS client is in proximity to the victim’s phone.

What Sets Us Apart: The SCRAM of California Difference

Not all service providers are alike. SCRAM of California is a public safety-first organization. With office locations and mobile support teams throughout California, Nevada, Arizona, Hawaii, and Idaho, we hold the designation of being a SCRAM Systems Preferred Partner, and we are the largest SCRAM Systems provider in the Western U.S. Our staff, our team, and the diversity of our technology offerings go above and beyond the industry standard. We partner with courts and agencies to maximize efficiencies and results while minimizing the time and resources spent on the administration of your program.

✔ Comprehensive offender case management
✔ 24/7 monitoring center operations and 24/7 customer and client support
✔ Full-service, customizable client-pay programs
✔ The most experienced court support team in the U.S.
✔ Unsurpassed product and program training—online, in-person, ongoing
✔ A dedicated court liaison for every program
✔ Inventory management
✔ Our Quality Assurance and Compliance Program
SCRAM Continuous Alcohol Monitoring
The world’s most trusted and widely used alcohol monitoring solution

**SCRAM CAM** provides 24/7 continuous, transdermal testing for your mid- to high-risk alcohol clients. By automatically sampling the wearer’s perspiration every 30 minutes, SCRAM CAM eliminates testing gaps and supports true accountability.

**Reliability**
- No testing windows, no missed tests, no missed drinking.
- Single-source admissible—no secondary tests required.
- Alerts are subject to rigorous data analysis before confirmation.
- The *only* transdermal system where the technology and confirmation criteria are independently tested, peer-reviewed, published, and court-validated.

**Continuous Testing Ensures True Compliance**
Alcohol metabolizes quickly, which means clients can drink around EtG and breath tests.

**SCRAM CAM** provides 24/7 continuous, transdermal testing for your mid- to high-risk alcohol clients. By automatically sampling the wearer’s perspiration every 30 minutes, SCRAM CAM eliminates testing gaps and supports true accountability.

- Continuous, automated, 24/7 sample collection.
- Automatically samples Insensible Perspiration every 30 minutes.
- Industry-leading anti-tamper technology.
- Optional RF/House Arrest monitoring in the same bracelet.
- Automatic data uploads.
- No in-person, supervised testing.
SCRAM CAM is proven to increase compliance and modify long-term behavior.

SCRAM CAM programs have been shown to actually change behavior, both during monitoring and subsequent to the period of supervision.

- **True compliance**—99.4% of SCRAM CAM clients are completely sober and compliant each and every day. No drinking, no tampering.
- **Behavior modification**—Studies show as much as a 45% decrease in DUI recidivism for repeat, high-risk offenders who wear SCRAM CAM more than 90 days vs DUI offenders who were not monitored with CAM.
- **Deterrence**—88% of participants report that SCRAM CAM deterred them from drinking.

**Daily Compliance**: 99.4% Compliant, 0.6% Noncompliant

*Rate of violations on any given monitoring day

---

**SCRAM Optix™**

- **Manage all SCRAM clients**, on all technologies, from a single platform with a single login.
- **Robust dashboards and customizable reporting and analytics**—by agent, department, or for an entire program.
- **Accessible 24/7 from any location** via any computer, smartphone, or tablet with Internet access.

---

SCRAM® Remote Breath®

Mobile breath alcohol testing built to meet the needs of community corrections

SCRAM® Remote Breath® provides handheld, portable breath alcohol monitoring with options for scheduled, random, and on-demand testing. For your lower-risk clients or those who have earned less intensive monitoring.

Features

- Immediate notification of BrAC and client ID results
- Ethernet capability enables enrollment anywhere with Internet access
- GPS location with both taken and missed tests
- Flexible testing schedules
- Device automatically turns on and prompts client to test
- STORE & FORWARD technology ensures all test results and data are captured and reported
- Optional client text reminders improve compliance
- Rugged, built for corrections
- Proven fuel cell technology with ability to test down to 0.00 BrAC
- Easy to carry, easy to use

Automated Facial Intelligence™

Decreases Manual Photo Review by 90-95%

- Facial authentication software provides real-time client verification—not just photos
- Significantly reduces manual matching of photos
- High resolution camera ensures clear, quality images
- Smart technology further improves matches by automatically prompting clients to retake tests with poor photos

AFI Identifies Circumventions

Remote Breath caught mismatched photos. Client admitted to having his cousin take his scheduled test.

Workload Reduction

- 2,800 photos per week
- 400 photos per week
- 168 photos per week

Industry comparison of manual photo matching in an average program.
Simplify client management with integrated software and mobile solutions

SCRAM Optix™

• Manage all SCRAM Systems clients, on all technologies, from one platform with one login
• Integrated reporting illustrates key program metrics, turning data into insights
• SCRAM Interactive Program Analytics provide in-depth, configurable analysis of your program’s health

Mobile Client Management

• Manage Remote Breath clients anytime, anywhere
• Receive instant notification of alcohol events, missed tests, and attempted circumventions
• Resolve alerts, add notes, and send on-demand breath tests on-the-go, 24/7
• Call clients with a single tap and view a client’s address or testing location in Google Maps

Making a Difference

(619) 237-0300 | scramca.com

©2021 SCRAM of California, Inc. | CA_v1.0421
The SCRAM TouchPoint™ mobile app enhances communication between officers and clients while saving time and resources for supervising authorities. Officers can manage their entire TouchPoint caseload with a single login, backed by 24/7 customer support. TouchPoint improves compliance and outcomes by helping clients complete the terms of their supervision.

Smartphone-based supervision and engagement tool for probation, parole, pretrial, and treatment court clients

The SCRAM TouchPoint™ mobile app enhances communication between officers and clients while saving time and resources for supervising authorities. Officers can manage their entire TouchPoint caseload with a single login, backed by 24/7 customer support. TouchPoint improves compliance and outcomes by helping clients complete the terms of their supervision.

Mobile Check-In
- Two-layer verification using biometrics and facial authentication
- GPS points with every check-in
- Configurable questions

Document Management
- Send and receive supervision paperwork
- Access and store digital documents

Electronic Monitoring Notifications
- Automated notices on common EM tasks
- Promotes client compliance

Messaging
- Secure, text-like messaging
- Read receipts and printable transcripts
- Text-to-All for mass messaging

Appointment Reminders
- Automated notifications for upcoming appointments
- Decreases no-shows and reduces technical violations

TouchPoint is ideal for
- Standalone supervision for low-risk clients
- Enhanced supervision for SCRAM Systems electronic monitoring clients
- Integration with SCRAM Nexus® for Evidence-Based Practice (EBP) implementation
Secure, Real-Time Messaging

Facilitate Effective Communication
- Text-like messaging gives clients an intuitive and modern method to communicate with their supervising authority
- Read receipts ensure officers know when clients open and view messages, and all transcripts are saved and printable
- Send important messages or invoice payment links to all or a portion of clients with the Text-to-All feature

Mobile Check-In

Keep Clients Accountable
- Enables clients to complete scheduled or on-demand self-reports, right from their smartphone
- Records a GPS point and client photo with each check-in, providing additional insight into a client's response
- Verify key client information with configurable questions

Appointment Reminders

Reduce Technical Violations
- Automated appointment reminders alert clients on scheduled and upcoming appointments, helping them meet their supervision requirements
- Clients are sent reminders 24 hours and 2 hours before their scheduled appointment, supporting EBP best practices

Electronic Monitoring Notifications

Promote Client Compliance
- When integrated with SCRAM Systems EM devices, clients receive notifications on routine EM tasks, creating an audit trail with delivered and read time stamps
- Automated reminders can save supervising officers an average of 42 minutes per client per month

Document Management

Eliminate Paper Pushing and Increase Efficiency
- Securely and electronically send, receive, access, and store supervision paperwork and other important documents
- Troubleshoot common electronic monitoring device problems via image sharing
- Remove the need for manual paper handling, scanning, and uploading documents
24/7 Transdermal Drug Patch VS Urine Testing

24/7 Transdermal Drug Patch

- Detects the drug metabolite and the parent drug
- Can’t dilute, substitute, or adulterate without detection
  - Continuous testing eliminates “windows” of detection, which vary with each drug
  - Testing is automated and continuous—that means no missed or delayed tests, no supervision
  - Each patch lasts up to 14 days

Urine Testing

- Invasive
- Requires same gender supervision
- Every drug has a different window of detection—must test every 2 to 3 days for reliability
- Supervised visits every 2 to 3 days vs. every 2 weeks
- Detects only the metabolites—you can’t distinguish between drugs such as heroine and codeine because they have the same metabolites

The PharmChek® Drugs of Abuse Sweat Patch—is the economical, more reliable alternative to urine testing for cocaine, opiates, amphetamines, PCP, and marijuana.

Features:
- Continuous, 24/7 sample collection and storage—no missed testing windows, no missed drug use
- Tamper-evident—cannot be diluted or adulterated
- Fast installation
- Allows for normal activities such as bathing, swimming, and exercise
- FDA-approved
- Independently tested and court-validated
- Noninvasive, no supervised testing
- Continuous sample collection functions as a deterrent to drug use
Continuous testing and storage, for your drug-involved clients.

**How It Works**

- The PharmChek Sweat Patch captures Insensible Perspiration, which is the uncontrolled excretion of sweat through the skin.
- The patch includes a polyurethane film, which is a semi-permeable membrane that allows small molecules such as oxygen, carbon dioxide, and water vapor to pass through the patch, leaving the skin healthy and sterile.
- Large molecule substances, such as drugs, are trapped in the absorption pad portion of the patch.
- Removal is easy. The patch is packaged with PharmChem-provided bags, and each patch is stamped with a unique number to ensure chain-of-custody.

**Tamper Detection**

- Because of the semi-permeable covering, any attempt to adulterate or remove the patch is clearly visible when the client reports for removal. Once removed it cannot be reapplied.

**Reliability**

- **No environmental contaminants.** In comprehensive studies of the semi-permeable membrane, which allows for the transfer of water vapor and gases to the skin, drugs were applied to the exterior of the patch and subsequently collected and analyzed. No drugs were found in any of the testing.
- **No windows of detection.** The PharmChek Drug Patch is continuously sampling and retaining all evidence of drug use, meaning no testing windows and no missed drug use.
- **No false positives.** PharmChem’s contract laboratory employs procedures substantially equivalent to those required by SAMHSA for urine testing. As an additional safeguard, the laboratory utilizes blind quality assurance samples in the testing process.
- **Court-validated.** PharmChek sweat patch has been upheld and validated as reliable in all 50 state and federal courts.

### Optional Expanded Panel

- Methamphetamine: X
- Cocaine: X
- Opiates: X
- Phencyclidine: X
- Marijuana: X
- Hydrocodone (Vicodin): X
- Hydromorphone (Dilaudid): X
- Oxycodone (OxyContin®): X
- Oxymorphone (Opana): X

**What Sets Us Apart**

**SCRAM of California** is a public safety-first organization dedicated to delivering swift and certain monitoring programs using the best products and technologies. With 23 office locations and mobile support teams throughout Arizona, California, Nevada, Idaho, and Hawaii, we are the largest provider of SCRAM and substance abuse monitoring technologies in the Western U.S. We specialize in partnering with courts and agencies to deliver evidence-based programs that maximize efficiencies and results while minimizing the time and resources spent on the administration of your program.
Full-service alcohol, drug, and location monitoring programs

SCRAM Continuous Alcohol Monitoring®
Portable/Remote Breath Testing
Location Monitoring
24/7 Transdermal Drug Testing
**SCRAM Continuous Alcohol Monitoring®**

SCRAM CAM® is the world’s most widely used and trusted 24/7 transdermal alcohol testing system.

- Automated, non-invasive, 24/7 sample collection
- Samples perspiration every 30 minutes
- Industry-leading anti-tamper system
- Independently tested, peer-reviewed, and court-validated
- Single source-admissible—no backup tests required for confirmation

*The only transdermal system that can conclusively distinguish alcohol consumption from environmental exposure to alcohol*

- Optional RF/House Arrest monitoring with the same bracelet, activated with the click of a button

**Portable/Remote Breath Testing**

SCRAM Remote Breath®—a handheld, portable breath alcohol device for scheduled, random, and on-demand tests. Ideal for lower-risk clients or those who have earned less intensive monitoring.

- Immediate notification of BrAC, GPS location, and client ID
- Ethernet-enabled—enroll anywhere Internet is available
- GPS location with both taken and missed tests
- Device-initiated testing—device turns on and prompts client to test
- Optional client text reminders
- Easy to carry, easy to use
- Our Patented Automated Facial Intelligence™—high resolution, government-grade facial verification technology

**SCRAM Optix™**

One platform, one login—Manage all clients on all technologies

Robust dashboards and customizable reporting and analytics—by client, agent, department, or program

Mobile client management—data accessible 24/7 from any Internet-enabled computer, smartphone, or tablet

**99.4% SOBER DAYS**

Every day, 99.4% of clients are completely sober and compliant.
Location Monitoring Solutions

GPS

SCRAM GPS® — A one-piece tracking bracelet with superior location accuracy, a patented strap design that eliminates intermittent strap disruptions, and an industry-leading battery life.

- No intermittent strap disruptions, no system-imposed grace periods to manage false alerts
- On-Demand Pursuit Mode with GPS points every 15 seconds to aid in apprehension
- Optional GPS Beacon maximizes performance, reduces alerts, and extends battery life
- On-board zone storage
- 2-way client communication
- Industry leading battery life, even on the most aggressive rate plan
- GPS Analytics—the industry’s leading GPS software, intuitive and intelligent
- Patterns of Life Mapping simplifies thousands of data points into usable information on client behavior
- On-Body Charger doubles battery life, charges on-the-go in 2 hours
- SCRAM Ally™ victim notification app

Drug Testing Solutions

24/7 Transdermal Drug Testing

The PharmChek® Drugs of Abuse Sweat Patch—
A cost-effective alternative to urine testing that tests continuously, 24/7—no testing windows, no supervised testing.

- Tests for both the metabolite and the parent drug, so you can identify which drug was actually taken
- Worn for 10–14 days
- Retains drugs used any time during wear period
- No environmental contamination from the outside, completely waterproof
- Tamper-evident, cannot be diluted
- Acts as both a deterrent and a reliable method of testing for a violation
- Noninvasive—no gender-matched, supervised testing
What Sets Our Company Apart

Not all service providers are alike. We are a public safety-first organization, with office locations and mobile support teams throughout California, Nevada, Arizona, Hawaii, and Idaho. We have earned the distinction of being a SCRAM Systems Preferred Partner, and we are the largest SCRAM Systems provider in the Western U.S.

Our staff, our team, and the diversity of our technology offerings go above and beyond the industry standard. We partner with courts and agencies to maximize efficiencies and results, while minimizing the time and resources spent on the administration of your program.

- Comprehensive offender case management
- 24/7 monitoring center operations and 24/7 customer and client support
- Full-service, customizable client-pay programs
- The most experienced court support team in the U.S.
- Unsurpassed product and program training—online, in-person, ongoing
- A dedicated court liaison for every program
- Inventory management
- Our Quality Assurance and Compliance Program
- Opportunities to participate in Pilot programs for new technologies
- Robust, customizable participant and program reporting capabilities
- Evidence-based program models
